Dear Councilpersons,

As a concerned community member, I am urging you to use due diligence in the matter of CB-49, the DRRA. We are in desperate need of a high school in Eastern Howard County to alleviate the current dangerous overcrowding. The land purchase on Mission Road is vital to that goal. No other area is ready for purchase, vetted, approved by the BOE nor by the State for a suitable high school site. There have been surveys, building design and environmental studies.

I am confident that an agreement can be reached through the County Council and then signed, by our County Executive, Dr. Ball. I am depending on you, our council, to make sure this goes as smoothly as possible, and we can proceed in a timely manner towards our mutual goal. High School #13, home of the future flying STINGRAYS!!

Thank you,

Eldridge Davis

Dear Councilpersons,

As a family effected by CB-49, the DRRRA for the Mission Rd school site, I urge you to do your due diligence in this matter. But I also urge you to remember the desperate need for HS#13 in eastern Howard County and no other site exists with the buy in, testing and approvals that this location has.

I fully support this DRRRA and the site was selected knowing full well the quarry would be operational during early years of HS#13.

I am confident that an agreement can be reached through the County Council and then signed, by our County Executive, Dr. Ball. I am depending on you, our council, to make sure this goes as smoothly as possible, and we can proceed in a timely manner towards our mutual goal. High School #13, home of the future flying STINGRAYS!!

Thank you,

Andrew Doumaux

Dear Council Members,

A new high school is desperately needed in Eastern Howard County to alleviate the dangerous overcrowding our students currently face. The land purchase on Mission Road is crucial to achieving that goal. There is no other location that is ready for purchase or has been vetted or approved by either the state or BOE as a suitable location for a new high school.

As a concerned community member, I am urging you to use due diligence in the matter of CB-49, the DRRRA. I am confident that an agreement can be reached through the County Council and then signed, by our County Executive, Dr. Ball. I am depending on you, our council, to make sure this goes as smoothly as possible, and we can proceed in a timely manner towards our mutual goal. High School #13, home of the future flying STINGGRAYS!!

Thank you,

subject: Testimony CR49-2019

Dear Councilpersons,

As a concerned community member, I urge you to use highest priorities in the matter of CB-49, the DRRA. We are in desperate need of a high school in Eastern Howard County to alleviate the current dangerous overcrowding. The land purchase on Mission Road is vital to that goal. No other area is ready for purchase, vetted, approved by the BOE nor by the State for a suitable high school site. There have been surveys, building design and environmental studies already completed and the property is even rough graded as well. I cannot imagine not getting the land on Mission and hope to see a beautiful campus for the benefit of all of the community and areas surrounding it.

I am confident that an agreement can be reached through the County Council with the petitioners. An agreement that is equitable and serves to meet the needs of all involved. Nothing would give me greater joy than to watch our County Executive, Dr. Ball, sign to purchase the land. I am depending on you, our council, to make sure this goes as smoothly as possible, and we can proceed in a timely manner towards our mutual goal. High School #13, home of the future flying STINGGRAYS!!

Thank you,
