Subject: I support increased Bikeway funding

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,

Monica Tomaselli

Subject: Electronic Copies of Bike Funding Letters of Support

The Horizon Foundation was pleased to testify last night about bicycle funding in the FY 2019 Capital Budget. Paul Gleichauf, a Trustee, provided copies of the letters of support from over 40 diverse community organizations and businesses. **I have included an electronic link below to all support letters for your reference.** As noted last night, these partners represent diverse interest from major business leaders, like Howard Bank, WR Grace, and COPT, environmental organizations like the Sierra Club and the Earth Forum, and critical health organizations like the American Heart Association, and the Chesapeake Regional Health Information System for our Patients.

The \$1.25 million included in the capital budget is a small step forward. The funding falls short of funding levels in neighboring counties and falls short of the vision for the bike master plan. But, we ask the County Council to approve the bike funding in this budget and importantly, not cut any funding from the Bike Master Plan implementation.

<https://drive.google.com/open?id=1nMq92PtYQlpsHH0Fb1ICBT1uaHrxHnES>

Thank you for the opportunity to testify.

Nikki Vernick

Subject: I support increased Bikeway funding

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).
I support the proposed Bikeway. Exercise is the cornerstone of overall good health.

Our children are looking to us to fight for their right to be healthy & happy. Howard County has staggering amounts of kids who are diabetic or pre-diabetic, overweight and clinically obese. Some suffer from severe detrimental health conditions that used to be reserved for the elderly. It's the 1st generation of children who are projected to have shorter life spans than their parents.

Howard County is failing our children. I propose "build it, and they will come". Dedicate the funds necessary to expedite the completion of the Bikeway and children will use it, families will enjoy recreation & exercise that will help them live longer, healthier lives.

Montgomery County, which put over \$23 million for bike routes into its budget this year.

The Bikeway project was supposed to be done in 3 years. Now it's so underfunded, the projected completion is 12 years away.

Howard Counties children cannot afford to wait. You need to decide, sir, what will your legacy be?

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,
Amy Lamke

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).
We overfund the number of roads in HoCo and pay lip service to increasing bicycling as a option for country residents.
We need to change that ratio. There's a bike lane outside my development that connects to NOTHING. It goes for 2/10'ths of a mile, connects to and from nothing.

Make a committment. Work with SMEs to develop a real cycling plan for HoCo and fund it. I don't want to go to other counties or states (Virginia - YES, I DRIVE TO VIRGINIA TO USE THEIR TRAILS), I want to enjoy my home county.

Please take steps to work with the people sponsoring this petition and all the voices on it.

Thank you.

Subject: Bikeways increase appeal to new residents, like us!

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).
I am not a Howard County resident. I live in DC.

My wife grew up in Columbia, and her parents still live there, so we spend a lot of time in Howard County. As a family of 4 (kids ages 5 and 2), we are beginning the process of considering where we want to settle our family, as we do not see DC as our long-term home. We plan to move in the next year or two and are primarily considering Montgomery and Howard counties. One of the things we desire in our future home is a walkable urban center. The new developments in Downtown Columbia around the Columbia mall and Merriweather Post Pavilion are very encouraging., but they would be even more appealing if they were more accessible for neighboring communities by multiple modes of transportation. Accordingly, as we look to make this important decision in the coming year or two, I have been actively following some of the development news in the area, and read about a lack of funding for Howard County's proposed Bikeway.

As a potential future resident, I wanted to write in to say that, at least for this family, having bicycle infrastructure in place is a very important aspect that we are considering as we look to decide where to settle our family. Bike paths and multi-modal transportation are a real driver to make an area more attractive to newcomers, and I hope the proposed Bikeway and long-term Howard County bicycle master plan are funded and built to help Howard County become more appealing to families like us.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,
Jeremy Dommu

Subject: I support increased Bikeway funding

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19). Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment. We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,
Brent Showalter

Subject: Bikeway Support/Funding in FY2019 Budget
Attachments: Bikeway Ad_Dec 28 2017.pdf

Dear County Executive Kittleman and Staff,

The coalition of organizations supporting the Bikeway recently ran an ad in the Howard County Times and Columbia Flyer. We wanted to share a copy (attached).

