Subject: I support CB42

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

I strongly support CB42 as this bill will help mitigate the impact of development on our schools' infrastructure. And everyone knows this is way overdue.

To: CouncilMail
Subject: CB 48

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

I support CB49, which raises the surcharge fee from approximately \$1.32 to \$6.80 (ideally as much to fully fund the capital needs), as written. I do not support any exemptions or grandfathering amendments. This bill is absolutely necessary for the financial support of our students and the furtherance of necessary upgrades to our brick and mortar facilities."

Dear Councilmember Jung,

The Maryland Building Industry Association, representing 100,000 employees of the building industry across the State of Maryland, strongly opposes Council Bill 42-19.

This expensive and unsupported increase will be detrimental to housing affordability and the development industry across the County.

MBIA respectfully requests the Council vote NO on Council Bill 42-19.

Sincerely,

Deb Jung,

County Council Members,

Please support CB42-2019. Two of my four children currently attend a school that is celebrating 65 years! Saint John's Lane Elementary school is burdened with overcrowding. Support for this bill would allow a new elementary school to be built to accommodate all of the children in the neighborhood.

Thank you for your consideration,

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Deb Jung,

I would like to thank you for supporting CB42-2019. So many of our school buildings are in need of either expansion or renovations. At Mount View Middle School, we desperately need another room for our music programs. In the last 4 years, our numbers have jumped from 6 ensembles totaling around 450 students to this year when we now have 9 ensembles totaling over 600 students, roughly 3/4 of the total school population. We currently only have 1 large and 1 medium sized rehearsal room. We have been forced to utilize the Park and Rec. room but since that technically is not our room, we have to strike the room every day and reset the next morning (which takes away from instruction time) so that Park and Rec. can use the room in the evening. This is just one example across the county and while I know it's not the largest priority, it does emphasize the need.

Thank you again for your support!

Subject: Vote for CB 42-2019

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Dear Council Members,

I support the passage of CB 42 as written - without grandfathering, without exceptions. Do not cave to pressure that we don't have enough affordable housing in Howard County. Do not cave into developers' protests that they won't be able to make a profit anymore or won't be able to do business in Howard County anymore. These companies must have had their head in the sand for the past decade if they were not able to see this coming. Other neighboring counties with higher surcharges are not suffering from a lack of development. Someone will always be there who will know how to make a profit off developing Howard County.

You must know that the County is in desperate need of funds to pay for schools and other infrastructure. I live in Elkridge/Hanover. My children attend overcrowded schools. I lost the fight to have High School 13 built in Elkridge. Yet, I have new in-fill residential development being built daily all around me. I drive on roads torn apart by the construction to build those houses and the additional drivers the developments bring. I drive on ugly and congested Route 1 daily. I have to attend Board of Education Meetings, PTAC meetings, CAC meetings, PTA meetings, GECA meetings, Route 1 Revitalization meetings, attend the Plan Howard Academy, and watch local government television religiously just to understand how local government decisions are going to affect my Howard County existence.

You finally have a chance here to do some good here by passing CB 42- so DO IT. We are all watching and paying attention.

We need serious money and this is the surest way to get the most bang for your buck. Increasing the existing transfer tax is chump change in comparison.

Housing prices will continue to go up regardless of how you vote on this bill. Land is going to continue to grow scarcer. That alone will drive up the price. The only question is who is going to get that money? The developers or the people? Please do your job and represent us - the people. Vote in favor of CB 42-2019.

Thank you,

Terri Marcus
Super concerned citizen

Subject: Decrease Developer Entitlements

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Dear Council Members

I am a registered voter, lives in Ellicott City.

I support CB38-2019 that prohibits wavers for builders who want to build in or around Ellicott Cities floodplain.

I support CB40- 2019 that extends the life of CB56-2018.

I support CB42-2019 that will raise developer's impact fees to market rates.

Past and present County Councils and Executives major problem is and has been that they cannot say no to developers.

Our elected representatives have amended the APFO rules and/or regulations to meet developer requirements for more than twenty years.

The results continue to be severe flooding in Ellicott City and overcrowded classrooms that hinder a quality education for some students and redistricting for others throughout Ho Co.

I encourage the entire Ho Co Council to unanimously support the aforementioned bills with their votes.

Thanks
Baskar

Subject: Council Bills CB 38 & 42

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Good morning.

