NO SANCTUARY IN HOWARD COUNTY

I am opposed to the proposed measure to make Howard County, Maryland a sanctuary for immigrants that break the law to enter this Country. Please consider the following:

- This Country is based on the rule of law---indeed civil society depends on the rule of law. With this legislation, you invite people to break the law and then provide them with a sanctuary. Who decides what law is ok to break and what law is not ok to break? You say its ok to come to this Country illegally and this will be a sanctuary---what law is next? We cannot start down this slope.
- By passing this legislation you are promoting human smuggling. The vile scum that prey on the less fortunate will now have another sanctuary location to convince people to pay for their services. How many desperate people will fall for this?
- By passing this legislation you provide a motivation for people to break the law----break any law and get to Howard County any way you can and you will be safe----that is essentially what this legislation says. The illegal journey into this Country is dangerous----will there be blood on your hands? If anyone uses this legislation as motivation and they die en-route, their blood is on you.
- When this county loses Federal funding, will you also raise taxes to compensate? What will we have to give up due to loss of funding?
- When people come to this Country illegally, they often have nothing more than the clothes on their back---they need health services, food, shelter. This law will attract illegal immigrants here---are you prepared to raise taxes to handle the higher demand for services?
- I believe this law is purely politically motivated and is solely to serve your interests. Why do I feel this way? In the legislation, you don't talk about a problem in the county or even in the Country that you are trying to solve. You aim this directly at the new President---that makes it personal. You are trying to get his specific attention and say "look at me---see what I am doing." For the record, I did not vote for President, but he is nonetheless our President. You are putting the citizens of this county on the record and calling him out---this needs to be decided by more than just you.
- I listened to the person from the Howard County Education department speak at the public hearing the other night. I understand her point, she doesn't want kids to have fear. However, that's the nature of breaking the law---fear of being caught. If there was no fear of being caught, no consequence, then why bother having laws----people will just do what they want.
- At least 3 of the 9/11 hijackers were in this Country illegally----their visas had expired. Imagine how different this world would be----imagine how much better it would be today if someone had just asked a question. It's impossible to tell what would have happened, but what if someone asked about their immigration status before providing flying lessons or renting them

an apartment. This legislation ties the hands of the very people that could prevent the next 9/11---the Howard County Police and other Government workers.

- I agree that the immigration system in this Country needs to be fixed. I'm not certain I want to see mass deportations of millions of folks that have been in this Country for years, illegally, but trying to contribute. I am certain however, that I don't want to encourage or attract more people to break the law. It needs to stop. Your legislation will promote illegal immigration. Even the measures put in place by President Obama was not open ended---it provided some protections to those that were already here for a long time. Your legislation is completely open ended---it provides protection for those that brek the law tomorrow, next week, next year.
- You start you legislation off by implying that you are trying to fight racism---that is a worthy and noble cause. But that isn't what you are doing---illegal immigration isn't about a specific race or 2. An illegal immigrant can come from Mexico, China, Kuwait, Russia, England, Canada---indeed anywhere. All your legislation does is to protect those who break the law.

I am opposed to this bill on several levels. The first is that it is against the law. We can not pick and choose the laws that we follow. We have a moral obligation to the citizens of Howard County to protect them from higher taxes, higher crime, more resources spent on people who are breaking the law, and unto pressure on our law enforcement. This is a bad bill and Howard county deserves better.

County Council Members Sigaty, Weinstein, Ball, and Terrasa,

I am a resident of Howard County and am **against** the Howard County Sanctuary Bill CB9-2017. Supporting this bill undermines the **legal** immigration efforts of millions worldwide - my family among them. In fact, I am currently helping a relative complete immigration forms because she and her family want very much to visit the United States. Legitimizing illegals devalues the efforts of the millions of legal immigrants and visitors who stood in line, waited patiently, dutifully followed **United States law** to come here. My parents and grandparents and the parents & grandparents of my wife are among those. We are first-generation United States citizens born of legal immigrants and this bill is a direct insult to the efforts and sacrifices of mine and my wife's families.

We do have sympathy for refugees and asylum-seekers. The United States is the most charitable nation on Earth. If any efforts should be made on their behalf, maybe training and hiring immigration counselors to help illegal immigrants who sincerely want to follow the laws would be a better use of resources. Clearly, they need help navigating our legal process. But condoning illegality and devaluing the efforts legal immigrants past and present should not be part of any legislation. We teach our kids to follow the rules, obey our nation's laws, that actions have consequences. We must walk the talk, practice what we preach.