As you see, 25 organizations – business and civic – chose to publicly endorse the Bikeway in this way, which sends a strong message about the project's benefits and popularity. The \$3M annual budget line needed to make strong progress has widespread support.

The ad has also been getting widespread support on social media:

- Twitter: <https://twitter.com/thehorizonfound/status/946731039598301190>
- Facebook: <https://www.facebook.com/TheHorizonFoundation/photos/a.136613859699477.21217.117935698233960/1907068519320660/?type=3&theater-if t=feedback reaction generic-if id=1515098352542659>

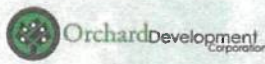

We look forward to continuing our ongoing conversations with your administration on the Bikeway/Bike Howard implementation - the community need these supporters recognize.

Sincerely,

Jack Guarneri, President Bicycling Advocates of Howard County (Bike HoCo)
Nikki Highsmith Vernick, President and CEO of the Horizon Foundation

WE WANT THE BIKEWAY

More than 20 businesses and organizations support the Bikeway, a network of routes from the Bicycle Master Plan that would connect more than half of county residences, schools and parks.

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

I'm a casual biker in the Waverly Woods area. I like to ride my bike for exercise a couple days a week. But where I'm located, it's virtually impossible to leave the community without either a) putting my bike in my car and driving to bike-accessible areas, or b) riding my bike on bike-hazardous roads (like Old Frederick Road, or Bethany Lane, or St. John's Lane).

When I lived in Columbia, the pathways provided through the Columbia Association allowed for a variety of recreational biking, and with a bit of thought I could even bike to work. But once outside the Columbia area, it's very hard for a casual biker to find a convenient, safe route for cycling.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

Being able to safely and conveniently walk or bike anywhere in Howard County is well nigh impossible. Quality of life increases dramatically - as does health - when biking and walking options are available. It also increases civility, reduces the stress and pace of life, and makes an area a much more pleasant place to live. With \$1 billion in available funds and a growing tax base, surely the County can fund this effort, which will provide tangible and intangible benefits far in excess of the costs. The sooner it is done, the sooner Howard County becomes an even better place to live, work and play.

Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment. In recent years, Columbia has become a less desirable place to live due to blight, enhanced section 8 housing, over development, and neglect by our elected officials. Building a bikeway which includes Columbia will enhance our standard of living by adding an additional option for healthy recreational activity and transportation. As a community, we spent more than \$ 3 million dollar to dismiss a school superintendent that should have been fired. I believe if we found the money to mitigate a very poor decision by the former board of education, we have \$ 3 million to enhance the quality of life in our community by building a bikeway.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Subject: I support increased Bikeway funding especially from the major roads (rte 99) that have no safe side roads to go south.

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

Dear Mr. Kittleman,

I really appreciate how you are a regular member of our Howard County Community. When you spoke at my son's Marriott's Ridge HS graduation in 2014, and pointed out the guys you had coached in soccer...that was one of my favorite moments, reminding me that we live in a small, friendly community.

I appreciate,, too, that you balance the budget. That is not an easy task. From my own experience, as the mom in a family of four:parents that are both HCPSS educators sending two children through college, I have always balanced our budget.

But, I must say, where I live, we need some bike lanes. I live off Rte 99 and riding next to a car going 40-55 mph is scary.. Once, some guys in a car swatted my butt as they drove past, causing me to fall from my bike. Rte 99 is not a great road to lose your balance.

Bethany Lane is too narrow to safely ride next to a car.

I don't know all the specifics of the bikeway proposal but I am happy to safely ride on the side streets of Elliott City, so I don't see a need for bike lanes on the side roads.

Being part of Healthy Howard County, I would consider biking to work at my job as an occupational therapist for HCPSS, if there was a safe route.

I hope you can find a way to prioritize Bike Lane funding. Sincerely, Joan Chipman We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,

Sheena Patel

Subject: I support increased Bikeway funding

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19). Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

While I live in Catonsville, I am constantly looking for ways to bike to places. I am caught in between the city and Howard County. Biking helps to build strong communities. In my regular errand trips to downtown Catonsville, I constantly see my neighbors and other people whom I stop and talk. In a car, you cannot do that.

With millennials choosing to drive later or not at all, having a great biking infrastructure will help to attract new growth and talent to our communities.

Thanks for your consideration!

