PREFACE

This Code is a republication of the 1995 Edition of the Howard County Code to change format to double column and include Council Bills adopted through 2008.

The 1995 Edition of the Howard County Code was published by the Municipal Code Corporation, Tallahassee, Florida. It constitutes a republication of the 1977 Edition, with the provisions of the 1972-1973 Cumulative Supplement being added thereto. In addition, Council Bills adopted subsequent to the 1972-1973 Supplement have been added. The initial publication contains all such Bills adopted as of March 1, 1976.

No changes in the arrangement of Titles and Subtitles or the numbering system have been made. The section numbers are the same as used in the 1995 Edition, the 1977 Edition, the 1972-1973 Supplement and subsequent amendatory Council Bills. In some instances, the editors have added words in brackets [] for clarity.

Attention is directed to the comparative tables, for Public Local Laws and Council Bills, which appear at the end of the Code. These tables are new with this Edition and they will enable the user to locate, within the Code, all Public Local Laws and Council Bills included herein.

The Charter is included in the front of the volume for the convenience of the user of the Code. A comprehensive index has been prepared for the Charter and it appears immediately preceding the Code index. The Code, itself, has been completely reindexed.

A special feature of this Code to which the attention of the user is directed is the innovation of the looseleaf form of binding and supplemental servicing for the Code. With this new looseleaf system, the Code will be kept up-to-date periodically. Upon the final passage of amendatory bills, they will be properly edited and the page or pages affected will be reprinted. These new pages will be distributed to the holders of the Code with instructions for inserting the new pages and deleting the obsolete pages.

The publishers are most grateful to all County officials for their assistance and cooperation in the publication of this Edition of the Howard County Code.

ARTICLE II. - THE LEGISLATIVE BRANCH

Section 201. - Composition.

The legislative branch of the County government shall consist of the County Council and the officers and employees thereof.

Section 202. - The County Council.

The legislative power of the County is vested in the County Council of Howard County which shall consist of five members who shall be elected from the Councilmanic Districts.

- (a) *Mode of election.* Each of the members of the Council shall be nominated and elected by the qualified voters of the Councilmanic District in which he or she resides. Each Councilmanic District shall elect one Council member.
- (b) *Qualifications.*

1. In General. Each candidate for the council shall have resided in the County for a period of not less than two years immediately prior to nomination; shall be a registered voter; and shall be a resident of the Council District which the candidate seeks to represent at the time of filing for candidacy and during the full term of office; and shall not be less than twenty-five years of age at the time of election.

2. Other Offices or Employment. No person shall qualify or serve as a member of the council: while holding any other office of profit or trust of or under the State or County government; while employed by the County; or while employed by any agency, board, commission, unit or other entity which receives funds through the County budget. No member of the Council shall, during the whole term for which he or she was elected, be eligible for appointment to any County office or position or be eligible for employment by the County.

3. Forfeiture of Office. If a member of the Council ceases to be a qualified and registered voter of the County, moves his or her residence from the councilmanic district he or she was elected to represent, accepts any other office of profit or trust of or under the state or county government, becomes employed by the County or any other entity which receives funds through the County budget, or is convicted of any crime involving moral turpitude, he or she shall immediately forfeit his or her office.

- (c) *Term of office.* Members of the Council shall qualify for office on the first Monday in December following their election, or as soon thereafter as practicable and shall enter upon the duties of their office immediately upon their qualification. They shall hold office for a term of four years commencing at the time of their qualification and continuing until their successors shall qualify. A person who has been elected to the County Council three times or who has been elected to the County Council twice and has been appointed to fill a Council vacancy and served two or more years of that term shall be ineligible to be a candidate for the County Council. In determining eligibility of a candidate pursuant to this subsection, no term or part of any term served prior to the election of November 6, 1990, shall be used in calculating the limitation on number of terms a Council member may serve.
- (d) *Compensation and allowances.* Each member of the Council shall receive as compensation and allowances for the performance of public duties under this Charter the sum of not less than Seventy-eight Hundred Dollars (\$7,800.00) per annum and shall not accrue annual leave or be entitled to any payment in lieu thereof. The compensation and allowances shall be in full compensation for all services required by this Charter to be performed by the members of the Council, but shall not preclude reasonable and necessary expenses as may be provided in the budget. The County Council shall establish a Compensation Review Commission every four years to review the Council's compensation and allowances in accordance with the provisions of Article 25A Subsection 5(AA) of the Annotated Code of Maryland.
- (e) *Vacancies.* Unless provision for filling a vacancy by special election has been established by ordinance, a vacancy occurring in the office of the Council member prior to the expiration of his or her term shall be filled by the Council within thirty days after the vacancy occurs by the appointment of a person whose name is to be submitted in writing to the Council by the State Central Committee of Howard County representing the political party to which the previous member belonged at the time of the member's most recent election. If a name is not submitted by the appropriate State Central Committee within twenty-five days after the vacancy occurs or if the previous incumbent was not a member of a political party at the time of the member's most recent election, then the vacancy shall be filled by a majority vote of the remaining members of the Council. The member so appointed shall reside in the same Councilmanic District as his or her predecessor and shall possess and maintain the same qualifications as an elected Council member. The member so appointed shall serve the unexpired term of his or her predecessor.
- (f) *Redistricting.*

1. Boundaries.

The Council shall appoint, by resolution, not later than April 1 of the year after each decennial census date, a Councilmanic Redistricting Commission. The Central Committee of each political party which polled at least twenty-five per centum of the total vote cast for all the candidates for the Office of County Executive in the last preceding general election shall nominate three persons to serve on the Commission. The Council shall appoint all such nominees as members of the Commission as well as one additional member of the Commission. The Council shall appoint the Chairperson of the Commission from among the

Commission members. No person shall be eligible for appointment to the Commission who holds elective office.

By October 15 of the year in which the Commission is appointed, the Commission shall prepare a plan of Councilmanic Districts and shall present that plan to the Council. Within thirty days after receiving the plan of the Commission, the Council shall hold a public hearing on the plan. If by March 15 of the year following submission of the plan, no ordinance re-establishing the boundaries of the Councilmanic Districts has been enacted, then the plan as submitted by the Commission shall become law. Any Councilmanic District established in accordance with this Article shall be compact, contiguous, substantially equal in population, and have common interest as a result of geography, history, or existing political boundaries. Any ordinance establishing Councilmanic Districts shall be exempt from referendum.

The Board of Supervisors of Elections shall take any necessary steps to implement any such revisions of the Councilmanic District Boundaries so adopted.

(g) *Planning and zoning.*

1. Any amendment, restatement or revision to the Howard County General Plan, the Howard County Zoning Regulations or Howard County Zoning Maps, other than a reclassification map amendment established under the "change and mistake" principle set out by the Maryland Court of Appeals, is declared to be a legislative act and may be passed only by the Howard County Council by original bill in accordance with the legislative procedure set forth in Section 209 of the Howard County Charter. - (c) *Procedure for passage of laws.* A proposed law may be introduced by bill by any member of the Council during any legislative session of the Council; provided, however, that the Council may reject any proposed law on its introduction by a vote of two-thirds of its members. Every copy of each bill shall bear the name of the member or members of the Council introducing and co-sponsoring it and the date it was introduced for the consideration of the Council.

Not later than the next calendar day following the introduction of a bill, the Chairperson of the Council shall schedule a public hearing thereon.

Within twenty-four hours after the introduction of any bill, a copy thereof and notice of the time and place of the hearing shall be posted by the Administrator of the Council on an official bulletin board to be

maintained in a public place by the Council. Such public hearing shall commence not less than ten calendar days after its introduction. The hearing may, but need not be, held during a legislative session and may be recessed from time to time.

The title of each bill and the time and place of the hearing thereon shall be published once a week for two successive weeks in at least one newspaper of general circulation in the County, and in at least one electronic medium readily available to the public.

After the public hearing, as herein provided, a bill shall be finally passed during a legislative session, with or without amendment. If a bill is amended before it is passed and the amendment constitutes a change of substance, as determined by the affirmative vote of a majority of the Council, the bill shall not be passed until the title of the bill has been rewritten to reflect the substance of the amendment, a date for a public hearing is scheduled thereon and the revised title published in at least one newspaper of general circulation in the County, and in at least one electronic medium readily available to the public, setting forth the time and place of the hearing to be held thereon.

The title of each enacted bill shall be published once in at least one newspaper of general circulation in the County, and in at least one electronic medium readily available to the public.

A public hearing shall be held on all resolutions of confirmation of executive and Council appointments to all boards and commissions and in no event shall such resolution of confirmation be adopted less than twenty-five days after its introduction.

(d) *Procedure for passage of emergency laws.* To meet an immediate emergency affecting the public health, safety, or welfare, the Council may pass emergency bills. Every emergency bill shall be plainly designated as such, and shall contain, after the enacting clause, a declaration stating that an emergency exists and describing the claimed emergency in clear and specific terms. The term "emergency bill" shall not include any measure creating or abolishing any office; changing the compensation, term, or duty of any officer; granting any franchise or special privilege; or creating any vested right or interest.

Upon the introduction of an emergency bill, the Chairperson of the Council shall schedule a public hearing which shall take place not less than thirty-six hours after its introduction. The Administrator of the Council shall, within twelve hours after its introduction, post a copy thereof and notice of time and place of the hearing upon an official bulletin board to be maintained by the Council in a public place, and in at least one electronic medium readily available to the public.

In accordance with State law, the validity of emergency legislation shall not be affected if passed prior to the completion of advertising thereof. An emergency bill may be passed during any legislative session by an affirmative vote of two-thirds of the members of the Council. The effective date of all emergency bills shall be the date of their enactment.

(e) *Votes required.* No bill shall become law unless it be passed by the affirmative vote of a majority of the members of the Council, or such greater number as may elsewhere be required in this Charter, and on its final passage the yeas and nays and the names of members voting for and against the bill shall be recorded in the Journal.

(f) *Effective date of laws.* Except as otherwise provided in this Charter, all laws shall take effect sixty-one days after their enactment. The County Council may, by the affirmative vote of two-thirds of its members, pass legislation to be effective at a later date.

(g) *Executive veto.* Upon the passage of any legislation by the Council, with the exception of such measures as may in this Charter be made expressly exempt from the executive veto, the same shall be presented within three calendar days to the County Executive for his or her approval or disapproval, and within ten calendar days after such presentation the County Executive shall return any such legislation to the Council with his or her approval endorsed thereon or with a statement in writing of his or her reasons for not approving the same. Upon approval by the County Executive, any such legislation shall stand enacted. Any such legislation presented to the County Executive and returned with his or her veto may be reconsidered by the Council. The County Executive's objections shall be entered upon the Journal of the Council, and not later than at its next legislative session, the Council may reconsider the enactment thereof; and if two-thirds of the members of the Council vote

in the affirmative, the legislation shall stand enacted. Whenever the County Executive shall fail to return any such legislation within ten days after the date of its presentation to him or her, the Administrator of the Council shall forthwith record the fact of such failure in the Journal and such legislative act shall thereupon stand enacted. The County Executive may strike out or reduce any item in a supplementary appropriation bill and the procedure in such a case shall be the same as in the case of the veto of a bill by the County Executive.

(h) *Failure of bills.*

- (1) Subject to paragraph (2) of this subsection, any bill not passed within seventy calendar days after its introduction shall fail, unless, by affirmative vote of two-thirds of the members, the Council shall extend the deadline for another thirty-five days. The Council may approve a maximum of two such extensions for each bill.
- (2) (i) The deadline provided under paragraph (1) of this subsection is extended:
 1. To the next business day if the deadline falls on a Saturday, Sunday, or holiday on which the Council does not meet; and
 2. To the end of a rescheduled legislative session if a legislative session that was scheduled to occur on or before the deadline is postponed because of inclement weather or emergency conditions.
- (ii) The deadline is the end of a legislative session that begins on the last day of the period specified in paragraph (1) of this subsection or any extension of the period.

No contract for the purchase of real or leasehold property shall be made unless the funds therefor are included in the capital budget.

- (b) *Pensions in Year 1965 and Later.*
 - (1) Beginning in July 1965, Howard County joined the employees' retirement system of the State of Maryland and, later, the employees' pension system of the State of Maryland ("Maryland Systems"). The Maryland Systems covered Howard County officials and employees hired on or after July 1, 1965 and existing employees and officials as of June 30, 1965 who chose to join the Maryland Systems.

- (e) *Incentives for Retirement Effective April 8, 1996.*
 - (1) *Cash incentives.*

 - (iii) *Eligibility for group health insurance after November 30, 1997.*
 - a. Employees who elect to take a service retirement from the State systems, the Howard County Police and Fire Employee's Retirement Plan, or the Howard County Retirement Plan on April 8, 1996, and who are not otherwise entitled to purchase group health insurance under the County's Retiree Health Insurance Program, may elect to purchase group health insurance coverage from the County for a period of up to two years after November 30, 1997 as follows:

- (3) *Irrevocability of election to take service retirement on April 8, 1996.* For a period of seven days after an employee elects and agrees in writing to take a service retirement on April 8, 1996 under this subsection, the employee may revoke his or her election and agreement. Upon expiration of this seven-day revocation period, an employee's election and agreement to take a service retirement on April 8, 1996 shall be irrevocable.

Sec. 1.433. - Maximum limitation on benefits.

Notwithstanding any plan provisions to the contrary:

- (a) *Maximum Benefit.* To the extent necessary to prevent disqualification under Section 415 of the Internal Revenue Code, and subject to the remainder of this section 1.433, the maximum monthly benefit (exclusive of any benefit attributable to either employee contributions or rollover contributions) to which any participant may be entitled at any time pursuant to sections 1.428—1.432 of this subtitle (hereafter referred to as the "maximum benefit") shall be equal to 1/12 of the amount set forth in Section 415(B)(1)(A) of the Internal Revenue Code (such amount, as adjusted by c/l increases, hereafter referred to as the "monthly dollar limit"). The rate of benefit accrual shall be frozen or reduced accordingly.
- (b) *Actuarial Adjustment of Monthly Dollar Limit.* The monthly dollar limit shall be subject to actuarial adjustment as follows:
- (1) If the benefit is payable in any form other than a single life annuity or a qualified joint and survivor annuity (as defined for purposes of Section 415 of the Internal Revenue Code), the monthly dollar limit shall be reduced so that it is the actuarial equivalent of the single life annuity.
 - (2)
 - (i) With respect to a benefit beginning before age 62, the monthly dollar limit shall be reduced to the actuarial equivalent of a monthly benefit in the amount of the monthly dollar limit beginning at age 62.
 - (ii) Notwithstanding the foregoing, however, in no event shall the monthly dollar limit applicable to benefits beginning before age 62 be reduced for participants who have been credited with at least 15 years of creditable service:
 - a. As a full-time employee of the employer in a position providing police protection, firefighting services or emergency medical services;
 - b. In military service; or
 - c. In a combination of a. and b., above.
 - (3) With respect to a benefit beginning after age 65, the monthly dollar limit shall be increased so that it is the actuarial equivalent of the monthly dollar limit applicable to a benefit beginning at age 65.
 - (4) For purposes of this subsection (b), actuarial equivalent shall be as defined in section 1.406 of this subtitle, except that the interest rate assumption for purposes of a computation under paragraph (1) or (2) above shall not be less than five percent or any higher rate specified in the definition, and for purposes of a computation under paragraph (3) above shall not be greater than five percent or any lower rate specified in the definition.
 - (5) Applicable mortality table. This subsection shall apply to distributions with annuity starting dates on or after December 31, 2002.
 - (i) Notwithstanding any other plan provisions to the contrary, the applicable mortality table used for purposes of adjusting any benefit or limitation under Section 415(b)(2)(B), (C), or (D) of the Internal Revenue Code and the applicable mortality table used for purposes of satisfying the requirements of Section 417(e) of the Internal Revenue Code is the table prescribed in Revenue Ruling 2001-62.
 - (ii) For any distribution with an annuity starting date on or after the effective date of this section and before the adoption date of this section, if application of the amendment as of the annuity starting date would have caused a reduction in the amount of any distribution, such reduction is not reflected in any payment made before the adoption date of this section. However, the amount of any such reduction that is required under Section 415(b)(2)(B) of the Internal Revenue Code must be reflected actuarially over any remaining payments to the participant.
- (c) *Reducing Monthly Dollar Limit.* The monthly dollar limit shall be reduced (but not by more than 90 percent) by 1/10 th for each year of creditable service less than ten, considering only those years of creditable service during any part of which the participant was participating in the plan (including

those periods for which he or she elected to transfer service pursuant to section 1.417 of this subtitle).

- (d) *Other Reductions in Maximum Benefit.* In addition to the foregoing, the maximum benefit shall be reduced, and the rate of benefit accrual shall be frozen or reduced accordingly, to the extent necessary to prevent disqualification of the plan under Section 415 of the Internal Revenue Code, with respect to any participant who is also a participant in:
- (1) Any other tax-qualified pension plan maintained by the employer, including a defined benefit plan in which an individual medical benefit account (as described in Section 415(1) of the Internal Revenue Code) has been established for the participant;
 - (2) Any welfare plan maintained by the employer in which a separate account (as described in Section 419A(d) of the Internal Revenue Code) has been established to provide post-retirement medical benefits for the participant; and/or
 - (3) Any retirement or welfare plan, as aforesaid, maintained by a related employer, as described in Section 414(b), (c), (m) or (o) of the Internal Revenue Code.

(C.B. 21, 1995; C.B. 100, 1995; C.B. 20, 2002, § 2; C.B. 6, 2004, § 2; C.B. 21, 2008, § 1)

Sec. 1.434. - Post-termination changes.

Any change in benefits provided for by amendment to the plan shall not apply to any participant whose termination date with the employer occurred prior to the effective date of such amendment, except as otherwise specifically provided for in the plan or in such amendment.

(C.B. 21, 1995; C.B. 100, 1995)

Sec. 1.435. - Cost of living adjustments.

- (a) *Monthly Retirement Income Subject to Cost of Living Adjustment.* Notwithstanding the foregoing, but subject to the limitations set forth in section 1.433, the monthly retirement income of a participant who has reached his or her benefit commencement date, as otherwise computed pursuant to section 1.428, 1.429, 1.430, 1.431, 1.432, or 1.437 (whichever is applicable), shall be subject to the cost of living adjustment described in this section 1.435.
- (b) *Computation of Cost of Living Adjustment.*
- (1) As of each July 1 (hereafter referred to as the "valuation date") which occurs during the period beginning on the first valuation date occurring at least 12 months subsequent to the participant's benefit commencement date and ending on the date of death, the participant's then monthly retirement income shall be multiplied by a fraction:
 - (i) The numerator of which is the consumer price index (as defined in subsection (c) of this section) as of such valuation date; and
 - (ii) The denominator of which is the lesser of the numerator or the consumer price index (as defined in subsection (c) of this section) as of the immediately preceding valuation date;
 - (2) Provided, however, that no such cost of living adjustment shall cause a participant's monthly retirement income to exceed an amount equal to the participant's monthly retirement income as of his or her benefit commencement date compounded at the annual rate of three percent as of each of the valuation dates (including the valuation date for which the adjustment is being made) which have occurred subsequent to his or her benefit commencement date.
- (c) *Definition of Consumer Price Index.*

- (1) The consumer price index to be used is the index for "All Urban Consumers (CPI-U) Washington-Baltimore, DC-MD-VA-WV—All items—November 1996=100" published by the Bureau of Labor Statistics; and the Consumer Price Index as of any valuation date means the index reading on the last day of March preceding such valuation date.
 - (2) In the event the Bureau of Labor Statistics abandons publication of the index for "All Urban Consumers (CPI-U) Washington-Baltimore, DC-MD-VA-WV—All items—November 1996=100" the County shall adopt any other index which, in its judgment, provides an accurate measure of cost-of-living changes.
- (d) *Monthly Survivor Benefits Subject to Cost of Living Adjustments.* All survivor benefits payable pursuant to section 1.439 (but only if payable in the form of a monthly income) shall be granted the cost of living adjustments provided in this section 1.435.

(C.B. 21, 1995; C.B. 7, 1996; C.B. 26, 1999; C.B. 30, 2002, § 1; C.B. 14, 2012, § 1)

Sec. 1.436. - Pick-up contribution benefit.

(a) *Definitions.*

- (1) *Additional contributions*, for the purposes of this section, means the portion of pick-up contributions made by the participant to the Employees' Retirement System of the State of Maryland prior to July 1, 1995 that would have provided an additional benefit to the participant (pursuant to section 3-405 of the State Personnel and Pension Article of the Annotated Code of Maryland) had the participant transferred to the Employees' Pension System of the State of Maryland and remained a member of the Employees' Pension System of the State of Maryland instead of electing to participate in this plan, plus earnings credited upon such contributions under the Employees' Retirement System of the State of Maryland.
- (2) *Pick-up contributions benefit*, for the purposes of this section 1.436, means the sum of the following amounts:
 - (i) The additional contributions; plus
 - (ii) Interest on the additional contributions computed on June 30 of each year as follows and compounded annually:
 - a. 0.42 percent per month for any amount transferred during the current plan year.
 - b. Five percent of any amount transferred prior to the current plan year.

A participant shall at all times be 100 percent vested in his or her pick-up contributions benefit.

- (b) *Eligibility* means a participant who has elected to receive credit for service under the Maryland State Retirement Systems pursuant to subsection 1.417(d) and whose "additional contributions" have been transferred to this plan shall be entitled to receive, at the participant's benefit commencement date, in addition to the monthly retirement income pursuant to section 1.428, 1.429, 1.430, 1.431 or 1.432 (whichever applicable), the pick-up contributions benefit.
- (c) *Form of benefit* means a participant entitled to receive the pick-up contributions benefit shall elect, pursuant to subsection 1.443(b) whether to receive such benefit in the form in which the participant has elected to receive the monthly retirement income otherwise payable under the plan or in a lump sum distribution.

(C.B. 21, 1995)

Sec. 1.437. - 1996 early retirement incentives.

- (a) *Eligibility.* The retirement benefit of a participant who was a participant in the plan on or before April 1, 1996 may be determined under this section if:
- (1) The participant elects, in writing to reach a termination date and retire from employment with the County on April 8, 1996 and to have the amount of his or her benefit determined under this section;
 - (2) The participant does not revoke the election during the seven-day period following April 8, 1996;
 - (3) At the time of making the election described in paragraph (1) of this subsection, the participant attained either:
 - (i) The participant's normal retirement date; or
 - (ii) The participant's early retirement date;
 - (4) The participant has not previously applied, or is not, coincident with the application described in this section, applying for a disability retirement benefit described in section 1.431 of this subtitle; and
 - (5) The participant acknowledges that the participant has not reached a termination date by reason of total and permanent disability as defined in subsection 1.431(e)(4) of this subtitle.
- (b) *Early Retirement Benefits.* A participant's election under subsection (a) of this section shall be an election of one of the following retirement benefits:
- (1) *Option 1—Adjusted actuarial reduction.* A participant electing to receive payments under this paragraph shall be entitled to receive a monthly retirement benefit equal to the benefit computed pursuant to section 1.428 (based upon his or her actual years of creditable service, average compensation and covered compensation as of April 8, 1996), but subject to a reduction equal to 0.25 percent per month for each month by which the participant's benefit commencement date precedes the first day of the month coincident with or next following the date on which the participant attains age 62.
 - (2) *Option 2—Additional years of creditable service.* A participant electing to receive payments under this paragraph shall be entitled to receive a monthly retirement benefit equal to the benefit computed pursuant to section 1.428 or 1.429, based upon:
 - (i) The participant's actual average compensation and covered compensation as of April 8, 1996; and
 - (ii) The participant's years of creditable service as of April 8, 1996, plus:
 - a. Two years of creditable service, if the participant has less than 25 years of creditable service as of April 8, 1996; or
 - b. Three years of creditable service if the participant has 25 or more years of creditable service as of April 8, 1996.
 - (3) *Option 3—Social Security bridge payment.*
 - (i) *Payment in addition to monthly benefit.* A participant electing to receive payments under this paragraph shall be entitled to receive a Social Security bridge payment in addition to the monthly retirement benefit equal to the benefit computed pursuant to section 1.428 or 1.429 of this subtitle (based upon his or her actual years of creditable service, average compensation and covered compensation as of April 8, 1996).
 - (ii) *Determination of amount of payment.* For purposes of this paragraph, a "Social Security bridge payment" is an amount actuarially determined to equal, as of the date the participant attains age 62 and, after annual adjustments for cost of living pursuant to section 1.435, the participant's anticipated monthly benefit at age 62 under Title II of the Social Security Act, and which is actuarially reduced to reflect the participant's election of a

form of payment that provides for continuation of payments to a designated beneficiary following the participant's death.

(iii) *Duration of payment:*

- a. *Benefits not continuing to beneficiary.* If a participant electing a Social Security bridge payment under this paragraph elects to receive payment of retirement benefits in a form that does not provide for continuation of payments to a designated beneficiary following the participant's death, Social Security bridge payments continue to be paid until the earlier of:
 1. The first day of the month coincident with or preceding the participant's 62nd birthday; or
 2. The first day of the month coincident with or preceding the participant's death.
- b. *Benefits continuing to beneficiary.* If a participant electing a Social Security bridge payment under this paragraph elects to receive payment of retirement benefits in a form that provides for continuation of payments to a designated beneficiary following the participant's death, Social Security bridge payments shall continue to be paid until the earlier of:
 1. The first day of the month coincident with or preceding the participant's 62nd birthday, or what would have been the participant's 62nd birthday if the participant dies before attaining age 62; or
 2. The first day of the month coincident with or preceding the date of death of the last to die of the participant and the participant's beneficiary.

