b. A metes and bounds description of the property covered by the petition and a survey thereof demonstrating that the same meets the requirements of Section 125.A.3.

(1) The major planning assumptions and objectives, including the projected population, the planned development schedule, the method of assuring that all open space uses will be permanently maintained and devoted to open space uses, the proposed public transit system routes and method of operation, and the facilities for the proposed cultural activities of the New Town;

All proposed and identified commercial or industrial uses shall be indicated on the drawings in areas marked “Employment Centers,” defined as those areas shown on the Preliminary Development Plan which the petitioner proposes to develop for employment uses.

6. The Zoning Board shall consider the following guides and standards in reviewing the

7. If the petition is granted, the Zoning Board shall by Decision and Order approve the Preliminary Development Plan and shall create a New Town District covering all of the land included in the petition. If the proposed NT District contains more than 2,500 acres, the creation of the District may be accomplished by rezoning all of the land included in the petition at one time or, in the discretion of the Zoning Board, by rezoning the same in phases. If this latter course is taken:

a. The area included in the first such phase shall be at least 2,500 acres, and each additional phase shall be of such size and at such location or locations as will permit effective and economic development of the portion so zoned as a part of the New...
Town shown on the Preliminary Development Plan; and

b. The overall density restrictions, the density restrictions as to particular use areas, and

Zoning Board and a verified copy of the same shall be forwarded to the Department

specifically approved by the Planning Board, but the petitioner shall discontinue any
such use and demolish any such improvements so permitted by the Planning Board if
such use and such improvements are not ultimately permitted by the Final
Development Plan.

9. If the Zoning Board has approved a petition to create a NT District, then at any time
thereafter the original petitioner may file a new petition to add to the NT District
additional land which is owned by the petitioner and adjacent to the existing NT District.
The new petition shall be subject to all the provisions of this Section, except that the
minimum area requirement of Section 125.A.3 shall not apply.

   Where the criteria designate the use for a particular structure, lot or parcel, as “uses permitted in a District” (e.g., “uses permitted in a B-1 District”), then the structure, lot or parcel may be used for all uses permitted in the particular district by the several Sections of these regulations, the use so designated being herein referred to as a “general use.”

   Where, however, the criteria designate a structure, lot or parcel for a specific use or uses (e.g., “gasoline station”) the structure, lot or parcel must be used for those specific uses only, the use(s) so designated being
herein referred to as "specific use(s)."

(3) Height limitations, parking requirements, front, side and rear yard areas, setback provisions, minimum lot sizes and coverage requirements, stated generally and/or specifically with respect to particular improvements or types of improvements.

b. If the Comprehensive Sketch Plan deviates from the approved Preliminary Development Plan in any of the following particulars:

(1) If the overall maximum density of population within the NT District exceeds that stated in the Preliminary Development Plan; or

(2) If the number of acres to be devoted to the permitted employment uses shall be increased more than 10 percent, or the number of acres to be devoted to permitted residential uses shall be decreased by more than 10 percent, from that stated in the Preliminary Development Plan; or

(3) If the proposed Comprehensive Sketch Plan shows a use of land in the NT District within 300 feet of any outside boundary thereof which differs from that shown on the Preliminary Development Plan, unless the owners of all land abutting the NT District and within 300 feet of the land in the NT District, the use of which is to be changed, sign a written waiver of the right to be heard in connection with such change in use. If a public hearing is required to be held for any of the above three deviations from the Preliminary Development Plan, such hearing shall be limited to the particular deviation(s) which required the hearing, and the Planning Board shall require publication of Notice of Hearing.
and posting of the property.

c. If the criteria submitted as a part of the Comprehensive Sketch Plan include a gasoline service station among the specified land uses.

5. In acting upon a Comprehensive Sketch Plan, the Planning Board shall be guided by Section 125 of these Regulations and shall particularly consider:

a. The adequacy of the roads serving the proposed development and any proposed mitigation, in accordance with the Adequate Public Facilities Ordinance (Title 16, Subtitle 11 of the Howard County Code).

7. The Planning Board shall not unreasonably disapprove or change a proposed Comprehensive Sketch Plan. The fact that the proposed Comprehensive Sketch Plan is not in conformity with the Preliminary Development Plan shall be sufficient ground for disapproval or change. The Planning Board shall approve no Comprehensive Sketch Plan which varies the areas of uses below the minimum or above the maximum percentages for particular uses specified herein.
D. FINAL DEVELOPMENT PLAN—GENERAL PROVISIONS.

