Dear Council Members,

Thank you for your hard work this budget season and always. I deeply appreciate Council Chair Rigby letting me know, at the public hearing, that the Office of Law had advised you that you could not amend Council Resolutions 72 and 73, and said an answer as to why could be provided. I was confused as to whether or not this situation was one of timeliness since the issue was raised on this a month prior, see email below. For a while now, I had wondered if locally controlled fees could be analyzed now, separately from the State-enabling school surcharge issue you will soon take up. I sent the email below not even realizing that these very fees would be annually reviewed the next month.

Any information about why you cannot amend these resolutions would be greatly appreciated. I look forward to discussing the bigger school surcharge issues in the future.

Take care,

Lisa

Dear Council Members,

Thank you for your hard work during this busy budget time. So many competing needs and never enough money for all we need and want to accommodate. Due to my involvement with development issues, and the State Impact Fee Bill, I have a

suggestion for an area of adding revenues to the budget. A bit of a different "ask" than you are used to reading.

Since the State enabling legislation to increase school surcharges to developers, which will give you that right if/when Governor Hogan signs HB1409, exempted all senior housing, that lost a lot of local income. Many believed that was a helpful consideration toward having more affordable senior housing. Unfortunately, that is not the case. As I forwarded to you recently, in our code, school surcharges do not apply to homes priced under \$200,000 (adjusted for inflation for over a decade, so likely far higher now). Thus, not allowing these fees to be increased, is only favoring high-priced units, not helping lower income seniors.

Therefore, I suggest you look at every single local fee, permit, filing, tax, or any expense associated with development that is under local control, and raise it, every year, to the maximum legal amount possible. It is only right to capture these funds, when your hands have been tied for inaccurate reasons, not to mention the fact that we have foregone so much in fees for so long, them being so woefully low compared to other growing counties. I realize many of these types of charges are capped, but do the best you can. We are the highest growing county, yet again, and we cannot seem to get proper fees to fund needed infrastructure to maintain our high quality of public services for residents current and future.

Thank you,

Lisa Markovitz

President, The People's Voice, Ellicott City

Lisa Markovitz -- May 20, 2019 President, The People's Voice Corporate Court Ellicott City

CR 73 - 2019 We strongly suggest an increase in these fees and the construction fees in CR72.

First, a small side issue herein. There is an Exhibit A to CR73 that is a map, the significance of which I do not see noted. It might be an error, as in prior years, this Resolution has had an Exhibit 1, listing the unit prices and item codes from DPZ to supplement percentage figures for reference, and that is missing.

More importantly, we have seen a lot of discussion this year about developer fees and arguments about what is fair now, versus what has been done over time. There is significant concern about our ability to adequately fund our schools and flood mitigation projects. Upon seeing that none of the 239 fees in CR73, were set for an increase over last year's rates, I decided to look at the history of these fees and did a search and could find no increase in these rates since 2001. For 18 years these fees have been set. In the referenced code in the whereas clauses, I can find no cap set on these fees, like other fees have such as excise taxes and MIHU fees-in-lieu, which are noted in those pieces of legislation. None are noted here, and I could not find any. Actually, I found the opposite, requirements in Section 16 that certain fees had to cover the County's costs of handling certain requests. It seems impossible to me that our costs have not increased in 18 years.

There have been some new fees over time, referencing both types, electronic submissions, new permitted uses in need of new fees, and in 2008, here are some new ones that were implemented, expediting, an easement abandonment fee and non-compliance with forest conservation fee and the Permit Fee for commencing without a permit, fee.

I ask you to please pay particular attention to the fact that in 18 years no increase in fee-in-lieu of providing no open space dedication has occurred. Please also carefully review the fees-in-lieu of constructing storm-water management facilities, drainage fees, and fees-in-lieu of providing best management practices.

Seeing as we have serious budget needs, a long history of woefully low impact fees, and now we are discovering just how low other building fees have been held down, it seems that if we are going to continue to overwhelm our resources, and sell off every green spot, we should at least get more money for it. These fees have held since 2001, with no effect from market prices, nor impacts.

The school surcharge fee increase that could be coming should not be a reason to leave these fees alone for the 18<sup>th</sup> year in a row. School surcharge increases have exemptions and, of course, do not address road costs or environmental protections nor storm water management needs.

I believe the only limitation you would have here, on both resolutions, is that an increase must have a reasonable application to the services requested, but I think given how long these have not been increased it is clearly reasonable to increase them. The Code says the County Council has to approve via resolution these charters of fees, but there is no restriction that you cannot amend them. I ask you to please carefully consider that fiscal responsibility. I have provided the 2001 legislation on both of these resolutions' fee issues so you can see what has not changed. Thank you.