Sec. 1.438. - Reserved.

ARTICLE IV. - DEATH BENEFITS

Sec. 1.439. - Death benefits.

The only benefits payable under the plan in the event of the death of a participant shall be as follows:

- (a) *General Benefit.* In the event of the death of a participant prior to his or her benefit commencement date, the participant's beneficiary shall be entitled to receive as a single lump sum the benefit described in paragraph (1) plus that described in paragraph (2), where:
 - (1) Is an amount equal to the participant's employee contributions benefit and pick-up contributions benefit pursuant to section 1.436; and
 - (2) Is an amount equal to the participant's annualized compensation determined as of the date of death; provided, however, that the benefit provided by this paragraph (2) shall be payable only if the participant had died before his or her termination date and either after completing one year of eligibility service or while in the line of duty (as defined in subsection (c) of this section 1.439).
- (b) *Surviving Spouse Annuity Benefit.*
 - (1) If all of the following conditions are met, then the surviving spouse of a deceased participant shall be entitled to receive a survivor annuity, in lieu of any other plan benefit:
 - (i) The participant is married on the date of death;
 - (ii) The participant's death occurs before his or her termination date;
 - (iii) The participant has designated his or her surviving spouse as the participant's only primary beneficiary;

- (iv) The participant attained age 62 before his or her death or would have been eligible to receive either normal retirement benefits pursuant to section 1.428 or early retirement benefits pursuant to section 1.429 had the participant retired on the day before his or her death; and
 - (v) The spouse does not elect to receive the benefit provided in subsection (a) above.
- (2) For purposes of this subsection (b), a survivor annuity is a monthly income commencing on the first day of the month coincident with or next following the date of the participant's death, and continuing for the remainder of the spouse's life, in an amount equal to the benefit the spouse would have received under an immediate joint and survivor annuity pursuant to subsection 1.442(a) (with a 100 percent survivor benefit) had the participant retired on the day before death, but computed without actuarial reduction for early retirement.
- (c) *Line of Duty Definition.* For purposes of this section 1.439, the term "line of duty" means death from an injury or illness which has been sustained as an active covered individual and which has been ruled compensable under the Maryland Workers' Compensation Act. Line of duty does not include death from an injury or illness which has been sustained during military service.
- (d) *Benefits Payable after Benefit Commencement Date.* If a participant dies after his or her benefit commencement date, the benefits, if any, to which the participant's beneficiary shall be entitled shall depend upon the form in which the participant's benefits were payable at the time of his or her death, under the applicable form of benefit described in section 1.442 of this subtitle.
- (e) *Death While on Leave of Absence.* The beneficiary of a participant who dies while on a leave of absence (including, effective January 1, 2007, participant who dies while on a leave of absence for military service) shall be entitled to receive death benefits pursuant to this section 1.439.

(C.B. 21, 1995; C.B. 26, 1999; C.B. 30, 2002, § 1; C.B. 12, 2013, § 5)

Sec. 1.440. - Limitations.

All death benefits payable pursuant to section 1.439 shall be distributed only in accordance with final regulations published by the Internal Revenue Service under Section 401(a)(9) of the Internal Revenue Code. To the extent required thereby, such benefits shall be distributed in full not later than the last day of the calendar year containing the fifth anniversary of the death of the participant, except as follows:

- (a) *Distributed over Lifetime of Beneficiary.* Unless the participant or the participant's beneficiary irrevocably elects pursuant to any elective provision which may be then present in the plan (which election must be prior to the earliest date on which distribution would be otherwise required pursuant to this section 1.440) to have the aforesaid five year limit apply, benefits payable to or for the benefit of the participant's beneficiary, and which begin not later than the last day of the calendar year containing the first anniversary of the participant's death, may be distributed over the life of the beneficiary or a period certain not extending beyond the life expectancy of the beneficiary, under a method of distribution which meets the requirements of subsection 1.443(a). The life expectancy shall be based upon the beneficiary's attained age as of the beneficiary's birthday in the calendar year in which falls:
- (1) The date on which nonannuity benefits are required to commence pursuant to this subsection (a); or
 - (2) If earlier, the date on which annuity benefits actually commence.
- (b) *Surviving Spouse.* If the participant's beneficiary is the participant's surviving spouse, then, unless the participant or his or her spouse irrevocably elects pursuant to any elective provision which may be then present in the plan (which election must be prior to the earliest date on which distribution would be otherwise required pursuant to this section 1.440) to have the aforesaid five-year limit apply, benefits payable to or for the benefit of the spouse, and which begin not later than the later of the last day of the calendar year containing the first anniversary of the participant's death, or the last

day of the calendar year in which the participant would have reached age 70½, may be distributed over the life of the spouse or a period certain not extending beyond the life expectancy of the spouse, under a method of distribution which meets the requirements of subsection 1.443(a). The life expectancy shall be based upon the spouse's attained age as of the spouse's birthday in the calendar year in which falls:

- (1) The date on which non-annuity benefits are required to commence pursuant to this subsection (b); or
 - (2) If earlier, the date on which annuity benefits actually commence.
- (c) *Surviving Spouse Dies Prior to Commencement of Benefits.* If benefits are payable in accordance with subsection (b) above, and the surviving spouse dies after the participant but prior to:
- (1) The date on which nonannuity benefits are required to commence pursuant to subsection (b) above; or
 - (2) The date on which annuity distributions meeting the requirements of subsection (b) above actually commence, then, in either case, the aforesaid five-year limit, and the alternate limit set forth in subsection (a) of this section 1.440, are to be applied as if the spouse were the participant, so that such limits shall be measured from the death of the spouse.
- (d) *When Annuity Benefits Commence before Participant's Death.* If annuity benefits meeting the requirements of subsection 1.443(a) had commenced prior to the participant's death, then the death benefits payable pursuant to section 1.442 may be distributed without regard to the aforesaid five-year limit, but must be distributed at least as rapidly as they would have been under the pre-death method of distribution.

(C.B. 21, 1995; C.B. 21, 2008, § 2)

Sec. 1.441. - Method of payment.

- (a) All benefit distributions shall be in cash (or in annuity contracts as provided herein).
- (b) The County shall determine, in its discretion, whether the distribution shall be funded through periodic payments made directly from the trust, or through the purchase of annuity contracts, or whether a combination of such methods of distribution shall be used, and the County shall give to the trustees such directions and information as may be necessary for the trustees to carry out the decision of the County.
- (c) If the County shall determine that the whole or any part of the distribution is to be funded through purchase of an annuity contract for a participant, the County shall select such form of contract (including a variable annuity) to be so purchased and shall direct the trustees to pay the premium of such contract to the issuing company.
- (d) The County shall direct that all right, title and interest in such contract shall remain in the trustees under the terms of the plan and the participant shall have no right, title or interest therein except to receive the payments therefrom as provided therein, and to change the beneficiary from time to time.
- (e) Alternatively, the County may direct that the contract shall be purchased in the name of the participant and distributed to him or her free and clear of the trust, in which case:
 - (1) The contract shall be issued so as to be nontransferable;
 - (2) It shall not contain a death benefit in excess of the death benefit provided in section 1.439 hereof or in section 1.442; and
 - (3) It shall not contain provisions that expand upon, change or eliminate any plan provisions applicable to distributions in annuity form.

(C.B. 21, 1995)

Sec. 1.442. - Optional forms of benefit.

A participant, subject to the conditions hereinafter set forth and in subsection 1.431(e)(3), may elect to receive, in lieu of the normal monthly form of retirement income described in section 1.428, a benefit, which is its actuarial equivalent, payable in any of the following forms:

(a) *Joint and Survivor Option.*

- (1) The joint and survivor option is a monthly income payable during the participant's lifetime and continuing after his or her death at either 50 percent or 100 percent (as elected by the participant) of the rate to the participant's spouse as of the participant's benefit commencement date for the remainder of such spouse's life.
- (2) If, before the participant's benefit commencement date, the participant's spouse dies or the participant becomes divorced from the spouse, the election shall thereupon become void.
- (3) If, after the participant's benefit commencement date, the participant's spouse dies before the participant dies or the participant becomes divorced from his or her spouse, the election shall remain effective and the participant shall continue to receive the reduced retirement income payable to the participant in accordance with the option.

(b) *Pop-Up Option.*

- (1) The pop-up option is a monthly income payable during the participant's lifetime and continuing after the participant's death at either 50 percent or 100 percent (as elected by the participant) of the rate to the participant's spouse as of the participant's benefit commencement date for the remainder of such spouse's life.
- (2) If, before the participant's benefit commencement date, the participant's spouse dies or the participant becomes divorced from the spouse, the election shall thereupon become void.
- (3) If, after the participant's benefit commencement date, the participant's spouse dies before the participant dies or the participant becomes divorced from the spouse, the election shall likewise become void, and the participant shall receive, commencing on the first day of the month following the spouse's death (or divorce), the monthly benefit which the participant would have received had his or her benefits originally been payable in the normal form of payment described in section 1.428; such benefit shall thereafter be payable as a life only option.

(c) *Guaranteed Return of Accrued Benefit Option.* The guaranteed return of accrued benefit option is a monthly income payable during the participant's lifetime, and if upon the death of the participant he or she has not received total monthly payments equal to the actuarial equivalent present value of the participant's accrued benefit, the difference between the actuarial equivalent present value and the total monthly payments shall be paid in a single lump sum payment to the participant's designated beneficiary as soon as administratively feasible following the participant's death.

(d) *Guaranteed Return of Employee Contributions Benefit Option.* The guaranteed return of employee contributions benefit option is a monthly income payable during the participant's lifetime, and if upon the death of the participant he or she has not received total monthly payments equal to the participant's employee contributions benefit, the difference between the employee contributions benefit and the total monthly payments shall be paid in a single lump sum payment to the participant's designated beneficiary as soon as administratively feasible following the participant's death.

(e) *Special Option.* At the sole discretion of the Administrator upon a written request to the coordinator, a participant may elect a form of benefit, with respect to benefits payable during his or her lifetime and/or with respect to benefits payable to his or her spouse or another designated beneficiary after the participant's death, other than those forms of benefits described in subsections (a)—(d), above.

(f) *Lump Sum Option.* The lump sum option is a cash-out of the participant's employee contributions benefit in lieu of all other benefits under the plan, as described in subsections (c) and (d) of section 1.432.

(C.B. 21, 1995; C.B. 24, 2006, § 4)

Sec. 1.443. - General provisions applicable to options.

- (a) *Minimum Distribution Requirements.* Notwithstanding any other provision in the plan to the contrary, distribution shall be made only in accordance with Section 401(a)(9) of the Internal Revenue Code and the Final Regulations published thereunder. To the extent required thereby, distribution of benefits shall comply with the following limitations:
- (1) (i) Except as otherwise provided below, distribution shall begin not later than April 1 following the later of (a) the calendar year (hereinafter referred to as the "commencement year") in which the participant reaches age 70½ and (b) the year in which he or she retires.
 - (ii) Distribution shall be made:
 - a. Over the life of the participant or the lives of the participant and his or her beneficiary; and/or
 - b. Over a period certain not extending beyond the life expectancy of the participant or the joint life and last survivor expectancy of the participant and his or her beneficiary, or, if shorter, the alternate period, all as described in Treasury Regulation 1.401(a)(9)-6.
 - (2) A required distribution shall be deemed to have been made during the commencement year if actually made by the following April 1, but such delayed distribution shall not change the amount of such distribution, and the distribution otherwise required during the subsequent calendar year shall be calculated as if the first distribution had been made on the last day of the commencement year.
 - (3) Benefits paid prior to the commencement year shall reduce the aggregate amount subject to (but shall not otherwise negate) the minimum distribution requirements described herein.
 - (4) Nothing contained in this subsection (a) shall prevent distribution of annuity benefits providing for nonincreasing (except as otherwise permitted in Treasury Regulation 1.401(a)(9)-6) payments beginning not later than the commencement year (except as provided in paragraph (3) above) and payable at least annually over a period permitted by this subsection (a) (for which purpose, if benefit commencement under the annuity precedes the commencement year, each relevant life expectancy shall be based on the individual's attained age as of his or her birthday occurring in the calendar year in which benefit commencement occurs).
- (b) *Election Procedures.* An election of any optional form of benefit described in section 1.442 shall be made by a participant in writing, on a form supplied by or to the coordinator. Upon the participant's benefit commencement date, such election (including the designation of a beneficiary) shall be irrevocable.
- (c) *Effect of Death.* In the event of the death of a participant prior to his or her benefit commencement date, no benefits shall be payable to the participant's spouse or other beneficiary except as provided in section 1.439, regardless of whether or not the participant has elected an optional form of benefit pursuant to section 1.442.

(C.B. 21, 1995; C.B. 6, 2004 § 2; C.B. 21, 2008, § 2)

Sec. 1.444. - Eligible rollover distributions.

Notwithstanding any provision of the plan to the contrary that would otherwise limit a distributee's election under this section, a distributee may elect, at the time and in the manner prescribed by the Administrator, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(a) *Definitions.*

- (1) *Eligible rollover distribution* means any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include any distribution:
 - (i) Any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten years or more;
 - (ii) Any distribution to the extent such distribution is required under Section 401(a)(9) of the Internal Revenue Code; and
 - (iii) The portion of any distribution that is not includable in gross income (determined without regard to the exclusion for net unrealized appreciation with respect to employer securities).
- (2) *An eligible retirement plan* is:
 - a. An individual retirement account described in Section 408(a) of the Internal Revenue Code;
 - b. An individual retirement annuity described in Section 408(b) of the Internal Revenue Code; or
 - c. A qualified trust described in Section 401(a) of the Internal Revenue Code, that accepts the distributee's eligible rollover distribution, or
 - (ii) For distributions made after December 31, 2001, an eligible retirement plan also includes:
 - a. An annuity contract described in Section 403(b) of the Internal Revenue Code; or
 - b. An eligible plan under Section 457(b) of the Internal Revenue Code which is maintained by a State, political subdivision of a State, or any agency or instrumentality of a State or political subdivision of a State and which agrees to separately account for amounts transferred into such plan from this plan.
 - (iii) For distributions made after December 31, 2007, an eligible retirement plan also includes a Roth IRA described in Section 408A of the Internal Revenue Code.
 - (iv) However, in the case of an eligible rollover distribution to the surviving spouse of a participant or former participant, an eligible retirement plan is an individual retirement account or individual retirement annuity.
- (3) *Distributee* includes a participant or former participant. In addition, the participant's or former participant's surviving spouse is a distributee with regard to the interest of the spouse or former spouse.
- (4) *Direct rollover* means a payment by the plan to the eligible retirement plan specified by the distributee.
- (5) *Spouse.* For purposes of this section 1.444, spouse means spouse as defined under Federal law.

ARTICLE V. - TRUSTEES AND BENEFICIARIES

Sec. 1.448. - Designation of beneficiaries.

- (a) *Participant Designates Beneficiary.* Each participant may designate a beneficiary or beneficiaries (who may be named contingently or successively) to receive such benefits as may be payable under the plan upon or after the participant's death, and, subject to the provisions of subsection 1.443(b), such designation may be changed from time to time by the participant by filing a new designation.
- (b) *Revocations; Form of Designation; Filed with Coordinator.* Each designation shall revoke all prior designations by the same participant, shall be in form prescribed by the County, and shall be effective only when filed in writing with the coordinator prior to the participant's benefit commencement date.
- (c) *Absence of Valid Beneficiary Designation.* In the absence of a valid beneficiary designation (except in conjunction with the election of a form of benefit payment which does not require the designation of a specific beneficiary), or if, at the time any benefit payment is due to a beneficiary, there is no living beneficiary validly named by the participant eligible to receive the payment, the County shall direct the trustees to distribute any such benefit payment to:
 - (1) The participant's spouse, if then living; otherwise to
 - (2) The participant's then living descendants, if any, per stirpes; otherwise to
 - (3) The participant's then living parent or parents, equally; otherwise to
 - (4) The participant's estate.
- (d) *Question Regarding Right of a Person to Receive a Benefit Payment.* In determining the existence or identity of anyone entitled to a benefit payment, the County and the trustees may rely conclusively upon information supplied by the participant's personal representative. In the event of a lack of adequate information being supplied to the County, or in the event that any question arises as to the right of any person to receive a benefit payment as aforesaid, or in the event that a dispute arises with respect to any such payment, then, notwithstanding the foregoing, the County, in its sole discretion, may, in complete discharge of the County and the trustees, and without liability for any tax or other consequences which might flow therefrom, direct the trustees to:
 - (1) Distribute the payment to the participant's estate,
 - (2) Retain such payment, without liability for interest, until the rights thereto are determined, or
 - (3) Deposit the payment into any court of competent jurisdiction.

(C.B. 21, 1995)

Sec. 1.449. - Location of participants and beneficiaries.

Except for the employer's sending of a registered letter to the last known address, neither the trustees nor the employer shall be obliged to search for any participant or beneficiary.

- (b) *Distribution to Next of Kin if Participant or Beneficiary Fails to Claim Amount.* If the employer notifies any participant or beneficiary that he or she is entitled to an amount under the plan and the participant or beneficiary fails to claim such amount or make his or her location known to the coordinator within three years thereafter, then, except as otherwise required by law, if the location of one or more of the next of kin of the participant, including the participant's surviving spouse, is known to the employer, it may direct distribution of such amount to any one or more or all of such next of kin, and in such proportions as the employer determines.
- (c) *If Location of Participant, Beneficiary, or Next of Kin Cannot Be Determined.* If the location of none of the foregoing persons can be determined, the County shall have the right to direct that the amount payable shall be deemed to be a forfeiture and treated in accordance with section 1.424, except that the dollar amount of the forfeiture, unadjusted for gains or losses in the interim, shall be reinstated if a claim for the benefit is made by the participant or beneficiary to whom it was payable. If any benefit payable to an unlocated participant or beneficiary is subject to escheat pursuant to applicable State law, neither the trustees nor the employer shall be liable to any person for any payment made in accordance with such law.

- (b) Such contributions, all investments made therewith and proceeds thereof and all earnings and profits thereon, less the authorized disbursements therefrom, shall constitute the trust, which trust, and the agreement under which it is maintained, shall in all respects constitute a part of the plan.
- (c) The County reserves the right to select, and from time to time to change, the trustees, to amend the trust with the consent of the trustees, or to adopt a different funding vehicle.

(C.B. 21, 1995)

It shall be impossible by operation of the plan or trust, by natural termination of either, by power of revocation or amendment, by the happening of any contingency, by collateral arrangement or by other means, for any part of the corpus or income of the trust, or any funds contributed thereto, to inure to the benefit of the employer or otherwise be used for or diverted to purposes other than providing benefits to participants and beneficiaries and defraying reasonable expenses of administering the plan, except as otherwise set forth in subsection 1.469(c)(5) hereof and in the trust with respect to the conditions under which trust assets may be returned to the employer.

(C.B. 21, 1995; C.B. 100, 1995)

 - (iii) Require the plan to provide a type or form of benefit or benefit option not otherwise provided under the plan;
 - (iv) Provide for payment of benefits to a payee which commence before the commencement of benefit payments to the participant;

 - (17) To act for the County before all persons in any matter directly pertaining to the plan.
- (b) *Limits on Power.* The Administrator shall have no power to:
- (1) Amend or terminate the plan;
 - (2) Determine employer contributions;
 - (3) Exercise authority to direct the trustees with respect to the investment of the trust;
 - (4) Affect the employer-employee relationship between the employer and any employee; or
 - (5) Retain and/or discharge the trustees,
- all of which powers are reserved to the County unless expressly granted to the Administrator.
- (c) *Fiduciary Duties, Powers and Responsibilities.* Fiduciary duties, powers and responsibilities (other than those reserved to the trustees, with respect to management or control of trust assets) may be allocated among the fiduciaries (if there be more than one) to whom such duties, powers and responsibilities have been delegated, so long as such allocation is pursuant to action of the County or by written agreement executed by the involved fiduciaries and approved by the County, in which case such fiduciary shall not have any liability, with respect to any duties, powers or responsibilities not allocated to him or her, for the acts or omissions of any other fiduciary. Any person may serve in more than one fiduciary capacity under the plan, including those of Administrator and trustee.
- (d) *Specialized Advice or Assistance.*

both ministerial and discretionary, as it deems appropriate, to the specified employee of the County who shall be designated by the Personnel Administrator of the County to assist the Administrator (the "coordinator"), and in the same manner to revoke any such delegation of duties, powers or responsibilities.

- (ii) Any action of the coordinator in the exercise of such delegated duties, powers or responsibilities shall have the same force and effect for all purposes hereunder as if such action had been taken by the Administrator.
 - (iii) Further, the Administrator may authorize the coordinator to execute any certificate or document on behalf of the Administrator, in which event any person notified by the Administrator of such authorization shall be entitled to accept and conclusively rely upon any such certificate or document executed by such person as representing action by the Administrator until such third person shall have been notified of the revocation of such authority.
 - (iv) The Administrator shall not be liable for any act or omission of any person to whom the Administrator's duties, powers or responsibilities have been delegated, nor shall any person to whom any duties, powers or responsibilities have been delegated have any liabilities with respect to any duties, powers or responsibilities not delegated to him or her.

The plan shall indemnify and hold harmless each such individual from the effects and consequences of his/her acts, omissions and conduct in his/her official capacity with respect to the plan, except to the extent that such effects and consequences shall result from his/her own willful misconduct or gross negligence; provided, however, that any person who shall claim the right to any payment or damage as a result of the actions of any individual in connection with the performance of the individual's duties pertaining to the plan shall be entitled to look only to the trust fund created by the plan for payment. Such person shall have no other right, claim or demand therefor against the County.

- (f) *Liability Insurance.*
- (1) The plan may purchase, from plan assets, as an expense of the plan, liability insurance for the plan and/or for its fiduciaries to cover liability or losses occurring by reason of an act or omission of a fiduciary, providing such insurance contract permits recourse by the insurer against the fiduciary in the case of breach of fiduciary obligation by such fiduciary.
 - (2) Any fiduciary may purchase, from and for his/her own account, insurance to protect himself or herself in the event of a breach of fiduciary duty and the County may also purchase insurance to cover the potential liability of one or more persons who serve in a fiduciary capacity with regard to the plan.
- (g) *Fiduciary's Benefits.* Nothing in the plan shall be construed so as to prevent any fiduciary from:
- (1) Receiving any benefit to which the fiduciary may be entitled as a participant or beneficiary; or
 - (2) Receiving any reasonable compensation for services rendered, or for the reimbursement of expenses properly incurred in the performance of his/her duties under the plan (except that no person so serving who receives compensation as an employee shall receive compensation from the plan, except for reimbursement of expenses properly incurred); or

- (3) Serving as a fiduciary in addition to being an officer, employee, agent, or other representative of the County or any related entity.

However, the fiduciary shall not be entitled to vote or act upon, or execute on behalf of the plan documents specifically relating to, his/her own participation in the plan.

- (a) Except as provided in section 1.485 et seq. of this subtitle relating to the Police and Fire Pension Plan, all rights, benefits and obligations of officers or employees of the employer with respect to pensions or retirement are provided under the terms of this plan, and this plan supersedes and prevails over the terms of any rule, regulation, resolution, or ordinance concerning such matters.
- (b) The County shall have the right to amend the plan, at any time by amendment to the Howard County Code, and all parties claiming any interest under this plan shall be bound thereby. Notwithstanding any other provision of County law, no County resolution or ordinance which relates to the subject matter of the plan or conflicts with, narrows, or expands any term of this plan shall be effective unless the County acts by ordinance which specifically amends the provisions of this subtitle and which has been passed in accordance with the procedures set forth in subsection 1.482(c)(2) hereof. No amendment which affects the rights, duties, responsibilities or immunities of the trustees shall be binding upon the trustees in the absence of their consent thereto.

(C.B. 21, 1995; C.B. 100, 1995)

Sec. 1.466. - Right to terminate.

It is the present intention of the County to maintain the plan throughout the County's existence. Nevertheless, the County reserves the right, at any time, to permanently discontinue further contributions to the trust or to terminate the entire plan and trust.

(C.B. 21, 1995)

Sec. 1.467. - Automatic termination of contributions.

The liability of the County to make contributions to the trust shall automatically terminate upon liquidation of the County, upon its adjudication as a bankrupt or upon the making of a general assignment for the benefit of creditors.

(C.B. 21, 1995)

Sec. 1.468. - Allocation and distribution.

(a) *Causation.*

(1) This section shall become operative upon any of the following events:

- (i) A complete termination of the County's liability to make further contributions to the trust;
- (ii) A complete discontinuance of contributions by the County to the trust; or
- (iii) A complete termination of the plan.

(2) The provisions of this section also shall become operative in the event of a partial termination of the plan, but only with respect to that portion of the plan attributable to the participants to whom the termination is applicable.

(b) *Effective Date Set by Resolution of the County.* The effective date of any termination or discontinuance of contributions shall be as set forth in a resolution adopted by the County.

(c) *Actions upon Termination or Discontinuance of Contributions.*

(1) Upon the effective date of any such event, then, notwithstanding any other provisions of the plan, subject to section 1.469:

- (i) No persons who were not theretofore participants shall be eligible to become participants;
- (ii) No further benefits shall accrue; and
- (iii) The accrued benefits of all participants not theretofore vested, and not theretofore forfeited, shall immediately become fully vested.

(2) The accrued benefits of all participants and beneficiaries shall be determined and distributed to them, as soon as is practicable after such termination or discontinuance, in accordance with sections 1.441—1.444.

