Good morning Councilmembers,

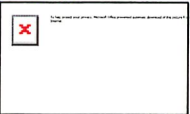

I am scheduled to testify this evening but am not sure that I will be able to make it. I would like to testify in favor of CB61 to amend PlanHoward 2030 to include The Ellicott City Watershed Master Plan. I served on the Master Planning Committee from 2019-2020 as well as participated in many of the public meetings and opportunities for stakeholder involvement throughout the years of developing the document. I am confident that the process was clear and transparent and that the Master Plan contains a comprehensive vision and approach for Ellicott City. The details provided for the streetscapes, integration with the hydrologic and hydraulic modeling for flood mitigation, and emphasis on community character and identity are fundamental aspects of the plan that will provide a clear framework into the future. Incorporation of the Master Plan into the General Plan is essential to ensure that the plan is followed and monitored as well as for accountability to the public and stakeholders. Thank you for all that you do to help keep the residents and business in Ellicott City safe. I am hopeful that Ellicott City can be a model of resiliency and that the community and government can continue to take positive steps toward that end.

Sincerely,

Lori Lilly

Subject: Support for the Proposed EC Master Plan- CB61-2020

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Councilpersons-

I would like to express my support for the Ellicott City Master Plan as proposed in tonight's hearing. The plan has been a labor of love for a significant number of community stakeholders over a number of years. This document will inform future decisions regarding design choices as the Safe and Sound plan is implemented. The plan protects the historic charm of the town while at the same time creating a cohesive look and feel to the residential and business areas. The plan supports new branding, defined entrances to the area, cohesive streetscapes, better wayfinding, and more significant incorporation of the river as a feature of the town.

There have been a significant number of community outreach events and ample comment periods. It is essential that this plan be approved to allow for the fastest possible implementation of the Safe and Sound plan and to ensure the historic character of the town is protected. The plan is a north star for us to follow as we move towards creating a safer and more resilient town.

Thanks,
Beth Woodruff

Council Chair Jung, Vice Chair Walsh, and Councilmembers Jones, Rigby, and Yungmann,

My name is Matt Fleming. I've been an Ellicott City resident since 2006. I've also been a member of the board of the Ellicott City Partnership since 2016 (indeed, I am its immediate past president--though I'm writing in my capacity as a resident). I want to congratulate County Executive Dr. Calvin Ball and the Howard County Government, County Council, and design team for a truly excellent Ellicott City Watershed Master Plan. I strongly support the plan, and am very excited to see it implemented. Accordingly, I am writing to strongly encourage passage of Council Bill 61-2020 ("AN ACT amending PlanHoward 2030, the general plan for Howard County, to include The Ellicott City Watershed Master Plan"). Thank you.

Sincerely,

Matthew H. Fleming, Ph.D.

Regarding CB61-2020

I am writing to express my support for the Ellicott City Watershed Master Plan.

Much time and effort has gone into this with widespread input from professionals, residents and business owners.

It is a “timed”, flexible plan designed to address some immediate needs and other long term efforts over the next 20 years.

The Plan is a guide to the evolving future of the Historic District and can serve as an important aid in that process.
