Dear Sir or Madam

I am a life-long resident in the area, having been raised in Catonsville until 1988 then moving to Howard County and residing there until the present time. I have also been employed in Howard County since 1975 to the present time. I have two sons who are 25 & 22 years old. They have gone through the public school system and I have been very active with them i.e. both had IEP's, PTA Dad, Mentor Program, Coached Little League Baseball, Soccer and Swim Team Coach in Western Howard County for 6 years. I was and am very active with my Church and chaired the \$4 million building fund campaign at St. Michael Church in Lisbon. I am a member of Rolling Road Golf Club and have been on the board of directors, chairing the golf committee and member-guest committee. I am now a leader at my Church, Grace Community Church. I am also a very active member in our local 12 Steps Programs, A.A. & N.A.

Not discounting the above information, I have this passion of wanting to "pay it forward". About 10 years ago, I met and asked Joe Willmott if he wanted to join me. We recognized that there was an extreme need for housing to help men and women who want to recover from their alcohol and drug addiction and need a safe environment in Howard County. Hence, the beginning of a non-profit corporation was started called "Living in Recovery". Joe knowing the workings of the Howard County government and me being in recovery for over 36 years, we started a good partnership. LIR now has now grown to be known and well-respected in Howard County with over 200 clients through the doors. The fact that 67% of these clients had stayed clean and sober while with LIR is a tribute to the organization and their program.

With LIR up and running on its own, I left LIR and joined Stepping Stones Recovery Houses as a Director. They asked me to help with the expansion of Howard County and west. We have already added 2 houses to the 25 houses that Stepping Stones has. We are growing fast. I am all about recovery and this has given me the opportunity to help many more people who have substance abuse. In my past 10 years, I have been able to develop a great working relationship with the Howard County Health Department, Howard County Detention Center, Sheppard Pratt, Hope House, Shoemaker House, and Mountain Manor, Father Martin's and many more local rehabs and recovery houses. Having the disease myself and dealing with it in recovery, I believe I can contribute effectively for a better understanding and appreciation of addiction to our community.

Very Respectfully,

Bruce MacDonald
Director
Stepping Stones Recovery Houses