(3) The assets in the trust shall be allocated for the purposes set forth below and in the order set forth below, to the extent the assets are sufficient therefor. The allocations may be implemented by distribution of trust assets, or by the purchase and distribution by the trustees of insurance company annuity contracts, or by a combination of these methods.

(C.B. 21, 1995)

Sec. 1.469. - Priorities for allocation of trust assets.

Upon termination of the trust, the trustees shall liquidate all assets remaining in the trust. After deduction of estimated expenses in liquidating and distributing the trust, and any reasonable compensation for the trustees agreed upon with the County, the balance of the trust assets shall be allocated so as to provide the accrued benefits otherwise payable under the plan pursuant to the following order of priorities:

- (a) *Participants in First Priorities.* To provide accrued benefits for each participant who:
 - (1) Had begun to receive benefits at least three years prior to the effective date of the termination of the plan;
 - (2) Would have begun to receive retirement or disability benefits at least three years prior to the effective date of the termination of the plan but for the fact that commencement of benefits was deferred; or
 - (3) Would have been eligible to receive retirement benefits at least three years prior to the effective date of the termination of the plan but for the fact that the participant did not actually retire; and
- (b) *Other Participants.* To provide accrued benefits for all other participants, in the following order of preference:
 - (1) For each participant who would have qualified under the priority described in subsection (a) above but for the fact that the entitling event occurred or would have occurred within three years of the effective date of the termination of the plan; and
 - (2) For all other participants in the priority described in this subsection (b).
- (c) *Trust Assets According to Priority.*
 - (1) Trust assets shall be utilized under a particular priority only after all accrued benefits set forth in all preceding priorities shall have been fully provided for.
 - (2) For purposes of the allocation of funds within each priority, as set forth in this section 1.469, funds will be credited to each participant to provide the accrued benefits to which he or she is so entitled, but only to the extent that such accrued benefits have not been provided under a preceding priority.
 - (3) Any reductions in accrued benefits within a particular priority (or within any particular preference set forth within a priority) as set forth above, due to insufficient trust assets, shall be allocated pro-rata among the participants within that priority (or preference) on the basis of then present values of the respective accrued benefits described in that priority (or preference) for each such participant.
 - (4) Any reference to accrued benefits payable to participants shall also be deemed to include accrued benefits payable to beneficiaries of deceased participants.
 - (5) If any balance of trust assets remains after all of the allocations described above, and after all liabilities with respect to participants and retired participants and their beneficiaries, if any, are satisfied, then the balance shall be returned to the employer, and the trust shall terminate. Upon making such distribution, the trustees shall be discharged from all obligations under the trust and no participant shall have any further right or claim therein.
- (d) *Death of Participant after Effective Date of Termination.* Notwithstanding any provision to the contrary in section 1.468 and this section 1.469, if a participant dies during the interim between the effective date of termination and the distribution of trust assets, and if the participant's benefit commencement date had not yet occurred as of the effective date of termination, the amount distributable to the participant or to the participant's beneficiary, and the timing thereof, shall be determined pursuant to section 1.439.

Sec. 1.470. - Alternative to immediate distribution of the trust.

- (a) *Event Entitling Participant to Benefit.* As an alternative to immediate distribution of the trust, the County, in its discretion, and subject to its option at any time to require the complete distribution of the trust to the then participants in accordance with section 1.468, may defer commencement of benefits to each participant until such participant reaches an event which would otherwise entitle him or her to benefit commencement pursuant to sections 1.428—1.432, at which time the provisions of sections 1.441—1.444 shall become applicable.
- (b) *Separate Account.* During the interim period, there shall be established and maintained a separate account in the name of each participant, based upon the values established pursuant to sections 1.468 and 1.469 (but subject to section 1.472). The separate account shall thereafter define and measure the amount available for benefits distributable to the participant, and there shall be credited or charged thereto any income, expenses, gains or losses (whether or not realized, based upon fair market value of invested assets) attributable or allocable thereto as of each trust valuation date (or the date of complete distribution of the trust) with respect to the period since the last valuation date.

(C.B. 21, 1995)

Sec. 1.471. - Modification of allocation provisions.

The provisions set forth in sections 1.468—1.470 shall be subject to such modification, retroactively if required, without necessity of formal amendment to the plan, as may be necessary in order to cause the termination of the plan and/or trust and any distributions made pursuant thereto and to conform to any requirements which may be imposed by the Internal Revenue Service to prevent disqualification of the plan and/or trust, and no such modification shall be deemed prejudicial to the interest of any participant or beneficiary.

(C.B. 21, 1995)

Sec. 1.472. - Benefits for highly compensated employees and restricted participants.

- (a) Notwithstanding any provision in the plan to the contrary, in the event that the plan and trust terminates, the benefit of any "highly compensated employee," as such term is defined in Section 414(q) of the Internal Revenue Code and the regulations promulgated thereunder, shall be limited to a benefit that is nondiscriminatory under Section 401(a)(4) of the Internal Revenue Code.
- (b) Notwithstanding any other provision of this plan and trust, the benefits payable under this plan and trust to any restricted participant, as defined below, shall be limited to an amount equal in each year to the payments that would be made on behalf of the restricted participant under a straight life annuity that is the actuarial equivalent of the accrued benefit to which the restricted participant is entitled under the plan and trust.
- (c) The limitation described in the preceding sentence, however, shall not apply if:
 - (1) After payment of benefits under the plan and trust to the restricted participant, the value of plan assets equals or exceeds ten percent of the value of current liabilities, as defined in Section 412(l)(7) of the Internal Revenue Code;
 - (2) The value of the benefits payable to the restricted participant is less than one percent of the value of current liabilities, as defined in Section 412(l)(7) of the Internal Revenue Code, before distribution; or
 - (3) The present value of the benefits payable to the restricted participant on his benefit commencement date does not exceed \$3,500.00.

- (d) For the purposes hereof, a restricted participant is a participant or former participant who, during a particular plan year, is one of the 25 highest paid "highly compensated employees," as such term is defined in Section 414(q) of the Internal Revenue Code and regulations promulgated thereunder.

(C.B. 21, 1995)

Sec. 1.473. - Plan combinations and transfers.

In the case of any merger or consolidation of the plan with, or transfer of assets or liabilities of the trust to, any other plan, the transaction shall be structured so that each participant in the plan would (if the plan then terminated) receive a benefit immediately after the transaction which is at least equal to the benefit he or she would have been entitled to receive immediately before the transaction (if the plan had then terminated).

ARTICLE VII. - LIABILITY OF COUNTY

Sec. 1.477. - Limitations on liability of employer.

- (a) *No Rights Except as Provided by Law, Plan Provision, or Terms of Insurance of Annuity Policy.* Neither the establishment of the plan or trust, nor any modification thereof, nor the creation of any fund or account, nor the payment of any benefits, shall be construed as giving to any participant or other person any legal or equitable right against the employer (or any person connected therewith), the trustees or any insurance company, except as provided by law, by any plan provision or by the terms of any insurance or annuity policy.
- (b) *Employer Does Not Guarantee the Trust.* The employer does not in any way guarantee the trust from loss or depreciation, nor does the employer guarantee the payment of any money which may be or become due to any person from the trust. Any person having a right or claim under the plan shall look solely to the trust assets, and in no event shall the employer (or any person connected therewith) be liable to any person on account of any claim arising by reason of the provisions of the plan or of any instrument or instruments implementing its provisions, or for the failure of any participant, beneficiary or other person to be entitled to any particular tax consequences with respect to the plan, the trust or any contribution thereto or distribution therefrom.
- (c) *Employer Not Liable for Failure to Make Contributions.* The employer shall not be liable to any person for failure on its part to make contributions as provided in section 1.423, nor shall any action lie to compel the employer to make such contributions.
- (d) *Employer Not Liable for Failure of Plan to Qualify under Internal Revenue Code.* The employer (or any person connected therewith) shall not have any liability to any person by reason of the failure of the plan to attain and/or maintain qualified status under Section 401(a) of the Internal Revenue Code, or the failure of the trust to attain and/or maintain tax exempt status under Section 501(a) of the Internal Revenue Code, regardless of whether or not such failure is due to any act or omission (willful, negligent or otherwise) of the employer (or any person connected therewith).

(C.B. 21, 1995; C.B. 100, 1995)

Sec. 1.478. - Construction.

- (a) *Intended to Comply with Requirements for Qualification Under Internal Revenue Code.* The plan is intended to comply with all requirements for qualification under Section 401(a) of the Internal Revenue Code and, if any provision of the plan is subject to more than one interpretation or construction, such ambiguity shall be resolved in favor of that interpretation or construction which is consistent with the plan being so qualified.
- (b) *Severability.* In case any provision of the plan shall be held to be illegal or void, such illegality or invalidity shall not affect the remaining provisions of the plan, but shall be fully severable, and the plan shall be construed and enforced as if said illegal or invalid provisions had never been inserted herein.
- (c) *Laws of State of Maryland Shall Govern.* Except to the extent preempted by the laws of the United States of America, the laws of the State of Maryland shall govern, control and determine all questions arising with respect to the plan and the interpretation and validity of its respective provisions. Participation under the plan shall not give any participant the right to be retained in the service of the employer nor any right or claim to any benefit under the plan unless such right or claim to such benefit has specifically accrued hereunder.

Sec. 1.407A. - Participation requirements.

Except as otherwise provided below, a covered employee's participation in this plan, and the agreement to make contributions hereunder, as described in section 1.426A, is mandatory as a condition of employment with the County:

- (a) *Voluntary Participation.* Prior to the effective date, every covered employee may elect to participate in the plan effective July 1, 1989. Such participation shall be temporary and shall be in effect until June 30, 1990. However, an otherwise eligible employee may not participate unless he or she has made written application in such manner as required by the County, and has agreed to make participant contributions as provided in section 1.427A.
- (b) *Irrevocable Participation.* Every individual who is a covered employee as of June 30, 1990 (including those participants described above) may elect to participate in the plan effective July 1, 1990 and continuing until his or her termination date. Such election shall be irrevocable, shall be made on a written application supplied by the County and shall contain agreement to make, as a condition of his or her employment with the County, participant Contributions as provided in section 1.426A. If an otherwise eligible employee fails to return the completed application to the County within ten working days after it has been provided to the employee by the County, he or she shall cease to be a covered employee as of July 1, 1990.
- (c) *Mandatory Participation.* Every other individual who becomes a covered employee on or after July 1, 1990 shall become a participant on the date he or she first performs an hour of service as a covered employee. No individual shall become a participant, however, if the individual is not a covered employee on the date his or her participation is to begin.

(C.B. 83, 1995)

Sec. 1.408A. - Re-employment.

If an employee or participant who reaches a termination date is subsequently re-employed as a covered employee, his or her status with respect to the plan shall be governed by the following:

- (a) *Eligibility.* If the re-employed employee was not a participant prior to his or her termination date, or the employee's re-employment commencement date occurs prior to July 1, 1990, the employee shall become a participant in accordance with the provisions of section 1.407A. If the reemployed employee was a participant prior to such termination, or the individual's reemployment commencement date occurs after June 30, 1990, his or her participation shall commence immediately upon the resumption of status as a covered employee.
- (b) *Vesting and Benefit Accrual.* Subject to subsection (d) below, if the re-employed employee was a participant prior to his or her termination, that employee's prior years of eligibility service and years of creditable service shall be aggregated with years of eligibility service and years of creditable service credited after his or her re-employment commencement date for purposes of determining eligibility to receive, the vested percentage of, and amount of, his or her accrued benefit (with respect to the periods before and after the period of severance).
- (c) *Benefit Payments.* If, at the time of re-employment, the participant is receiving benefits under the plan, such benefits (other than those previously funded through individual or nonpooled group insurance annuity arrangements) shall cease until such time as they may be paid in conjunction with the benefits accrued with respect to the participant's subsequent employment. In any event, any benefits payable with respect to the participant's subsequent employment shall be reduced or offset

if and as necessary to avoid duplication of any benefits payable or paid with respect to his or her prior employment.

(d) *Cash-Out.*

(1) If, after his or her termination date:

- (i) The participant receives a cash-out of his or her employee contributions benefit, and
- (ii) The participant resumes status as a covered employee,

Then, notwithstanding the crediting of additional years of eligibility service and years of creditable service, the years of eligibility service and years of creditable service with respect to which the distribution was received shall be disregarded in subsequent determinations of the amount of, and vested percentage of, the participant's accrued benefit.

(2) However, if the participant:

- (i) Resumes status as a covered employee; and
- (ii) Within 90 days of the resumption of such status, repays to the trust the full amount of the cash-out, plus interest from date of distribution to date of repayment at the rate of five percent per annum compounded annually, this accrued benefit will be determined taking into account the participant's years of eligibility service and years of creditable service before as well as after the termination date (subject to the remaining provisions of this subtitle); and
- (iii) A covered employee may elect to repay the full amount of a cash-out, plus interest, by making a lump sum cash payment to the trust. Effective May 1, 2004, a covered employee may also elect to repay the full amount of the cash-out, plus interest, through one or more of the following methods:
 - a. A rollover from another employer's qualified retirement plan;
 - b. A rollover from an individual retirement account to the extent permitted under Section 408(d)(3) of the Internal Revenue Code;
 - c. A rollover or direct trustee-to-trustee transfer from an eligible deferred compensation plan established by a Governmental employer pursuant to section 457(b) of the Internal Revenue Code to the extent permitted under Sections 457(e)(16) and 457(e)(17) of the Internal Revenue code; or
 - d. A direct trustee-to-trustee transfer from a tax deferred annuity established pursuant to Section 403(b) of the Internal Revenue Code to the extent permitted under Section 403(b)(13) of the Internal Revenue Code.

(C.B. 83, 1995; C.B. 10, 2001; C.B. 7, 2004, § 1)

Sec. 1.409A. - Enrollment.

Participation hereunder shall be automatic when the requirements of section 1.407A have been met; provided, however, that the County may, in its discretion, require each eligible employee to execute a written application containing such items as may be desired by the County including, but not limited to, the employee's consent to be bound by all the terms and conditions of the plan and all amendments thereto.

(C.B. 83, 1995)

Sec. 1.410A. - Change of employment category.

If a participant ceases to be a covered employee, but continues in the employ of the County as an employee, he or she shall be deemed to have reached a termination date.

(C.B. 83, 1995)

Secs. 1.411A, 1.412A. - Reserved.

ARTICLE IIA. - CREDITED SERVICE

Sec. 1.413A. - Credit for service.

Except as otherwise provided in sections 1.407A through 1.410A and sections 1.416A and 1.419A, a participant will receive credit only for years of eligibility service and years of creditable service.

(C.B. 83, 1995; C.B. 10, 2001)

Sec. 1.414A. - Leaves of absence.

- (a) *Temporary Absence is Not a Termination of Employment.* A participant shall not cease to be a covered employee even though his or her employment is interrupted by a temporary absence from active service, extending for not more than 24 months, under conditions which are not treated by the County as a termination of employment. The performance of an hour of service after a leave of absence has commenced will constitute an expiration of the leave of absence.
- (b) *Credit for Service During Unpaid Leave of Absence for Military Service.* Notwithstanding the foregoing, the participant will not receive credit for service during an unpaid leave of absence for military service, except to the extent required by the Uniformed Services Employment and Reemployment Rights Act of 1994 and the State Personnel and Pensions Article, title 38, of the Annotated Code of Maryland. To the extent required by the Heroes Earnings Assistance and Relief Tax Act of 2008, if a participant fails to again become an employee as a result of his death while in military service on or after July 1, 2007, the participant shall be entitled to eligibility service for such military service.
- (c) *Expiration of Leave of Absence.* If any participant on leave of absence fails to answer an inquiry by the County as to the status of the leave of absence, or if the County is not notified of the death or disability of such participant, and the County has no actual knowledge thereof, the County may determine that the leave of absence had or has expired.
- (d) *Crediting of Service During Paid Leaves of Absence.* Service with respect to a leave of absence will be credited pursuant to the following:
 - (1) Paid leaves of absence will constitute continuation of employment.
 - (2) Service will be credited for the customary period of work during a paid leave of absence, and section 1.426A contributions will continue to be made.
 - (3) An individual on a leave of absence for reasons of illness will be deemed to be on a paid leave of absence so long as the individual's rate of pay is not reduced and so long as he or she is paid directly by the County or through County-financed wage continuation insurance; but the individual will not be considered to be on a paid leave of absence under circumstances where payments are made solely for the purpose of complying with workers' compensation, unemployment insurance or disability insurance laws.
- (e) *Crediting of Service During Unpaid Leave of Absence.* A leave of absence where the participant's rate of pay is reduced shall constitute an unpaid leave of absence. Service credit shall not be granted for an unpaid leave of absence (other than for military service, as described below) unless

the participant continues to make regular contributions to the plan pursuant to section 1.427A, in accordance with such administrative procedures as are developed by the County.

(C.B. 83, 1995; C.B. 10, 2001; C.B. 21, 2002, § 2; C.B. 7, 2004, § 1; C.B. 72, 2006, § 3; C.B. 13, 2013, § 2; C.B. 14, 2016, § 1; C.B. 57, 2018, § 1)

Sec. 1.415A. - Credit for Pre-Employment Military Service.

- (A) *In general.* A participant shall receive credit for additional years of eligibility service and years of creditable service as provided in this section.
- (b) *Credit for Pre-Employment Military Service.* A participant shall receive credit for additional years of eligibility service and years of creditable service to the extent of the participant's military service, to a maximum of four years, if the participant:
 - (1) Has military service that precedes the participant's employment with the County and that has not been recognized under section 1.416A;
 - (2) Is not entitled to a military pension from the United States Government (except for benefits under a Reservist's Pension described in Chapter 1223 of the United States Code) or any other foreign government on account of such service; and
 - (3) Has 20 years of eligibility service (determined without regard to the participant's military service).
- (c) *Calculation.*
 - (1) Subject to paragraph (2) of this subsection, the credit for additional months of eligibility service and creditable service equals:
 - (i) The number of points recorded on a form showing proof of military service, divided by 28 up to maximum of 48 months; and
 - (ii) The months of active duty military service up to a maximum of 48 months.
 - (2) The maximum credit under paragraph (1)(i) plus (ii) is 48 months total.

(C.B. 57, 2018, § 1)

Sec. 1.416A. - Transfer of credited service.

Any covered employee as of July 1, 1990 had the right to elect to receive credit for years of eligibility service and years of creditable service for service, including military service, recognized or performed under the Maryland State Retirement Systems. Such election was irrevocable and must have been made prior to June 30, 1990. A participant who first performs an hour of service as a covered employee between July 1, 1990 and June 30, 1993 may elect to receive credit for service (whether or not it would be considered a year of eligibility service or a year of creditable service had it been performed for the County) transferred from another Maryland Employer Retirement Plan, provided such plan is a defined benefit plan operated on an actuarial basis. If such service is transferred and recognized under the plan, the amount of the benefit payable to the participant pursuant to section 1.428A shall be adjusted in accordance with the provisions of sections 1.417A and 1.418A.

(C.B. 83, 1995; C.B. 10, 2001; C.B. 7, 2004, § 1)

Sec. 1.417A. - Conditions for transfer of credited service.

- (a) *Participation in Contributory Plan Which Provides for the Transfer of Credit for Service and Contributions.* Credit for years of eligibility service and years of creditable service shall be granted to any participant:
- (1) Who irrevocably elects, within one year of performing an hour of service as a covered employee to transfer the amount of any participant contributions made to another Maryland Employer Retirement Plan under which the participant was covered, together with interest previously credited by such plan to this plan; and
 - (2) Who is participating in a plan which provides for the transfer of credit for service and contributions to this plan.
- (b) *Participation in Noncontributory Plan Which Provides for the Transfer of Credit For Service and Contributions.* If the covered employee was not required to make contributions to a Maryland Employer Retirement Plan under which he or she was covered, the covered employee may, nonetheless, elect to receive credit for years of eligibility service and years of creditable service under this plan. Such election:
- (1) Shall be irrevocable;
 - (2) Shall be made within one year of performing an hour of service as a covered employee; and
 - (3) Shall be contingent upon the complete forfeiture of benefits and service credits under the Maryland Employer Retirement Plan from which service credit is being transferred.
- (c) *Other Government Employer.* Any other covered employee who retires pursuant to the provisions of section 1.428A or section 1.430A, or who reaches a termination date after completing at least five years of eligibility service, may elect to receive credit for years of creditable service for service performed with another Government employer. If the participant does so elect, the participant shall be required to pay over to the plan, on or before his or her benefit commencement date, the actuarial equivalent of that portion of his or her accrued benefit attributable to service with such other employer, but determined on the basis of the participant's average compensation as of the participant's termination date.

(C.B. 83, 1995; C.B. 10, 2001; C.B. 25, 2006, § 2)

Sec. 1.418A. - Amount of credited service.

The benefits payable under the plan as a result of service transferred pursuant to section 1.417A shall be calculated in accordance with the following provisions:

- (a) *Service Transferred from a Maryland Employer Retirement Plan under Which Participant Contributions Are Required on All Compensation.* For service transferred pursuant to subsection 1.417A(a), the participant shall receive full credit for years of eligibility service. The participant shall receive pro-rata credit for years of creditable service. Such pro-rata credit for years of creditable service shall be determined by calculating the amount of the participant's accrued benefit under the transferor plan, comparing it to the benefit which would have accrued on the participant's behalf had such Maryland Employer Service been performed as a covered employee, and thereafter multiplying the resultant fraction (which shall not be more than one) by his or her Maryland employer service benefit.
- (b) *Service Transferred from a Maryland Employer Retirement Plan under Which Participant Contributions Are Not Required on All Compensation.* For service transferred pursuant to section 1.417A(b), the participant shall receive full credit for years of eligibility service. The participant shall receive partial credit for years of creditable service. Such partial credit for years of creditable service shall be determined by calculating the portion of the participant's accrued benefit (determined as of his or her employment commencement date as though he or she had been a covered employee during his or her period of service with such other Maryland employer) which would have been attributable to County contributions, comparing it to the benefit which would have accrued on the

participant's behalf had the participant's Maryland employer service been performed as a covered employee, and thereafter multiplying the resultant fraction (which shall not be more than one) by his or her Maryland employer service benefit.

- (c) *Other Transfers.* The participant shall receive full credit for years of creditable service transferred pursuant to section 1.417A(c).
- (d) *Equivalent of Maryland Employer Service Benefit.* For purposes of this section 1.418A, a participant's "Maryland employer service benefit" shall be equal to:
 - (1) Two percent of the participant's average compensation as of the participant's termination date; multiplied by
 - (2) The participant's number of years of creditable service (not in excess of 30) determined as of the participant's employment commencement date, assuming transfers of service have been elected pursuant to section 1.417A.

(C.B. 83, 1995; C.B. 10, 2001; C.B. 7, 2004, § 1)

Sec. 1.419A. - Transfer of credited service; special provisions.

Effective July 1, 1993 a participant may receive credit for years of eligibility service and years of creditable service for periods of employment with another Government employer under the circumstances described in this section 1.419A, provided that such service has not been transferred and recognized under sections 1.416A through 1.418A above. If such service is transferred and recognized under the plan, either:

- (a) *Adjustment of Retirement Date.* The participant's early retirement date and normal retirement date shall be adjusted in accordance with paragraph (c) below, and/or
- (b) *Amount of Benefit Payable to Participant.* The amount of the benefit payable to the participant pursuant to section 1.428A and the participant's accrued benefit shall be adjusted in accordance with paragraph (d) below.
- (c) *Adjustment of Early Retirement Date and Normal Retirement Date.* For the sole purpose of calculating whether a participant has reached his or her early retirement date or normal retirement date under the plan, a participant's years of eligibility service include the following:
 - (1) Up to five years of eligibility service will be credited for periods of full-time employment with another Government employer provided that such periods of full-time employment are in a position classification which is comparable to one or more of the position classifications of covered employees.
 - (2) Up to two years of eligibility service will be credited for periods of full-time employment with the County in the position classification of Police Cadet or with another Government employer within the State of Maryland, provided that such periods of full-time employment are in a position classification which is comparable to Police Cadet.
 - (3) The total years of eligibility service credited under this subsection shall not exceed five years of eligibility service.
- (d) *Adjustment of the Amount of Benefit Payable.* For the sole purpose of calculating a participant's accrued benefit and his or her retirement benefits payable under section 1.428A, any participant may irrevocably elect, within one year of performing an hour of service as a covered employee, to transfer to the plan the amount of any participant contributions made to another Government employer retirement plan under which the participant was covered, together with interest previously credited by such plan, provided that such plan permits transfer of contributions to this plan. If a participant so elects, the amount of his or her accrued benefit and the amount of retirement benefit as calculated under section 1.428A shall include an actuarial adjustment for the participant contributions which are transferred.