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,
Jason Mah

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19). Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment. We already have a decent network of hiking/biking trails within many neighborhoods, but, as a cyclist who only drives when absolutely necessary,, I am a bit disappointed in cycling infrastructure between separate neighborhoods - feel very exposed especially at 4-lane-road intersections (few crosswalks, and walk lights, compared to similar streets near Kalamazoo MI, from where I relocated June 2017). Please fund the bikeway to the extent shown by dotted green lines on the Columbia city map!

Thank you, Jackson Scholl

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

I live in the Turf Valley of Howard County. I moved here in large reason due to access to the county roads for cycling. To my dismay, riding in rush hour upon getting home from work with the heavy traffic on Marriottsville Rd is prohibitive. I'd love to see an East/West passage paralleling Rte 70, across 29 and Rte 100.

A designated bike lane enforces the concept that bicyclists are roadway users too and provides a safer means of transportation for cyclists.

A bike lane is a visual reminder for car drivers to be aware of cyclists and encourages more people to use bicycles.

Please fund the Howard County Bikeway!

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

As an avid bike commuter, I believe the Howard County bikeway should be funded for many reasons.

When there is a designated bike lane there is a buffer for cyclists which is safer and the cyclist is able to pedal at their own pace.

A bike lane will define roadspace for bikes promoting and orderly flow of traffic.

A bike lane will support and encourage bicycling as a means of transportation and should be funded.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,

Kate Farber

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19). Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

People (me) out there are riding every day encountering dead end bike lanes, bike lanes full of trash, dangerous shoulders full of pot holes and angry drivers not willing to share the road for a few seconds a day. and you can't find any money to allow and help bikers do the right thing saving the environment and reducing traffic. Do the right thing like Montgomery and Anne Arundel. Why cant Howard be a leader instead of a laggard. We are not even following the leaders.

Bottom line, When people out there get hurt doing the right thing, I blame you. We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Subject: I support increased Bikeway funding

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

I am skillful and daring enough to ride a bike in traffic on the roads around here, but I'm rare. I have access to this great way to get around and all the benefits it provides, but the lack of space and facilities is a barrier to my other family members and many other people that want the same access and benefits (60% of the population is 'interested but concerned'). Good news is that the county has a Bike Master Plan, and a skillful bike planner (Chris Eatough) to reduce the barriers and give access to the 60% that want it. However, the funding for Chris to get this big job done is too low.

The 'Bikeway' is a 10% subset of the Bike Master Plan to get a big bang for the buck quick. It creates continuous north/south and east/west links across the county, and centered on Columbia.

Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Subject: I support increased Bikeway funding

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

At my work, we have a special needs employee named Michael. Michael will be 21 next year, but his mental capacity is that, if those numbers were reversed. Michael rides his bike to and from work every day, as well as to the library to rent his favorite tv show series. He will likely be riding his bike all over the county for the rest of his life because of his disability. Two weeks ago while on his way into work, someone honked at Michael because he was riding completely legally in the road. Then that person sped by him in the same lane, not bothering to move over to the other unoccupied travel lane. Yes, there were two lanes in the direction they were traveling in. I told Michael I was glad he was okay, as I was there to witness it, then explained that that person was a jerk. Michael is not the only person within Howard County that is special needs and gets around the county by bike. There is another gentleman by the name of Wyatt, who frequents our location in Columbia, among many others. I want to see that these folks are able to travel the county by bike safely.

As for my self, I haven't owned a non-pedal-powered vehicle since 2009, and I use my bike to get all around the county. I too would like to be able to do that safely.

Montgomery County spent over \$23 million last year on bike infrastructure, while Howard County's budget is \$600,000? We need to step it up. Not just for the cyclists in the county, but for the safety of all the people in the county who use their bikes for transportation.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,
David Freesland

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,

Laura Goodman

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

It is so important for people to get out and be active. They need the opportunity to do so in a safe environment and the Bikeway is a tangible way to provide that. And then if people start using it for commuting etc, it decreases the number of cars on the road which obviously is a win win.

Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

While I certainly realize that you have a lot of very important and critical projects that require funding, increases in the budget for bikeway is certainly very important to Howard Countians. Howard County with its hundreds of miles of bike paths and connecting them with a well thought out Bikeway System will be beneficial in so many ways...health, transportation, tourism, community-building, safety, athe environment nd attracting businesses to locate here.