As a resident of Howard County, I am vehemently opposed to both Council Bills 38 and 42. Both of these bills will be detrimental to both existing and future residents of the County and are nothing less than government overreach.

In regard to Council Bill 38, the system currently works well with your County reviewers, who are well versed in the particulars of each project, being able to make common sense decisions to benefit both the homeowner and the County. This bill eliminates that ability for no reason other than a councilwoman's lack of knowledge of how things work.

In regard to Council Bill 42, placing such a large increase (400%!!) to new home construction will price many new homeowners out of the market and will effectively eliminate new home construction. This bill attempts to place all the fault for potential school overcrowding when families with children occupy both new and existing homes equally. It makes no sense to assume all new home construction results in new families with children and that existing homes have none. The burden for school facilities should be shared equally by everyone in the County as we all have a vested interest in producing smart young men and women.

Sincerely,

Mark Johnston, P.E.

Dear Councilmember Jones,

The Maryland Building Industry Association, representing 100,000 employees of the building industry across the State of Maryland, strongly opposes Council Bill 42-19.

This expensive and unsupported increase will be detrimental to housing affordability and the development industry across the County.

MBIA respectfully requests the Council vote NO on Council Bill 42-19.

Sincerely,

Todd Souder

Dear Councilmember Jones,

The Maryland Building Industry Association, representing 100,000 employees of the building industry across the State of Maryland, strongly opposes Council Bill 42-19.

This expensive and unsupported increase will be detrimental to housing affordability and the development industry across the County.

MBIA respectfully requests the Council vote NO on Council Bill 42-19.

Sincerely,

Joseph Wilson

Dear Councilmember Jones,

The Maryland Building Industry Association, representing 100,000 employees of the building industry across the State of Maryland, strongly opposes Council Bill 42-19.

This expensive and unsupported increase will be detrimental to housing affordability and the development industry across the County.

MBIA respectfully requests the Council vote NO on Council Bill 42-19.

Sincerely,

Brenda Buford

Dear Councilmember Jones,

The Maryland Building Industry Association, representing 100,000 employees of the building industry across the State of Maryland, strongly opposes Council Bill 42-19.

This expensive and unsupported increase will be detrimental to housing affordability and the development industry across the County.

MBIA respectfully requests the Council vote NO on Council Bill 42-19.

Sincerely,

William Kerns

Opal Jones,

Please review a bill determining how funds are allocated for the building maintenance at Hammond High School and Talbot Springs Elementary School. These students deserve equitable learning experiences, this not only includes the instruction being accessed but also the facilities in which that instruction takes place. We can do better. Please support (CB42-2019). This bill will supplement revenues in the HCPSS capital budget by charging developers more per square foot for new residential development. Thank you!

Opal Jones,

The developers in this county use our world renown schools as an incentive for individuals to buy homes in this county - they promise them the best and are making huge profits. It is shocking that more funds are not coming from the developers to support the renovation, maintenance and building of new schools. This should be the expectation for any developer if they want to continue to use land in Howard County. We cannot continue to maintain excellence without this bill. Thank you.

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

Greetings;

For a county that constantly lauds itself as one of the best in the nation and the best in the state, our school facility surcharge is appalling. It is absolutely ridiculous that we have the lowest impact fee per square foot. It is unfair to our students, families, teachers, community members, and taxpayers. Luckily for you, county councilmembers, you have a chance to remedy this embarrassment by passing CB42-2019. Please step up and do what's best for our future leaders. Please do not bend to the developers like your predecessors have.

If you have ever set foot in Hammond HS or Talbott Springs ES, you have seen the sorry state these buildings are in. Real children have to attend these schools and real adults have to work there. They deserve better - in fact, they deserve the absolute best available (not an out-of-date or half-baked renovation, as was proposed for Hammond). We speak about inequities, segregation, and fairness in our schools. Hammond HS is the definition of inequity. Help us fix this by passing this bill, and give our kids the schools and future they deserve!

Thanks for your time!

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

Our school district is a large part of why people move to Howard County. As such, the educational system here has kept developers in business. It seems only fair that those same developers now help pay for the schools' maintenance and renovations. The current surcharges are low enough that an increase would be comfortably absorbed by the developers, and it would make a HUGE difference to the students and staff in buildings like Hammond HS. Please vote for the higher surcharge on developers!