Respectfully,
Mark Babasa

This letter is to express my dissent against passage of CB-9.

As you are aware, CB-9 contradicts federal immigration law. With the new administration's declared intent to enforce this law, CB-9 puts the County in a position to tie up taxpayer dollars in unproductive litigation—dollars that are required for our schools and other essential County services.

It's not the business of County government to supplant the role that the Federal government should play with respect to enforcement of our immigration laws. Further, we need to restore and respect the rule of law. Finally, if we were truly concerned about immigrant rights we would be supporting all those people around the world who follow our laws and apply for visas through the normal process.

Dear County Council,
Please oppose this ill-conceived legislation. At a time when our country is working to achieve balance, making Howard County a sanctuary county and limiting law enforcement's ability to inter-act with Federal immigration authorities is not only unwise, it's counter-intuitive.

Please oppose this measure.

Mr. Weinstein, Howard County Council Members, and Mr. Kittleman,

My husband and I have lived in Howard County for 15 years; first in Columbia, now in Ellicott City. Our children attend Howard County Public Schools, so we know all of our neighbors from the bus stop. Every morning and every afternoon, we spend a few minutes together: families from Korea, Mexico, Nigeria, Pakistan, and Russia, biracial families, and caucasian families. Our kids all play together, because that is what kids do.

Over the years we have gotten to know each other, and the kids zoom back and forth between houses. The house rules are universal, regardless of the specific culture of the host family: the kids all remove their muddy shoes at the door, say please and thank you, and look out for the littler ones. The menu at our gatherings is usually pizza-centric (because it's both peanut-free and halal) but kim chi, tamales, Christmas cookies, and roasted goat make regular appearances. My two blond-haired, blue-eyed children have flourished in this totally disorganized and joyful daily cultural exchange.

This is what makes Howard County so special— my children have learned that anyone is a potential friend. In our multicultural, multilingual neighborhood, we have chosen to build a community. We are able to celebrate each individual's cultural and personal experiences, AND marvel at the many ways in which we are similar.

Declaring Howard County "Sanctuary" is completely in keeping with the ideals of Jim Rouse, and the vision that built the city of Columbia. Using local resources to enforce an impossible federal mandate will only teach our children suspicion, nativism, and the kind of fervent Americana that proves dangerous after a few beers. Except for the few citizens who are 100% Native American/Indigenous/First Peoples, we are all immigrants here.

For all of these reasons, I am in favor of CB9. It is time to stand up and support our neighbors and friends, to believe that we are all here for the same reason—to raise our children the best we can.

Thank you for taking the time to hear my opinion. Sincerely,

Debbie Milburn

CB9-2017

Dear Council Members,

Please do not pass Council Bill 9-2017, which is an ineffective proposal that will result in reduced access to much-needed federal funding for the County. County Executive Kittleman's reasons for vetoing the bill if it is presented to him are solid and sensible.

Immigrants who are present in our community without citizenship documentation are here illegally (by definition!). While I have the utmost respect for their humanity and dignity, visa overstays and illegal entry into the U.S. are crimes.

Of course these people fear action to address the situation and they would prefer to remain in our prosperous country. However, this is not justification for subverting immigration law. There is a process, though inadequate, for seeking citizenship. I would support legislation (federal level) to advance that important cause.

The fact that many undocumented immigrants have been allowed to remain in the U.S. for twenty years or more has made the situation very complicated and heart wrenching. While I hope that means can be found to support families to stay together, and to develop reasonable pathways to citizenship, I do not believe this legislation is an effective approach.

I am pleased that Howard County police and schools do not currently (and would resist if instructed to in the future) inquire about immigration status. Legislation is not required for that to happen.

I strongly urge the Howard County Council to reject Bill No. 9-2017.

Sincerely,
Rebecca Reese

Howard County Council Members Ball, Fox, Sigaty, Terrasa, and Weinstein:

I reside in Howard County in the district of Council Member Ball. I strongly disagree with Howard County Sanctuary Bill CB9-2017. I respectfully urge you to vote NO on CB9-2017 for the good of our citizens, to preserve our county's integrity, and to fulfill your duty as our representatives.

