The funding approvals shown for individual major projects may be adjusted due to a number of factors, including the final determination of the area that is eligible for State participation, subtraction of State funding for projects previously approved in an existing facility, and the actual contract cost in some cases. These adjustments will be shown in the worksheets that will accompany the Final FY 2021 Capital Improvement Program publication.

Also note that while approval of planning is a commitment on the part of the State to fund a project, this commitment is made pending continuing eligibility of the project and the availability of funds. Approval of planning cannot guarantee that future State construction funding will be available at the time that it is requested. It is advisable to proceed with a full understanding that local funding may be necessary in order for a project to proceed on schedule.

Office of the County Auditor
Auditor's Analysis

Council Bill No. 44-2020
Introduced: September 8, 2020
Auditor: Michael A. Martin

Fiscal Impact:

There is no fiscal impact to the County in Fiscal Year 2021 as a result of this legislation. There is an increase in State funding to the Howard County Public School System (HCPSS) from \$23.97 million to \$33.70 million.

According to HCPSS, changes in outyear funding as a result of this bill are unknown at this time.

Purpose:

The purpose of this legislation is to amend the County's and HCPSS's Annual Capital Budget for FY 2021 in order to receive approximately \$9.73 million of additional State funding.

The increased funding is the result of the additional Enrollment Growth and Relocatable Classrooms (EGRC) funds provided by the State.

Other Comments:

The elimination of \$402,000 in State aid for a boiler replacement included in the Systemic Renovation/Modernization Project (E1044) will now be funded by other funding sources within the same project. .

State aid for the New High School #13 (E1035) increased by \$4.44 million.

State aid for the Talbott Springs Elementary School Replacement (E1043) increased from zero to \$5.70 million.

The Administration will provide amended detail pages prior to enrollment.

 FY 2021 Public School Construction Capital Improvement Program
 Summary of LEA Requests and IAC 100% Approvals
 for Planning and Funding as of May 14, 2020
 (\$000) omitted**

Howard County

The funding approvals shown for individual major projects may be adjusted due to a number of factors, including the final determination of the area that is eligible for State participation, subtraction of State funding for projects previously approved in an existing facility, and the actual contract cost in some cases. These adjustments will be shown in the worksheets that will accompany the Final FY 2021 Capital Improvement Program publication.

Also note that while approval of planning is a commitment on the part of the State to fund a project, this commitment is made pending continuing eligibility of the project and the availability of funds. Approval of planning cannot guarantee that future State construction funding will be available at the time that it is requested. It is advisable to proceed with a full understanding that local funding may be necessary in order for a project to proceed on schedule.

- Notes:
- (1) Projects adopted by the IAC as of May 2020 are shown with a status of "A".
 - (2) The column titled "FY 2021 CIP Combined Total Approved 100 % Allocation" sums the approved Maryland Capital Construction Bond Loan (MCCBL 2020) authorizations for the capital improvement program, EGRC supplemental grant and funding available from prior year appropriations.
 - (3) The Capital Budget Bill (SB 191, Laws of Maryland Ch. 537) provided an appropriation of \$75 million and set specific funding levels for LEAs from the supplemental capital grant program for local school systems, of which \$25 million is not required to have a local match. The worksheets that will accompany the Final FY 2021 Capital Improvement publication will be calculated accordingly.
 - (4) Projects are shown in local priority order with an evaluation status.
 - (5) Totals may not add to the exact dollar amount due to rounding.