Opal Jones,

Please support increasing developers fees to cover the cost of renovating Hammond High School (CB42-2019).

I am a teacher at HaHS and our school has been on the renovation list for many years. After being delayed again and again, last year the HaHS building renovation process finally got underway. Now we are told once again that Hammond High School must wait. Our staff and students deserve better.

Delayed maintenance and capital improvements will never get any cheaper. Costs will only go up! We must secure adequate funding for our schools now and Bill CB42-2019 is an equitable way to do it.

Get developers to pay their fair share for the services that the people they bring into the county require. Developers get top dollar due to Howard County's great schools so they must contribute more to maintaining our school system.

Opal Jones,

Hi, I am a long time teacher of HCPSS. This year has been the most disappointing to me as a teacher. As what is supposed to be one of the richest counties in MD we should be better than this! Our schools are HOT!!!!!!!!!!!!!! This is with a brand new chiller.... Teachers and students deserve better. We truly aren't at are best when we work in these conditions. Students are constantly asking for water breaks, students have SWEAT rolling off their faces during instruction, teachers are miserable and sweating. This is just ridiculous!!! I understand that these are "first world problems" but we live , teach and work in HC and it's just been so discouraging to deal with these building maintenance issues this year. We have toilets that overflow constantly onto our CARPET in the hallway and they clearly aren't paying to get it truly fixed. It's musty and GERMY I'm sure...Developers should be ashamed of themselves for what they are NOT giving to the schools. They continue to overbuild and overcrowd the areas in HC near elkridge and parts of Ellicott city. This is also sad to see happening BUT if they are doing this they MUST give schools more \$\$\$!!!!!! I truly hope something is done about this b4 it's too late and HC loses it's stellar reputation.

Opal Jones,

As a teacher in Howard County I work extremely hard to ensure that each child has a quality education. This has gotten more difficult over the past years as we experience consistent budget cuts yearly. At this point we do not have enough technology to teach our students. We were promised more chrombooks to meet this need. Much to our surprise, across the county these were canceled and our school would not be receiving them. This is just one example of the devastating effect of the budget cuts over the past years.

The developers are able to charge premium costs for homes in Howard County. The excellent reputation of the Howard County Public Schools is one factor that allows the developers to charge these prices. It is important that they contribute to the county's infrastructure so that the market can continue to flourish.

Subject: Support of increasing surcharge to provide funds for school

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

I'm writing as a teacher who sees the importance and need for maintaining our school facilities. Schools are a significant reason many people move into our county and I urge you to charge developers as a means to provide the capital funds needed to continue ensuring all school system building and maintenance projects can occur as planned.

Opal Jones,

I am in a recently renovated hcpss high school which still has inadequate/faulty hvac. We were told at the time of the decision to rennovate, that the cost to do so with geo thermal dug holes in the ground that it would address/fix inadequate air quality. It hasn't! Let's address this better with the CB42-2019 school facility surcharge bill AND get it righted!!!! Sick to think a newly renovated hcpss high school building has the same inadequate air quality PRIOR to the millions of dollars it cost to modernize it! #SICKAHS

Opal Jones,

I am writing in support of bill CB42-2019. Our schools are grossly underfunded, and developers have taken advantage of low building prices for years. This bill is a solution to slow the growth in Howard County and to bring more dollars in that can be used to better fund our schools. I am hoping you will support this bill.

Sincerely,
Molly Michaelson

Subject: CB42-2019

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

Good Evening,

My name is Cynthia Freeman and I am a resident of Howard County and a teacher at Talbott Springs Elementary School. I am writing to ask your support of CB42-2019 which would create a school facility surcharge on developers that would create an increase in capital funds for HCPSS.

As a teacher at Talbott Springs, I am highly concerned that the construction of our new school building may be put off for over 5 years due to budget issues. Our school is not a healthy learning environment for our students or our staff. We have heating and cooling issues, mold issues, and a lot of sound issues due to the fact that our school is still an open space school with no doors. It is unfair that we once again must fight to provide our community a building that will meet the needs of its youngest learners.

Again, please support CB42-2019 and help Talbott Springs provide a school building where our students can grow and learn in a safe, healthy school.

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

Dear Council Members,

Howard County draws new families and businesses with one thing, our great public schools. People come to our county because they know we invest in a high quality education for our kids. Developers need to recognize this priority when seeking to build here. Without funds to support the infrastructure, we will see new growth without the foundation to support it. Crumbling schools beside new buildings will not send the message of a high quality education system. Please support the School Facility Surcharge to help developers invest in the main reason everyone wants to come here: an amazing school system.

