17 this Act shall become effective 61 days after its enactment.

Downtown Columbia. These allocations are based on the Downtown Columbia Plan adopted in 2010, and subsequently amended in 2016. The annualized pace of growth shown in Figure 6-10 is based on the housing unit allocation chart adopted by the County Council. Figure 6-10.1 represents the extrapolated allocations specific to Downtown Columbia through 2030 and beyond. Over the 16-year allocation period from 2015 through 2030, 3,750 Downtown Columbia allocations are available. Including the 950 allocations that were made available in the 2013 and 2014 allocation years in previous allocation charts, a total of 4,700 of the 6,244 ultimate approved Downtown units will be allocated, reflecting the maximum units allowed in the first two of the four total growth phases in the Downtown Plan.

Targeted Growth and Revitalization. These areas are defined on Map 6-2 and include the Route 1 Corridor, the Snowden River Parkway area, Maple Lawn, Emerson, Turf Valley, Waverly Woods, Columbia Village Centers, nodes along the Route 40 Corridor, and other locations. These are areas where current policies, zoning, and other regulations, as well as policies suggested in *PlanHoward 2030*, seek to focus most future County growth. Allocations for the entire Targeted Growth and Revitalization area are set at 1,200 housing units per year. BEGINNING IN 2020, THE ALLOCATIONS FOR THIS AREA ARE SET AT 1,000 PER YEAR.

Established Communities. These areas are also defined on Map 6-2 and consist of already established residential and commercial areas in the eastern portion of the County where limited growth is expected, primarily through residential infill development. This entire area is much larger than the entire Targeted Growth and Revitalization area, but has much less growth capacity and *[[at]]* IS SET TO 400 units per year *[[contains only a third of the phased growth compared to the Targeted Growth and Revitalization area]]*. BEGINNING IN 2020, THE ALLOCATIONS FOR THIS AREA ARE SET AT 600 PER YEAR.

Green Neighborhood. This category replicates the Green Neighborhood set-aside in the currently adopted APF allocation chart. This set-aside was first added to the allocation chart in 2007. These units can be built anywhere in the County if the proposed plans meet Green Neighborhood standards as defined in the Howard County Subdivision and Land Development Regulations. The current APF chart includes 100 Green Neighborhood allocations per year. *PlanHoward 2030* increases the annual number to 150 with the goal of promoting more green development in Howard County.

Rural West. This area is outside of the Priority Funding Area, is not served by public water and sewer. The current APF chart includes 150 Rural West allocations per year. *PlanHoward 2030* decreases the annual number to 100, slowing future development in the West through 2030. There are, however, currently a significant number of grandfathered lots.

The total annual pace in Figure 6-10 for all areas combined is based on the current adopted APF allocation totals through 2020, with the same pace extended through 2030. Development