(e) *Purchase of Credited Service—Normal and Early Retirement Benefits.*

- (1)
 - (i) *General.* Any participant may elect, at any time after becoming a participant and prior to reaching a termination date, to receive credit for years of creditable service performed with another government employer, provided that such service has not been previously recognized under sections 1.416A through 1.418A or section 1.419A(a)—(d).
 - (ii) Any participant who has received credit for eligibility service pursuant to subsection (c)(2) of this section 1.419A may elect, at any time after June 30, 2014 and prior to reaching a termination date, to receive credit for up to two years of creditable service for periods of full-time employment with the County in the position classification of Police Cadet.
- (2) *Cost of purchase.*
 - (i) It is the intent of the County that a participant who elects to purchase credit for service hereunder pay the full actuarial cost of the credit for service.
 - (ii) The participant's election to purchase service shall include an election by the participant of an assumed retirement date (the "assumed retirement date") upon which the cost to purchase service will be based.
 - (iii) The cost of the purchase equals the present value of the participant's projected accrued benefit including the credit for the service purchased hereunder and calculated on the basis of the participant's assumed retirement date, less the present value of the participant's projected accrued benefit without the service credit purchased hereunder.
 - (iv) Present value will be determined using the interest, post-retirement mortality, post-retirement benefit increase and pay increase assumptions most recently adopted by the Committee, except that the interest assumption will be net of investment expenses and the actuary will use the unisex version of the mortality table used to determine post-retirement mortality.
- (3) *Methods of payment for purchased service.* The participant's election to purchase credit for service shall also include an election of the method by which the participant will purchase the credit for service.
 - (i) The participant may pay over to the plan the amounts calculated pursuant to subsection (ii) hereof by either:
 - a. A lump sum cash payment to the plan;
 - b. A rollover from another employer's qualified retirement plan;
 - c. Following the effective date of section 1.426A(a)(3), periodic installment payments by payroll deduction; or
 - d. Effective May 1, 2004, the participant may also purchase credit for service through one or more of the following methods:
 1. A rollover from an individual retirement account to the extent permitted under section 408(d)(3) of the Internal Revenue Code;
 2. A rollover or direct trustee-to-trustee transfer from a deferred compensation plan established by a Governmental employer pursuant to section 457(b) of the Internal Revenue Code to the extent provided for by sections 457(e)(16) and 457(e)(17) of the Internal Revenue Code;
 3. A direct trustee-to-trustee transfer from a tax deferred annuity established pursuant to section 403(b) of the Internal Revenue Code to the extent provided for by section 403(b)(13) of the Internal Revenue Code; or
 - (ii) If the participant chooses to purchase the credit in whole or in part by periodic installment payments, such a purchase shall be pursuant to a binding, irrevocable payroll deduction

authorization between the County and the participant which provides for the number of deductions and the dollar amount of each deduction.

- (iii) Notwithstanding the foregoing, the participant's election of the method of payment for purchased service may be modified by the County to the extent necessary to conform to section 415 of the Internal Revenue Code.
- (4) *Retirement before or after assumed retirement date.*
 - (i) If a participant reaches a termination date on a date other than the participant's assumed retirement date, but after the participant's normal retirement date, the credit for service purchased by the participant will be adjusted so that the amount of credit purchased equals the amount that would have been purchased (based on the participant's actual contributions) if the actual termination date had been used (rather than the assumed retirement date) for purposes of calculating the cost of the service.
 - (ii) If the adjustment increases the amount of credit purchased over the credit which would have been awarded if the participant terminated employment on the assumed retirement date, the excess will be used to provide an additional monthly benefit to the participant.
- (5) *Participant elects return of payments.* If a participant reaches a termination date after having been credited with at least five years of eligibility service and prior to his normal retirement date, the participant, or the participant's beneficiary, may elect to receive a return of the payments made pursuant to this section 1.419A(e) plus interest at the rate specified in (2) hereof, in the form of either:
 - (i) A lump sum payment; or
 - (ii) A monthly benefit equivalent to a lump sum payment, with the equivalence to be determined pursuant to the factors set forth in (2) hereof.
- (6) *Mandatory return of payments.* If a participant reaches a termination date before having been credited with five years of eligibility service, the participant, or the participant's beneficiary, shall receive a return of the payments made pursuant to this section 1.419A(e) plus interest at the rate specified in (2) hereof, in the form of a lump sum payment.

Sec. 1.420A. - Transfers of Credited Service to other plans.

If a participant terminates employment for the County as a covered employee, but either:

- (a) Remains an employee and becomes a participant in the Howard County Retirement Plan, or
- (b) Ceases to be an employee, but becomes an employee of a Government employer, and becomes eligible to participate in a retirement plan sponsored by the Government employer, the participant may elect to transfer service earned under this plan to the retirement plan sponsored by such other Government employer.

(C.B. 53, 1997)

Sec. 1.421A. - Involuntary transfers of employment.

If a participant is involuntarily transferred to another State or local retirement or pension system because of an involuntary transfer of the participant's employing unit to another employer, all of the County's contributions on behalf of the participant and interest on those contributions shall be transferred to the new system. The amount to be transferred to the new system shall be determined by actuarial valuation. Notwithstanding the foregoing this section 1.421A shall be operative only to the extent required

by Title 37 of the State Personnel and Pensions Article of the Annotated Code of Maryland, or any successor statute.

(C.B. 7, 2004, § 2)

For the plan year beginning July 1, 1989, the County shall make a contribution to the plan equal to four percent of the compensation of all participants. Thereafter, the County, from time to time, shall make contributions to the trust in amounts determined, in accordance with generally accepted actuarial principles, to be sufficient to support the contributions required under section 1.426A, and the contributions and transfers made pursuant to section 1.427A and to fund the benefits provided by the plan.

- (i) *Plan Termination.* In the event of a termination of the plan, distribution to each participant of the portion of the accrued benefit attributable to his or her participant contributions shall, notwithstanding any other provision of section 1.469A, be treated as a priority distribution ahead of any other distribution to participants based upon the remainder of the trust.

 - (2) *Enhanced benefit.*
 - (i) *Eligibility.* Notwithstanding paragraph (1) of this subsection and except as provided in paragraph (3) of this subsection, a participant shall be entitled to receive a monthly retirement income, beginning with the first day of the month coincident with or next following the participant's normal retirement date or, if later, the participant's termination date, and continuing for the remainder of his or her life if the participant is:

- a. *General.* Subject to the provisions of subsection 1.408A(d) of this subtitle, and subject to the adjustment set forth in section 1.419A of this subtitle and the limitations set forth in sections 1.416A—1.418A and 1.433A of this subtitle, the amount of the monthly retirement income shall be determined by multiplying a percentage of the participant's average compensation by his or her years of creditable service (without regard to credit for unused sick leave with respect to Police Officers). For purposes of this calculation, the percentage of average compensation shall be determined in accordance with the following schedule:

1. *Police Officers.*

Years of Creditable Service	Percentage of Average Compensation
20	50.00
21	53.00
22	57.00
23	62.00
24	68.00

25	75.00
26	76.00
27	77.00
28	78.00
29	79.00
30 or more	80.00

2. *Firefighters.*

Years of Creditable Service	Percentage of Average Compensation
20	50.00
21	53.00
22	56.00
23	59.00
24	62.00
25	65.00
26	66.00
27	67.00
28	68.00
29	69.00
30 or more	70.00

If an employee's years of creditable service contain credit for a fractional year, the participant's monthly retirement income for such fractional year of creditable service shall be determined by (1) calculating the difference, in accordance with the schedule above, between (a) the percentage of average compensation attributable to his or her whole years of creditable service and (b) the percentage of average compensation attributable to his or her whole years of creditable service plus one year of creditable service, (2) multiplying that percentage by the participant's average compensation and (3) multiplying that amount by the fractional year of creditable service.

b. *Unused sick leave.*

1. *Police Officers.* For Police Officers, the monthly benefit provided in subsection 1.428A(b)(3)ii.a.1. shall be increased by an amount equal to two and one-half percent of the participant's average compensation multiplied by his or her years of creditable service attributable to unused sick leave as calculated in accordance with subsection 1.428A(c).
2. *Firefighters.* For purposes of determining the monthly benefit provided in subsection 1.428A(b)(3)ii.a.2. for Firefighters, years of creditable service shall include years of creditable service attributable to unused sick leave as calculated in accordance with section 1.428A(c). Except as provided in paragraph 3, below, if the inclusion of years of creditable service attributable to unused sick leave results in a firefighter being credited years of creditable service in excess of 30, the monthly benefit provided in subsection 1.428A(b)(3)ii.a.2. shall be increased by an amount equal to one percent of the firefighter's average compensation multiplied by his or her years of creditable service attributable to unused sick leave in excess of 30.
3. *Management Firefighters.* Effective for retirements on or after January 1, 2007, if the inclusion of years of creditable service attributable to unused sick leave results in a management firefighter being credited with years of creditable service in excess of 30, the monthly benefit provided in subsection 1.428A(b)(3)ii.a.2 shall be increased by an amount equal to two and one-half percent of the management Firefighter's average compensation multiplied by his or her years of creditable service attributable to unused sick leave in excess of 30.

- (c) *Additional credit unused sick leave.* Solely for purposes of determining the amount of the participant's retirement benefit payable pursuant to sections 1.428A—1.432A, the participant shall receive additional credit for years of creditable service for unused sick leave. Such unused sick leave shall be credited at the rate of one additional month for each 22 days of unused sick time, plus, if at least 12 days remain at his or her termination date, one additional month. The additional retirement benefit attributable to years of creditable service for unused sick leave shall be calculated under the applicable paragraph or subparagraph of this section, with the adjustment, if any, required by subsection 1.406A(c)(2).

- (d) *Form of Payment.* Except as otherwise provided in subsection 1.443A(d), the benefits payable pursuant to this section shall be payable in the normal form provided by section 1.428A, unless an optional form of payment has been elected pursuant to section 1.442A.
- (e) This section shall remain effective until January 1, 2002 and, with no further action required by the County Council, shall be abrogated and of no further force and effect.

- (b) As of the date such participant completes 30 years of creditable service, contributions picked up by the County and made on the participant's behalf to the plan, pursuant to subsection 1.426A(a)(1) but not 1.426A(A)(3), shall be discontinued.

(C.B. 83, 1995; C.B. 10, 2001)

- (b) *Line of Duty Disability.*
 - (1) Except as provided in paragraphs (2) and (3) of this subsection, a participant (regardless of his or her length of service) who terminates employment by reason of total and permanent disability, incurred as a result of an accident or injury which has been sustained as an active covered employee and which has been ruled compensable under the Workers' Compensation Law of Maryland, shall be entitled to receive a monthly benefit equal to the greater of:

 - (3) A participant who is receiving a monthly benefit pursuant to paragraph (1) of this subsection may make a one-time irrevocable election to cease his or her receipt of benefits under paragraph (1) of this subsection in exchange for benefits under paragraph (2)(ii) of this subsection. Such election shall be made between the effective date of this amendment and November 30, 2000 and shall take effect on January 1, 2001.
 - (4) In paragraphs (2) and (3) of this subsection the following terms have the meanings indicated:
 - (i) *Line of duty disability* means a total and permanent disability which, as determined in accordance with rules established by the Committee, is incurred as a result of an accident or injury which has been sustained as a result of service as an active covered employee and which has been ruled compensable under the Workers' Compensation Law of Maryland.

- (d) *Adjustments to Compensation.* For purposes of (b) above, "compensation" includes adjustments to the legislated base annual salary for employees in the same position classification as the participant at the time of the onset of the participant's disability through the date the participant's disability benefits commence. In addition, such participant shall be entitled to receive individual health insurance coverage under the health plan in effect for covered employees as of the participant's termination date (or if the plan is no longer offered by the County, coverage under the most comparable health plan offered by the County). The premiums for such health insurance coverage will be paid by the County.
- (e) *General Provisions Relating to Disability.*
 - (1) *Commencement of disability benefits.* Disability benefits shall commence on the first day of the month coincident with or otherwise next following the determination of disability by the County; provided, however, that benefits payable pursuant to this section shall be reduced by any benefits payable from workers' compensation.
 - (2) *Forms of benefit.* The benefits payable pursuant to this section shall be payable in the normal form provided by section 1.428A, unless an optional form of payment has been elected pursuant to section 1.442A.

shall be subject to periodic review in accordance with rules established by the County to determine the participant's employment status, including the requirement that the participant furnish to the County a copy of his or her Federal income tax return each year.

- (ii) In the event a disabled participant ceases to submit to such review, prior to his or her normal retirement date, the disability benefits payable pursuant to this section shall cease.
 - (iii) Except as provided in subparagraph (iv) of this paragraph, if, during a calendar year, the amount of a participant's earned income, worker's compensation benefits, and disability benefits paid to the participant pursuant to this section for such year exceed the participant's annualized average compensation at his or her termination date plus \$3,000.00 (adjusted for c/l increases), effective as of the first day of the next following plan year, the disability benefit payable under the plan shall be reduced, dollar for dollar, to the extent of the excess.
 - (iv) Subparagraph (iii) of this paragraph does not apply to participants who retire pursuant to the provisions of subsection (b)(2) of this section.

 - (7) A participant who reaches a termination date by reason of a disability incurred while the participant is on a leave of absence, including a leave of absence for military service, shall be eligible to apply for ordinary disability benefits under subsection (a) of this section 1.431 but shall not be eligible to apply for line-of-duty disability benefits under subsection (b) of this section 1.431.

Sec. 1.433A. - Maximum limitation on benefits.

Notwithstanding any plan provisions to the contrary:

- (a) *Maximum Benefit.* To the extent necessary to prevent disqualification under Section 415 of the Internal Revenue Code, and subject to the remainder of this section 1.433A, the maximum benefit (exclusive of any benefit attributable to either employee contributions or rollover contributions) to which any participant may be entitled in any limitation year (which shall be the calendar year) pursuant to sections 1.428A—1.432A and section 1.435A of this subtitle (hereafter referred to as the "maximum benefit") shall be equal to the amount set forth in Section 415(b)(1)(a) of the Internal Revenue Code applicable as of the participant's benefit commencement date, as adjusted by c/l increases in all years subsequent to a participant's benefit commencement date. Such limit is hereafter referred to as the annual dollar limit".
- (b) *Actuarial Adjustment of Annual Dollar Limit.* The annual dollar limit shall be subject to actuarial adjustment as follows:
 - (1)
 - (i) Except as provided in subparagraph (ii) below, if the benefit is payable in any form other than a single life annuity or a qualified joint and survivor annuity (as defined for purposes of Section 415 of the Internal Revenue Code), the annual dollar limit shall be reduced so that it is the actuarial equivalent of the annual dollar limit applicable to a single life annuity.
 - (ii) No adjustment will be required to a benefit that is paid in the form that is not a straight life annuity or a qualified joint and survivor annuity to take into account the inclusion in that form of an automatic benefit increase which meets the requirements set forth in Treasury Regulation section 1.415(B)-1(C)(5).
 - (2)
 - (i) With respect to a benefit beginning before age 62, the annual dollar limit shall be reduced to the actuarial equivalent of a benefit in the amount of the annual dollar limit beginning at age 62.
 - (ii) Notwithstanding the foregoing, however, in no event shall the annual dollar limit applicable to benefits beginning before age 62 be reduced for participants who have earned at least 15 years of eligibility service as a covered employee, including military service.
 - (3) With respect to a benefit beginning after age 65, the annual dollar limit shall be increased so that it is the actuarial equivalent of the annual dollar limit applicable to a benefit beginning at age 65.
 - (4) For purposes of this section, actuarial equivalent shall be as defined in section 1.406A, except that the interest rate assumption for purposes of a computation under paragraph (1) or (2) above shall not be less than five percent or any higher rate specified in the definition, and for purposes of a computation under paragraph (3) above, shall not be greater than five percent or any lower rate specified in the definition.
 - (5) *Applicable Mortality Table.* This subsection shall apply to distributions with annuity starting dates on or after December 31, 2002.
 - (i) Notwithstanding any other provision of this subtitle to the contrary, the applicable mortality table used for purposes of adjusting any benefit or limitation under Section 415(b)(2)(B), (C), or (D) of the Internal Revenue Code and the applicable mortality table used for purposes of satisfying the requirements of Section 417(e) of the Internal Revenue Code is the table prescribed in Revenue Ruling 2001-62.
 - (ii) For any distribution with an annuity starting date on or after the effective date of this section and before the adoption date of this section, if application of the amendment as of the annuity starting date would have caused a reduction in the amount of any distribution, such reduction is not reflected in any payment made before the adoption date of this

section. However, the amount of any such reduction that is required under Section 415(b)(2)(B) of the Internal Revenue Code must be reflected actuarially over any remaining payments to the participant.

- (c) *Reducing Annual Dollar Limit.* The annual dollar limit shall be reduced (but not by more than 90 percent) by 1/10th for each year of eligibility service less than ten, considering only those years of eligibility service during any part of which the participant was participating in the plan (including those periods for which he or she elected to transfer service pursuant to sections 1.416A—1.418A).
- (d) *Other Reductions in Maximum Benefit.* In addition to the foregoing, the maximum benefit shall be reduced, and the rate of benefit accrual shall be frozen or reduced accordingly, to the extent necessary to prevent disqualification of the plan under Section 415 of the Internal Revenue Code, with respect to any participant who is also a participant in:
 - (1) Any other tax-qualified pension plan maintained by the County, including a defined benefit plan in which an individual medical benefit account (as described in Section 415(1) of the Internal Revenue Code) has been established for the participant;
 - (2) Any welfare plan maintained by the County in which a separate account (as described in Section 419A(d) of the Internal Revenue Code) has been established to provide post-retirement medical benefits for the participant; and/or
 - (3) Any retirement or welfare plan, as aforesaid, maintained by a related employer, as described in Section 414(b), (c), (m) or (o) of the Internal Revenue Code.

Sec. 1.434A. - Post termination changes.

- (b) *Computation of Cost-of-Living Adjustment.*
 - (1) As of each July 1 (hereafter referred to as the "valuation date") which occurs during the period beginning on the first valuation date occurring at least 12 months subsequent to the participant's benefit commencement date and ending on the date of death, the participant's then monthly retirement income shall be multiplied by a fraction:
 - (i) The numerator of which is the consumer price index (as defined in (c) below) as of such valuation date; and
 - (ii) The denominator of which is the lesser of the numerator or the consumer price index (as defined in (c) below) as of the immediately preceding valuation date.
 - (2) Provided, however, no such cost of living adjustment shall cause a participant's monthly retirement income to exceed an amount equal to the participant's monthly retirement income as of his or her benefit commencement date compounded at the annual rate of two percent as of

each of the valuation dates (including the valuation date for which the adjustment is being made) which have occurred subsequent to his or her benefit commencement date.

(c) *Definition of Consumer Price Index.*

- (1) The consumer price index to be used is the index for "All Urban Consumers (CPI-U) Washington-Baltimore, DC-MD-VA-WV—All items—November 1996=100" published by the Bureau of Labor Statistics; and the Consumer Price Index as of any valuation date means the index reading on the last day of March preceding such valuation date.
- (2) In the event the Bureau of Labor Statistics abandons publication of the index for "All Urban Consumers (CPI-U) Washington-Baltimore, DC-MD-VA-WV—All items—November 1996=100" the County shall adopt any other index which, in its judgment, provides an accurate measure of cost-of-living changes.

(d) *Monthly Disability and Survivor Benefits Subject to Cost-of-Living Adjustments.* All disability or survivor benefits payable pursuant to sections 1.431A and 1.440A (but only if payable in the form of a monthly income) shall be granted the cost of living adjustments provided in this section.

- (7) During the period of a DROP I participant's participation in DROP I, and any extension of participation in DROP I granted pursuant to subsection 1.437A(g), the DROP I participant shall continue to be eligible to participate in any Health and Welfare Plan and Deferred Compensation Plan, and receive any other benefits otherwise available to county employees who are Police Officers and shall continue to be subject to the personnel laws, regulations and policies applicable to an employee.

- (i) *Payment of Retirement Income and DROP I Account at Termination Date.*
- (1) Upon the termination of a DROP I participant's employment with the county no earlier than the end of the DROP I participation period pursuant to subsection (d), the trustees shall pay to the

- d. The form of monthly benefit elected by the DROP I participant in accordance with section 1.442A with respect to the DROP I participant's monthly income.

The form of payment shall be at the election of the DROP I participant or the DROP I participant's beneficiary, as applicable. In the event the DROP I participant or the DROP I participant's beneficiary elects payment in the form described in subsection c. or d. of this subsection 1.437A(i), the monthly benefit shall be the actuarial equivalent of the balance of the DROP I account as of the date benefit payments commence.

- (2) Upon the termination of a DROP I participant's employment with the county no earlier than the end of the DROP I participation period pursuant to subsection (d), but subject to the provisions pertaining to extension of employment pursuant to subsection (g), the participant will receive the monthly retirement income determined in accordance with section 1.428A or 1.442A, as adjusted for cost of living increases pursuant to section 1.435A and as adjusted for unused sick leave, pursuant to subsection 1.428A(c).
- (3) If the DROP I participant reaches a termination date, other than by reason of disability determined pursuant to section 1.431A or death, prior to the end of the DROP I participation period pursuant to subsection (d), without regard to whether the termination of employment is voluntary by the participant or involuntary and at the request of the county:
 - a. The participant's DROP I account shall be forfeited; and
 - b. The participant's monthly retirement income shall be determined in accordance with section 1.428A including the years of creditable service and compensation earned while the participant was a DROP I participant.
 - c. Notwithstanding the foregoing:
 - (i) Subsections 1.437A(i)(3)a. and b. do not apply if the DROP I participant is:
 - (A) The Chief of Police and reaches a termination date as a result of his or her removal by the County Executive; or
 - (B) A Police Major and reaches a termination date as a result of his or her removal by the Chief of Police.
 - (ii) If the Chief of Police or a Police Major is removed by the DROP I participant's appointing authority prior to completing four years of DROP I participation, the DROP I participant, or the DROP I participant's beneficiary if the DROP I participant has died, will receive, without regard to the period the participant elected to participate in DROP I pursuant to subsection (d), the following:

The balance of the DROP I account, determined pursuant to subsection (i) as adjusted for interest at five percent per year, compounded annually, from the date of the expiration of the DROP I period pursuant to the participant's original election to participate in DROP I, through the DROP I participant's termination date, compounded annually; plus
- b. The monthly retirement income pursuant to section 1.428A or 1.442A as of the date of the participant's participation in DROP I, as adjusted for unused sick leave pursuant to subsection 1.428A(c) and cost of living adjustments pursuant to section 1.435A; plus
- c. An additional monthly retirement income equal to one percent multiplied by the participant's average compensation determined as of the participant's termination date and including, as applicable, periods of participation in DROP I, multiplied by the years of creditable service earned between the date of the expiration of the DROP I period pursuant to the participant's original election to participate in DROP I and the participant's termination date, to the extent that the additional credit for years of creditable service pursuant to this subsection (i)(4)c. does not cause the participant's total years of creditable service to exceed 30 years. The foregoing limit does not include additional credit for accrued sick leave determined at the participant's termination date.

If the DROP I participant reaches a termination date for reasons other than death or disability prior to completing at least six full months of service for the county as a Police Officer after the four-year DROP I period shall receive benefit described in subsection (i).

Applicable Percentage	Increase per Full Month of Employment as a Police Officer After Expiration of Three-Year DROP Period

(c) *Benefits Payable after Benefit Commencement Date.* If a participant dies after the participant's benefit commencement date, the benefits, if any, to which his or her beneficiary shall be entitled shall depend upon the form in which the participant's benefits were payable at the time of death, under the applicable form of benefit described in sections 1.441A—1.444A.

(C.B. 83, 1995; C.B. 10, 2001; C.B. 7, 2004, § 2; C.B. 13, 2013, § 5; C.B. 56, 2017, § 1)

Sec. 1.440A. - Limitations.

All death benefits payable pursuant to section 1.439A shall be distributed only in accordance with final regulations published by the Internal Revenue Service under Section 401(a)(9) of the Internal Revenue Code. To the extent required thereby, such benefits shall be distributed in full not later than the

last day of the calendar year containing the fifth anniversary of the death of the participant, except as follows:

- (a) *Distributed over Lifetime of Beneficiary.* Unless the participant or the participant's beneficiary irrevocably elects pursuant to any elective provision which may be then present in the plan (which election must be prior to the earliest date on which distribution would be otherwise required pursuant to this section) to have the aforesaid five-year limit apply, benefits payable to or for the benefit of the participant's beneficiary, and which begin not later than the last day of the calendar year containing the first anniversary of the participant's death, may be distributed over the life of the beneficiary or a period certain not extending beyond the life expectancy of the beneficiary, under a method of distribution which meets the requirements of section 1.443A (but with life expectancy based upon the beneficiary's attained age as of the beneficiary's birthday in the calendar year in which falls:
 - (1) The date on which nonannuity benefits are required to commence pursuant to this subsection, or
 - (2) If earlier, the date on which annuity benefits actually commence).
- (b) *Surviving Spouse.* If the participant's beneficiary is the participant's surviving spouse, then, unless the participant or the participant's spouse irrevocably elects pursuant to any elective provision which may be then present in the plan (which election must be prior to the earliest date on which distribution would be otherwise required pursuant to this section) to have the aforesaid five-year limit apply, benefits payable to or for the benefit of the spouse, and which begin not later than the later of the last day of the calendar year containing the first anniversary of the participant's death, or the last day of the calendar year in which the participant would have reached age 70½, may be distributed over the life of the spouse or a period certain not extending beyond the life expectancy of the spouse, under a method of distribution which meets the requirements of section 1.443A (but with life expectancy based upon the spouse's attained age as of the spouse's birthday in the calendar year in which falls:
 - (1) The date on which nonannuity benefits are required to commence pursuant to this subsection, or
 - (2) If earlier, the date on which annuity benefits actually commence).
- (c) *Surviving Spouse Dies Prior to Commencement of Benefits.* If benefits are payable in accordance with subsection (b) above, and the surviving spouse dies after the participant but prior to:
 - (1) The date on which nonannuity benefits are required to commence pursuant to subsection (b) above, or
 - (2) The date on which annuity distributions meeting the requirements of subsection (b) above actually commence,

Then, in either case, the aforesaid five-year limit, and the alternate limit set forth in subsection (a) above, are to be applied as if the spouse were the participant, so that such limits shall be measured from the death of the spouse.