I oppose this Bill for the following reasons which I ask you to consider:

- It demeans and marginalizes the sacrifices and contributions of thousands of law-abiding, legally documented U.S. citizen immigrants in our county, many of whom are my immediate neighbors. Multitudes from diverse nationalities have come to our county and have willingly and successfully complied with our country's

 Reply all |  Delete |  Junk |  ...

longstanding and reasonable path to legal

citizenship. This Bill in essence “thumbs our noses” at them by unconditionally abetting those who are unwilling to take the same steps.

Enforcing the law for some people while ignoring it for others is the height of injustice. It discriminates against the very type of hardworking, law-abiding citizens we should seek to support in favor of non-citizens ignoring the law.

- It is just plain wrong for County government to direct its employees not to cooperate with duly enacted, valid Federal law and those enforcing it. Good government at all levels exists to make and

execute constitutionally valid laws and to discipline those who violate them. Adopting local policies designed to circumvent or obstruct existing Federal law tramples the will of the people based on the preferences and power of a few.

- The philosophy underlying this Bill promotes

 Reply all |  Delete |  Junk |  ...

lawlessness and ultimately the loss of freedom in our community. It sets the wrong example and sends the wrong message that anyone can decide whether or not to obey the law. The rule of law is fundamental to a free society; our society has broken down in part because of arbitrary, inconsistent application of the law at the whim of political or social expediency. Lawlessness and increasing chaos result when elected officials fail to uphold this fundamental underpinning of a free nation. We should not erode that sacred duty by letting our preferred ends justify illegal means that corrode the foundations of our nation and community.

- The text of the Bill itself is inconsistent with our county's core value, "Choose Civility," instead resorting to political overreaction and partisan venting.

A more constructive approach would be for the Council to consider how it could encourage, support,

taking the necessary steps toward becoming legal citizens, as so many others have done. True leadership such as this would channel our energies into developing near-term responses that uphold our Constitution while using the means provided under the law to change policies with which we disagree.

Such an approach would respect the values and integrity of Howard County and the United States. It would also honor the vast, legally documented immigrant population who are a vital part of our community. That is the kind of courageous

statesmanship we citizens expect of our elected officials.

Thank you very much for considering my position and the reasons for it. Should the Council continue to move this Bill forward, I reiterate that I strongly oppose it, and I urge you to vote AGAINST it.

Hello,

I live in Columbia Maryland and love the diversity of people that live in the community and therefore support CB 9, declaring us a sanctuary county. We need to be good citizens of the world and help those in need, not penalize them. We should not be directed and manipulated by misplaced fear and hate.

CB9-2017

Dear Council Members Sigaty, Terrasa, Ball, Fox, and Weinstein,

I am writing to urge you to pass Council Bill 9-2017. As a 17-year resident of Howard County in Kay Sigaty's District 4, a mother of two children attending school at Atholton High and Clemens Crossing, and a concerned voter, I want our county to be a place where immigrants do not have to live each day in fear of their status being questioned. I want all children and adults here to be able to participate fully in the County's activities and benefit from its resources, and I want all residents to feel comfortable calling on law enforcement to help them when they are in danger in our community. I want the words we use to describe where we live--inclusive, welcoming, tolerant--to really mean something.

I do not want our county to cave to the threat of pulled federal funding if this bill is passed. We are better than that. We would break no laws in passing this bill, and we would show our children that we will not bend to fear-mongering and surrender our commitment to compassion and inclusiveness in exchange for money.

This community's dedication to inclusion is one of the primary reasons I am proud to live here. My sons are Latino and joined our family through adoption when they were babies. They were granted American citizenship when they arrived in this country, for which I am grateful. But I am not foolish enough to think they are in any way fundamentally different from children who come here without those papers, or that any residents with those papers are somehow more deserving of our county's compassion.

Please pass Bill 9-2017. Let's continue to be proud of where we live.

Thank you,

Sally Rosen Kindred

My name is Edith Williams; I have lived at 10080 Cape Ann Drive in Columbia for over 23 years.

I strongly support this legislation.

Our immigration system in the US is broken. Anti-immigrant demagoguery has been installed in the White House and Javerts are abroad in the land. Children live in fear of their families being forcibly broken up and their parents deported.

We, in Howard County, do not have to participate in the scapegoating of immigrants. We do not have to endorse the fear-mongering, xenophobic approach to enforcing immigration law that has become the norm.

This legislation would not encourage illegal immigration or put Howard County officials in the position of having to break the law to abide by it. It would not stand in the way of enforcement of immigration laws.

