1 **WHEREAS**, Title 16, Subtitle 11 of the Howard County Code sets forth the
2 Adequate Public Facilities Act of Howard County (the “Act”); and
3

4 **WHEREAS**, Section 16.1103(c) of the Act provides for a School Capacity Chart
5 that is consistent with the Housing Unit Allocation Chart and that indicates the elementary
6 school regions, and the elementary schools, middle schools, and high schools that are open
7 for new residential development and those that are constrained for new residential
8 development during each of the following ten years as based on the definition of program
9 capacity as defined by Howard County Public School System policy; and
10

11 **WHEREAS**, the Department of Planning and Zoning has received the School
12 Capacity Chart, the basis of which is the assumptions used by the Board of Education in
13 predicting capacity utilization, such as school capacity, current enrollment, demographic
14 and growth trends, and the Housing Unit Allocation Chart, from the Board of Education
15 and has submitted it to the Council for adoption.
16

17 **WHEREAS**, Section 16.1103(c) also provides that the School Capacity Chart shall
18 be accompanied by a report (the “Report”) that contains information related to capacities,
19 redistricting, any projected increases in enrollment and related reasons for the increase, and
20 information related to proposed redistricting or a capital improvement project’s impact on
21 a school’s “open” designation; and
22

23 **WHEREAS**, the Report has been provided by the Howard County Public School
24 System to the Department of Planning and Zoning in accordance with Section 16.1103(c);
25 and
26

27 **WHEREAS**, the Report also serves the purpose of providing the notice required
28 by 16.1103(d) that a school or school region has reached 95 percent capacity utilization
29 and is projected to exceed 110 percent capacity utilization within five years and, as required
30 by Section 16.1103(d), the County Council shall hold a joint special work meeting in
31 accordance with Section 16.1103(d); and

1
2 **WHEREAS**, Section 16.1103(c) further provides that the County Council shall
3 adopt the School Capacity Chart by Resolution whenever the Council adopts or amends
4 the Housing Unit Allocation Chart; and
5

6 **WHEREAS**, immediately preceding adoption of this Resolution, the County
7 Council has adopted the Housing Unit Allocation Chart.
8

9 **NOW, THEREFORE, BE IT RESOLVED** by the County Council of Howard
10 County, Maryland this 6 day of July, 2026 that the County Council adopts
11 the School Capacity Chart, attached as Exhibit A, and incorporated herein.
12

13 **AND BE IT FURTHER RESOLVED**, that notice has been provided in
14 accordance with Section 16.1103(d) of the Howard County Code and a joint special work
15 meeting shall be held.

Chief Administrative Officer*

From: *Lynda Eisenberg, Director
Department of Planning and Zoning*

Date: *May 20, 2026*

Council Resolution No. XX-2026 – Housing Unit Allocation Chart for FY 2027

A new Housing Unit Allocation Chart to implement the *HoCo By Design* housing allocation categories and covers a ten-year period beginning in APF test year 2029, as specified in Section 16.1110 of the APF regulations.

Council Resolution No. XX-2026 – School Capacity Chart for FY 2027

The School Capacity Charts for elementary school districts and regions, for middle school districts, and for high school districts must be adopted with the new Housing Allocation Chart. These charts have been updated to reflect changes in enrollment projections and programmed capacity since the last chart was adopted and have been approved by the Howard County Board of Education. These charts cover a ten-year period beginning in the APF test year 202. Seven elementary school districts, no elementary school regions, four middle school districts, and no high school districts are projected to be closed for APF test year 2029.

There are no fiscal impacts resulting from the adoption of these resolutions.

TITLE: Adequate Public Facilities Ordinance (APFO) Chart

PRESENTER(S): Timothy Rogers, Manager, School Planning

STRATEGIC PLAN ALIGNMENT:

Mission: HCPSS creates an innovative and accountable learning community where we expand opportunities and access, remove barriers, and foster an inclusive environment.

Key Commitment: Creating innovative learning and working environments.

Priority Area: Priority 4: Enhance Systemic Planning & Procedures.

Goal: Goal 3: Ensure equitable distribution of resources to schools.

OVERVIEW:

This report presents the Adequate Public Facilities Ordinance (APFO) School Capacity Charts and associated required data.

The APFO School Capacity Charts are utilized as part of the growth management process of Howard County for new residential developments. The test year for the 2026 APFO School Capacity Charts is SY 2029-30. For SY 2029-30, there are seven elementary, four middle, and zero high schools listed as constrained (see Attachment 2).