- (d) *When Annuity Benefits Commence before Participant's Death.* If annuity benefits meeting the requirements of section 1.443A had commenced prior to the participant's death, then, in either case, the death benefits payable pursuant to sections 1.439A—1.440A may be distributed without regard to the aforesaid five-year limit, but must be distributed at least as rapidly as they would have been under the pre-death method of distribution.

(C.B. 83, 1995; C.B. 22, 2008, § 2)

Sec. 1.441A. - Method of payment.

- (a) All benefit distributions shall be in cash (or in annuity contracts as provided herein).

- (b) The County shall determine, in its discretion, whether the distribution shall be funded through periodic payments made directly from the trust, or through the purchase of annuity contracts, or whether a combination of such methods of distribution shall be used, and the County shall give to the trustees such directions and information as may be necessary for the trustees to carry out the decision of the County.
- (c) If the County shall determine that the whole or any part of the distribution is to be funded through purchase of an annuity contract for a participant, the County shall select such form of contract (including a variable annuity) to be so purchased and shall direct the trustees to pay the premium of such contract to the issuing company.
- (d) The County shall direct that all right, title and interest in such contract shall remain in the trustees under the terms of the plan and the participant shall have no right, title or interest therein except to receive the payments therefrom as provided therein, and to change the beneficiary from time to time.
- (e) Alternatively, the County may direct that the contract shall be purchased in the name of the participant and distributed to the participant free and clear of the trust, in which case:
 - (1) The contract shall be issued so as to be nontransferable;
 - (2) It shall not contain a death benefit in excess of the greater of the reserve or the total premiums paid for annuity benefits; and
 - (3) It shall not contain provisions that expand upon, change or eliminate any plan provisions applicable to distributions in annuity form.

(C.B. 83, 1995)

Sec. 1.442A. - Optional forms of benefit.

A participant, subject to the conditions hereinafter set forth, may elect to receive, in lieu of the normal monthly form of retirement income described in section 1.428A, a benefit, which is its actuarial equivalent, payable in any of the following forms:

- (a) *Joint and Survivor Option.*
 - (1) The joint and survivor option is a monthly income payable during the participant's lifetime and continuing after the participant's death at either 50 percent or 100 percent (as elected by the participant) of the rate to his or her beneficiary for the remainder of such beneficiary's life.
 - (2) If the participant's beneficiary dies before the date on which the participant's benefits have commenced (whether before or after his or her termination date), the election shall thereupon become void.
 - (3) If the participant's beneficiary dies after the date on which the participant's benefits have commenced, or the participant becomes divorced from the beneficiary, but before the death of the participant, the election shall remain effective and the participant shall continue to receive the reduced retirement income payable to him or her in accordance with the option.
- (b) *Pop-Up Option.*
 - (1) The pop-up option is a monthly income payable during the participant's lifetime and continuing after the participant's death at either 50 percent or 100 percent (as elected by the participant) of the rate to his or her beneficiary for the remainder of the beneficiary's life.
 - (2) If the participant's beneficiary dies before the date on which the participant's benefits have commenced (whether before or after his or her termination date), the election shall thereupon become void.
 - (3) If the participant's beneficiary dies, or if the participant becomes divorced from the beneficiary, after the date on which the participant's benefits have commenced, but before the death of the participant, the election shall likewise become void, and the participant shall receive,

commencing on the first day of the month following the beneficiary's death (or divorce), the monthly benefit which the participant would have received had his or her benefits originally been payable as a life only option, as described in subsection 1.442A(c); and such benefit shall thereafter be payable as a life only option.

- (c) *Life Only Option.* The life only option, which is the normal form of benefit under the plan, is a monthly income payable during the participant's lifetime, with no payments to be made after the last payment prior to the participant's death.

Sec. 1.443A. - General provisions applicable to options.

- (a) *Minimum Distribution Requirements.* Notwithstanding any other provision in the plan to the contrary, distribution shall be made only in accordance with final regulations published by the Internal Revenue Service under Section 401(a)(9) of the Internal Revenue Code. To the extent required thereby, distribution of benefits shall comply with the following limitations:
 - (1) (i) Except as otherwise provided below, distribution shall begin not later than April 1 following the later of (a) the calendar year (hereinafter referred to as the "commencement year") in which the participant reaches age 70½ and (b) the year in which he or she subsequently retires.
 - (ii) Distribution shall be made:
 - a. Over the life of the participant or the lives of the participant and the participant's beneficiary; and/or
 - b. Over a period certain not extending beyond the life expectancy of the participant or the joint life and last survivor expectancy of the participant and his or her beneficiary, or, if shorter, the alternate period, all as described in Treasury Regulation Section 1.401(a)(9)-6.
 - (2) A required distribution shall be deemed to have been made during the commencement year if actually made by the following April 1, but such delayed distribution shall not change the amount of such distribution, and the distribution otherwise required during the subsequent calendar year shall be calculated as if the first distribution had been made on the last day of the commencement year.
 - (3) Benefits paid prior to the commencement year shall reduce the aggregate amount subject to (but shall not otherwise negate) the minimum distribution requirements described herein.
 - (4) Nothing contained in this subsection shall prevent distribution of annuity benefits providing for nonincreasing (except as otherwise permitted in Treasury Regulation 1.401(a)(9)-6) payments beginning not later than the commencement year (except as provided in subsection (3) above) and payable at least annually over a period permitted by this subsection (for which purpose, if benefit commencement under the annuity precedes the commencement year, each relevant life expectancy shall be based on the individual's attained age as of his or her birthday occurring in the calendar year in which benefit commencement occurs). Any benefits accruing after the commencement year shall be treated as a separate identifiable component distributable in accordance with this subsection beginning in the payment year following the year of accrual.
 - (5) If the provisions of this subsection require the commencement of benefits to a participant who has not yet terminated employment, distribution shall be made or commenced in accordance with sections 1.441A—1.444A as if the participant had retired on the last day of the commencement year. However, notwithstanding the commencement of benefits pursuant to this

subsection, all other aspects of the participant's plan participation shall continue in accordance with the remaining provisions of the plan. The actuarial equivalent of any additional benefits which may accrue to the participant pursuant to section 1.430A after the participant's benefits have been paid or commenced by reason of this subsection shall increase the amount of periodic benefit payments being received by the participant under the plan.

- (b) *Election Procedures.* An election of any optional form of benefit described in section 1.442A must be made by a participant in writing, on a form supplied by or acceptable to the County. Upon the participant's benefit commencement date, such election (including the designation of a beneficiary) shall be irrevocable.
- (c) *Effect of Death.* In the event of the death of a participant prior to the date on which the participant's benefits are due to commence under the terms of the plan, no benefits shall be payable to the participant's spouse or other beneficiary except as provided in sections 1.439A and 1.440A, regardless of whether or not the participant has elected an optional form of benefit pursuant to sections 1.441A—1.444A.
- (d) *Timing of Benefit Commencement.* Notwithstanding any other plan provision to the contrary, in no event (unless the participant otherwise elects pursuant to any elective provision which may be then present in the plan) shall benefits begin later than the 60th day after the close of the plan year in which occurs the latest of:
 - (1) The date on which the participant attains age 62 (or any earlier normal retirement age which may be then specified in the plan); or
 - (2) The termination of the participant's employment with the County.

Sec. 1.444A. - Eligible rollover distributions.

This section applies to distributions made on or after January 1, 1993. Notwithstanding any provision of the plan to the contrary that would otherwise limit a distributee's election under this section, a distributee may elect, at the time and in the manner prescribed by the Administrator, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(a) *Definitions.*

- (1) *Eligible rollover distributions.* An "eligible rollover distribution" is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include:
 - (i) Any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten years or more;
 - (ii) Any distribution to the extent such distribution is required under Section 401(a)(9) of the Internal Revenue Code; and the portion of any distribution that is not includable in gross income (determined without regard to the exclusion for net unrealized appreciation with respect to employer securities).
- (2) *Eligible retirement plan.*
 - (i) An "eligible retirement plan" is:
 - a. An individual retirement account described in Section 408(a) of the Internal Revenue Code;

- b. An individual retirement annuity described in Section 408(b) of the Internal Revenue Code; or
 - c. A qualified trust described in Section 401(a) of the Internal Revenue Code that accepts the distributee's eligible rollover distribution.
- (ii) For distributions made after December 31, 2001, an eligible retirement plan also includes:
 - a. An annuity contract described in Section 403(b) of the Internal Revenue Code.
 - b. An eligible plan under Section 457(b) of the Internal Revenue Code which is maintained by a State, political subdivision of a State, or any agency or instrumentality of a State or political subdivision of a State and which agrees to separately account for amounts transferred into such plan from this plan.
 - (iii) For distributions made after December 31, 2007, an eligible retirement plan also includes a Roth IRA described in Section 408a of the Internal Revenue Code.
 - (iv) However, in the case of an eligible rollover distribution to the surviving spouse of a participant or former participant, an eligible retirement plan is an individual retirement account or individual retirement annuity. However, for distributions made after December 31, 2001, the definition of eligible retirement plan as defined in subsection (i) shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relation order, as defined in Section 414(p) of the Internal Revenue Code.
- (3) *Distributee.* A "distributee" includes a participant or former participant. In addition, the participant's or former participant's surviving spouse and the participant's or former participant's spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Internal Revenue Code, are distributees with regard to the interest of the spouse or former spouse.
 - (4) *Direct rollover.* A "direct rollover" is a payment by the plan to the eligible retirement plan specified by the distributee.
 - (5) *Spouse.* For purposes of this section 1.444A, spouse means spouse as defined under Federal law.

(C.B. 83, 1995; C.B. 7, 2004, § 2; C.B. 22, 2008, § 2; C.B. 15, 2013, § 2)

Sec. 1.445A. - Distributions to nonspouse beneficiaries.

This section applies to distributions made on or after July 1, 2008. Notwithstanding any provision of the plan to the contrary that would otherwise limit the options of the beneficiary of a deceased participant who is not a distributee (within the meaning of section 1.444A of this subtitle), the Administrator shall, upon the request of such a beneficiary transfer a lump sum distribution to the trustee of an individual retirement account established under Section 408 of the Internal Revenue Code in accordance with the provisions of Section 402(c)(11) of the Internal Revenue Code.

Secs. 1.446A—1.447A. - Reserved.

ARTICLE VA. - TRUSTEES AND BENEFICIARIES

Sec. 1.448A. - Designation of Beneficiaries.

- (a) *Participant Designates Beneficiary.* Each participant may designate a beneficiary or beneficiaries (who may be named contingently or successively) to receive such benefits as may be payable under the plan upon or after his or her death, and, subject to the provisions of sections 1.441A—1.444A, such designation may be changed from time to time by the participant by filing a new designation. Each designation will revoke all prior designation by the same participant, shall be in form prescribed by the County, and will be effective only when filed in writing with the County during the participant's lifetime.
- (b) *Absence of Valid Beneficiary Designation.* In the absence of a valid beneficiary designation (except in conjunction with the election of a form of benefit payment which does not require the designation of a specific beneficiary), or if, at the time any benefit payment is due to a beneficiary, there is no living beneficiary eligible to receive the payment, validly named by the participant, the County shall direct the trustees to distribute any such benefit payment to:
 - (1) The participant's spouse, if then living; otherwise to
 - (2) The participant's then living descendants, if any, per stirpes; otherwise to
 - (3) The participant's then living parent or parents, equally; otherwise to
 - (4) The participant's estate.
- (c) *Question Regarding Right of a Person to Receive a Benefit Payment.* In determining the existence or identity of anyone entitled to a benefit payment, the County and the trustees may rely conclusively upon information supplied by the participant's personal representative. In the event of a lack of adequate information being supplied to the County, or in the event that any question arises as to the right of any person to receive a benefit payment as aforesaid, or in the event that a dispute arises with respect to any such payment, then, notwithstanding the foregoing, the County, in its sole discretion, may, in complete discharge of the County and the trustees, and without liability for any tax or other consequences which might flow therefrom, direct the trustees to:
 - (1) Distribute the payment to the participant's estate;
 - (2) Retain such payment, without liability for interest, until the rights thereto are determined; or
 - (3) Deposit the payment into any court of competent jurisdiction.

(C.B. 83, 1995)

Sec. 1.449A. - Location of participants and beneficiaries.

- (a) *Notice to Last Post Office Address.* Any communication, statement or notice addressed to a participant or beneficiary at the last post office address filed with the County, or if no such address was filed with the County, then at the last post office address as shown on the County's records, shall be binding on the participant or beneficiary for all purposes of the plan. Except for the County's sending of a registered letter to the last known address, neither the trustees nor the County shall be obliged to search for any participant or beneficiary.
- (b) *Distribution to Next of Kin if Participant or Beneficiary Fails to Claim Amount.* If the County notifies any participant or beneficiary that he or she is entitled to an amount under the plan and the participant or beneficiary fails to claim such amount or make his or her location known to the County within three years thereafter, then, except as otherwise required by law, if the location of one or more of the next of kin of the participant, including the participant's surviving spouse, is known to the County, it may direct distribution of such amount to any one or more or all of such next of kin, and in such proportions as the County determines.
- (c) *If Location of Participant, Beneficiary, or Next of Kin Cannot Be Determined.* If the location of none of the foregoing persons can be determined, the County shall have the right to direct that the amount payable shall be deemed to be a forfeiture and treated in accordance with section 1.424A, except that the dollar amount of the forfeiture, unadjusted for gains or losses in the interim, shall be

reinstated if a claim for the benefit is made by the participant or beneficiary to whom it was payable. If any benefit payable to an unlocated participant or beneficiary is subject to escheat pursuant to applicable State law, neither the trustees nor the County shall be liable to any person for any payment made in accordance with such law.

(C.B. 83, 1995)

Sec. 1.450A. - Investment of funds.

- (a) All contributions under the plan shall be paid to the trustees and deposited in the trust.
- (b) Such contributions, all investments made therewith and proceeds thereof and all earnings and profits thereon, less the authorized disbursements therefrom, shall constitute the trust, which trust, and the agreement under which it is maintained, shall in all respects constitute a part of the plan.
- (c) The County reserves the right to select, and from time to time to change, the trustees, to amend the trust with the consent of the trustees, or to adopt a different funding vehicle.

(C.B. 83, 1995)

Sec. 1.451A. - Prohibiting against diversion of funds.

It shall be impossible by operation of the plan or trust, by natural termination of either, by power of revocation or amendment, by the happening of any contingency, by collateral arrangement or by other means, for any part of the corpus or income of the trust, or any funds contributed thereto, to inure to the benefit of the County or otherwise be used for or diverted to purposes other than providing benefits to participants and beneficiaries and defraying reasonable expenses of administering the plan, except as otherwise set forth in the trust with respect to the conditions under which trust assets may be returned to the County.

(C.B. 83, 1995)

Sec. 1.452A. - Prohibition against assignment of benefits.

- (a) Except as provided below, no benefit payable at any time under this plan may be anticipated, assigned (either at law or in equity), alienated or subject to attachment, garnishment, execution, levy or other legal and equitable process.
- (b) However, the prohibitions of the preceding sentence shall not apply to, and the trustees shall fully recognize the creation, assignment or recognition of a right to any benefit payable with respect to a participant pursuant to a "qualified domestic relations order."
- (c) For the purposes hereof, a qualified domestic relations order shall mean a judgment, decree or order made pursuant to a State domestic relations law which relates to the provision of child support, alimony payments or marital property rights and:
 - (1) Which clearly specifies:
 - (i) The names, Social Security numbers, dates of birth and last known mailing addresses of the participant and each payee covered by the order;
 - (ii) The amount or percentage of the participant's benefits to be paid by this plan to each payee (or the manner in which such amount or percentage is to be determined);
 - (iii) The number of payments or period to which such order relates;
 - (iv) The name of the plan and plan Administrator;

- (2) Which specifically provides that:
 - (i) Upon the death of the payee while benefits are in pay status and prior to the death of the participant, the payments being made to the payee will thereafter be paid to the participant; and
 - (ii) No portion of any death benefit under section 1.439A of this subtitle will be paid to the payee upon the death of the participant prior to commencement of benefit payments if a surviving spouse annuity benefit is payable to the then-surviving spouse of the participant; and
- (3) Which does not:
 - (i) Require this plan to provide increased benefits;
 - (ii) Require the payment to the same benefits to any payee which are payable to another payee pursuant to a prior qualified domestic relations order.
 - (iii) Require the plan to provide a type of form of benefit or benefit option not otherwise provided under the plan;
 - (iv) Provide for payment of benefits to a payee which commence before the commencement of benefit payments to the participant;
 - (v) Provide for payment of benefits to a payee over a period longer than the lifetime of the participant;
 - (vi) Allow a payee to designate a beneficiary to receive payments following the death of the payee;
 - (vii) Provide for the designation of the payee as the surviving spouse for purposes of receipt of all or a portion of any surviving spouse annuity benefit provided under subsection 1.439A(b) of this subtitle;
 - (viii) Provide for payment to the payee of all or any portion of any ordinary or noncatastrophic line of duty disability benefits payable to the participant before the date the participant would otherwise begin receiving service retirement benefits from the plan. But for the disability; or
 - (ix) Provide for payment to the payee of all or a portion of any catastrophic line of duty disability benefits payable to the participant.

(C.B. 83, 1995; C.B. 21, 2002, § 2)

Sec. 1.453A. - Administrative authority.

- (a) *Sole Responsibility and Control.* Except as otherwise specifically provided herein, the County shall have the sole responsibility for and the sole control of the operation and administration of the plan.
- (b) *Powers, Duties and Responsibilities.* The County shall have the power and authority to take all action and to make all decisions and interpretations which may be necessary or appropriate in order to administer and operate the plan, including, without limiting the generality of the foregoing, the power, duty and responsibility to:

- (c) *Fiduciary Powers, Duties and Responsibilities.* Fiduciary duties, powers and responsibilities (other than those reserved to the trustees, with respect to management or control of trust assets) may be allocated among the fiduciaries (if there be more than one) to whom such duties, powers and responsibilities have been delegated, so long as such allocation is pursuant to action of the County or by written agreement executed by the involved fiduciaries and approved by the County in which case, such fiduciary shall have any liability, with respect to any duties, powers or responsibilities not allocated to him, for the acts or omissions of any other fiduciary. Any person may serve in more than one fiduciary capacity under the plan, including those of Administrator and trustee.
- (d) *Specialized Advice or Assistance.*

 - (ii) Any action of the coordinator in the exercise of such delegated duties, powers or responsibilities shall have the same force and effect for all purposes hereunder as if such action had been taken by the Administrator.

- (iii) Further, the Administrator may authorize the coordinator to execute any certificate or document on behalf of the Administrator, in which event any person notified by the Administrator of such authorization shall be entitled to accept and conclusively rely upon any such certificate or document executed by such person as representing action by the Administrator until such third person shall have been notified of the revocation of such authority.
 - (iv) The Administrator shall not be liable for any act or omission of any person to whom the Administrator's duties, powers or responsibilities have been delegated, nor shall any person to whom any duties, powers or responsibilities have been delegated have any liabilities with respect to any duties, powers or responsibilities not delegated to him.

The plan shall indemnify and hold harmless each such individual from the effects and consequences of the individual's acts, omissions and conduct in his or her official capacity with respect to the plan, except to the extent that such effects and consequences shall result from the individual's own willful misconduct or gross negligence; provided, however, that any person who shall claim the right to any payment or damage as a result of the actions of any individual in connection with the performance of their duties pertaining to the plan, shall be entitled to look only to the trust fund created by the plan for payment. Such individual shall have no other right, claim or demand therefor against the County.

(f) *Liability Insurance.*

- (1) The plan may purchase, from plan assets, as an expense of the plan, liability insurance for the plan and/or for its fiduciaries to cover liability or losses occurring by reason of an act or omission of a fiduciary, providing such insurance contract permits recourse by the insurer against the fiduciary in the case of breach of fiduciary obligation by such fiduciary.
- (2) Any fiduciary may purchase, from and for his or her own account, insurance to protect the fiduciary in the event of a breach of fiduciary duty and the County may also purchase insurance to cover the potential liability of one or more persons who serve in a fiduciary capacity with regard to the plan.

(g) *Fiduciary's Benefits.* Nothing in the plan shall be construed so as to prevent any fiduciary from:

- (1) Receiving any benefit to which he or she may be entitled as a participant or beneficiary; or
- (2) Receiving any reasonable compensation for services rendered, or for the reimbursement of expenses properly incurred in the performance of his or her duties under the plan (except that no person so serving who receives compensation as an employee shall receive compensation from the plan, except for reimbursement of expenses properly incurred); or
- (3) Serving as a fiduciary in addition to being an officer, employee, agent, or other representative of the County or any related entity.

However, the fiduciary shall not be entitled to vote or act upon, or execute on behalf of the plan documents specifically relating to, his or her own participation in the plan.

- (a) Except as provided in sections 1.401A—1.484A of this subtitle, all rights, benefits and obligations of officers or employees of the County with respect to pensions or retirement are provided under the terms of this plan, and this plan supersedes and prevails over the terms of any rules, regulation, resolution or ordinance concerning such matters.
- (b) The County shall have the right to amend the plan, at any time, by amendment to the Howard County Code and all parties thereto or claiming any interest thereunder shall be bound thereby. Notwithstanding any other provision of County law, no County resolution or ordinance which relates to the subject matter of the plan or conflicts with, narrows, or expands any term of this plan shall be effective unless the County acts by ordinance which specifically amends the provisions of this subtitle and which has been passed in accordance with the proceedings set forth in subsection 1.482(c)(2) hereof. No amendment which affects the rights, duties, responsibilities or immunities of the trustees shall be binding upon the trustees in the absence of their consent thereto.
- (c) Notwithstanding the provisions of this section, the plan and trust may be amended at any time, by amendment to the Howard County Code, retroactively if required, if found necessary in order to conform to the provisions and requirements of the Internal Revenue Code or any similar act or any amendments thereto or regulations promulgated thereunder; no such amendment shall be considered prejudicial to any interest of a participant or beneficiary hereunder.

(C.B. 83, 1995)

Sec. 1.466A. - Right to terminate.

It is the present intention of the County to maintain the plan throughout the County's existence. Nevertheless, the County reserves the right, at any time, to permanently discontinue further contributions to the trust or to terminate the entire plan and trust.

(C.B. 83, 1995)

Sec. 1.467A. - Automatic termination of contributions.

The liability of the County to make contributions to the trust shall automatically terminate upon liquidation of the County, upon its adjudication as a bankrupt or upon the making of a general assignment for the benefit of creditors.

(C.B. 83, 1995)

Sec. 1.468A. - Allocation and distribution.

- (a) *Causation.*
 - (1) This section shall become operative in any of the following events:
 - (i) A complete termination of the County's liability to make further contributions to the trust;
 - (ii) A complete discontinuance of contributions by the County to the trust; or

- (iii) A complete termination of the plan.
- (2) The provisions of this section shall also become operative in the event of a partial termination of the plan, but only with respect to that portion of the plan attributable to the participants to whom the termination is applicable.
- (b) *Effective Date Set by Resolution of the County.* The effective date of any termination or discontinuance of contributions shall be as set forth in a resolution adopted by the County.
- (c) *Actions upon Termination or Discontinuance of Contributions.*
 - (1) Upon the effective date of any such event, then, notwithstanding any other provisions of the plan, subject to the remainder of this section.
 - (i) No persons who were not theretofore participants shall be eligible to become participants;
 - (ii) No further benefits shall accrue; and
 - (iii) The accrued benefits of all participants not theretofore vested, and not theretofore forfeited shall immediately become fully vested.
 - (2) The accrued benefits of all participants and beneficiaries shall be determined and distributed to them, as soon as is practicable after such termination or discontinuance, in accordance with sections 1.428A—1.436A and sections 1.441A—1.444A.
 - (3) The assets in the trust shall be allocated for the purposes set forth below and in the order set forth below, to the extent the assets are sufficient therefor. The allocations may be implemented by distribution of trust assets, or by the purchase and distribution by the trustees of insurance company annuity contracts, or by a combination of these methods.

(C.B. 83, 1995)

Sec. 1.469A. - Priorities for allocation of trust assets.

Upon termination of the trust, the trustees shall liquidate all assets remaining in the trust. After deduction of estimated expenses in liquidating and distributing the trust, and any reasonable compensation for the trustees agreed upon with the County, the balance of the trust assets shall be allocated so as to provide the accrued benefits otherwise payable under the plan pursuant to the following order of priorities:

- (a) *Participants in First Priorities.* To provide accrued benefits for each participant who:
 - (1) Had begun to receive benefits at least three years prior to the effective date of the termination of the plan;
 - (2) Would have begun to receive retirement or disability benefits at least three years prior to the effective date of the termination of the plan but for the fact that commencement of benefits was deferred; or
 - (3) Would have been eligible to receive retirement benefits at least three years prior to the effective date of the termination of the plan but for the fact that the participant did not actually retire; and
- (b) *Other Participants.* To provide accrued benefits for all other participants, in the following order of preference:
 - (1) For each participant who would have qualified under subsection (a) above, but for the fact that the entitling event occurred or would have occurred within three years of the effective date of the termination of the plan, and
 - (2) For all other participants in this subsection (b).
- (c) *Trust Assets Utilized According to Priority.*

- (1) Trust assets shall be utilized under a particular priority only after all accrued benefits set forth in all preceding priorities shall have been fully provided for.
 - (2) For purposes of the allocation of funds within each priority, as set forth above, funds will be credited to each participant to provide the accrued benefits to which the participant is so entitled, but only to the extent that such accrued benefits have not been provided under a preceding priority.
 - (3) Any reductions in accrued benefits within a particular priority (or within any particular preference set forth within a priority) as set forth above, due to insufficient trust assets, shall be allocated pro rata among the participants within that priority (or preference) on the basis of their present values of the respective accrued benefits described in that priority (or preference) for each such participant.
 - (4) Any reference to accrued benefits payable to participants shall also be deemed to include accrued benefits payable to beneficiaries of deceased participants.
 - (5) If any balance of trust assets remains after all of the allocations described above, and after all liabilities with respect to participants and retired participants and their beneficiaries, if any, are satisfied, then the balance shall be returned to the County, and the trust shall terminate. Upon making such distribution, the trustees shall be discharged from all obligations under the trust and no participant shall have any further right or claim therein.
- (d) *Death of Participant after Effective Date of Termination.* Notwithstanding any provision to the contrary in section 1.468A or this section 1.469A, if a participant dies or otherwise terminates employment with the County during the interim between the effective date of termination and the distribution of trust assets, and if the participant's benefit commencement date had not yet occurred as of the effective date of termination, the amount distributable to the participant or to his or her beneficiary, and the timing thereof, shall be determined pursuant to sections 1.439A and 1.440A.