What it would do is declare that we in Howard County stand for the humane approach to the enforcement of immigration law. That we care about the safety and dignity of all of our neighbors, regardless of whether they all have the correct documentation. That we will not be swayed by those who would divide us and appeal to our prejudices, betraying our basic values of kindness and respect towards our neighbors, wherever they came from.

It is not enough to enforce the law; we must enforce it in accordance with the principles on which our country has always stood, if often failed to live up to: due process, fairness, compassion, that the accused are innocent before proven guilty, that punishments must fit the crime.

Immigrants have been unfairly blamed for all too many of the problems that exist in this country, too often treated as "the other." Let us in Howard County declare with the passage of this legislation, as we support enforcement of the law, that we are *all* Howard Countians, that we believe in equal protection and treatment under the law, and that we refuse to disconnect our immigrant neighbors from the community that we love.

I find the following articles insightful and of importance since the Council is on the verge of voting on CB9. I hope you have the time to review them before your vote.

Libs Who Want To Move To Canada Blocked By Its Strict Immigration Policies. Liberals seeking to move to Canada because they are unhappy with the election results are finding that Canada won't take them because its immigration policies exclude those who won't contribute to the economy...

Despite Bombast, Sanctuary Cities on Short Time. "Another new bill, this one submitted by U.S. Rep. Lou Barletta (R-Penn.), would withhold federal funds for a minimum one-year period to sanctuary cities that refuse to cooperate with federal immigration officials." Do we really need this fight in Howard County? Who's on the hook for footing the legal bill in fighting the federal government? I bet Councilmembers Ball and Terrasa won't spend a dime of their own money. Read more: <http://www.capsweb.org/despite-bombast-sanctuary-cities-short-time>

Trump Is Right — Millions Of Illegals Probably Did Vote In 2016. "We find that some noncitizens participate in U.S. elections, and that this participation has been large enough to change meaningful election outcomes including Electoral College votes, and congressional elections," wrote Jesse T. Examples of Serious Crimes by Illegal Aliens. These are real examples that have occurred SINCE CB9 has been introduced...by illegal aliens who had not committed prior 'crimes'. These cases are not representative of the illegal alien population in general, but demonstrate that better prevention of illegal immigration is a public safety issue.

CB9-2017

If I'm reading this correctly, only 15 jurisdictions across the country have 'Sanctuary Laws or Ordinances'. If Howard County adopts CB9, we would be number 16. Well, that would certainly put a bulls eye on our backs. Why is the Council putting the county and its citizens and taxpayers in this risky position? This is much more than just 'codifying existing policy'. CASA and Mr. Greene, your advisor, want to make us an example. I can just see the law suits flying now... Mr. Ball, will you be paying for our defense? Ms. Terrasa, will you? No, I didn't think so. We should sue you for putting us in this position. I urge all of you to vote NO on CB9. It makes no sense.

"While some of the sanctuary policies noted in this report were enacted decades ago – such as the ones in New York City, Los Angeles, and San Francisco – the vast majority have been instituted since President Obama took office in 2009. Of the 300 jurisdictions cited in this report:

- 239 jurisdictions have sanctuary policies or practices instituted by law enforcement agencies;
- 23 jurisdictions have sanctuary resolutions;
- 15 jurisdictions have sanctuary laws or ordinances, including statewide laws in California, Connecticut, and Oregon;
- 5 jurisdictions have sanctuary executive orders; and
- 18 jurisdictions either have multiple forms of sanctuary policies or practices in place, or have a policy or practice that simply fit no other classification."

Dear Counsel Members,

I am writing to you in favor of the CB9 bill. Not passing this bill can result in having some of our community members living in fear of the police. Eroding the trust between community and police will definitely make our community unsafe. All members of Howard county should feel safe reporting a crime and seeking help from authorities without being afraid of detention or deportations which result in the breaking up of families. We can't be bribed by this administration into violating people's right to walk freely in their communities by the threat of losing federal funds. There is more to lose if we don't pass this bill. This is exactly what I do **not** want to see in Howard County. We can be better than this. We **must** be better than this.

Council members,

I am writing in support of Council Bill 9-2017. While I am generally not in favor of illegal immigration, I feel strongly that when police departments focus on prosecuting that crime over all others, it detracts from the business that local police **ought** to be attending to: protecting and serving their local community.

Therefore, please support this measure, and make it Howard County Police's policy to not ask about immigration status during routine interactions with the public.