4. [[8. Upon arrival of]] IF a comprehensive sketch plan[,] OR COMPREHENSIVE SKETCH PLAN AMENDMENT IS REQUIRED, UPON ITS APPROVAL, the petitioner may submit a Final Development Plan OR FINAL DEVELOPMENT PLAN AMENDMENT to the Department of Planning and Zoning for approval by the Planning Board [[covering]]. 3. [[10.]} At the time of the approval of the Final Development Plan, the Planning Board may provide for the subsequent approval by it of a Site Development Plan pertaining to the property which is the subject matter of such Final Development Plan. SITE DEVELOPMENT PLAN APPROVAL IS ALSO REQUIRED FOR ALL DOWNTOWN REVITALIZATION. 5. [[12.]] If the Planning Board shall disapprove the proposed Final Development Plan OR FINAL DEVELOPMENT PLAN AMENDMENT (or any phase thereof) or shall fail to approve or disapprove the same within [[60]] 120 days after submission, then the petitioner, at his election, may take an appeal as permitted by law or may submit the proposed Final Development Plan OR FINAL DEVELOPMENT PLAN AMENDMENT (or the phase thereof in question) directly to the zoning board. If the petitioner pursues the latter course, the zoning board shall hold a public hearing on the proposed Final Development Plan OR FINAL DEVELOPMENT PLAN AMENDMENT (or the phase thereof in question), shall require publication and posting of the property and shall ask for recommendations from the Planning Board, all as in the case of the hearing on the preliminary development plan. After such hearing, the zoning board may approve, with or without changes, or disapprove the proposed Final Development Plan OR FINAL DEVELOPMENT PLAN AMENDMENT (or the phase, thereof in question). In making this decision, the zoning board shall consider the matters set forth herein.

6. [[13.]] Upon approval of the Final Development Plan OR FINAL DEVELOPMENT PLAN AMENDMENT (or upon the approval of each phase thereof if submitted on a separate segment basis) the same shall be recorded among the land records of Howard County and the provisions thereof as to land use shall bind the property covered with the full force and effect of specific zoning regulations. After such recordation, no new structure shall be built, no new additions to existing structures made, and no change in primary use effected different from that permitted in the Final Development Plan OR FINAL DEVELOPMENT PLAN AMENDMENT except by an amendment to the Final Development Plan.

7. [[14.]] UNLESS OTHERWISE PROVIDED IN A DOWNTOWN IMPLEMENTATION PHASING PLAN APPROVED AS PART OF A FINAL DEVELOPMENT PLAN OR FINAL DEVELOPMENT PLAN AMENDMENT, [[if]] IF construction has not been commenced and completed to the
extent of 25 percent of the ground floor area of a structure shown on the final
development plan within five years after the date of the approval thereof (or the date of
the approval of the last phase thereof if submitted in phases), then the approval shall be
void and the entire matter resubmitted to the Planning Board for reconsideration in light
of existing circumstances to the same extent as if the same were simply a proposed final
development plan; provided, however, that the zoning board may grant not more than two
extensions of time of one year each to be added to said five year period if it considers
such extension to be proper after the receipt and consideration of a report and
recommendation from the Planning Board with respect to such extension or extensions.

8. [[15.]] Any construction which has been commenced shall not be subject to
reconsideration upon any resubmission of a final development plan under this Section,
and the [[zoning]] PLANNING Board shall make no changes in the final development plan
except in relation to areas where construction has not been commenced. During any such
reconsideration, the property covered by the final development plan shall continue to be
bound until such plan is changed or disapproved in the manner described above.

9. [[16.]] If the Planning Board has denied a land use which was shown on a final
development plan OR FINAL DEVELOPMENT PLAN AMENDMENT and which would be a
conditional use in any other zoning district, a petition for the same land use on the same
parcel shall not be accepted for consideration by the Planning Board for a period of 12
months from the date of said denial except on grounds of new evidence or proof of
changed conditions found to be valid by the Planning Board.

