Good Morning.

As a mom of a two special education elementary school students, I am in favor of Resolution 179-2016 (request of MSDE performance audit of special education).

One of my children was suspended in the 2014-2015 school year. Both my husband and I are grateful that recently the County Council openly inquired about suspensions with HCPSS. We hope you continue to pursue questions and shine a light on Special Education in HCPSS.

Thank you for your consideration.

Heather Kelso
