

Howard County
Internal Memorandum

Subject: Testimony & Fiscal Impact Statement
Council Resolution No. ___ - 2021, a technical correction to include Exhibit E in Council Resolution No. 140-2020 authorizing the County Executive to grant easements to Baltimore Gas and Electric Company (BGE) so that BGE may place equipment on poles owned and maintained by BGE in three locations in Ellicott City.

To: Lonnie R. Robbins,
Chief Administrative Officer

From: Thomas J. Meunier, Director
Department of Public Works 

Date: February 18, 2021

The Department of Public Works has been designated coordinator for preparation of testimony to make a technical correction to Council Resolution No. 140-2020.

The County Council previously approved CR140-2020 granting certain easements on County owned property to BGE for the relocation of equipment out of the stream in Ellicott City and installation and future maintenance of equipment in areas located at:

- A proposed guy pole to be located at the rear of 8267 Main Street, shown in Exhibit B.
- A proposed anchor and relocated pole to be located at 3726 Old Columbia Pike, shown in Exhibit C.
- A head guy wire between 3726 Old Columbia Pike and 8267 Main Street that will also run across a portion of County property, located at Tax Map 25 A Parcel 263

The provision of CR140-2020 that conveyed the easement interest, did not make a reference to Exhibit E showing the County owned Parcel 263 on Tax Map 25A, even though the exhibit was included as an exhibit to the resolution. Council Resolution No. ___-2021 will amend the conveyance of the easement interest to include reference to Exhibit E to ensure County can grant easements to BGE on all County owned lots.

There is no fiscal impact to the County.

Representatives of this department will be present at the public hearing to answer any questions or concerns. If you require any further information concerning this matter or have any additional questions, please do not hesitate to contact me at your convenience.