Thank you,

Kathleen MacLaughlin

Opal Jones,

Dear Liz Walsh,

Thank you for being a strong advocate of Ellicott City and Howard County.

Do you support CB42-2019?

The funds raised from this bill should help improve the infrastructure of our county schools. Education is a right for every child and teen, and a county as well-off as Howard must do more to provide adequate and safe learning environments.

Developers have too long enjoyed the financial rewards of building new homes in the county without being responsible for an honest share of the full life-cycle costs of that development. Our county residents are shouldering an unfair burden, and our students (especially those in schools that are behind in scheduled maintenance) suffer the most.

Please do what you can to ensure passage of this important bill.

Sincerely,

Barbara Watson

Opal Jones,

Dear County Council Members,

I am writing as a HCPSS teacher who has worked at Guilford Elementary and Centennial Lane Elementary School, and others over the past 17 years. I am concerned about the overcrowding in the buildings that requires portable classrooms that have been there for many many years. The continued reliance on portables pose risks to the safety of students for security reasons and in some cases, for health reasons.

Our schools need the funds to expand capacity. They also need to replace HVAC systems that result in extremely inconsistent heating and cooling in the buildings. Please consider supporting the school facilities surcharge bill which seems like a fair way to raise the revenue needed to educate all the new residents that move to our wonderful county in part because of the school system. Thank you so much for your service to the county.

Sincerely,

Mary Armstrong

Opal Jones,

Please support passage of Bill CB42-2019 -- the school facility surcharge bill. As a teacher working in a middle school built in the 70's, I have experienced first hand the disruptions that faulty HVAC systems has had on daily learning. Rooms that are too cold in winter and too hot in summer make learning incredibly difficult for middle school students. Our school desks and bookshelves are wobbly and old, and our chairs are often rickety. Our storage closets house electric boxes and provide little space to keep books and other supplies. We are over capacity and have too few classrooms, with too few desks, to house all children well. If we want to continue to be a great school system, more money must be invested in our building infrastructure.

Thank you for your support of this bill.

Opal Jones,

Dear County Council member: David Yungman,

It is imperative that this bill be passed and put into action. our schools are in need of repair. We suffer from overcrowding due to the immersion of new development but the benefits fall short on our school system. Please consider this bill, the impact will help to support our local schools and provide the needed repairs that school warrant. Make them pay to play. This bill will supplement revenues in the HCPSS capital budget by charging developers more per square foot for new residential development.

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

To the County Council ~

I'm writing in support of the school facility surcharge bill (CB42-2019).

First, the Talbott Springs ES and Hammond HS communities have waited far too long for adequate facilities and repairs, and shouldn't have to wait longer for projects that have already been approved.

In my own school, we've seen regular maintenance like painting put off year after year. I've been in my school building for 13 years. In that time, we've never had a paint update - although we were on the list twice. Think of that: students who started in kindergarten at Elkridge ES are now in college or graduated HS, and we haven't had fresh paint in all that time. And wow, you can tell.

HVAC systems are not always reliable, which has led to mold issues throughout our school.

There's no reason that developers should not contribute more to the communities that they are so very eager to build in and make money from, year after year. I'm not sure why we even need to give incentives to developers to build here - they will no matter what we do because of

the demand to live in this area. That demand will begin to decrease as our facilities show more and more age, and as our schools get more and more over-crowded.

You have the power to change this. Please do, by voting in favor of CB42-2019.

Sincerely,

Ms. Carrie Loughry

Opal Jones,

Good evening,

Our school system is the economic train that drives Howard County. The property values are relatively high in the state due to the quality of our schools. The developers have been making lots and lots of money for a very long time. Meanwhile, our schools are underfunded. It's time the developers do their share and pay more to mitigate the impact of the growing population.

Thank you for your consideration,

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

Developers should not be allowed to walk away with tens of millions of dollars in profit and stick the taxpayers with the school and road improvement bill. We are one of the wealthiest counties in the nation yet our schools lack basic support due to the political structures in this county. How can Fairfax county give every student a laptop, but in Howard County we don't even have enough batteries for our calculators? Shameful. Please pass CB42-2019 so that we can start fixing something that has gone very wrong .

