As a personal note, I am a Senior Citizen that lives in the western portion of Howard County. I expect to move into a Senior Living Community by the time I am in my mid to late seventies. Howard County needs more Senior Living facilities. I would really like to see a community like Vantage House which is the only continuing care facility with life time care at one price.

This approval is vital for the development of an excellent retirement community for Howard County. Dear Howard County Council,

My husband and I are retired Maryland residents. I have researched several options regarding continuing care facilities in Central Maryland. Erickson Living has been our choice. We know several residents in various Erickson facilities; all are pleased with their decision. We physically visited 4 existing Erickson communities in the area, some a couple times. We have a six to eight year goal, by age 70, to move into one of their facilities. The only deciding factor is floor plan. The Limestone project is in a much more convenient location for our family and activities.

I am writing to you to express my full support of CR143-2019.

The resolution includes more than 75 routine updates to the Water and Sewer Master Plan from 2015, including the Planned Service Area boundary adjustment for the proposed Erickson Living at Limestone Valley community through CB-59-2018. This bill received unanimous approval by the previous County Council. As a resident of Howard County, I urge you to vote for CR143-2019 to help deliver Erickson Living and much needed additional senior living opportunities to Howard County.

Thank you, Ellen Miller

Sincerely,
Ellen Miller
