

Marilyn Weeks

Ellicott City, MD

Experience

I retired from Howard County Government in July 2013. I worked for the Department of Inspections, Licenses and Permits as its Operations Chief for over 32 years. I started with Howard County in January 1981 first with the Department of Public Works and then continued with the Department of Inspections, Licenses and Permits when it became a separate agency in 1989.

I have been a resident of the County since 1981 having owned a townhouse in Columbia for 29 years and then moving to another home in Ellicott City. While with Howard County my responsibilities included preparing and executing the budget, procurement and handling administrative matters. I was involved with the internal agency review and proposed adoption of legislation including various building, plumbing, electrical code adoptions and in particular the administrative sections.

Additionally, I previously worked for a regional planning agency in Richmond Virginia for 8 years as a planner and administrator.

Education

I graduated from Syracuse University and have a Master's Degree in Public Administration from American University.

Community Interest

I am the Secretary of my community's homeowner association-The Legends of Turf Valley. I would hope that my experience would be beneficial to the Howard County on the Plumbing Advisory Board.
