Current Service on Boards and Commissions:

Howard County Commission on Aging, May 2015-present
Howard County Age-friendly Initiative, Housing Workgroup, Zoning Subgroup, Chair, 2019-present

My Interest in Serving: Shepherded both parents through all the stages of aging and now face them myself! As more and more people are living longer, we want those extra years to be happy ones. It is gratifying to see the county's interest in facilitating that, and I want to contribute. Too often old age brings unnecessary isolation. I want to help seniors participate in the broader community, interact with other generations, and continue to contribute to the broader community.

Sample Accomplishment: I have a record of effectiveness. In 1994, I was asked to join the Board of Directors of the Sand Dollar Condo Hotel, a dive resort in the Netherlands Antilles in which I owned a unit. The president mentioned that they seemed to have some cash flow problems and asked me to help management look into the reasons. I quickly discovered that the "cash flow" problem was actually a massive deficit masked by a poor accounting system. The hotel ended that year with a \$289,000 deficit. The next year I was elected president, and we ended that year with a \$12,000 profit. I bring this same commitment to everything I undertake.