Subject: In support of impact surcharge

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

Dear Councilman Jones,

I'm writing to express my full-throated support for an increase to the impact surcharge assessed on new development in Howard County.

For the 17 years I have been both an educator and a resident in the county, taxes and other assessments have lagged far behind the revenues needed to fund the services--the school system especially-- which continue to attract new residents and fuel new development. It's high time that developers contribute their fair share.

As you know, the Superintendent has submitted a revised budget which defers replacement of my daughters' elementary school, Talbott Springs, for another 5 years. Please take the necessary action to help reinstate funding and prevent such unacceptable compromises in future.

Thank you!

Best wishes,

Subject: Support for CB42-2019

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

As a resident of the Laurel community , I attended many meetings regarding the possible development of the milk producer land . We raised many concerns including environmental factors, traffic, and the over crowding of the 3 closest elementary schools . The developers were not impacted or delayed in their aggressive pursuit of this opportunity . Now the land a few miles from my home will be developed with 397 houses. The schools my children attend and will attend in the future will be overcrowded .

I support the school facility surcharge bill (CB42-2019) because developers need to contribute to the schools. As I have stated in previous testimony , the school my children attend , Hammond Elementary school , was built for the neighborhood and was never intended to serve an additional 400 students . This is the case with many of the schools in Columbia as well. Many schools in our county are in need of additions to hold the increase in students due to development .

It is my hope if the bill is passed , we will continue to slow down or possibly stop development until our schools and roads can catch up to the existing needs. In addition , I hope the money from the bill will be used to fully fund the school budget . The budget has been underfunded for years and last year was the most impactful for my elementary children . My husband and I paid full taxes for over 20 years as well as supported school programs before children . We are very disappointed that our own children will not receive the same curriculum or services

due to the lack of funding.

Thank you for providing some accountability for developers.

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

Dear County Council,

I write to you as both a parent and educator in Howard County to request that you provide our school board with the funds needed to begin the renovation for Hammond High School. As a teacher at Patuxent Valley Middle School, I have seen the difference that a renovation makes to the students, staff, and community. We are proud to welcome people into our building, and we are no longer distracted by peeling wallpaper and dust-filled carpets. I proudly send my children to Hammond High School. The teachers at that school are wonderful, and I love seeing my own kids become friends and teammates with my former students. But there is such an enormous discrepancy between the physical building of Hammond vs other schools in the county. It is unfair. It is unequitable. As you know, Hammond's renovations have been pushed aside for 13 years, and now perhaps three more. There is no excuse for this. And we all know that this would never have happened in a wealthier part of our community. Therefore, I am writing to ask that funds from the county be increased in order to move forward with Hammond's renovations. I am also writing to show my support of legislation CB42-2019 to raise the developer surcharge. I applaud Chair Mercer Rigby, Councilwoman Yung, and Councilman Jones for introducing the legislation and doing their part in setting the course right in our county with this long overdue fee increase.

Respectfully,
Rebecca Stryker

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

I strongly support the school facility surcharge bill to provide funds for school renovations by charging developers a higher per sq ft impact fee. I work in a renovated school building. I see how design improvements, sound structures and accommodations for technology help our students. I think all students have the right to such conducive learning environments.

Opal Jones,

Hello,

I wanted to write to you this morning encouraging you to support the school facility surcharge bill (CB42-2019). Many of my students will attend Hammond High School. That school was slated to be renovated. The school desperately needs updates to make the environment comfortable for the students to learn and for the teachers and staff to work. The county should support all schools by updating the buildings that are older and deserve to be updated.

Sincerely,
Courtney Proudlock

Opal Jones,

I would encourage you to support bill CB42-2019, as a resident and HCPSS employee I know the affects of over crowding. I think that it outrageous that HoCo collects the lowest per sq foot building fees and allows developers to fill our schools and roads without putting into the community. Our county is in an uproar over the much needed redistricting thanks to the over crowded schools. Builders need to help fund the mess that they have been allowed by the council to build.

To: Jones, Opel <ojones@howardcountymd.gov>
Subject: Fund Our Schools

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

HCPSS has deferred over \$500 million dollars in maintenance needs and now may be unable to renovate Hammond HS and Talbott Springs ES. Our students and staff deserve better.

I urge the County Council to consider implementing a school facility surcharge on developers that would create an increase in capital funds for HCPSS to address many needs.