On behalf of We Promote Health, Inc., An organization focused on promoting wellness in Howard County, we add our support in asking for greater support for the proposed Bikeway. We firmly believe it will positively impact our community's health, economic vibrancy and environment.

Brian Jolles, President
We Promote Health
5052 Dorsey Hall Drive, Suite 203

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

My family and I spend a great deal of time riding. We respect the healthy benefits, as well as the environmental aspect of biking. The children are young (11, 10, 8, 7, 5) so riding anywhere without a path outside of our neighborhood is too risky. We enjoy frequent rides to the lakes and parks, if it can be traveled by paths. We have made the 12 mile round trip to Savage Mill Mall a family tradition! We are hoping for paths that will soon allow us to visit the libraries and shopping centers.

Please put the Bikeway high on the list of priorities.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

After twenty-plus years in the bike business, I have seen a significant rise in safety concerns in the last five or so years. There appears to be a correlation to the reliance on smart phones and distracted driving.

The option of a bike path makes all cyclists feel more comfortable and puts the trip at a lower risk of incident. Kids can get exercise, errands can be run without adding to traffic and pollution, and the local economy can benefit.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Subject: I support increased Bikeway funding

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19). Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment. We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,
LaVerne Miers-bond

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19). Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

While I do support the Bikeway, I also feel strongly that Bikeway plans should be thoroughly scrutinized to ensure the plans are sound and will support a long-term investment. For example, protected bike lanes and off-street bike paths are much safer than bike lanes, though installation of bike lanes is less costly. The better, long-term investment would be off-street bike paths, as the majority of new riders will be much more comfortable using bike paths as a viable alternative during their daily, rush hour commute.

Personally, as an avid bicyclist, I currently do not commute to work by bicycle because the roadways between my home and place of employment are dangerous: high traffic density, high speed traffic, and narrow roadways. Painted bike lanes or roadway signage will not change this danger. Protected bike lanes, off-street bike paths, and paved path connections between low traffic cul-de-sacs would entice me to commute by bicycle. We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,
Ken Lohr

Subject: I support increased Bikeway funding

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19). Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment. We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,
Deborah Stempien

Subject: I support increased Bikeway funding

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19). Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment. As an adult who was raised in Columbia I know first hand the importance of the pathways in Howard County. As a teen I used these bike paths to get to school everyday, work in the afternoon, and for recreation on weekends. I am a resident of Ellicott City now and still love to ride my bike more than ever. One of the hardest things for raising children in Ellicott City is the lack of places for my children to explore. I would love to see the path system be completed so this next generation can enjoy the same amenities that we were so fortunate to have. Thank you for taking your time to read this letter and I look forward to seeing improvements in this area in the near future.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,
Kristen Coffee

Subject: I support increased Bikeway funding

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19). Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment. I cycle 3,500 miles every year and cycling in the county would be greatly improved by the Bikeway. We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,
Richard Madonna

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

With the number of bikers in our County, we need to follow through on bike-able paths & lanes. Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,

Steven Klement

Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

Many roads have narrow, cracked, and pitted shoulders and road edges where bikes are frequent travelers. Automotive traffic is significantly slowed down as cars try to pass and this creates additional risk to the bicyclist. Lets get the bike riders their own safe passageway out of the way of traffic for their safety and for the convenience of the car traffic. We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Subject: Bikeway funding

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).
I strongly support investment in the Bikeway, and capital investments to make the county easier to navigate on foot or bike. Destinations such as Columbia Gateway Drive, almost anything on Snowden River, and nearly any road west of River Hill are surprisingly dangerous to navigate. If we are to win more "best places to live" awards, it won't happen without these capital investment - and consistently over several decades.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,
David Horrocks

Hi Mr. Kittleman,

I know you support bicycling improvements in HoCo. I thank you for this support and want to encourage you to continue to champion bicycle improvements in HoCo.

I ride my bicycle to work about 160 days per year and appreciate the improvements that have already been made. My coworkers often ask me if I'm worried about being hit by a car on my way to work, but I tell them no. I cite the great and improving trail system in Columbia, several new street markings that give cyclists a lane on the road and the fact that most drivers are courteous toward cyclists. I tell them they could bike to work too or continue to sit in their car in traffic. They agree traffic is bad but are still tentative about biking to work.

