Subject: CB30: Overturn the Veto!

Good evening!

Please vote "Yes!" to overturn County Executive Kittleman's veto on CB30! Establishing the Howard County Citizens' Election Fund will serve to amplify the voice of county residents over wealthy and corporate interests. It is also a way to expand opportunities to run for office, encourage participation in Howard County elections, reduce the role of large and corporate donors, and lead the state and country in fixing our broken campaign finance system.

I am thankful that Councilmembers Weinstein, Terrasa, Ball, and Sigaty all voted YES for CB30. Now, I'm counting on you to overturn the the County Executive's disappointing veto of this important bill. Thank you for doing your part to ensure the voters' voices in Howard County still count for something!

Warm regards,
Celia Davis

** We must start to act at the local level to get campaign financing under control. I was shocked at how much outside money came into Howard County for campaigns.

Please override this veto.