Currently, we collect the lowest per square foot impact fee in the State. Our facilities are used for community events as well as everyday educational us. Class sizes are increasing which creates the need for better climate and additional maintenance of the buildings. Teachers around the county are complaining of students being too warm in classrooms with no windows/interior rooms of buildings and are requesting fans for the classrooms.

Our students and staff deserve better than these current conditions. Hammond HS and Talbott Springs ES families deserve facilities that are equal to those throughout the county- free of mold, rats and over crowded hallways.

Please consider implementing a school facility surcharge on developers that would create an increase in capital funds for HCPSS to address many needs.

Thank you.

Opal Jones,

I support the bill to supplement revenues for school facilities by charging developers more per square foot for new residential development.

Our schools are becoming seriously overcrowded. Developers are making huge profits in the meantime. Their good fortune should be passed to the school system they are impacting.

Please pass this bill and improve our facilities.

Opal Jones,

Dear Council members,

Our most precious resource in Howard County is our children. Growth in this county is not keeping pace with the financial obligations we have to ensure that our children are educated in well maintained, safe school environments. We desperately need the county council members supporting the school facility surcharge bill (CB42-2019). Developers have benefited much too long without contributing to the growth equitably.

Sincerely,

Teresa Dennison

Subject: (CB42-2019)

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

Good morning,

I am writing in support of CB42-2019, to increase the school facilities surcharge. It is unacceptable that developers are allowed to continue to overdevelop in Columbia without paying their fair share to maintain facilities. The current problem with school overcrowding is in part due to this unchecked development. Greed and politics cannot be worth more than our good schools and infrastructure. Hammond HS and Talbott Springs ES have waited long enough. Maybe if the county collected appropriate fees on new developments, we would have the funds to not only maintain and improve our Columbia schools, but to keep our kids in Columbia and not have to move them to schools out west just because development is slower out there.

It's high time we started to expect developers to pay their dues.

Thank you,

Subject: Our Children Deserve Better

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

I am extremely concerned about the continued deferred funding issues that remove crucial funding from our schools and from our children. As a resident and parent, it is disheartening that we adults have positioned our county to not be able to provide the best k-12 school experience in the nation. I urge you to vote in favor of CB42-2019 to ensure that educational funding is more than adequately administered but also, is calculated in a way that continues to support our children today and in the future. They deserve better and we need to do not only what is right, but what we have a responsibility as citizens to do.

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

Hello,

I'm writing to you in support of the school facility surcharge bill (CB42-2019). For too long developers have been undercharged (as compared to neighboring counties) and profiting off of the citizens of Howard County, who have been paying for it through the impacts this has had on the school system (and elsewhere, as these issues tend to ripple throughout the county budget). While it would be unfeasible to try to recoup the losses we have suffered thus far, the proposed bill fixes something that's been broken for far too long. The best time to have addressed this issue was years ago. The second best time to fix it is now.

Subject: Support bill CN42-2019 and the Hammond High Renovations

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

Please support bill CB42-2019 which will create more funding for capital projects like the Hammond High School Renovation. Please do not remove the money from the budget for the Hammond High School renovation. This renovation was brought to light in 2007, 2007!!! 12 years ago - this is unacceptable that many schools have gone ahead of us and now a new HS13 is being built and we can't even maintain the buildings we have. The funding for construction for the renovation and addition to Hammond High School must remain as a TOP PRIORITY project 2021 and no deferral in funding. Hammond High is the lowest rated facility in the school system. Our school is too small, is missing vital spaces for Special Education, the ONLY county high school without and auxiliary gym and is NOT ADA complaint. It is not equitable to have thousands of students go through this school knowing the deficits and continuing to postpone work on the school. The systems are old and failing. There is mold in the school. It is unconscionable to defer another seven or eight years when you have already spent funds on the design plans, and the have commitment of the school and broader community to the effort to move forward now.

I sincerely appreciate your time and support on this matter.

Thank you,
Shelley Mansolillo

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

Hello,

Please vote in support of CB42-2019.

For too long, the county has levied incredibly low impact fees on developers who are building new houses in our county. Without adequate impact fees, our county cannot support and sustain the infrastructure needed for our ever-increasing population. Please make the people responsible for adding costs to the county's infrastructure pay their fair share. Please stop making it so easy for developers to build without consequences.