I really hope that we can fully fund cycling improvements in HoCo. I think it will encourage residents to give bicycle commuting a try when they see improvements happening in their neighborhoods. Rest assured I will continue to encourage my coworkers to get out of their cars and get on their bikes.

Thank you for your continued support to the cycling community in HoCo.
We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Subject: Make It Right --- Fix CB61 Now

Dear Chairman Weinstein and Members of the County Council,

I am extremely disappointed with the outcome of the County Council session on November 6, 2017. To learn that the important votes on CB61 have been deemed "not valid" due to a scheduling technicality is incredibly frustrating.

I am writing to urge you to take immediate action to rectify this situation. Specifically, I expect the following actions:

1. Council will immediately resubmit CB61 as amended at the November 6th legislative session as a late submission for the earliest possible vote.
2. Council will honor the integrity of the legislative process and honor the amendments as voted during the November 6th legislative session.
3. Council will make a good faith effort to draft and present a charter amendment to prevent future bills from expiring.
4. Council will calculate and document the expiration date on each future bill.

Public trust in the legislative process and in our elected officials has been severely eroded by this situation. The amended bill, as voted, reflects a compromise reached by community members and elected officials. The actions above will demonstrate to the citizens of Howard County that our County Council members take their oath of office and fiduciary duties seriously and will not allow their clerical error to dismantle years of work that started with the County Executive's APFO Task Force.

Sincerely,

Yunshan Ye

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19).

Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,

Kevin McIntosh

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19). Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

My sister and her family live in Clarksville, and I would like to bicycle with them. I also enjoy bicycling in the Ellicott City and Elkridge areas.

I support both separate facilities and on road improvements (shoulders, conventional bikelanes, and wide curb lanes. Cyclist and motorist education is also important. Improving cycling will help to improve Howard County's quality of life, lessen traffic congestion, and increase mobility for children and less affluent residents. We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

We moved to Columbia because of the bike support already here. But even as avid bikers dedicated to a car free/minimal life, we have a tough time getting to Missy commercial places. Generations are changing and now people are demanding car alternatives and a pedestrian connected community. I truly feel Columbia has already started the right path but can be ahead of the game by fully supporting toys movement. Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19). Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment.

I especially would like to see a better East/West connection along the Middle Pax. River. There seems to be a few ways to work around the N/S directions (although on not the best of roads), but the E/W directions throughout the county are very lacking.

Additionally, we need to support the connectivity at the outskirts of the county too (including connectivity to other counties like Montgomery County over the US-29 bridge).

All in the spirit of the Bikeway, it is to build mainline connectivity. We need to expand our budget to build this infrastructure or Howard County will fall behind, instead smart people will migrate into the cities (DC/Baltimore/Silver Spring/Bethesda) where they can shop and go to school and work by bike.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Subject: I support increased Bikeway funding

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19). I regularly commute down Cedar Lane from the region around the hospital to Johns Hopkins Applied Physics Laboratory. This 4-mile route would make for great exercise. Riding a bike to work instead of a car would reduce congestion and be more environmentally friendly. Alas, south of 32, Sanner Road becomes completely unsafe for cyclists. After speaking with several cycling enthusiast colleagues, I've decided to continue commuting by car, ironically, for the sake of my health.

Of course I hold onto the hope that one day, a bike lane will be installed that will permit commuting south from Columbia down to APL. Upon reviewing the Bicycle Master Plan, I see that there is indeed a proposal to build a bike lane along Sanner...in 10-20 years. We need to increase funding to accelerate the pace of implementation of this plan. By doing so, we can make Howard County a more interconnected community that attracts new, young families. We can't wait a generation for development.

We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,
Will Campbell

Subject: I support increased Bikeway funding

Dear Howard County Council,

I support \$3 million in funding for the Bikeway in the next budget (FY '19). Howard County is falling behind compared to Montgomery County, which put over \$23 million for bike routes into its budget this year. I support the proposed Bikeway, and firmly believe it will positively impact our community's health, economic vibrancy and environment. We need \$3 million in funding in the next budget so we can start building new miles of bike routes - and enjoy them soon!

Sincerely,
Buffy Illum