(C.B. 83, 1995)

Sec. 1.470A. - Alternative to immediate distribution of the trust.

- (a) *Event Entitling Participant to Benefit.* As an alternative to immediate distribution of the trust, the County, in its discretion, and subject to its option at any time to require the complete distribution of the trust to the then participants in accordance with section 1.468A, may defer commencement of benefits to each participant until such participant reaches an event which would otherwise entitle him or her to benefit commencement pursuant to sections 1.428A—1.432A, at which time the provisions of sections 1.441A—1.444A shall become applicable.
- (b) *Separate Account.* During the interim period, there shall be established and maintained a separate account in the name of each participant, based upon the values established pursuant to sections 1.468A—1.472A. The separate account shall thereafter define and measure the amount available for benefits distributable to the participant, and there shall be credited or charged thereto any income, expenses, gains or losses (whether or not realized, based upon fair market value of invested assets) attributable or allocable thereto as of each trust valuation date (or the date of complete distribution of the trust) with respect to the period since the last valuation date.

(C.B. 83, 1995)

Sec. 1.471A. - Modification of allocation provisions.

The provisions set forth in sections 1.468A—1.470A shall be subject to such modification, retroactively if required, without necessity of formal amendment to the plan, as may be necessary in order to cause the termination of the plan and/or trust, and any distributions made pursuant thereto and to conform to any requirements which may be imposed by the Internal Revenue Service to prevent

disqualification of the plan and/or trust, and no such modification shall be deemed prejudicial to the interest of any participant or beneficiary.

(C.B. 83, 1995)

Sec. 1.472A. - Benefits for highly compensated employees and restricted participants.

Notwithstanding any provision in the plan to the contrary, the benefits provided by the County's contributions for those individuals (herein referred to as "restricted participants") who fall within the category of participants whose anticipated annual benefit provided by such contributions will exceed \$1,500.00, but applicable only to the 25 highest paid employees as of the time of the establishment of the plan (including any such highest paid employees who are not participants at the time but may later become participants), shall be subject to the following conditions:

- (a) Such benefits shall be paid in full which have been provided by the County's contributions not exceeding the larger of the following amounts:
 - (1) Twenty thousand dollars; or
 - (2) An amount equal to 20 percent of the first \$50,000.00 of the participant's annual compensation multiplied by the number of years (up to ten) between the date of the establishment of the plan and the first to occur of the date that the plan terminates or the date that benefits first become payable to the restricted participant.
- (b) If the plan is terminated within ten years after its establishment, the benefits which a restricted participant may receive from the County's contributions shall not exceed the benefits set forth in subsection (a) above, except that:
 - (1) If the value of the trust assets is not less than the present value of all accrued benefits (whether or not vested) as of the date of termination, then no participant (whether or not a restricted participant) shall be restricted by the operation of this subsection from entitlement to a distribution of trust assets equal to the present value of his or her accrued benefit (provided that the benefit formula set forth in section 1.428A would not be discriminatory if the plan had not terminated).
 - (2) If the value of the trust assets exceeds the present value of all accrued benefits (whether or not vested) as of the date of termination, the County shall, in its sole discretion:
 - (i) Cause the excess to revert to the County, but only if provided in the trust, or
 - (ii) Amend the plan to provide a new benefit structure which would be non-discriminatory if the plan were not terminated, and whereby the present value of the revised accrued benefits (whether or not vested) as of the date of termination equals the value of the trust assets, and distribute to, or otherwise apply for the benefit of, each participant (whether or not a restricted participant) trust assets equal to the present value of his or her revised accrued benefit.
 - (3) If the value of the trust assets is less than the present value of all accrued benefits (whether or not vested) as of the date of termination, the provisions of sections 1.468A—1.471A shall be modified by subjecting certain trust assets to the rule of proportion. The rule of proportion is that trust assets shall be allocated, between and within priorities so that, to the extent possible, employees who are not officers, shareholders or highly compensated shall receive at least the same proportion of the present value of their accrued benefits (whether or not vested) as employees who are.
- (c) If a restricted participant leaves the employ of the County or withdraws from participation in the plan, the benefits which the restricted participant may receive from the County's contributions shall not, at any time within the first ten years after the date of the establishment of the plan, exceed the benefits set forth in subsection (a) above.

- (d) These conditions shall not restrict the full payment of any insurance, death or survivor's benefits on behalf of any participant (whether or not a restricted participant) who dies while the plan is in effect.
- (e) These conditions shall not restrict the current payment of full retirement or disability benefits called for by the plan for any restricted participant while the plan is in effect; provided, however, that a lump sum representing the restricted participant's entire interest in the plan may not be paid unless there is adequate provision and security for repayment of any part of the distribution representing the restricted portion in the event of a termination of the plan during the restricted period.
- (f) In the event the plan is changed at any time subsequent to its inception so as to increase substantially the benefits of the plan, then the provisions of this section shall be applied in accordance with the following principles:
 - (1) All restrictions to limit benefits applicable to the plan before the change, as provided by this section, will apply to all benefits as if the plan had not been changed, so that, in the event of termination, all benefits are limited as they would have been upon termination of the plan as it existed before the change; and
 - (2) The restrictions relating to the change of plan shall apply to benefits for each of the 25 highest paid employees on the effective date of the change except that such restrictions need not apply with respect to any employee in this group for whom the anticipated annual normal retirement benefits provided by County contributions prior to that date and during the ensuing ten years, based upon the employee's rate of compensation on that date, could not exceed \$1,500.00. In all other respects, the restrictions contained in this section shall apply to all of the benefits as if they were provided under a plan established on the effective date of the change except that, in place of the limit described in subsection (a) above, there shall be substituted a limit which cannot exceed the greater of the following three amounts:
 - (i) Twenty thousand dollars;
 - (ii) The County contributions which would have been applied to provide the benefits for the participant if the previous plan had been continued without change;
 - (iii) The sum of:
 - a. The County contributions which would have been applied to provide benefits for the participant under the previous plan if it had been terminated the day before the effective date of change; and
 - b. An amount equal to 20 percent of the first \$50,000.00 of the participant's annual compensation multiplied by the number of years (up to ten) between the effective date of the change and the first to occur of the date that the plan terminates or the date that benefits first become payable to the restricted participant.

(C.B. 83, 1995)

Sec. 1.473A. - Plan combinations and transfers.

In the case of any merger or consolidation of the plan with, or transfer of assets or liabilities of the trust to, any other plan, the transaction shall be structured so that each participant in the plan would (if the plan then terminated) receive a benefit immediately after the transaction which is at least equal to the benefit the participant would have been entitled to receive immediately before the transaction (if the plan had then terminated).

(C.B. 83, 1995)

Secs. 1.474A—1.476A. - Reserved.

ARTICLE VIIIA. - LIABILITY OF COUNTY; CONSTRUCTION OF PLAN

Sec. 1.477A. - Limitations on liability of County.

- (a) *No Rights Except as Provided by Law, Plan, Provisions, or Terms of Insurance of Annuity Policy.* Neither the establishment of the plan or trust, nor any modification thereof, nor the creation of any fund or account, nor the payment of any benefits, shall be construed as giving to any participant or other person any legal or equitable right against the County (or any person connected therewith) the trustees or any insurance company, except as provided by law, by any plan provision or by the terms of any insurance or annuity policy.
- (b) *County Does Not Guarantee the Trust.* The County does not in any way guarantee the trust from loss or depreciation, nor does the County guarantee the payment of any money which may be or become due to any person from the trust. Any person having a right or claim under the plan shall look solely to the trust assets, and in no event shall the County (or any person connected therewith) be liable to any person on account of any claim arising by reason of the provisions of the plan or of any instrument or instruments implementing its provisions, or for the failure of any participant, beneficiary or other person to be entitled to any particular tax consequences with respect to the plan, the trust or any contribution thereto or distribution therefrom.
- (c) *County Not Liable for Failure to Make Contributions.* The County shall not be liable to any person for failure on its part to make contributions as provided in section 1.423A nor shall any action lie to compel the County to make such contributions.
- (d) *County Not Liable for Failure of Plan to Qualify under Internal Revenue Code.* The County (or any person connected therewith) shall not have any liability to any person by reason of the failure of the plan to attain and/or maintain qualified status under Section 401(a) of the Internal Revenue Code, or the failure of the trust to attain and/or maintain tax exempt status under Section 501(a) of the Internal Revenue Code, regardless of whether or not such failure is due to any act or omission (willful, negligent or otherwise) of the County (or any person connected therewith).

(C.B. 83, 1995)

Sec. 1.478A. - Construction.

- (a) *Intended to Comply with Requirements for Qualification under Internal Revenue Code.* The Plan is intended to comply with all requirements for qualification under Section 401(a) of the Internal Revenue Code and, if any provision of the plan is subject to more than one interpretation or construction, such ambiguity shall be resolved in favor of that interpretation or construction which is consistent with the plan being so qualified.
- (b) *Severability.* In case any provision of the plan shall be held to be illegal or void, such illegality or invalidity shall not affect the remaining provisions of the plan, but shall be fully severable, and the plan shall be construed and enforced as if said illegal or invalid provisions had never been inserted herein.
- (c) *Laws of State of Maryland Shall Govern.* Except to the extent preempted by the laws of the United States of America, the laws of the State of Maryland shall govern, control and determine all questions arising with respect to the plan and the interpretation and validity of its respective provisions. Participation under the plan will not give any participant the right to be retained in the service of the County nor any right or claim to any benefit under the plan unless such right or claim has specifically accrued hereunder.

SUBTITLE 4B. - HOWARD COUNTY OTHER POST-EMPLOYMENT BENEFITS TRUST

The County is a political subdivision of the State of Maryland that is exempt from Federal Income Tax under the Internal Revenue Code of 1986, as amended from time to time. Headings of articles, sections, subsections, and paragraphs are inserted only for convenience of reference and are not to be considered in the construction of the OPEB trust.
- (c) If any terms and conditions of the OPEB trust are held to be invalid or unenforceable as a matter of law, the other terms and conditions of the OPEB trust shall not be affected thereby and shall be construed to effectuate the purpose of the OPEB trust.

Sec. 1.405B. - Purpose and scope of trust.

- (a) *Standards on Accounting and Reporting.* In statements 43 and 45, the Governmental Accounting Standards Board set forth standards on accounting and reporting for post-employment benefits (other than pensions) by governmental entities, which require that such entities report other post-employment benefits on an actuarial basis during an employee's employment, rather than on a pay-as-you-go basis during retirement.

The rights and privileges of an employee or their dependent, if any, shall be governed by the terms of the respective program which is provided by an employer participating in the OPEB trust. The assets of the trust fund shall be expended solely to:
 - (1) Make payments for other post-employment benefits pursuant to and in accordance with the terms of any program; and
 - (2) Pay the costs associated with administering the trust fund.
- (b) *Claims.* All assets, income, and distributions of the trust fund shall be protected against the claims of creditors of the County, employers, employees, participants, or their dependants, and shall not be subject to execution, attachment, prior assignment, garnishment, the operation of bankruptcy, insolvency laws, or other process, and any such assignment shall not be enforceable in any court for the benefit of any creditor or third person.

(C.B. 14, 2008, § 1)

- (e) *Duty to Indemnify and Hold Harmless.* The OPEB trust shall indemnify and hold harmless each member of the Board from the effects and consequences of the member's acts, omissions, and conduct in the member's official capacity with respect to the OPEB trust, except to the extent that such effects and consequences shall result from the member's own willful misconduct or gross negligence; provided, however, that any person who shall claim the right to any payment or damage as a result of the actions of any member in connection with the performance of the member's duties pertaining to the OPEB trust shall:
- (1) Be entitled to seek payment only from the OPEB trust; and
 - (2) Have no other right, claim, or demand therefore against the County.
- (f) *Ethics.* The Board is subject to title 22, subtitle 2 of this Code. A Board member shall not:
- (1) Have any personal interest in the gains or profits of any investment made by the Board; or

Neither the OPEB trust nor the Board shall be responsible for collecting or otherwise determining the level of contributions needed by an employer to finance any other post-employment benefits offered by an employer.

Footnotes:

--- (7) ---

Editor's note— C.B. 50, 1980, passed July 7, 1980, approved at a referendum Nov. 2, 1982, added subtitle 6, §§ 6.100—6.111 to tit. 1. The editor has redesignated the sections 1.600—1.611 to retain the style of numbering of the Code. The editor has changed the word "law" or words of similar import to "subtitle."

Sec. 1.600. - statement of policy and purpose.

In order to promote harmonious and cooperative relationships between the County and its employees and to protect the public by assuring at all times the orderly and uninterrupted operations of the County Government, the Howard County Council declares that it is the public policy of this County, subject to the limitations of the Constitution and the applicable laws of the State of Maryland, that County employees be permitted to participate effectively in the determination of the terms and conditions of their employment. It is further declared that if the employees choose to be represented by an employee organization, that the existing relationships between the County, its employees and their representatives, be strengthened by imposing on each the obligation to enter into negotiations with affirmative willingness to reach agreement in matters of wages, hours, working conditions, and other terms of employment with due regard for, and subject to, the provisions of the Howard County Charter governing public employment and fiscal procedures.

(C.B. 50, 1980)

In identifying a management employee, class titles alone shall not be the basis for determination; but, in addition, the nature of the work, including whether or not a major portion of the working time of a management employee is spent as part of a crew or team with nonmanagement employees, shall be considered. In the event that any individual employee or employee organization is in disagreement with the County administration's designation of any employee or group of employees as a management employee(s), such individual employee or employee organization may submit the issue to arbitration using the procedure found in subsection 1.604(c) of this subtitle.

(C.B. 50, 1980; C.B. 11, 1984)

Sec. 1.602. - County employee rights.

- (a) County employees, excluding confidential and management employees as defined herein and nonclassified exempt employees as defined in the Howard County Charter, shall have the right to form, join, assist and participate in the activities of employee organizations of their own choosing for the purpose of representation on all matters of employee relations. County employees also shall have the right not to join any employee organizations or participate in their activities, and shall have the right to represent themselves individually or designate their personal representative in their employment relations with the County.
- (b) Notwithstanding any other provision in this subtitle, an individual employee may present a grievance at any time to the County without the intervention of an employee organization, provided that the exclusive representative is advised in advance of said grievance and is notified of the specific disposition of the matter and, provided further, that any adjustment made shall not be inconsistent with the terms of any applicable collective bargaining agreement; and such employee or employees who utilize this avenue of presenting personal complaints to the County shall not do so under the name, or by representation of an employee organization.

(C.B. 50, 1980)

Sec. 1.603. - County rights.

Notwithstanding any other provisions contained herein, it is the exclusive right of the County to determine the purposes and objectives of each of its constituent offices and Departments; set standards of services to be offered to the public; to determine the methods, means, personnel and other resources by which the County's operations are to be conducted and exercise control and discretion over its organization and operations. It is also the right of the County, subject to applicable provisions of any memorandum of agreement hereafter executed and which is not in abrogation of law, to direct its employees, to hire, promote, transfer, assign or retain employees and to establish reasonable work rules; also to demote, suspend, discharge or take any other appropriate disciplinary action against its employees for just cause, and in accordance with the County Charter and other applicable laws; and to relieve its employees from duty because of lack of work or other legitimate reasons. The provisions of this section shall be deemed to be part of every memorandum of agreement executed between the County administration and an employee organization; provided, however, that nothing contained in this section shall be deemed to deny the right of any employee to submit a grievance pursuant to procedures provided by law or in this subtitle.

(C.B. 50, 1980)

Sec. 1.604. - Recognition and certification of an employee organization.

- (a) (1) An employee organization which seeks formal recognition for purposes of collective negotiations as an exclusive representative of employees in an appropriate representation unit shall file a petition for certification with the Personnel Officer containing the following information and documentation:
 - (i) A certified copy of the organization's constitution or bylaws along with a roster of officers duly elected in accordance with such constitution or bylaws, and a delineation of all interorganizational affiliations.
 - (ii) A statement that the employee organization has, as a purpose, the representation of employees in their employment relations with the County.
 - (iii) A statement that the employee organization has no terms or conditions of membership which discriminate with regard to race, color, creed, sex, sexual preference, age, political affiliation or national origin.
 - (iv) A request that the County recognize the employee organization as the exclusive representative of the employees in the unit claimed to be appropriate.
 - (v) A written list containing each job class title to be included in the proposed representation unit.
 - (vi) A statement that the employee organization has in its possession written proof, dated after January 1, 1979, for the petitions filed between the effective date of this subtitle and September 30, 1980, and in subsequent years, dated within six months of the date upon which the petition is filed, to establish that at least 30 percent of the employees in the unit claimed to be appropriate have designated the employee organization to represent them in their employment relations with the County. Said showing of interest shall be verified by the Maryland State Department of Licensing and Regulation, Division of Labor and Industry or any other impartial agency selected by the mutual agreement of the parties.
- (2) Such a petition may be received by the Personnel Officer only during the time period beginning with the date this subtitle takes effect and October 20 of the same calendar year. In subsequent years, such petitions may be received only during the month of September.
- (b) (1) Upon receipt of such petition, the Personnel Officer shall give adequate and timely notice of the filing to the employees in the proposed unit and shall, within 30 days of the filing date of the petition, determine either that the proposed unit is an appropriate representation unit, or that an alternative unit is the appropriate representation unit. In making this determination of appropriate representation unit, the following factors, among others, shall be considered:
 - (i) Which unit will assure employees the fullest freedom in the exercise of rights described in this subtitle.
 - (ii) The community of interest among employees in the proposed unit, involving such criteria as similarity of job duties, skills, wages, educational requirements, supervision and working conditions.
 - (iii) The history of employee relations within the County.
 - (iv) The effect on the existing classification structure of dividing a single classification among two or more units.
 - (v) The effect of the unit on the over-fragmentation of the classified service to the detriment of mutually beneficial relationships between the County and the employees.
 - (vi) The effect of the unit on the efficient operation of the public service.

- (2) Provided, however, that no unit shall be established solely on the basis of the extent to which employees in the unit have organized, and that professional employees shall not be denied the right to be represented separately from nonprofessional employees.
- (c) In the event that the Personnel Officer and the petitioning employee organization are in disagreement as to the determination of the appropriate representation unit, the issue shall be submitted to arbitration at the request of either party. If the parties are unable otherwise to agree on an arbitrator within five days of the initial request, they shall make their selection from a list of five neutrals submitted by the American Arbitration Association. If the parties are unable to agree upon the selection of one of the arbitrators within three work days after receipt of the list, then the administration and the employee organization shall strike one name from the list alternately until one name remains. The remaining person shall be the duly selected arbitrator. If, for any reason, the selected arbitrator is unable to serve, then the arbitrator shall be appointed directly by the American Arbitration Association. The arbitrator shall render his decision within 30 calendar days after his appointment unless the parties mutually agree to extend the time limit. The arbitrator's decision shall be final and binding on the parties. The cost of arbitration shall be borne equally by the parties involved.
- (d)
 - (1) When an appropriate representation unit has been determined, the Personnel Officer shall give adequate and timely notice of the determination to all employees within the newly established representation unit, and shall arrange for a secret ballot certification election to be conducted by the Maryland State Department of Licensing and Regulation, Division of Labor and Industry, in accordance with the procedures provided in article 89 of the Annotated Code of Maryland (1979 Replacement Volume) as amended, in which the employees in such unit shall be offered a choice between exclusive representation by the petitioning employee organization or of no exclusive representation. Provided, however, that if an intervener employee organization certifies within 30 days that at least ten percent of the employees in the unit have designated it to represent them in their employment relations with the County and if such organization complies with the requirements of section 1.604(A)(1)(i)—(vi), inclusive, then the ballot shall offer a choice among the petitioning employee organization, any intervener employee organization, or of no exclusive representation. An employee organization shall be certified as exclusive representative following an election or run-off election if the employee organization has received the vote of a numerical majority of all valid ballots cast by the employees in the unit in which the election or run-off election is held (i.e., 50 percent plus one of the votes cast by eligible employees). In an election involving three or more choices, where none of the choices receives a majority of the votes cast, a run-off election shall be conducted between the two choices receiving the largest number of votes cast.
 - (2) No election shall be conducted in any representation unit in which an election has been conducted within the preceding two years.
 - (3) The Personnel Officer shall promulgate the results of all elections.

(C.B. 50, 1980)

Sec. 1.605. - Rights and duties of certified employee organizations.

- (a) When an employee organization has been thus certified, the employee organization shall have the right and duty, through appropriate officials and representatives, to negotiate collectively with the County administration in matters related to wages, hours, working conditions and other terms of employment of all employees in the representation unit without discrimination and without regard to any employee organization membership.
- (b)
 - (1) *Deduction of membership dues:* Any employee organization certified as the exclusive representative of employees in a designated unit, upon the presentation of dues deduction authorization cards duly executed by individual employees in said unit, shall be entitled to have such employees' membership dues deducted from their paychecks and remitted to the

designated employee organization; such authorization shall be irrevocable for a period of one year, and automatically renewable from year to year thereafter, unless written notice of termination by the employee is given to the County at least 30 days prior to the anniversary date. An employee organization shall be entitled to such dues deductions only in those units where said employee organization has been certified as the exclusive representative and only during the period that said employee organization continues to be so certified as the exclusive representative.

(2) *Exceptions:* Repealed by C.B. 50, 1989.

(C.B. 50, 1980; C.B. 36, 1988; C.B. 50, 1989)

Sec. 1.606. - Negotiations.

- (a) The County and the exclusive representative shall meet at reasonable times, including meetings in advance of the County's budget-making process, and shall negotiate in good faith with respect to wages, hours and other terms and conditions of employment which are subject to negotiation under this subtitle and which are to be embodied in a written agreement, or any question arising thereunder; but such obligation shall not compel either the County or the exclusive representative to agree to a proposal or require the making of a concession. The County Executive, or his designated authorized representative(s), shall represent the County in collective bargaining, except as otherwise provided herein.
- (b) Because effective and orderly operations of government are essential to the public, it is declared to be in the public interest that in the course of collective bargaining, the County and the exclusive representative shall make every reasonable effort to conclude negotiations no later than March 1 of each year, and shall include provisions in the agreement for an effective date, a reopening date, and an expiration date. With respect to matters requiring the appropriation of funds, the effective date of an agreement shall coincide with the County's fiscal year.
- (c) An agreement may contain a grievance procedure culminating in final and binding arbitration of grievances and disputed interpretations of such agreement to the extent that such procedure is not inconsistent with section 705 of the Charter. The grievance procedure shall set forth requirements for an election of remedies where other avenues of appeal may be equally available. The County is authorized to agree to advisory arbitration with respect to grievances governed by section 705 of the Charter which grants final authority to the Personnel Board.
- (d) Any agreement reached by the negotiators shall be reduced to writing and shall be executed by both parties. Such agreement shall be valid and enforced subject to the provisions of this subtitle and the County Charter.
- (e) A budgetary request for funds necessary to implement such written agreement and a legislative request for approval of any provision of the agreement which is in conflict with any County law, ordinance, rule or regulation, including those adopted by its agents such as the Personnel Board, or other action adopted by the County with the force of law, shall be submitted to the County Council by the County Executive within the time schedule provided in the agreement. The County Council may approve or reject such request as a whole or in part. If any part of the submission is rejected, the entire agreement shall be returned to the parties for further bargaining; and either party may reopen all or part of the agreement. Rejection shall be accompanied by a detailed statement of the reasons therefor, so that the parties may be properly guided when they resume bargaining. Except for the annual budgets appropriation ordinance, such request shall be considered rejected if the Council fails within 65 days after submission to said body to take final action thereon. Failure by the bargaining representative of the County to submit a request within the designated time period shall be considered an unfair labor practice committed by the County.
- (f) If upon approval of the County Council there is a conflict between the collective bargaining agreement and any rule or regulation adopted by the County, including merit system or other

personnel regulations, the terms of such agreement shall prevail, except where specifically precluded by the Charter or State law.

- (g) The County shall have the obligation to bargain on matters which, although otherwise within the scope of bargaining, require action by a body, agency or official other than the County Executive or the County Council. In addition, the County shall have the obligation to bargain on the question of whether it should request such body, agency or official to take such action or support such request; provided, however, that no impasse panel or other third-party neutral utilized for impasse resolution shall be empowered to recommend that the employer make or support such a request.
- (h) If the provisions of the constitution or bylaws of the exclusive representative require ratification of a collective bargaining agreement by its membership, only those members who belong to the bargaining unit involved shall be entitled to vote on such ratification notwithstanding such provisions.