I am concerned about the cost of mitigating storm water run-off from new construction sites and the impact of this on the environment.

I am concerned about the overcrowding in our schools and the constant need for redistricting in our county, leading our kids to lose their sense of community and belonging. The developers building the new huge development off of 103 near Bellows Springs project that NO families with children will move in. That is unlikely and the developer should share the cost of the increased enrollment at BSES as well as the added traffic on an already highly trafficked road.

I am saddened that our schools and teachers don't have access to all of the supplies and supports necessary to give our kids the best education possible, due to overcrowding and underfunding.

I am annoyed about the increasing traffic that makes getting across town a nightmare.

Please vote in favor of CB42-2019 to help keep Howard County the “best place to live in America”.

Thank you,

Tracy Stansbury

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Opal Jones,

I would like to thank you for supporting CB42-2019. So many of our school buildings are in need of either expansion or renovations. At Mount View Middle School, we desperately need another room for our music programs. In the last 4 years, our numbers have jumped from 6 ensembles totaling around 450 students to this year when we now have 9 ensembles totaling over 600 students, roughly 3/4 of the total school population. We currently only have 1 large and 1 medium sized rehearsal room. We have been forced to utilize the Park and Rec. room but since that technically is not our room, we have to strike the room every day and reset the next morning (which takes away from instruction time) so that Park and Rec. can use the room in the evening. This is just one example across the county and while I know it's not the largest priority, it does emphasize the need.

Thank you again for your support!

To our council members:

I support CB42.

Please pass it as written to support the schools in Howard County. Please require the developers to contribute to the school that their developments will attend.

Thank you,
Erin Lanthier

I support CB42 as written. I have three kids in the Howard county public school system and feel that something needs to be done to address the overcrowding in our schools. Thank you!

This bill will help mitigate the impact of exploitative development on our schools' infrastructure.

With proper funding, there would be less need for constant redistricting.

Raising these fees is a much needed lifeline for our children and our excessively overcrowded and woefully underfunded and understaffed schools. We need our paraeducators and other classroom aids back and fully funded at a minimum.

Make the developers pay their fair share up front. Stop subsidizing them with sorely low fees and cheating taxpayers down the road.

Enough of the short-sighted development in Howard County. Vote to raise the lopsided fees.

Dear County Council members,

I did not mean to send that email as written below. But since I did, I just want to say please SUPPORT CB-42 with no exemptions or grandfathering amendments.

I am a 21 year Ho Co homeowner and parent of HCPSS students (one now in college and one in high school). It's time for developers to pay their fair share to improve our roads and schools since they want to build here. Our overcrowding issues in our schools are out of control and really this should not have happened in the first place. Developers in neighboring counties pay higher fees than here. Level the playing field and stop leaving these burdens to the taxpayers like me.

Thank you,

Susan Defibaugh

Good Evening, parents, guardians, family members or friends of a Howard County Student. I need your help once again. The County Council will be making a crucial vote on Council Bill 42 in the next week. This bill will raise the surcharge fee paid by developers to a rate closer to what is needed to support our school system.

I really need you to take a minute or two and email the Council at councilmail@howardcountymd.gov and tell them you support CB42 as it is written.

You could say something like this, if you need the inspiration: "I support CB42, which raises the surcharge fee from approximately \$1.32 to \$6.80 (ideally as much to fully fund the capital needs), as written. I do not support any exemptions or grandfathering amendments. This bill is absolutely necessary for the financial support of our students and the furtherance of necessary upgrades to our brick and mortar facilities."

Individual testimony must be received by the County Council by Monday October 7th at noon! Opposition to this bill is fierce. The CC needs to hear from us!!

Please like, share, repost and comment on this post so we can get the maximum reach and get as many folks flooding the CC email boxes. It is time to ROAR!!!

Good evening,

I am writing in response to your crucial upcoming vote on Council Bill 42. This bill is essential to ensuring our school system has the needed funds to support our growing school-aged population. As a HCPSS teacher and parent, I fully support CB 42 as it is written. I do not support any exemptions or grandfathering amendments. This bill is overdue and it is time to ensure our schools have the needed funds. This bill is absolutely necessary for the financial support of our students and the furtherance of necessary upgrades to our brick and mortar facilities.

Thank you in advance for your support.

