Subject: CB18-2019 (school bus cameras)

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Dear Council Members:

Thank you for introducing bill [CB18-2019](#) to to authorize the use of school bus monitoring cameras on school buses in the County. It is sad that, in this time of budget tightening, we have to spend our resources enforcing a law as simple as stopping for buses that are discharging or picking up students. Unfortunately, I can assure you that motorists routinely (4-5x/week) ignore the flashing red lights and drive right past my son's bus on Folly Quarter Rd. at great speed. I've heard the same story from other parents on two-lane, undivided roads, of which there are many in our county.

Please proceed with this initiative and, perhaps, there is a way for the revenue generated by ticketing to offset the costs of installing the cameras.

Thank you,

Leslie Toussaint