(C.B. 50, 1980)

Sec. 1.607. - Decertification of employee organizations.

- (a)
 - (1) A decertification petition alleging that a certified employee organization is no longer the majority representative of employees in an appropriate representation unit may be filed with the Personnel Officer by an employee, a group of employees or their representative, or an employee organization. Such petition must be accompanied by written proof, dated within six months of the date on which the petition is filed, of employee approval equal to at least 30 percent of the employees within the representation unit.
 - (2) Such a petition may be received by the Personnel Officer only during the month of September of each year following the first full year of exclusive representation, and no decertification petition for the same representation unit shall be received more frequently than every two years. The Personnel Officer shall arrange for verification of the 30 percent employee approval and a secret ballot election to be conducted by the Maryland State Department of Licensing and Regulation, Division of Labor and Industry, in which the employees in such representation unit shall be offered a choice between exclusive representation by the certified employee organization or no exclusive representation. Provided, however, that if an intervener employee organization or organizations comply fully with the requirements set forth in section 1.604 hereof, then the ballot shall offer a choice among the certified employee organization, any intervener employee organization, or of no exclusive representation.
 - (3) The determination of election results shall be made in accordance with the criteria provided in section 1.604(d) of this subtitle. In the absence of decertification, the certification of a recognized employee organization shall continue on a year-to-year basis.
- (b) When a valid memorandum of agreement is in effect on the effective date of decertification of an employee organization which is a party thereto, the County administration and the newly certified employee organization (if there be any) shall be bound by the provisions of that agreement during the remainder of its term.

(C.B. 50, 1980)

Sec. 1.608. - Impasse procedures for employees other than County Police Officers and County career uniformed Firefighters.

- (a) If, after a reasonable period of negotiation over the terms of an agreement, a dispute exists between the administration and the certified employee organization or organizations with whom it is negotiating, the parties may mutually agree that an impasse has been reached; except that if any such dispute exists as of March 1 prior to the final date for submission of the County budget to the County Council, an impasse shall be deemed to have been reached. Whenever an impasse has

been reached, the dispute shall be submitted to mediation. If the parties are unable to otherwise agree on the mediator, the Federal Mediation and Conciliation Service shall be requested to provide a mediator.

- (b) If the impasse is not resolved at least 35 days prior to the budget submission date, a fact-finder shall be selected by mutual agreement between the administration and the employee organization (or organizations as a group, where more than one employee organization is involved in the dispute). If the administration and the employee organization(s) are unable to agree on the selection of the fact-finder before 30 days prior to the budget submission date, they shall make their selection from a panel of neutrals maintained by the American Arbitration Association in accordance with the procedures provided for in subsection 1.604(c) hereof.
- (c) The fact-finder shall meet with the parties and shall make written findings of fact and recommendations for the resolution of the dispute, no later than ten days before the budget submission date. "Fact-finding" as used herein shall include the identification of the major issues in the dispute, review of the position of the parties and the resolution of factual differences.
- (d) The fact-finder, in making his findings and recommendations, shall take into consideration, among other pertinent factors, wages, benefits, hours and other working conditions of other County employees, both in Howard County and in other Maryland political jurisdictions; wages; benefits, hours and other working conditions of employees of private employers in Howard County; the value of other benefits available to or received by County employees as compared with private sector employees in Howard County; cost-of-living data; and the availability of funds. Copies of findings and recommendations shall be sent to the County Executive, the employee organization or organizations involved and to the mediator, who may thereafter assist the parties to effect a voluntary resolution of the dispute.
- (e) The County Executive, after giving due consideration to the fact-finder's recommendations and the mediation results, shall submit his recommendations to the County Council incorporating them in the budget ordinance or in other legislative proposals or executive order, where appropriate. The cost of mediation and fact-finding shall be borne equally by the parties involved in this dispute.
- (f) By mutual agreement of the parties in writing, the limitation periods set forth in this section may be waived provided that the parties certify that they are actively engaged in good faith bargaining and making progress toward an agreement.

(C.B. 50, 1980; C.B. 52, 2007)

No objection that has not been urged before the agency or any of its agents shall be considered by the court unless the failure or neglect to urge such objection shall be excused because of extraordinary circumstances.

- (5) The complaining party shall have the power to petition the Circuit Court for Howard County for enforcement of the agency's order and for appropriate temporary relief or restraining order. 3114.6 Verification. For the purpose of verifying compliance with section 3112.4 for construction adjacent to a designated floodplain, the following shall apply:

- (i) When floodproofing by means other than elevating, a document stating that the proposed construction has been adequately designed to withstand the loading conditions stated in subsection 3112.4.2(ii) shall be certified by a professional engineer or architect currently registered in Maryland. This document shall be required prior to issuance of a building permit.
- (ii) When floodproofing by elevating is used, the owner shall agree, in writing, to provide a FEMA elevation certificate form 086-0-33, completed by a professional engineer or professional land surveyor currently registered in Maryland, certifying that the as-built lowest floor of the structure is elevated at least 2 feet above the 100-year floodplain elevation. The agreement shall be made prior to the issuance of the building permit and the completed certification shall be submitted prior to foundation approval by the Building Official.

- (iii) Fair market value of a structure shall be established by a recent (within 6 months) formal appraisal from a qualified appraiser. Fair market value shall not include land value.
- (iv) Cost to repair or improve a structure shall be established by a recent (within 6 months) written estimate from a licensed contractor and shall include the complete cost of repairs or improvements to the point of use or occupancy.

Adjacent to a floodplain. Sharing a common border with a floodplain.

Basement. An enclosed area that is below grade on all sides.

Floodplain. Shall be as delineated in title 16, subtitle 7 of the Howard County Code.

Floodproofing. Any combination of additions, changes, or adjustments to a structure which reduce or eliminate flood damage to real estate or improved real property, water or sanitary facilities, or structures and their contents, such that the buildings or structures are watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy.

Historic structure. A building listed on the national register of historic places, a state inventory of historic places, or an inventory of historic structures adopted by resolution of the County Council. A historic structure also includes a structure that is certified or preliminarily determined by the United States Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district.

Lowest floor. The lowest floor or the lowest enclosed area, including a basement. Lowest floor does not include an unfinished or flood resistant enclosure used solely for parking vehicles, building access, or storage in an area other than a basement area. The enclosure shall not be built so as to render the structure in violation of the applicable non-elevation design requirements of subsections 3112.4 and 3112.6 of this Code.

Manufactured home. A manufactured home shall have the meaning set forth in title 16, subtitle 7 of the Howard County Code.

New construction. The repair or replacement of a manufactured home because of substantial damage is considered to be new construction and is prohibited in accordance with section 3112.2.1 of this Code.

Structure. For purposes of this subsection 3112 to this Code, shall have the meaning set forth in title 16, subtitle 7 of the Howard County Code .

Substantial damage. Damage of any origin sustained by a structure where the cost of returning the structure to its condition prior to damage would equal or exceed 50% of the structure's fair market value before the damage occurred.

Substantial improvement. The repair, reconstruction, or improvement of a building or structure, the cost of which is equal to or greater than 50% of the fair market value of the building or structure prior to damage, improvement, or repair. For the purpose of this definition, "substantial improvement" occurs when the first alteration of a wall, ceiling, floor, or other structural part of the building begins, whether or not that alteration affects the external dimensions of the building or structure. The term does not include any project for improving a building or structure to comply with existing State or local health, sanitary, or housing code requirements which are necessary to assure safe living conditions. This term does not include an alteration of a historic structure provided that the alteration will not preclude the structure's continued designation as a historic structure.

- (iii) Disposal of water from lots, except as necessary for controlled irrigation;
- (iv) Grades for safe and convenient access to and around buildings or lots for use and maintenance; and
- (v) Grades that do not adversely affect adjoining lots.

SUBTITLE 5. - SIGNS

Sec. 3.500. - Purpose and scope.

- (a) The purpose of this subtitle is to regulate all exterior signs and interior window signs placed for exterior observance so as to protect property values, to protect the character of the various communities in the County, to protect health, safety and morals, and to promote the public welfare.
- (b) The principal features are the restriction of advertising to the business or use of the premises on which the sign is located, with limited exceptions for Downtown Columbia due to it being the urban center of the County, and the restriction of the total sign area permissible per site. Any sign placed on land or on a building for the purpose of identification or for advertising a use conducted thereon or therein shall be deemed accessory and incidental to such land, building or use. It is intended that the display of signs will be appropriate to the land, building or use to which they are appurtenant and be adequate, but not excessive, for the intended purpose of identification or advertisement. With respect to signs advertising business uses, it is specifically intended, among other things, to avoid excessive clutter among displays in their demand for public attention.
- (c) It is intended by this section that all temporary signs erected for directional purposes, for public information, or to call attention to special events shall be confined to those that are of general public interest and that such signs shall be limited to the giving of information.
- (d) All other signs, commonly referred to as outdoor advertising, billboards or poster panels, which advertise products or businesses not connected with the site or building on which they are located, are deemed by this section to constitute a separate use. Permanent display of outdoor advertising is

deemed to be inappropriate to the character and the sound development of the County, and it is intended that such advertising be confined to temporary displays on unimproved property in industrial districts.

- (e) Provisions relating to Downtown Columbia were enacted as part of the Downtown Columbia Plan, a comprehensive development scheme to establish for the first time in the County an urban center that is well-planned, economically successful, vibrant, and visually attractive in order to draw in businesses, residents, and tourists and to attract events of regional, national, and international interest. The provisions governing signage in Downtown Columbia are intended to ensure that signs are an integral part of an overall development plan aimed at achieving an aesthetically pleasing and high quality visual environment that reinforces the planned character of each of the neighborhoods, is compatible with the downtown-wide design guidelines and the six sets of Downtown Neighborhood Design Guidelines, enables easy identification and wayfinding for pedestrian and vehicular traffic, and establishes a coordinated and harmonic urban streetscape while, at the same time, provides for a signature environment for each of the six distinct neighborhoods that make up Downtown Columbia. The provisions are also aimed at achieving well-designed, coordinated signage and a process that encourages creativity in the use of signage to enhance the urban experience.

(C.B. 1, 1972; C.B. 56, 2010, § 2)

 - (iv) The total area of all tall building signs allowed for any building shall be computed on the basis of one square foot of sign area for each linear foot of downtown building

frontage. The area for tall building signs is not counted toward the total sign area of the building as calculated in subsection (c)(1)b. of this section.

- (3) *Percolation test rate results.* The conventional percolation test rate may range between two and 30 minutes per inch or up to 60 minutes per inch for a conventional sand mound system. The results of percolation tests shall be considered in conjunction with available information on topography, soil type and conditions, surface and subsurface drainage conditions, water table level, the history of failing septic systems in surrounding areas, and soil map data.
- (4) *Approval of percolation test application.* The percolation test application may be approved when the percolation certification plan is signed or, if a percolation certification plan is not required, other demonstration of adequate area for on-site sewage disposal is provided. The percolation test application is valid for two years from the date of payment of the required application fee. The signed percolation certification plan shall remain valid unless changes to the percolation certification plan are required.
- (5) *Changes to a signed percolation test plan.* Changes to a signed percolation certification plan after the percolation test application has expired may require a new percolation test application. Changes to the signed percolation certification plan that require additional testing shall require a new percolation test application.

- (6) *Issuance of sewage disposal permit.* A sewage disposal permit may be issued when a site plan submitted with the building permit application is approved.
 - (7) *Duration of permit.* A sewage disposal permit and a minor septic repair permit expire one year from the date of issuance.
 - (8) *Denial of permit.* A sewage disposal permit or minor septic repair permit shall be denied when, upon review of the application and required site plan, the approving authority finds that:
 - (i) The proposed design is inadequate to collect, treat and dispose of domestic sewage and effluent discharge in accordance with the standards set forth in this subtitle;
 - (ii) Soil and geological conditions are such as to preclude safe and proper operation of the desired installation; or
 - (ii) The construction would be detrimental to the general health and welfare of the residents or the environment.
 - (9) *Installation without permit not allowed.* Installation shall not be made without first obtaining a written sewage disposal permit from the approving authority.
 - (10) *Inspections.* The approving authority may make inspections during construction to determine compliance with this subtitle. No part of any installation shall be covered until approval by the approving authority has been granted. Any part of an installation that has been covered prior to final approval shall be uncovered upon order of the approving authority. Final written approval shall not be given until all pertinent data required has been submitted.
 - (11) *Final approval.* The on-site sewage disposal system shall not be put into use until final approval of the system installation has been granted by the approving authority.
- (b) *Sewage Scavenger Vehicle.*
- (1) *Permit required.* Each sewage scavenger vehicle that collects domestic sewage within Howard County shall obtain a sewage scavenger permit from the approving authority and pay the corresponding fee. Each permit issued is valid for one year from the date of issuance.
 - (2) *Inspection.* Each sewage scavenger vehicle to be issued a sewage scavenger permit to operate within Howard County shall first be inspected and approved by the approving authority. Inspections shall occur at the Office of the County Health Department (Environmental Health) unless an alternate site is mutually agreed upon prior to the inspection date. All company and vehicle information, along with an assessment of the operational functions of the vehicle, shall be required to complete the inspection process.

Sec. 3.807. - Design of an on-site sewage disposal system.

- (a) *Design Considerations.* The design of an on-site sewage disposal system shall take into consideration location with respect to wells or other sources of water supply, topography, water table, soil characteristics, area available, maximum occupancy of the building, and facilities requiring water usage and the necessity for water treatment equipment.
- (b) *Type of System.* The type of on-site sewage disposal system to be installed shall be determined on the basis of location, soil permeability, ground-water elevation, sewage flow, and any other limiting conditions identified by the approving authority.
- (c) *Sanitary Sewage.* The on-site sewage disposal system shall be designed to receive all sanitary sewage including laundry waste from a building. Backwash effluent from a swimming pool, spa, or water treatment equipment may be directed to an on-site sewage disposal system on a case by case basis. Drainage from a basement floor, sump pump, footing, or roof shall not enter the system.

Separate on-site sewage disposal systems may be required for backwash effluent from a swimming pool, spa, or water conditioning equipment.

- (1) On-site sewage disposal systems shall be located at the point lower than the ground elevation of the well on the premises consistent with the general layout, topography, and surroundings, including abutting lots.
 - (2) Locations at a higher elevation may be used with the specific permission of the approving authority.
 - (3) On-site sewage disposal systems (and designated sewage disposal area) shall not be located up gradient of existing or proposed water wells within 200 feet.
- (e) *Waiver or modification.* The approving authority may waive or modify the requirements of this section for existing lots of record in Howard County in accordance with the waiver requirements set forth in section 3.803 of this subtitle.

(Ord. No. 81, 2006, § 1)

Sec. 3.809. - Percolation test.

- (a) *Percolation Testing.* Percolation tests to determine the absorption capacity of soil for septic tank effluent shall be conducted in accordance with this section and the results interpreted in accordance with this section.
- (b) *Application Rates.*
- (1) The percolation rate is the number of minutes for a one-inch drop after prewetting is noted.
 - (2) The size of the subsurface disposal system can be obtained from the following table for individual residences except single-family dwellings on a shared system:

Conventional Single-Family Residential, Except Single-Family Dwellings on a Shared System, Subsurface Septic System Wastewater Application Rates

Percolation Rate Minimum per Inch	Application Rate gallons per day per square foot

*EPA Design Manual On-site Wastewater Treatment and Disposal System, U.S. Environmental Protection Agency, Office of Water Program Operations, Office of Research and Development Municipal Environmental Research Laboratory, October 1980.

- (3) The size of the subsurface disposal system can be obtained from the following table for commercial and institutional establishments and single-family dwellings on a shared system:

**Conventional Commercial, Institutional, or Single-Family Dwellings on a Shared System
Subsurface Septic System Wastewater Application Rates**

Percolation Rate Minimum per Inch	Application Rate gallons per day per square foot
Less than 2	Not suitable*
2—15	0.8*
16—30	0.6*

*EPA Design Manual On-site Wastewater Treatment and Disposal System, U.S. Environmental Protection Agency, Office of Water Program Operations, Office of Research and Development Municipal Environmental Research Laboratory, October 1980.

Note: For commercial, industrial, or single-family dwellings on a shared system, advanced pretreatment may be used to resolve design issues and may increase the application rate, but in no case greater than 1.2 gpd/square feet.

- (c) *Number and Adequacy of Observations.* An adequate number of percolation and other pertinent observations, as required by the approving authority, shall be conducted within the area designated for the on-site sewage disposal system so as to determine that the area is suitable for sewage disposal. For each 10,000 square feet of sewage disposal area (proposed or approved) five percolation or observations are required proximate to the area designated for the on-site sewage disposal system. This may be waived or altered by the approving authority based on soil conditions.
- (d) *Additional Testing.* The approving authority may require additional percolation testing:
- (1) Where soil texture or structure varies or limiting geologic conditions are encountered; or
 - (2) When the approving authority deems it necessary to evaluate a larger disposal and recovery area for the estimated sewage flow.
- (e) *Rates Slower Than 30 Minutes.* Percolation rates slower than 30 minutes per inch may not be approved except for conventional sand mounds, alternative sand mounds, and innovative and alternative systems.
- (f) *Rates Between Two and Five Minutes.* A percolation rate of between two and five minutes per inch after prewetting will require disapproval if the approving authority finds that adequate protection of the ground water may not be provided.
- (g) *Distance from Groundwater.* The bottom of the septic drainage system shall be at least four feet above ground water. The minimum separation distance may be increased when, in the opinion of the approving authority, additional separation is needed to protect groundwater or where seasonal fluctuations occur.
- (h) *Time of Year That Tests May Be Conducted for Certain Soils.* In areas where the soil survey maps or soil borings indicate moderate or severe limitations based on seasonally perched or seasonally high water tables, soil percolation tests and any other tests as may be required shall be performed at

the time of the year when the highest water table can be expected at the on-site sewage disposal area, except as follows:

- (1) A repair; or
- (2) When there is evidence that a geological formation has a high and fluctuating water table during specified months of the year, the approving authority may specify the times during which the tests are to be made.

(Ord. No. 81, 2006, § 1)

Sec. 3.810. - Capacity of on-site sewage disposal systems, septic tanks, and flow rates.

(a) *Capacity of On-site Sewage Disposal Systems.* The capacity of on-site sewage disposal systems includes all portions of a house except patios, decks, open porches, carports, garages, and uninhabitable attics. Fifty percent of any unfinished basement having a ceiling height of seven feet or greater shall be included when computing the square footage of the house.

(b) *Septic Tank Capacity.*

(1) Minimum septic tank capacity for commercial and institutional establishments shall be calculated with the estimated daily peak sewage flow based on the table contained in subsection 3.805(e)(ii) of this subtitle or the best available information and the following equation:

(i) Flows of 1,500 gallons per day (gpd) or greater—

$$V = 1,125 \text{ Gallons} + 0.75Q$$

Where:

V = Minimum septic tank volume

Q = Estimated daily peak sewage flow

(ii) Flows of less than 1,500 gallons per day (gpd)—

$$V = 1.5Q$$

(2) All on-site sewage disposal systems serving a residential use shall be sized in accordance with the following criteria and tables. This table provides for use of automatic clothes washers and other household appliances except food waste grinders.

**Liquid Capacity of Septic Tanks
(Gallons) for Individual Homes**

Square Footage of House	Required Minimum Tank Capacity (gallons)
0 to 1,500	1,000
1,501 to 3,500	1,500
3,501 and up	2,000

- (c) *Septic Tank Construction.* Plans for all septic tanks including concrete, plastic, and fiberglass shall be approved by the approving authority prior to installation. Plans shall show all dimensions, reinforcing, structural calculations and such other pertinent data as may be required. Septic tanks shall be watertight and constructed of material to prevent excessive corrosion or decay. Each tank shall be structurally designed to withstand all anticipated earth or other loads and shall be installed level and on a solid bed. All fabricated septic tanks must be constructed in accordance with the plans approved by the approving authority. All septic tanks shall have a liquid depth of not less than 2½ feet and a length of not less than two nor greater than three times the width. Every septic tank must be a two-compartment tank. The inlet compartment shall have a capacity of not less than two-thirds of the total tank capacity. Cleanout devices and access panels shall be installed in such a manner as to allow both compartments to be properly serviced. Tanks constructed and or assembled in two sections shall be of the top seam construction type. Metal septic tanks shall not be permitted unless authorized by the approving authority.
- (d) *Septic Tank Installation Requirements.* The following requirements apply to the installation of septic tanks.
- (1) The inlet and outlet tees shall be located a minimum of six inches from the openings of the tank.
 - (2) The tees shall extend from near the top of the tank to a point 16 inches below the inverts of the openings.
 - (3) Sanitary tees shall conform to the following standards:
 - (i) The inlet tee's vertical leg must be a minimum of six inches in diameter and its horizontal leg a minimum of four inches in diameter.
 - (ii) The outlet tee's vertical and horizontal legs shall be a minimum of four inches in diameter.
 - (iii) The vertical leg of both the inlet and outlet tee must extend 16 inches below the invert of the horizontal leg and not less than three inches above the crown of the horizontal leg.

For septic tanks installed deeper than six inches below finished grade, the manhole shall be raised by a method acceptable to the approving authority to within six inches below finished grade. Manholes not extended to grade shall have a pipe at ground surface marking the location of the manhole lid. Manholes extending above the ground surface shall be designed in a manner acceptable to the approving authority.
 - (5) The minimum thickness of the walls shall be four inches, or tanks with wall thicknesses between three to four inches thick may be used if they are water tightness tested with a method approved by the approving authority.
 - (6) The tops and bottoms of concrete tanks shall be four inches thick unless placed under a driveway, in which case they shall be a minimum of six inches thick.
 - (7) All concrete tank walls, tops, and bottoms shall be reinforced in a manner to ensure structural soundness and approved by the approving authority.
 - (8) All tanks shall be watertight.
 - (9) All pre-cast concrete septic tanks slated for use in Howard County shall bear the date on which they were poured. The date shall be permanently scribed in the concrete in such a location as to be conspicuous after the tank has been set in the hole. A tank may not be delivered to Howard County prior to the concrete achieving "working strength" and, in no case, in less than the minimum seven days' curing period. If tanks are made to different specifications for delivery to several counties, those tanks delivered to Howard County shall be marked "Howard County."
 - (10) The inlet and outlet of the tank shall be fitted with an approved type gasket, which will ensure the water tightness of the inlet and outlet piping.

 - (14) The design of the septic system determines the depth of the septic tank. The maximum earth cover on septic tanks shall be three feet for concrete tanks and two feet for plastic tanks. For installations deeper than as provided above, prior approval must be obtained from the approving authority.
- (e) *Limitation of Service.* A septic tank shall not serve more than one property unless authorized by the approving authority.
- (f) *Holding Tanks.* Sewage holding tanks may be used to resolve existing on-site sewage disposal system failures when community sewer facilities are not available and an acceptable on-site repair is not possible. Sewage holding tanks shall meet the criteria set forth in this subsection.
- (1) The Applicant shall submit with their application a maintenance contract acceptable to the approving authority that shall include an acceptable pumping schedule between the Applicant and a permit holder of a sewage scavenger vehicle permit.
 - (2) Holding tanks shall be of watertight construction and installed in such a manner as to minimize their potential for being impacted by ground or surface water. Where ground and surface waters exist, additional sealing methods for holding tanks, joints, or pipe connections may be required as necessary by the approving authority.
 - (3) Holding tanks shall be sized to accommodate seven days of sewage flow. Larger holding tank capacities may be required when such use, flow, or additional capacities are needed to maintain sanitary conditions.
 - (4) The minimum capacity of a holding tank system serving a single residential dwelling shall be no less than 3,000 gallons.
 - (5) Two or more holding tanks may be connected in series to reach the required storage capacity needed for existing use.
 - (6) Holding tanks shall be equipped with a high water level alarm connected to a dedicated circuit that shall provide an audible or visual signal and shall be installed in or on the building structure served by the holding tank system. The floats or other devices for the alarm shall be designed to activate when a minimum holding capacity equivalent to a 24-hour sewage flow is reached.
 - (7) Each compartment of a holding tank system shall have a manhole constructed to grade to allow access for system maintenance.
 - (8) Any property permanently served by a holding tank shall have a signed "consent agreement for use of holding tanks to correct failing sewage system" that shall be recorded into the land records of Howard County as a condition of approval.
- (g) *Abandonment.* When a building that was served by an on-site sewage disposal system is connected to a public sewerage system or otherwise taken out of service, the on-site sewage disposal system shall be properly abandoned by an approved septic system contractor or licensed plumber within 30 days of public sewerage connection or discontinued usage as follows:
- (1) *Tanks and seepage pits.* All septic tanks and seepage pits (i.e., drywells) shall be fully pumped out of liquid waste or effluent and then backfilled with clean fill dirt or other approved material. All metal tanks shall be collapsed in place or physically removed prior to backfilling.
 - (2) *Connections.* Unless used in the connection with the public sewerage system hook-up, any connection leading from the building to the abandoned system shall be fully severed at the building with the resulting opening into the building permanently capped or otherwise sealed.

(Ord. No. 81, 2006, § 1)

Sec. 3.811. - Distribution box.