Dear County Council,

I fully support CB42 as written. I do not support any exemptions or grandfathering amendments. This bill is absolutely necessary for the financial support of our students and the furtherance of necessary upgrades to our brick and mortar facilities.

I am a resident of Talbott Springs in Oakland Mills and our community is desperately seeking the rebuild for TSES. The building has tested positive for lead levels in the water as well as mold throughout the school. I have heard of more and more students and staff experiencing allergies, ongoing illnesses, and medical reactions from spending time in various parts of the building. Everyone was awaiting the rebuild and practicing patience but now with the expected funding delay and displacement on the priority list, it truly raises significant concerns for the welfare of those that spend the most time in the building- our children, teachers, and school staff. This is a fundamental equity issue. The Oakland Mills cluster holds 1/5 of all the differed maintenance projects for the hcps. I know my kids will continue to experience crumbling buildings throughout their primary educational years.

For far too long, the County has allowed Fee In Lieu arrangements with developers and now poverty is concentrated in specific pockets of the county. This is unacceptable!!!! The citizens are suffering from the poor planning and a chronic lack of accountability.

The developer impact fees must be raised. Please support (continue to support) CB42.

Sincerely,
Stephanie Reid

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Dear Council Members:

I am writing to express my dismay over testimony relating to CB42- 2019. I strongly support the long overdue proposed increase of developers' fees, however I have the following concerns.

First I resent having the issue diluted once again with arguments about affordable housing. As a previous founder and director of a nonprofit organization I am as attuned to the needs of the disadvantaged as much as anyone. However, I feel the argument regarding affordable housing has one gaping hole. I hear repeatedly that the objective is to provide housing for those already residing in Howard County who are struggling. Isn't it true that we have nothing in place to guarantee that any affordable units being built (and potentially exempted from the developer fee) have any mechanism to assure that they will not, instead, go to individuals or families NEW to Howard County?

I would like to give you an observation from personal experience. At the North Laurel Senior Center I interact with several residents of a subsidized senior housing project in Emerson. From getting to know four of the residents better I was surprised that the facility appears largely occupied by persons who did not originally reside in Howard County. Two acquaintances had been living previously in the City of Laurel (Prince George's County) and one in Maryland City (Anne Arundel County). The one occupant from Howard County indicated she 'gave' her home in Oakland Mills to her son and then was eligible for supported housing at the Emerson facility. There certainly are seniors resident in surrounding North Laurel and Savage who I believe should have had preference for these units. Without a mechanism to limit occupancy of 'affordable units' (whether low or moderate income) to those currently residing in Howard County, I feel it is disingenuous to continue to use this developer scripted ploy to avoid paying a fair share for adequate public facilities. [I realize that the legislature exempted senior low income units, but this is what I can report from personal experience. If there IS a mechanism for restricting our other forms of "affordable" housing to current residents I'd love to be corrected.]

Why am I not in support of providing "affordable" units with no or reduced builders' fees for newcomers? Simply put, like many I believe one can't always have—or expect-- immediate gratification. When my husband and I were starting out I'd have loved to live and work and raise a family in Montgomery County. It wasn't in our budget so we chose not to struggle with living beyond our means and settled in Prince George's County instead. Over 19 years, employed in public service, we went from a garden apartment to a luxury high-rise to purchasing a town house, then a second, before getting the single family home we desired with the birth of a second child. Later we were able to build our own home in Howard County. During most of this time, while prices and salaries were lower, mortgage rates were MUCH higher, not making today's experience all that different. What is different, is that every unit being built in HoCo is a "luxury" unit involving luxury level costs!

I also bristle at hearing that "increases in developer fees will make housing '**unaffordable**' to more people." If we continue to add more people without greater financial participation from developers toward public facilities, I fear HoCo will become '**unlivable**.' I chuckle when developers threaten that if fees increase, they may stop building in HoCo. Don't they understand that that is exactly what many would like to see happen? We need a slow down to attempt to catch up on infrastructure needs, especially schools and roads.

Howard County has dug itself into a huge financial hole by facilitating development while ignoring public facilities. We simply cannot afford to exempt the fees on 'affordable' housing or to grandfather out developments in the pipeline. It's bad enough that there is not sufficient data to support estimates on the percentage of school attendees generated from new

vs. older housing, nor for that matter justification of how students from new homes are counted. While not perfect, I urge you to pass the bill as written and reevaluate in 2 to 3 years.

Sincerely,

Susan Garber