### SECTION 133: OFF-STREET PARKING AND LOADING FACILITIES

B. Layout and Location

4. **Required minimum parking may be provided on a separate lot from the principal use if:**
a. For residential uses, the location and distribution of parking spaces complies with the Subdivision and Land Development Regulations.

b. For nonresidential uses that are not a part of downtown revitalization, the major point of pedestrian access to the parking facility is within 400 feet of the entrance to the building. [This requirement does not apply to downtown revitalization;]

c. The parking facility is within a zoning district in which the use being served by the parking facility is permitted;

d. The parking facility is not separated from the use being served by a public street. [This requirement does not apply to downtown revitalization; and]

e. The parking facility is subject to recorded covenants or easements for parking, or other proof is provided that the continued use of the parking area is guaranteed throughout the life of the land use.

E. Permitted reductions in off-street parking requirements.

3. Downtown revitalization

Off-street parking and loading facilities for downtown revitalization shall be provided in accordance with the following shared parking methodology and parking ratios:

a. The methodology for determining the shared parking demand consists of the following steps and is described in the following paragraphs:

(1) Determine individual weekday and weekend peak parking ratios for each land use.

(2) Determine the number of reserved parking spaces for each use.

(3) Select time-of-day and monthly parking variation factors.

(4) Adjust parking ratios for modal split, auto occupancy, and captive market effects.

(5) Calculate the hourly parking demand for each scenario.
WEEKDAYS AND WEEKENDS FOR EACH MONTH.

STEP 1: DETERMINE INDIVIDUAL WEEKDAY AND WEEKEND PEAK PARKING RATIOS FOR EACH LAND USE

Table 1 presents the base parking ratios for weekdays and weekends. These ratios must be used unless the petitioner provides reasonable justification for use of alternative ratio(s) that will not be detrimental to the public welfare. For land uses not listed in Table 1, data from the current edition of "Parking Generation" (ITE), "Shared Parking" (ULI), the Howard County Zoning Regulations, or other applicable sources may be used.

STEP 2: DETERMINE THE NUMBER OF RESERVED PARKING SPACES FOR EACH USE

A significant proportion of residential parking spaces are typically reserved, due to market and security requirements. Some portion of office, retail, hotel, or other uses may require reserved spaces for some portion of the day. These reserved spaces should be outlined and specified by land use on an hourly basis.

STEP 3: SELECT TIME-OF-DAY AND MONTHLY PARKING VARIATION FACTORS

The time-of-day adjustment factors for weekdays and weekends are shown in Tables 2 and 3, respectively. Table 4 shows the monthly adjustment factors for customer and visitor parking, while Table 5 includes the monthly adjustment factors for employees. These typical factors are taken from the ULI Shared Parking Manual and may be modified based on other published data or independent studies to ensure accuracy for specific land uses or circumstances.

STEP 4: ADJUST PARKING RATIOS FOR MODAL SPLIT, AUTO OCCUPANCY, AND CAPTIVE MARKET EFFECTS

Modal split, auto occupancy, and captive market effects will be different for each downtown revitalization development. Modal splits and auto occupancy can be determined through U.S. Census journey-to-work data, patron surveys, or other local data, and can be adjusted to reflect future conditions.

Non-captive adjustments reflect the proportion of users that are not already parked nearby for a primary purpose. These adjustments for captive market effects should only be applied to simultaneous trips, not sequential trips. For example, an office worker who walks across the
Street for a snack during the day is part of the captive market, while a couple who has dinner before a movie is not. Table 6 includes sample non-captive adjustment factors for weekdays and can be modified based on the characteristics of the land use and surroundings.

**Step 5:** Calculate the hourly parking demand for each scenario. Weekdays and weekends for each month.

The individual parking demands for each land use during each time period are then computed by multiplying the parking ratios (adjusted for modal split, auto occupancy, and captive market effects) by the time-of-day and monthly variation factors. No adjustment factors or variation factors are applied to reserved parking spaces.

The sum of the adjusted parking demands for each land use are then compared for each scenario (each hour of each day of each month), and the maximum total parking demand represents the shared parking requirement for the project.

Amended Amendment No. 8

(In order to avoid a potential conflict with a State law (Article 66B, §1.02) that defines the phrase “consistent with” when that phrase is used in zoning laws like this Bill that require consistency with planning documents like the Howard County General Plan, this amendment:

On page 4, in line 27, strike “BE CONSISTENT” and substitute “CONFORM”.

On page 5, strike lines 17 and 18 in their entirety and substitute:

“2. AS USED HEREIN:

b. When a provision in this section requires that an action “will conform”, “conform with”, “conforms with”, or “conforms to” the Downtown Columbia Plan or any part of the Plan, the action being taken shall further, and not be contrary to, the following items in the Downtown Columbia Plan:
