

County Council Of Howard County, Maryland

2019 Legislative Session

Legislative Day No. 13

Resolution No. 143 -2019

Introduced by: The Chairperson at the request of the County Executive

A RESOLUTION approving the 2019 Interim Amendment to the Howard County Master Plan for Water and Sewerage, consisting of text, tables, and maps incorporating various revisions based on and including:

- 1. Changes to capital projects related to the capital budget, the ten-year capital improvement program, or completed engineering studies;
2. The entry of properties into the County's Metropolitan District;
3. Changes in service area priorities for individual property parcels, subdivisions and developer projects based upon the review of capital and developer project progress; and
4. Changes to the water and sewer Planned Service Area.

Introduced and read first time _____, 2019.

By order Diane Schwartz Jones, Administrator

Read for a second time at a public hearing on _____, 2019.

By order Diane Schwartz Jones, Administrator

This Resolution was read the third time and was Adopted __, Adopted with amendments __, Failed __, Withdrawn __, by the County Council on _____, 2019.

Certified By Diane Schwartz Jones, Administrator

Approved by the County Executive _____, 2019

Calvin Ball, County Executive

NOTE: [[text in brackets]] indicates deletions from existing law; TEXT IN SMALL CAPITALS indicates additions to existing law; Strike-out indicates material deleted by amendment; Underlining indicates material added by amendment

1 **WHEREAS**, Title 9, Subtitle 5 of the Environment Article of the Annotated Code of
2 Maryland (the “State law”) requires each county governing body to adopt a Master Plan for
3 Water and Sewerage and to review the plan every 3 years; and
4

5 **WHEREAS**, the County Council and County Executive last approved an amendment to
6 the Master Plan for Water and Sewerage by adoption of Council Resolution 36-2016 on May 2,
7 2016; and
8

9 **WHEREAS**, in accordance with State law, the Department of Public Works has prepared
10 the attached 2019 Interim Amendment to the Master Plan for Water and Sewerage as a
11 comprehensive amendment; and
12

13 **WHEREAS**, also in accordance with Section 9-503 of the State Law, the County’s
14 governing body has conducted a public hearing on the amendment; and
15

16 **WHEREAS**, this Interim Amendment includes the following types of revisions:

- 17 1. Changes to capital projects related to the capital budget, the ten-year capital
18 improvement program, or completed engineering studies;
- 19 2. The entry of properties into the County’s Metropolitan District;
- 20 3. Changes in service area priorities for individual property parcels, subdivisions and
21 developer projects based upon the review of capital and developer project
22 progress; and
- 23 4. Changes to the water and sewer Planned Service Area (PSA); and
24

25 **WHEREAS**, this Interim Amendment incorporates recent legislative action taken by the
26 County Council in Council Bill No. 59-2018 that extended to PSA boundary for water and sewer
27 service to include approximately 61 acres of property located west of Clarksville Pike (MD
28 Route 108); and
29

30 **WHEREAS**, this Interim Amendment also incorporates recent legislative action taken by the
31 County Council in Council Resolution No. 119-2018 that approved certain connections to the

1 West Friendship Fire Station “suppression-only” water main only when ordered by the County
2 Health Officer for certain uses and when water quality is impaired and there is no practical on-
3 site water source alternative; and
4

5 **WHEREAS**, this Amendment was approved by the Public Works Board on June 11,
6 2019 and by the Planning Board on August 15, 2019.
7

8 **NOW, THEREFORE, BE IT RESOLVED** by the County Council of Howard County,
9 Maryland this ____ day of _____, 2019, that the Howard County Master Plan for
10 Water and Sewerage is amended by adopting the 2019 Interim Amendment to the Howard
11 County Master Plan for Water and Sewerage, consisting of the text, tables, and maps attached
12 hereto and incorporated herein.

Amendment 1 to Council Resolution No. 143-2019

BY: The Chairperson at the request
of the County Executive

Legislative Day 14
Date: December 2, 2019

Amendment No. 1

(This amendment substitutes a new Table 10B, Existing & Proposed Shared Septic Systems, to reflect the removal of the Foxleigh (formerly Hyman Property) shared septic system.)

- 1 Behind the page titled "Attachment 4", remove Table 10B in its entirety and substitute revised
- 2 Table 10B as attached to this Amendment.

Dear Howard County Council,

I am writing to you to express my full support of CR143-2019.

The resolution includes more than 75 routine updates to the Water and Sewer Master Plan from 2015, including the Planned Service Area boundary adjustment for the proposed Erickson Living at Limestone Valley community through CB-59-2018. This bill received unanimous approval by the previous County Council. As a resident of Howard County, I urge you to vote for CR143-2019 to help deliver Erickson Living and much needed additional senior living opportunities to Howard County.

Sincerely,
Cristina Ferrer

As a senior citizen, widower and Long Reach resident, I have been hoping for a facility such as this one so that I would not have to move from Howard County. I plan on looking into Limestone and hopefully moving there at my earliest opportunity.

Thank you for the opportunity to comment.

Dear Howard County Council,

I am writing to you to express my full support of CR143-2019.

The resolution includes more than 75 routine updates to the Water and Sewer Master Plan from 2015, including the Planned Service Area boundary adjustment for the proposed Erickson Living at Limestone Valley community through CB-59-2018. This bill received unanimous approval by the previous County Council. As a resident of Howard County, I urge you to vote for CR143-2019 to help deliver Erickson Living and much needed additional senior living opportunities to Howard County.

Sincerely,
Jim and Denise OConnor

Dear Howard County Council,

I am writing to you to express my full support of CR143-2019.

The resolution includes more than 75 routine updates to the Water and Sewer Master Plan from 2015, including the Planned Service Area boundary adjustment for the proposed Erickson Living at Limestone Valley community through CB-59-2018. This bill received unanimous approval by the previous County Council. As a resident of Howard County, I urge you to vote for CR143-2019 to help deliver Erickson Living and much needed additional senior living opportunities to Howard County.

Sincerely,
Richard and Annette Keith

Dear Howard County Council,

I am writing to you to express my full support of CR143-2019.

The resolution includes more than 75 routine updates to the Water and Sewer Master Plan from 2015, including the Planned Service Area boundary adjustment for the proposed Erickson Living at Limestone Valley community through CB-59-2018. This bill received unanimous approval by the previous County Council. As a resident of Howard County, I urge you to vote for CR143-2019 to help deliver Erickson Living and much needed additional senior living opportunities to Howard County.

Sincerely,
matt narrett
4662 Willowgrove Dr Ellicott City, MD 21042-5948 mnarrett@erickson.com

Dear Howard County Council,

I am writing to you to express my full support of CR143-2019.

The resolution includes more than 75 routine updates to the Water and Sewer Master Plan from 2015, including the Planned Service Area boundary adjustment for the proposed Erickson Living at Limestone Valley community through CB-59-2018. This bill received unanimous approval by the previous County Council. As a resident of Howard County, I urge you to vote for CR143-2019 to help deliver Erickson Living and much needed additional senior living opportunities to Howard County.

Sincerely,

JUDITH PITTMAN

8125 Yellow Pine Dr Apt J Ellicott City, MD 21043-5550 judy.pittman99@gmail.com

As a personal note, I am a Senior Citizen that lives in the western portion of Howard County. I expect to move into a Senior Living Community by the time I am in my mid to late seventies. Howard County needs more Senior Living facilities. I would really like to see a community like Vantage House which is the only continuing care facility with life time care at one price.

Thank you,
Rhonda Neubauer

Sincerely,
Rhonda Neubauer

Subject: CR143-2019 – I support Erickson Living and expanded living opportunities for Howard County Seniors

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Dear Howard County Council,

I am writing to you to express my full support of CR143-2019.

The resolution includes more than 75 routine updates to the Water and Sewer Master Plan from 2015, including the Planned Service Area boundary adjustment for the proposed Erickson Living at Limestone Valley community through CB-59-2018. This bill received unanimous approval by the previous County Council. As a resident of Howard County, I urge you to vote for CR143-2019 to help deliver Erickson Living and much needed additional senior living opportunities to Howard County.

Sincerely,
mary jo cress

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Dear Howard County Council,

I am writing to you to express my full support of CR143-2019.

The resolution includes more than 75 routine updates to the Water and Sewer Master Plan from 2015, including the Planned Service Area boundary adjustment for the proposed Erickson Living at Limestone Valley community through CB-59-2018. This bill received unanimous approval by the previous County Council. As a resident of Howard County, I urge you to vote for CR143-2019 to help deliver Erickson Living and much needed additional senior living opportunities to Howard County.

Sincerely,
Judith Schneider

Not sure my previous response got thru since the screen disappeared before I hit the Submit button.

I am looking forward to moving back to Howard County in 2025..... to the Erickson Retirement community. If it is not there I will move elsewhere. Please support this development.

Sincerely,
Joan Faltot

The resolution includes more than 75 routine updates to the Water and Sewer Master Plan from 2015, including the Planned Service Area boundary adjustment for the proposed Erickson Living at Limestone Valley community through CB-59-2018. This bill received unanimous approval by the previous County Council.

This approval is vital for the development of an excellent retirement community for Howard County. Many studies indicate that Howard County needs to help for the seniors needs for proper accommodation in our later life so that we do not leave Howard county for outside senior facilities and lose our taxes etc.

As a senior resident of Howard County, I urge you to vote for CR143-2019 to help deliver Erickson Living and much needed additional senior living opportunities to Howard County.

Dear Howard County Council,

I am writing to you to express my full support of CR143-2019.

The resolution includes more than 75 routine updates to the Water and Sewer Master Plan from 2015, including the Planned Service Area boundary adjustment for the proposed Erickson Living at Limestone Valley community through CB-59-2018. This bill received unanimous approval by the previous County Council. As a resident of Howard County, I urge you to vote for CR143-2019 to help deliver Erickson Living and much needed additional senior living opportunities to Howard County.

Sincerely,
Trish Pfaff

Dear Howard County Council,

My husband and I are retired Maryland residents. I have researched several options regarding continuing care facilities in Central Maryland. Erickson Living has been our choice. We know several residents in various Erickson facilities; all are pleased with their decision. We physically visited 4 existing Erickson communities in the area, some a couple times. We have a six to eight year goal, by age 70, to move into one of their facilities. The only deciding factor is floor plan. The Limestone project is in a much more convenient location for our family and activities.

I am writing to you to express my full support of CR143-2019.

The resolution includes more than 75 routine updates to the Water and Sewer Master Plan from 2015, including the Planned Service Area boundary adjustment for the proposed Erickson Living at Limestone Valley community through CB-59-2018. This bill received unanimous approval by the previous County Council. The resolution includes more than 75 routine updates to the Water and Sewer Master Plan from 2015, including the Planned Service Area boundary adjustment for the proposed Erickson Living at Limestone Valley community through CB-59-2018. This bill received unanimous approval by the previous County Council. As a resident of Howard County, I urge you to vote for CR143-2019 to help deliver Erickson Living and much needed additional senior living opportunities to Howard County.

We and many other seniors live in this area and need good options for retirement living to be available when we have decisions to make on our places where we live.

Thank you for your support

Sincerely,
Kenneth Hart

In response to your email questions provided below, here's information on Shared Septic Projects of interest:

Question 1: What dates were the following proposed Shared Septic projects terminated?

1. **50-4361-D Fulton Woods:** No termination/void date. Void letter shall be generated. Shall confirm with Division of Land Development, in association with F-08-014. Newer F-plan F-12-004 shows Shared Septic system no longer applicable.
2. **50-4381-D Marty Howard Property (Site now called Jack's Landing (Formerly Dunfarmin Estates)):** No termination date. Void letter shall be generated. Shared Septic Plan no longer applicable. F-18-088 shows Shared Septic system no longer applicable.
3. **50-4386-D Pickett Property (New name is The Legacy):** Mylars returned to consultant from Bureau of Utilities 2/13/2009. No approved and signed plan for construction use. No termination date. Associated F-plans F-07-052 voided 12/15/2010. Void letter for 50-4386-D shall be generated.
4. **50-4460-D Quartz Hill Estates:** Plan never approved, and no longer applicable. Void letter shall be generated.

Question 2: What dates were these new Shared Septic systems added?

5. **50-4964-D Belvedere Estates:** Plan submitted 2/12/2016. As-built completed 12/22/2017.
6. **50-4866-D Kings Forest (Formerly Carroll-Ziegler Property):** Plan submitted 4/11/2014. Approved 10/2/2019. Originals for approval signatures not yet submitted.
7. **50-4980-D Foxleigh (Formerly Hyman Property):** Submitted 7/5/2016. Voided 10/30/2019. Shared Septic no longer required, individual septic systems will be provided for multiple lots on open parcel. Unprecedentedly approved by the Health Department.
8. **50-5062-D Willowshire (Formerly known as Simpson & Denault Property):** Submitted 3/16/2018. Approved 1/24/2019. Originals currently being circulated for signature.

Please feel free to contact me with any questions or concerns.

Sincerely,

Maury Gogolski

CR 148

2019 Interim Amendment
of the
Master Plan for Water & Sewerage
(2015 Amendment)

AMENDMENT PACKAGE

**HOWARD COUNTY MASTER PLAN FOR WATER & SEWERAGE
INTERIM AMENDMENT**

March 2019

This packet includes the following documents providing updates and revisions to the 2015 Amendment of the Water & Sewerage Master Plan.

1. A Report of the Review of the 2015 Amendment.
2. Certification Statements by the Departments of Planning & Zoning and Public Works.
3. Attachment 1: Revised text for Chapter 1, OBJECTIVES & ORGANIZATION.
4. Attachment 2: Revised text for Chapter 3, THE WATER PLAN.
5. Attachment 3: Revised text for Chapter 4, THE SEWERAGE PLAN.
6. Attachment 4: Revised Table 10B, Summary of Existing & Planned Shared Sewage Disposal Facilities.
7. Attachment 5: Tabular listing and description of the revision codes for the EXHIBIT 1- WATER PLAN map.
8. Attachment 6: Tabular listing and description of the revision codes for the EXHIBIT 2E- SEWER PLAN map.
9. Attachment 7: Revised EXHIBIT 1- WATER PLAN map.
Revised EXHIBIT 2-East- SEWER PLAN map.

NOTE: All other text, tables and figures of the 2015 Amendment of the Master Plan remain unchanged.

REPORT OF THE REVIEW

MASTER PLAN FOR WATER AND SEWERAGE INTERIM AMENDMENT

March 2019

Each year, the Howard County Department of Public Works reviews the Master Plan for Water & Sewerage in accordance with the Maryland Code of Regulations (COMAR) 26.03.01.03 and Sections 18.100A and 22.405 of the Howard County Code and, when necessary or appropriate, the Department will prepare interim updates to ensure adequate water and sewer planning. The interim updates will generally incorporate the following types of revisions into the Master Plan for Water and Sewerage:

1. Changes to capital projects related to the capital budget, the ten-year capital improvement program, or completed engineering studies.
2. Entry of properties into the County Metropolitan District.
3. Changes in service area priorities for individual property parcels, subdivisions and developer projects based upon the review of capital and developer project progress, and
4. Changes to the water and sewer Planned Service Area (PSA).

Additional updates and revisions may be warranted based on such factors as changes to the County's General Plan, comprehensive zoning and economic conditions.

This 2019 Interim Amendment provides more than 75 revisions to the 2015 Amendment of the Master Plan. The majority of these revisions consist of routine matters such as updating the water and sewer maps to identify those properties that entered the Metropolitan District, updating the status of capital projects as they progress from planning to completion, and updating the status of private developer projects as they progress through the development review process.

Two additional revisions incorporate legislative action by the Howard County Council. The most notable of these revisions is the expansion of the Planned Service Area boundary in the Clarksville area, which will provide water and sewer service eligibility to a planned continuing care retirement community (CCRC) known as the Erickson Living project. Public hearing notices have been posted near the project site to ensure that the public is provided the opportunity to offer input toward water and sewer planning in the area.

Below are summaries of the specific revisions to the 2015 Master Plan amendment:

1. Chapter 1- Objectives and Organization- Chapter 1 was revised in two places to incorporate Howard County Council amendments to the Planned Service Area.
 - "Section 1.3- Planned Service Area" was revised in accordance with Howard County Council Bill No. 59-2018.
 - "Section 1.4- No Planned Service Area" was revised in accordance with Howard County Council Resolution No. 119-2018.

2. Chapter 3- The Water Plan- Chapter 3 was revised to include planning for a new elevated water storage tank in the Clarksville area to alleviate a projected water storage deficit.
3. Chapter 4- The Sewerage Plan- Chapter 4 was revised to expand the description of the planned capacity improvements to the Dorsey Run Sewage Pumping Station in response to a request by MDE.
4. Changes to Shared Sewage Disposal Facilities- "Table 10B- Existing and Proposed Shared Septic Sewerage Systems" has been updated to add new projects and remove discontinued projects resulting from private development activity as these projects proceed from planning to construction.
5. Entries into the Metropolitan District- Properties that have been incorporated into the Metropolitan District require modifications to the water and sewer plan maps to show the current status of the Metropolitan District boundaries. Similarly, properties that are removed from the Metropolitan District are removed from the District boundaries. The enclosed maps have been updated to incorporate Metropolitan District changes through December 2018.
6. Changes to the Service Priority Designations for Individual Parcels- The water and sewerage priority designations (e.g. Existing and Under Construction, 0-to-5 Year Priority, 6-to-10 Year Priority, etc.) for individual property parcels in the Planned Service Area have been reviewed and updated on the water plan and sewer plan maps in accordance with criteria specified in Chapter 1 of the Master Plan.
7. Changes in the Status of Private Development- As private development projects proceed through the plan review and approval process administered by the Department of Planning & Zoning, the water and sewerage priority designations for the affected properties are updated on the water plan and sewer plan maps in accordance with criteria specified in Chapter 1 of the Master Plan. The enclosed maps have been updated to incorporate private development activity based upon annual review of the Planning & Zoning "Subdivisions in Process" and "Site Development Plans" databases through December 2018.

Each of the above items replace the corresponding materials in the 2015 Master Plan Amendment.

STATEMENT OF CERTIFICATION

April 2019

The water and sewerage projects and the water and sewer service areas proposed in the Master Plan for Water and Sewerage for Howard County are consistent with *PlanHoward 2030*, Howard County's General Plan, adopted on August 8, 2012 by the Howard County Council. The Master Plan for Water and Sewerage has been developed based upon land use objectives shown in the General Plan and population estimates provided by the Department of Planning and Zoning.

ENGINEER'S STATEMENT OF CERTIFICATION

March 2019

The water and sewerage projects proposed in the Howard County Master Plan for Water and Sewerage are adequate to meet the future system requirements as projected. The Master Plan for Water and Sewerage has been prepared based on population estimates, basic policy edicts and other basic data provided by the Howard County Office of Planning and Zoning, the Department of Public Works and the Howard County Health Department.

James M. Irvin, Director

MASTER PLAN FOR WATER AND SEWERAGE
INTERIM AMENDMENT
March 2019

ATTACHMENT 1

Chapter 1- Objectives and Organization-

Section 1.3- Planned Service Area, page 1-4, is hereby revised to insert item 5, which describes an amendment to the Planned Service Area boundary in accordance with Howard County Council Bill 59-2018. The revised item is printed in italics.

Section 1.4- No Planned Service Area, page 1-11, is hereby revised to amend the permitted use of the fire suppression water main to the West Friendship Fire Station in accordance with Howard County Council Resolution 119-2018. The revised item is printed in italics.

All other text within Chapter 1 of the 2015 Master Plan amendment remains unchanged.

2. PlanHoward 2030 amended the Planned Service Area for sewerage to include twenty properties in the Ellicott City area totaling 158.76 acres and bounded by US Route 40 on the north, Marriottsville Road on the west and Frederick Road to the south. The properties are part of the Alpha Ridge Water Service Area.
3. PlanHoward 2030 amended the Planned Service Area for water and sewerage to add four properties in the Clarksville area totaling 90.33 acres and bounded by Guilford Road on the north and MD Route 108 on the west.
4. PlanHoward 2030 amended the Planned Service Area for water and sewerage to add one property in the Fulton area totaling 91.25 acres and bounded by Scaggsville Road to the north and Murphy Road to the west.

5. *The Planned Service Area boundary for water and sewerage was amended by County Council Bill 59-2018 to add approximately 61 acres of property in the Clarksville area to the Planned Service Area. The property, identified as tax map 34, parcel 185 along with part of tax map 28, parcel 100, is located north of Maryland Route 108 and west of Sheppard Lane in Clarksville. The expansion of the PSA is part of a specific zoning proposal with the stated purpose of providing a continuing care retirement community (CCRC) that will provide independent living units and assisted living and skilled nursing care, and which advances several stated land use policies within the Howard County General Plan.*

The General Plan provides for expansion of the Planned Service Area under limited circumstances for certain public or institutional uses. Expansion for public or institutional uses must meet criteria limiting the parcel size to the minimum necessary for the proposed institutional use and requiring actual construction of the proposed use and connection to the public system by a specific deadline. Expansion of the PSA for institutional uses is limited to institutional properties that are adjacent to the existing boundary of the PSA and which continue the linear boundary line without including an intervening, privately-owned parcel that is currently not located in the Planned Service Area. Before obtaining public water or sewer service, a property within the PSA must enter the County's Metropolitan District. Property in the Metropolitan District is subject to fees, assessments and charges required to finance the construction, operation and maintenance of the public water and sewerage system.

Parcels of land within the designated "No Planned Service Area" of the Howard County Master Plan for Water & Sewerage are not eligible for connection to the public water and/or sewerage system. However, parcels that have been ordered by the Health Department's Bureau of Environmental Health to connect to the public system under emergency circumstances are eligible for connection if the public system is available to the property. These parcels will not be incorporated into the Metropolitan District after connection, nor brought into the Planned Service Area. They are subject to the fees, assessments, and charges to finance the construction, operation, and maintenance of the public water and sewerage systems to the same extent as parcels in the Metropolitan District. These connections must be in accordance with section 18.101 of the Howard County Code.

The County will no longer extend the Planned Service Area for RR and RC zoned parcels in order to address public health concerns. Such parcels will be provided with necessary connection to public water and/or sewerage service if, in the opinion of the Director of Public Works, public systems are available and connection to the public system is ordered by the Howard County Bureau of Environmental Health to protect public health and welfare. The parcels will not be included in the Metropolitan District.

In 2008, the County provided a water main extension into the No Planned Service Area to the West Friendship Fire Station site at the intersection of Rt. 99 and Rt. 32. This main was constructed solely to provide fire suppression at the West Friendship Fire Station site. Council Resolution 119-2018 amended the restriction to state that individual parcels outside of the Planned Service Area and fronting on this water main will not be allowed to connect unless ordered by the County Health Officer for public or institutional use such as an academic school, religious facility or charitable or philanthropic institution where (1) water quality impairments exist and (2) no practical on-site water source alternatives exist.

A. Shared Sewage Disposal Facility

A "Shared Sewage Disposal Facility" means a sewerage system which serves more than one lot of land with public collector sewers, common septic tank and/or advanced pretreatment, and shared subsurface sewage disposal fields.

Undeveloped properties zoned RR and RC within the No Planned Service Area may be serviced by private individual on-site septic systems or shared sewage disposal facilities. Howard County Code Title 18, Subtitle 12, establishes requirements and procedures for shared disposal facilities to serve cluster development permitted on RR and RC zoned land. These systems are proposed and constructed by private developers of residential subdivisions. Shared sewage disposal facilities are designed in accordance with County standards and must be approved by the Department of Public Works, the Department of Planning and Zoning, the Howard County Bureau of Environmental Health and, at their discretion, the Maryland Department of the Environment prior to construction. Shared sewage facilities that require a State Groundwater Discharge Permit issued by the Maryland Department of the Environment are prohibited under Section 18.1202 of the Howard County Code.

Shared sewage disposal facilities generally consist of pumps and controls located on individual parcels which discharge to a common sewer main. The sewer conveys collected sewage to a common pretreatment area consisting of septic tanks and other pretreatment. Treated effluent is discharged to a subsurface soil absorption area. Shared sewage disposal facilities and related easements become County property after construction. Operation and maintenance of shared sewage facilities is the responsibility of the Department of Public Works.

MASTER PLAN FOR WATER AND SEWERAGE
INTERIM AMENDMENT
March 2019

ATTACHMENT 2

Chapter 3- The Water Plan

Section 3.10- Required Local System Improvements, page 3-25 is hereby revised to include planning for a new elevated water storage tank in the Clarksville area to alleviate a projected water storage deficit. The revised material is printed in italics. All other text of Chapter 3 remains unchanged.

In October 2018, the Howard County Council approved (Council Bill No. 59-2018) a request by Erickson Properties to add approximately 61 acres of land in the Clarksville area to the Planned Service Area for development of a continuing care retirement community (CCRC) known as the Erickson Living project.

Previously, a 2014 study of water storage capacity within the County's water distribution system determined that a minor water storage deficit (60,000 gallons) would arise in the 630 West zone beginning in Year 2020 but, due to stable water demands, the deficit could be managed until the Year 2035 without the need to construct additional storage capacity.

The subsequent additions to the Planned Service Area and the 630 West water zone (i.e., the Doughregan/Westmount, Hoddinott LLC and Erickson Living projects) will increase the water storage deficit to approximately 200,000 gallons. To alleviate the storage deficit, a new 500,000 gallon elevated water storage tank is recommended and planned for the Clarksville area for construction by the Year 2030. The new tank will be used in conjunction with the existing Harpers Choice tank to provide storage capacity and redundancy for the Columbia and Clarksville communities through the planning period.

The high ground elevations along the MD Route 108 corridor in Clarksville (i.e., elevations 470 and above) are advantageous to siting the proposed tank. The planning and design of water storage tanks is a lengthy and complex process, therefore is recommended that the process start now. A conceptual location for the new tank is marked on the enclosed Exhibit 1- Water Plan map as revision W-145.

H. 630 South Pressure Zone

Analysis shows that the Fulton Tank and associated pump stations will supply appropriate pressures and fire flow through full build-out of this zone in 2040. New development projects will continue in the 630 South Zone through Year 2025, including approximately 28,000 linear feet of 12" water distribution main to complete looping. The zone analysis also showed that the water storage capacity provided by the Fulton Tank will be sufficient to meet the zone's demands beyond 2040.

As described in Chapter 1, the Planned Service Area was expanded under PlanHoward 2030 to include approximately 91.25 acres of land in the Fulton area (refer to EXHIBIT 1, revision W-03) within the 630 South Water Zone. The water demand projections for this area are included in Tables 1 and 1A of Chapter 2. Based on current zoning densities and water demand projections, hydraulic analysis shows that the major water facilities (transmission mains 12-inch diameter and larger, pumping stations and water storage) are adequate for the increased demand through the planning period.

Water service to the expanded service area is available from the Scaggsville Road 16-inch diameter water main constructed under County contract 3505. The capacity of local water distribution facilities and necessary improvements will require evaluation as development plans are prepared.

MASTER PLAN FOR WATER AND SEWERAGE
INTERIM AMENDMENT
March 2019

ATTACHMENT 3

Chapter 4- The Sewerage Plan

Section 4.10- Required Local System Improvements based on Capacity Evaluation, page 4-26 of the 2015 Master Plan is hereby revised to expand the description of the planned capacity improvements to the Dorsey Run Sewage Pumping Station in response to a request by MDE. The revised material is printed in italics. All other text of Chapter 4 remains unchanged.

third siphon barrel under Capital Project No. S-6271– Furnace Avenue Sewer and Deep Run Inverted Siphon Improvements.

Improvements are currently being constructed for the area served by the Furnace Avenue sewer under Capital Project No. S-6271. The downstream portion is under construction but the upstream portion also requires additional capacity.

L. Shallow Run Sewer Drainage Basin

Hydraulic improvements are needed within the Shallow Run drainage area, which is part of the area served by the Deep Run Interceptor. Additional capacity is needed for the Shallow Run Interceptor. The previous hydraulic model evaluations identified fewer portions of the Shallow Run Interceptor for additional capacity but subsequent updates to the model expanded the portions in need of improvements.

The planned reinstatement of the Kerger Road Pumping Station will divert flow away from the Rockburn Interceptor to the Shallow Run Interceptor which resulted in the increased need for improvements. Improvements to the Shallow Run Interceptor are being developed under Capital Project No. S-6284– Deep Run/Shallow Run Interceptor Improvements, which is currently in design.

M. Sewage Pumping Station Improvements

In evaluating pumping stations for capacity, the pumps and the accompanying force mains are considered to comprise individual comprehensive systems. In other words, pumping stations that require additional capacity may require improvements to the force main as well as the pump station itself. For both the Little Patuxent Water Reclamation Plant drainage basin and the Patapsco Wastewater Treatment Plant drainage basin, the improvements to pumping stations that are needed to provide adequate capacity for future flows are listed below by individual pumping station.

North Laurel Sewage Pumping Station

The need for additional pumping capacity within the North Laurel Pumping Station is currently being addressed by construction of a new pumping station to replace the existing station. Improvements are currently being constructed under Capital Project No. S-6189– North Laurel Wastewater Pumping Station.

Dorsey Run Sewage Pumping Station

An updated analysis of hydraulic capacity showed that no hydraulic improvements are needed for the Dorsey Run station *if all three existing pumps were operated simultaneously. Previous hydraulic modeling had identified the need for additional pumping capacity but subsequent updates to the model determined that sufficient capacity currently exists. However, Capital Project No. S-6286- Dorsey Run Pump Station Upgrade will provide improvements to satisfy EPA and State reliability*

criteria, which require that pumping stations have sufficient capacity to pump the maximum flow (8.05 MGD) with the largest pumping unit out of service. The improvements include the replacement of the existing pump units with larger capacity units.

Henkel's Lane/Annapolis Junction Sewage Pumping Station

Updated analysis determined that no hydraulic capacity improvements are required for this station.

US Route 40 Sewage Pumping Station

Updated analysis determined that no hydraulic capacity improvements are required for this station.

Rockburn Sewage Pumping Station

Updated analysis determined that no hydraulic capacity improvements are required for this station. The previous hydraulic model evaluations identified the Rockburn Pumping Station for additional capacity but subsequent updates to the model resulted in the elimination of the improvements. The planned reinstatement of the Kerger Road Pumping Station will divert flow away from the Rockburn Interceptor and the Rockburn Pumping Station to the Shallow Run Interceptor, which eliminated the need for additional capacity at the Rockburn pump station.

Kerger Road Sewage Pumping Station

Improvements to the Kerger Road Pumping Station are being developed under Capital Project No. S-6282– Bonnie/Rockburn Branch Interceptor Improvements, which is currently in design. The Kerger Road pump station will enable diversion of excess flow away from the Rockburn Interceptor and Rockburn Pumping Station to the Shallow Run Interceptor.

Meadowridge Road Sewage Pumping Station

No hydraulic capacity improvements are required for this station.

Old Landing Sewage Pumping Station

No hydraulic capacity improvements are required for this station.

4.11 Biosolids and Residual Solids Processing and Disposal

Biosolids and other residual solids are currently generated at the Little Patuxent Water Reclamation Plant by the removal of suspended and dissolved solids during the wastewater treatment processes, and by the collection of wastes from private septic systems and shared sewage disposal facilities throughout the County. Septic tank

March 2019

ATTACHMENT 5

EXHIBIT 1-Water Plan Map Revision Code Table

This table lists and identifies each revision to the Water Plan including the revision of the Planned Service Area boundary, entries into the Metropolitan District and changes in the status of private development.

Each revision is identified by numerical code and includes the subdivision or property owner name, tax map number, parcel or lot number, a description of the revision, and the reason for the revision.

The numerical codes correspond to the revisions marked and coded in red on the EXHIBIT 1- Water Plan map included as Attachment 7.

EXHIBIT 1- WATER PLAN MAP UPDATES

Revisions to Water Service Categories for Subdivision Activity from January 1, 2015 through December 31, 2018. Refer to Exhibit 1 of the 2015 Amendment- Water & Sewer Master Plan for Map Revisions W-01 through W-72.

MASTER PLAN FOR WATER AND SEWERAGE
INTERIM AMENDMENT
March 2019

ATTACHMENT 6

EXHIBIT 2E- Sewer Plan Map Revision Code Table

This table lists and identifies each revision to the Sewer Plan Map including the revision of the Planned Service Area boundary, entries into the Metropolitan District and changes in the status of private development.

Each revision is identified by numerical code and includes the subdivision or property owner name, tax map number, parcel or lot number, a description of the revision, and the reason for the revision.

The numerical codes correspond to the revisions marked and coded in red on the EXHIBIT 2 East- Sewer Plan map included as Attachment 7.

EXHIBIT 2- SEWER PLAN MAP UPDATES

Revisions to Sewer Service Categories for Subdivision Activity from January 1, 2015 through December 30, 2018.
Refer to Exhibit 2 of the 2015 Water & Sewer Master Plan for Map Revisions S-01 through S-81.