- (a) *When Required.* A distribution box may be required when more than one line of subsurface sewage disposal drainfield trench or more than one seepage pit is used. All fabricated distribution boxes shall be constructed in accordance with this section and in accordance with the approved plans as submitted and approved by the approving authority.
- (b) *Connection.* Each lateral shall be connected separately to the distribution box and shall not be subdivided.
- (c) *Invert Level.* The invert of all distribution-box outlets shall be at the same level and approximately two inches above the bottom of the box. The inlet invert shall be at least one inch above the invert of the outlets. The size of the distribution box shall be sufficient to accommodate the number of lateral lines.
- (d) *Watertight.* The distribution box shall be of watertight construction arranged to receive the septic tank effluent sewer and with an outlet or connecting line serving each trench or seepage pit.
- (e) *Baffle.* A baffle shall be placed at right angles to the direction of the incoming tank effluent.

(Ord. No. 81, 2006, § 1)

Sec. 3.812. - Seepage pit.

- (a) *When Allowed.* Seepage pits may be used when found necessary and approved by the approving authority for the repair or replacement of existing septic systems:
 - (1) To supplement the subsurface disposal field; or
 - (2) In lieu of the subsurface disposal field where conditions require the operation of seepage pits.
- (b) *Construction of Seepage Pits.* Seepage pits shall be constructed as follows:
 - (1) Where seepage pits are used for septic tank effluent disposal, the number, diameter, and depth of the pits shall be determined after percolation tests have been made to ascertain the porosity of the soil.
 - (2) Seepage pits shall be constructed by totally gravel packing the excavated seepage pit in the following manner:

Before addition of aggregate, a six-inch perforated pipe shall be placed in the excavation and shall extend from the bottom of the pit to just above the completed gravel pack. The pipe shall have three rows of perforations located at 120 degree intervals around the pipe; each row of perforations shall consist of a minimum of 20 five-eighths-inch diameter holes for a ten-foot section of pipe. Schedule 40 PVC, SDR-35 PVC, or approved equal and sewer drain pipe (ASTM 2729) are all acceptable for this six-inch pipe. All sections of pipe are to be primed and glued. Above the gravel a transition to a four-inch section of SCH 40 pvc, SDR-35 PVC or approved equal pipe shall be made in such a way as to ensure the piping is continuous to the bottom of the dry well. This pipe is to be fitted with a cleanout cap which extends four inches above grade. A cast iron pipe and panella type cap shall be used as a sleeve to protect the PVC standpipe in traffic bearing area. The cast iron pipe shall rest on a concrete foundation in a manner approved by the approving authority. A geotextile fabric filter must be placed over the gravel pack to keep the backfill material out of the aggregate, except where poured in-place concrete tops are required to seal the dry well from surface water.
 - (3) Seepage pits shall be no closer than three times the diameter of the largest pit as measured from side to side.

(Ord. No. 81, 2006, § 1)

Sec. 3.813. - Drainfield trenches.

- (a) *Design and Construction.* Drainfield trenches shall be designed and constructed on the basis of the required effective percolation area.
- (b) *Filter Material.* The filter material shall cover the pipe and extend the full width of the trench and shall not be less than six inches deep beneath the bottom of the drain pipe, and two inches above the top of the pipe. The filter materials shall be washed gravel, crushed stone, or slag, ranging in size from ½ to 2½ inches and free of fines, dust, ashes, or clay. The filter material shall be covered by geotextile fabric specially designed to exclude sediment but allow the passage of water.
- (c) *Pipe Size and Spacing Requirements.* The minimum size pipe shall be four inches and the minimum spacing requirements for disposal fields shall conform to those set forth in the following table:

Size and Spacing of Drainfield Fields

Width of Trench at Bottom (inches)	Spacing Between Trenches (feet)*	Effective Absorption Area per Lineal foot of Trench
24	6.0	2.0
36	9.0	3.0

*A greater spacing is desirable where available area permits.

- (d) *Length of Laterals.* The maximum length of a lateral shall not exceed 100 feet. Laterals shall be designed of equal length unless equal distribution is accomplished by low pressure dosing.
- (e) *Disposal Lines.* Disposal lines shall be constructed of not less than four-inch perforated plastic pipe of a type approved by the approving authority. The perforated pipe shall contain three rows of perforations. Each row of perforations shall consist of a minimum of 20 five-eighths-inch diameter holes for a ten-foot section of pipe.
- (f) *Drainfield Trench.* The trench bottom shall be uniformly graded to slope no more than four inches per 100 feet. The drainfield pipe shall be laid at the same pitch as the bottom of the drainfield trench.
- (g) *Drainfield Trench Excavations.* Drainfield trench excavations shall be inspected before the addition of aggregate unless an alternative arrangement has been made with the approving authority.
- (h) *Inspection Pipe.* An inspection pipe shall be installed at the distal end of each lateral of a drainfield absorption system. The pipes shall be perforated in the aggregate, solid above the aggregate, and shall extend from the bottom of the trench to above finished grade. An approved cleanout cap shall be placed on top of the pipe. Both SDR 35 and SCH 40 PVC are approved for the inspection pipe.
- (i) *Deep Trenches.* In cases where State regulations would allow the use of deep absorption trenches, credit may be given for the added absorption area provided in deeper trenches with a resultant decrease in length of trenches. Such credit shall be given in accordance with the following table,

which gives the percentage of length of standard absorption trenches based on six-inch increments of increase in depth of filter material:

Percentage of Length of Standard Trench

Effective Depth of Gravel Below Pipe in Inches	Trench Width (in inches)			
	12	18	24	36
12	75	78	80	83
18	60	64	66	71
24	50	54	57	62
30	43	47	50	55
36	37	41	44	50
42	33	37	40	45

- (1) The standard absorption trench is one in which the filter material extends two inches above the six inches below the pipe.
- (2) For trenches or beds having width or depth not shown in the above table, the percent of length of standard absorption trench may be computed as follows:

Percent of length of standard trench =

$$\frac{W + 2}{W + 1 + 2D} \times 100$$

Where W = Width of trench in feet

D = Effective depth of gravel below pipe in feet

- (3) The separation between deep trenches shall be computed by using the following formula. The minimum separation between trenches shall be six feet.

Separation between trenches = Two times effective depth in trench + width of trench. In no case shall the required trench separation exceed 18 feet edge to edge.

- (b) Before authorizing a sole source purchase, the County Purchasing Agent shall have a written justification prepared explaining that the specifications for supplies or services are not overly restrictive for the County's needs, that only one supplier of the particular supplies or services exists and that the sole source purchase serves the best interests of the County.
- (c) Sole source purchases may be obtained by seeking the supplier's best offer through negotiation.

(C.B. 7, 2003, § 3)

Note— See editor's note following § 4.110.

Sec. 4.112. - Expedited procurement.

- (a) *When Used.* An expedited procurement may be used in a situation which is not an emergency but where prompt action best serves the public interest, including but not limited to avoiding potential loss of Federal or State revenues to the County if rapid procurement actions are not taken, or to situations that, if prompt action were not taken, would have an adverse impact on the economic welfare of the County or important economic development in the County.
- (b) *Advance Approval by County Purchasing Agent.* Expedited procurements require the prior written approval of the County Purchasing Agent.
- (c) *Use of Competitive Process When Practicable.* To the extent practicable, the competitive process of this subtitle shall be used when making an expedited procurement, except that the County Purchasing Agent may:
 - (1) Waive the public notice requirements; or
 - (2) Justify in writing a noncompetitive selection by explaining how the expedited procurement would be in the best interests of the County and explaining why a competitive solicitation cannot be made:
 - (i) Due to insufficient time between the County's first knowledge of the need to make the procurement and the date when the contract must be performed; or
 - (ii) For such other reasons that preclude the use of competition.

(C.B. 39, 1994; C.B. 7, 2008, § 3)

Sec. 4.113. - Professional services.

- (a) *Use of Competitive Process Where Practicable.* Except as provided in subsection (b) below of this section, the purchase of professional services shall be made through a competitive bidding process pursuant to the provisions of this subtitle, whenever practical. When it is not practical to purchase professional services using one of the methods authorized in this subtitle, then the user agency shall consult with the County Purchasing Agent to select a provider of professional services by using another method which will provide as much competition as is practical, given the nature of the services and the circumstances under which the services are needed.
- (b) *Selection of Architects and Engineers.* Architectural and engineering professional services shall be procured on the basis of qualifications and competitive negotiations in accordance with the procedures set forth in the purchasing manual governing architectural and engineering services.
- (c) *Exemption for County Council.* The County Council is exempt from the competitive bidding provisions of this subtitle when awarding professional service contracts. The awarding of contracts by the Council for professional services shall be the responsibility of the Executive Secretary to the Council at the direction and with the approval of the Council.

(C.B. 1, 1983; C.B. 5, 1989; C.B. 77, 1993; C.B. 38, 1994; C.B. 39, 1994)

- (b) *Use of Competitive Process Where Practicable.* Whenever practical, the purchase of services requiring confidentiality shall be made through a competitive bidding process pursuant to the provisions of this subtitle. However, if confidentiality is required, the advertising and public notice provisions of this subtitle may be waived. If there is only one respondent, or a single source, the County Purchasing Agent may authorize the user agency to negotiate the best offer.

(C.B. 39, 1994)

Sec. 4.115. - Contracts with other government agencies.

When used. This process is used:

- (b) When it is to the County's advantage to contract with State or Federal agencies created to assist local governments with particular types of projects; or
- (c) When it is in the County's advantage to contract with other counties or public entities including, without limitation, a Board of Education, community college, or library.

Sec. 4.116. - Procurement card transactions.

Designated County employees shall be authorized to use a procurement card (similar to a credit card) for purchases of a designated amount. Procurement cards shall not be used as a means of avoiding standard purchasing procedures (i.e., dividing a transaction into several smaller transactions). Requisitions for procurement card transactions are not required. Card usage shall be in compliance with Howard County policy and procedure.

(C.B. 6, 2003, § 2; C.B. 7, 2008, § 3)

 - (ii) Is adequate to allocate costs in accordance with generally accepted accounting principles.
 - (4) *Contract modifications.* Every contract modification, change order, or adjustment in contract price initiated by a government agency relating to contracts for services, supplies or construction projects shall be subject to the prior written approval of the County Purchasing Agent. (C.B. 5, 2014, § 1; C.B. 3, 2018, § 1)

Editor's note— C.B. 5-2014, § 1, adopted March 5, 2014, repealed the former § 5.200, and enacted a new § 5.200 as set out herein. Former § 5.200 pertained to similar subject matter. See the Code Comparative Table—Council Bills for complete derivation.

SUBTITLE 3. - COUNCILMANIC DISTRICTS²

Footnotes:

--- (2) ---

Editor's note— C.B. 48, 2003, § 1, replaced former Subtitle 3, §§ 5.300—5.302, which pertained to the establishment of councilmanic districts and derived from C.B. 4, 2002, with §§ 5.300, 5.301.

Editor's note— The County has advised that, by operation of section 202(f) of the Howard County Charter, former Subtitle 3, which established the boundaries for County Council districts after the 2000 U.S. Census, became void following the November 2014 election. In accordance with section 202(f), the 2011 Howard County Redistricting Commission recommended a new Council redistricting plan in October 2011. Because no ordinance was enacted by March 15, 2012 to establish a redistricting plan different from the Commission's plan, under section 202(f) the Commission's plan became law and took effect following the November 2014 election. The Commission's plan, including maps and lists of Census blocks delineating each Council district, is available on the County's website. To see the Commission's report, Council district maps, and Census blocks see <http://cc.howardcountymd.gov/>. For further information, contact the County Council at 410.313.2001.

Charter reference— Council to consist of five members elected from councilmanic districts, § 202; council to establish districts based on decimal census, § 202(f).

In addition, as Howard County continues to grow, residents are increasingly interacting more with the agricultural community making it extremely important for clear communication and mutual respect for one another. Agricultural operations, in many cases, involve noise, dust, odor, slow moving vehicles, and early morning/late evening activity. Howard County farmers are committed to providing a safe quality product for consumers, preserving the environment for the next generation, and being good neighbors. At the same time these activities may have some effect on adjoining properties. It is important that both the agricultural community and neighboring residents respect one another so that agriculture can continue to serve as the foundation of Howard County.

- (1) The agricultural operation existed before a change occurred in the adjoining land use or occupancy of land and, before such change in land use or occupancy of land, the agricultural operation did not constitute a nuisance; or
 - (2) The agricultural operation, including any change in the operation, has been ongoing for one year or more and the operation or change did not constitute a nuisance from the date the operation began or the date the change in the operation began; and
 - (3) The agricultural operation is conducted in accordance with generally accepted agricultural management practices.

- (1) An agricultural operation that does not conform to Federal, State or local health, Howard County Fire Prevention Code, or zoning requirements;

 - (3) An agricultural operation that is conducted in a negligent manner.
- (f) *Limitations of Actions.* Notwithstanding any provision of this section, no action alleging that an agricultural operation conducted in accordance with generally accepted agricultural practices has interfered with the reasonable use or enjoyment of real property or personal well-being shall be maintained if the plaintiff has not sought mediation through the Maryland Agricultural Conflict Resolution Service within the Maryland Department of Agriculture, as provided for in Title 5, Subtitle 4 of the Courts and Judicial Proceedings article of the Annotated Code of Maryland.
- (g) *Legal costs.* In any civil action, if a court finds that the agricultural operation alleged to be a nuisance is found not to be a nuisance and that the suit was brought in bad faith or without substantial justification, the court should require the plaintiff to pay the costs of the proceedings and the reasonable expenses associated with the litigation, including reasonable attorney's fees, incurred by the owner, operator or both, the owner and operator, of the agricultural operation in defending against the legal action.

 - (i) a. The number of moderate income housing units to be constructed in the development will render the development economically unfeasible; or

Sec. 13.402A. - Market-based required alternatives to moderate income housing unit obligation.

- (a) *Application.* This section shall apply when the base sales price for a moderate income housing unit, as determined by the Department at the time the seller offers the unit for sale pursuant to section 13.404 of this subtitle, is 90 percent or more of the market price. For purposes of this section, market price is the net price offered to the public by the seller for a comparable unit within the development. In this instance, instead of providing moderate income housing units as required by section 13.402 of this subtitle, the developer shall pursue one or a combination of the alternatives set forth in subsection (b), (c), or (d) of this section.
- (b) *Units in Foreclosure.* The developer shall substitute units by purchasing, rehabilitating, and offering for sale existing housing units that are in foreclosure and are located throughout the County as follows:
 - (1) A substitute unit is eligible under this option if it:
 - (i) Has had mortgage or tax foreclosure proceedings initiated;
 - (ii) Has not had a mortgage or tax payment made for at least 90 days; and
 - (iii) Has been offered for sale by the owner to the public;
 - (2) The Department must approve each substitute unit before purchase by the developer, and shall ensure that the developer provides the same number of bedrooms;
 - (3) The rehabilitation of each substitute unit shall meet the Department's minimum standards, as determined by regulation of the Department;
 - (4) Upon completion of rehabilitation, the Department must approve each completed unit;
 - (5) A developer shall purchase and rehabilitate the unit and request a priority period, as set forth in section 13.404 of this subtitle, within one year of the developer's initial notification of sale under section 13.404;
 - (6) The sales price for a substitute unit shall be the lowest of the following:
 - (i) The moderate income housing unit price determined by the Department at the time of the developer's request for a priority period for the substitute unit;
 - (ii) Ninety percent of the appraised value of the substitute unit, as rehabilitated; or
 - (iii) The developer's actual cost of purchasing, rehabilitating, and selling the substitute unit, including carrying costs; and
 - (7) A developer shall purchase substitute units of the following types and at the following ratio:

TYPE OF REQUIRED MIHU:	TYPE OF SUBSTITUTE UNIT:	RATIO:
Apartment	Apartment	1:1
Apartment	Single-family, attached	3:2

- (c) *Offer to Low-Income Purchasers.* The developer shall substitute units by offering one-third of the moderate income housing units required under this subtitle to eligible low-income purchasers who shall have an annual household income of up to 60 percent of the median income. The purchase price for these units shall be established in the same manner as set forth in section 13.403 of this subtitle, except that the base price shall be affordable to a purchaser with a household income equal to the following percentages of median income, adjusted by family size appropriate to the size and number of bedrooms in the unit:
- (1) Fifty-five percent for proffered units and single-family homes;
 - (2) Fifty percent for semi-detached (duplexes) and single-family attached (townhomes); and

- (1) The fee-in-lieu shall be calculated as the difference between the prevailing market price for the same unit type and the sale price for the moderate income housing unit provided, however, the fee-in-lieu shall not be less than seven and one-half percent of the sale price for the moderate income housing unit;
 - (2) The prevailing market price shall be determined by a survey of sales prices of units of the same type sold in the County within the previous 12 months;
 - (3) Sales of the following units shall be excluded from the survey:
 - (i) Townhouses less than 1,200 square feet and more than 2,000 square feet;

- (b) *Low Income Defined.* "Low income" is an annual household income of up to 60 percent of the median income in Howard County if the unit is for sale and up to 40 percent of the median income in Howard County if the unit is for rent. - (e) *Priority.* If more than 20 percent of the units are occupied by households eligible for lease extension, priority for lease extension shall be as follows:
 - (1) The owner shall first give priority to households eligible for six-year lease extensions. c. The following notice:

Right To Lease Extensions

For Certain Households

Under Howard County Law

A developer who converts this rental facility to a condominium must offer extended leases to qualified households for up to 20 percent of the units in the rental facility. Certain households which receive extended leases will have the right to continue renting their residences for at least six years from the date of this notice. Certain other households which receive extended leases will have the right to continue renting their residences for at least 3 years from the date of this notice. Rents under these extended leases may only be increased once a year and are limited by increases in the cost-of-living index.

To qualify for a six-year extended lease, you must be current in your rental payments and otherwise in good standing under your existing lease, and meet all of the following criteria:

- (1) A member of the household must be [a] person with a disability or a senior citizen who is at least 62 years of age and must be living in your unit as of the date of this notice and must have been a member of your household for at least 12 months preceding the date of this notice; and
- (2) Annual income for the present members of your household must not have exceeded 80 percent of the median annual income for Howard County.

To qualify for a three-year extended lease, you must be current in your rental payments and otherwise in good standing under your existing lease, and meet at least one of the following criteria:

- (1) The annual income for the present members of your household must not have exceeded 80 percent of the median annual income for Howard County; or
- (2) A member of the household must be a person with a disability or a senior citizen who is at least 62 years of age and must be living in your unit as of the date of this notice.

If your household meets the qualifications, is current in its rental payments and otherwise in good standing under its current lease and desires an extended lease, then you must complete the enclosed application, have it notarized, sign the lease and return them to (address of owner or developer) within 60 days of the date of this notice. If your completed, notarized form and signed lease are not received within that time, you will not be entitled to an extended lease.

If the number of qualified households requesting extended leases exceeds 20 percent of the units in this facility, priority shall be given as follows:

- (1) First priority shall go to households qualified for six-year lease extensions.
- (2) Next priority shall go to households whose annual income is less than 80 percent of the median annual income for Howard County.
- (3) Last priority shall go to households which include a senior citizen or a person with a disability.

Due to the 20 percent limitation, your application for an extended lease must be processed prior to your lease becoming final. Your lease will become final if it is determined that your household is qualified and falls within the limitations.

If you return the enclosed form and lease by _____ (60th day from the date of this notice) you will be notified within 75 days of the date of this notice, or in other words, by

_____ (75th day from the date of this notice) whether you are qualified and whether your household falls within the limitations.

If you receive an extended lease, you may cancel it by giving three months' written notice if more than a year remains on the lease, or by giving one month's written notice if less than a year remains on the lease. The developer may cancel the extended lease, giving you 60 days' written notice, if the senior citizen or person with a disability no longer resides in the household or the household no longer meets the income qualifications.

You may apply for an extended lease and, at the same time, choose to purchase your unit. If you apply for and receive an extended lease, your purchase contract will be void. If you do not receive an extended lease, your purchase contract will be effective and you will be obligated to buy your unit.

- (2) *Application for lease extension by tenants to owner.* Within 60 days of the owner's giving notice of intent to convert and of the sending of the notice of right to a lease extension, application for lease extension and a copy of the lease, any household desiring a lease extension pursuant to this subtitle shall complete the application supplied by the landlord providing the owner with the following:
 - a. The completed notarized application:
 - (i) Stating that the household is applying for an extended lease under this subtitle; and
 - (ii) Setting forth the household's annual income for the calendar year preceding the giving of notice of intent to convert, together with reasonable supporting documentation; and
 - (iii) Setting forth facts showing that a member of the household is a senior citizen or a person with a disability and setting forth facts indicating the length of time that the senior citizen or a person with a disability has been a member of the household (if the qualification for lease extension is based in whole or in part upon the inclusion of a senior citizen or a person with a disability in the household).
 - b. A signed extended lease.
- (3) *Notification to households who have applied for lease extension.* Within 75 days after giving of notice of intent to convert, the owner shall notify each household which submits the documents required by subsection (f)(2) above with the following:
 - a. Whether the household meets the criteria for lease extension and, if not, an explanation of which criteria have not been met.
 - b. Whether a lease extension has become effective.
- (4) *Notification to Howard County Office of Consumer Protection .* Within 75 days after giving of notice of intent to convert, the owner shall provide the Howard County Office of Consumer Protection with the following:
 - a. A notice indicating the number of units in the rental facility being made available to qualified households pursuant to subsections (b) and (c) of this section; and
 - b. A list of all households meeting the criteria of subsections (b) and (c) indicating the priority of each in relation to the total number of units being made available; and
 - c. A list of households submitting notarized applications who do not meet the criteria for lease extensions; and
 - d. A list of all households as to whom an extended lease has become effective, specifying the criteria under which each household qualified.

(g) *Terms of Lease and Rent:*

- (1) The six-year extended lease shall commence on acceptance of the lease and shall terminate not less than six years from the giving of notice of intent to convert.
 - (2) The three-year extended lease shall provide for a term commencing on acceptance of the lease and terminating not less than three years from the giving of notice of intent to convert.
 - (3) The rental fee for the unit may be increased annually on the date of commencement of the lease.
 - (4) The annual increase in the rental fee may not exceed an amount determined by multiplying the annual rent for the preceding year by the percentage increase for the rent component of the U.S. Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI—W) (1967—100) as published by the U.S. Department of Labor, for the most recent 12-month period.
 - (5) Except as otherwise permitted by this subtitle, the extended lease shall contain the same terms and conditions as the lease in effect on the day preceding the giving of notice of intent to convert.
- (h) *Periodic Reporting of Income and Household Status.* Each April 15, households granted extended leases pursuant to this subtitle shall report to the owner:
- (1) Indicating the age and physical mobility status of each household member if the lease extension was granted in whole or in part on the basis of age or disability; and
 - (2) Giving documented evidence of the household's annual income if the lease extension was granted in whole or in part on the basis of income.
- (i) *Termination of Extended Lease by Tenant.* Households granted lease extensions under this subtitle may terminate their leases at any time giving:
- (1) At least one month's written notice when less than a year remains on the lease; or
 - (2) At least three months' written notice when a year or more remains on the lease.
- (j) *Termination of Extended Lease by Owner:*
- (1) The owner may terminate the lease, giving 60 days' written notice, whenever the household fails to meet the qualifications under which the extended lease was granted.
 - (2) The owner may terminate the lease upon:
 - a. Eviction for failure to pay rent due in a timely fashion;
 - b. Eviction for violation of any material term of the lease.

Sec. 13.1203. - County's right of refusal.

- (b) *Use in MIHU program.* Any units that are purchased or leased by the Department or Commission shall be a part of the moderate income housing unit program and meet all laws and regulations applicable to units in that program.
- (c) *Regulations.* The Department may adopt rules and regulations to implement this subsection.

SUBTITLE 13. - HOWARD COUNTY HOUSING COMMISSION ARTICLES OF ORGANIZATION^[2]

Footnotes:

--- (2) ---

Editor's note— Subtitle 10, §§ 13.1001—13.1022, was added by C.B. 51, 1990, contingent upon the taking effect of ch. 330 of the Acts of the General Assembly of 1990. The County has advised that ch. 330 has taken effect. The section numbering has been retained even though slightly at variance with established style. Subsequently, pursuant to C.B. 59, 2001, this subtitle has been renumbered as subtitle 13.

Sec. 13.1301. - Articles adopted.

These articles of organization are adopted pursuant to the Housing Authorities Law, article 44A of the Annotated Code of Maryland.

(C.B. 51, 1990; C.B. 59, 2001)

Sec. 13.1302. - Declarations and findings.

- (a) It is the policy of Howard County to ensure the availability of safe, sanitary and decent housing for the citizens of the County.

- (b) There is a shortage in Howard County of safe and sanitary housing available at rents which persons of low and moderate income can afford. Consequently, many of these persons live in unsanitary, unsafe, or overcrowded housing.
- (c) Unsanitary, unsafe, or overcrowded housing conditions lower the value of surrounding property, constitute a menace to the health, safety, and welfare of the County's residents, and require spending of considerably more than average amounts for public services such as police, fire, health, courts, and prisons.
- (d) Since the private housing market does not assist economically depressed or physically deteriorated areas in the County nor relieve the shortage of safe and sanitary housing for persons of low and moderate income, the construction of housing developments for persons of low and moderate income would not be competitive with private enterprise.
- (e) The clearance, replanning and reconstruction of areas containing unsanitary or unsafe housing and the providing of safe and sanitary housing at rents affordable to persons of low and moderate income are public uses and purposes and essential government functions for which public money may be spent and private property acquired.
- (f) Therefore, there is a need for a housing authority to function in Howard County.

(C.B. 51, 1990; C.B. 59, 2001)