Attachments:

ATTACHMENT 1

The Adequate Public Facilities Ordinance (APFO) School Capacity Charts are used as part of Howard County's growth management process for new residential developments. The county code requires that the school system provide an annual report identifying capacity utilization for each elementary school (Grades K-5), elementary school region, middle school (Grades 6-8), and high school (Grades 9-12).

The attached School Capacity Charts list schools and elementary regions as “C” (constrained) to new future residential development if the capacity utilization developed for the FY 2027 Capital Budget and Capital Improvement Program/Redistricting Process exceeds:

- 105 percent for elementary schools,
- 105 percent for elementary regions,
- 110 percent for middle schools, or
- 115 percent for high schools.

These calculations are based on the capacities listed in the most recent Board Requested Capital Improvement Program and the projections developed in the Spring of 2025. Individual schools or elementary regions that show a capacity utilization of less than the percentage noted above are considered “open” for new residential development. Constrained schools are indicated in the chart with the letter “C,” and open schools are left blank. For SY 2029-30, there are seven elementary, four middle, and zero high schools listed as constrained.

Since 2019, CB-1-2018 specifically requires the following information to be provided to the County Council for each school:

- State and local capacities of the facility;
- The date of the last redistricting that impacted the attendance area of that school;
- For any projected increase in enrollment, an indication of what portions of the increase are attributed to sales or rental turnover of existing residential units, new development, and other factors; and
- For any school designated as open on the school capacity chart based on a capital improvement project or proposed redistricting associated with a capital improvement project:
 - a. Current and future funding assumptions for the capital improvement project(s).
 - b. Future redistricting assumptions associated with the capital improvement project; and
 - c. An explanation of any capacity utilization changes based on (a) or (b).

The Ordinance also stipulates that the County Council and Board of Education hold a joint special work meeting regarding schools or school regions that have reached 95 percent capacity utilization and are projected to exceed 110 percent capacity utilization within five years.

The Howard County Council adopted an updated General Plan, HoCo By Design, in October 2023. As a twenty-year planning document, the changes to development patterns recommended in this plan will be implemented over many years.

I. State and Local Capacities of the Facilities

Note: The State Rated Capacities (SRC) are current as of the writing of this report. Review and update of SRCs occur individually on an as-needed basis (e.g., after additions or new schools).

III. For any projected increase in enrollment, an indication of what portions of the increase are attributed to sales or rental turnover of existing residential units, new development, and other factors

These charts are based on the projection developed in the spring of 2025 using the 2025-26 boundaries and are displayed here. New projections are developed each year in the spring using new birth, housing, and student yield data, along with all approved boundaries.

Additional factors contributing to a school's enrollment projection: size of cohort rising to the next level, cohort survival rates, births (5 years ago) in attendance area, birth to kindergarten survival rate, out of district students (can be +/-), students who moved into an attendance area between birth and 5 years old, and adjustments based on prior year's projection accuracy. For enrollment projection purposes, new construction is based on the first year of occupancy only; after the first year, housing units are integrated into the existing housing resale, pre-K move-in, and apartment turnover calculations.

Additional factors contributing to a school's enrollment projection: size of cohort rising to the next level, cohort survival rates, out-of-district students (can be +/-), and adjustments based on the prior year's projection accuracy. Larger projected enrollment changes in this chart result from redistricting exemptions and the addition of a third cohort (grade) of students at Guilford Park HS. For purposes of projecting enrollment, new construction is based on the first year of occupancy only; after the first year, housing units are integrated into the existing housing resale, pre-K move-in, and apartment turnover calculations.

IV. For any school designated as open on the school capacity chart based on a capital improvement project or proposed redistricting associated with a capital improvement project:

- A. Current and future funding assumptions for the capital improvement project(s);**
- B. Future redistricting assumptions associated with the capital improvement project**
- C. An explanation of any capacity utilization changes based on (a) or (b).**

V. Upon receiving written notification from the Howard County Public School System that a school or school region has reached 95 percent capacity utilization and is projected to exceed 110 percent capacity utilization within five years, as well as the Board of Education's proposed solution to address the projected overcrowding, the County Council shall hold a joint special work meeting.

Schools that have reached 95 percent capacity utilization and are projected to exceed 110 percent capacity utilization within five years are listed below. Staff's assessment of these enrollment projections was presented in the 2025 Educational Facilities Master Plan, which influenced the FY2027 Capital Budget. Both the Educational Facilities Master Plan and all versions of the Superintendent's and Board's capital budgets were provided to the County Council.

The actual 2025 or projected 2030 capacity utilization does not include the temporary capacity gained by the use of relocatable classrooms. The potential solutions listed are from the 2025 Educational Facilities Master Plan and the capital planning process, which informed the Board-Requested Long-Range Master Plan (LRMP) shown on the previous page.
