Dear Howard County Council,

I support building a more bikeable, walkable community.

Too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

Please invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

Thank you for your consideration.

Sincerely,  
Dana Mallerich Taylor

Dear Howard County Council,

I support building a more bikeable, walkable community.

We are very lucky in Columbia that we have such a well-developed pathway system. It is one of the things that makes this a great place to live. But many of our streets are not safe for cycling. Making them safer for bikers helps to lessen car traffic, reduce greenhouse emissions and keep our residents healthy.

That bike lanes is the right thing to do is beyond question. The real question is, do we have the resolve to commit to doing it?

Thank you for your consideration.

**Subject:** I support \$3M for the Bikeway

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

I am writing to support increased funding for the Howard County Bikeway/Bike Howard projects.

I recently returned home to Howard County after spending 32 years in Minneapolis, MN. I was a year-round bicycle commuter in Minneapolis (10 miles each way). In Minneapolis, I was able to use separated bicycle trails, multi-use paths, and bike lanes for almost the entire commute. I have seen first-hand what a relatively modest investment in bicycling infrastructure can do to reduce traffic, attract a high quality workforce, improve mobility, and increase health for local residents.

Beginning in 2008, Minneapolis invested in cycling infrastructure developing off-street trails, bike lanes, and other facilities designed to support both recreational riders and commuters. As a direct result, riding has surged: Minneapolis has the third largest proportion of bicycling commuters in the U.S.

To compare figures with Howard County, 2016 U.S. census data shows that of 164,300 Howard County commuters, fewer than 300 used bicycles as their commuting method. In Minneapolis, about 9600 out of 224,000 did, and that number is still rising, and represents a significant decrease in automobile traffic throughout the entire road network. Census data also shows that about half of Howard County residents commute to work over a distance amenable to bicycling, but the lack of safe routes is a huge obstacle.

We don't have to start from scratch. Like Minneapolis, Howard County, and especially Columbia, has had the foresight and wherewithal to establish a network of recreational trails that can form the core of a commuter system. Like Minneapolis before 2008, Howard County has not focused on extending that network to major employment centers: JHU/APL, the Columbia Gateway Office Center, or the NSA/Fort Meade area could relatively easily be connected to residential areas, and there are many opportunities to improve the system's connectivity and utility.

Fully funding the Howard County Bicycle Master Plan, starting with the Bikeway, would be a huge step in the right direction. A fully implemented network of cycling infrastructure is an extremely cost-effective way to improve the overall transportation system for all Howard County residents.

Please invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

Thank you for your consideration.

Sincerely,

Ted Cochran  
5178 Downwest Ride Columbia, MD 21044-1505 tedcochran55409@gmail.com

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

Hi - To add to the canned message below, I commute by bicycle almost daily in Howard County. There are some sorely needed improvements that are not all that expensive or complex that would greatly improve my safety, comfort, and commute time. Thank you for considering those of us walking and biking to reduce automotive traffic in our highly congested community.

--

Too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

I personally know what happens to bikers who don't have access to streets which are safe for them. I was hit by a garbage truck a long time ago (in Anne Arundel County) because there was no safe place for me to ride. Now my son and his roommates frequently bike on Howard County streets. I fear for them because I know it only takes one wrong move by a motorist to hurt or kill a biker. Please invest \$3 million in the Bikeway. It seems a modest amount to help keep our citizens safe.

Thank you for your consideration.

Sincerely,

Mary Clark

**Sent:** Monday, January 21, 2019 3:42 PM  
**To:** CouncilMail  
**Subject:** I support \$3M for the Bikeway

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

To: Council Member Opal Jones:

I reside in the Thunderhill Neighborhood, across from the Elementary School. We have a bike lane on Mellenbrook Road although the children can't use it to bike to school because there is no enforcement of the "no parking" in bike lanes. Bike lanes should include "no parking signs".

Too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

Investing \$3 million in the Bikeway supports a complete streets policy that will meet the needs of everyone on our roads. Studies show that it's not only good for our community's health, economy, environment and equity but it also provides safe paths for children to bike and walk to school. I also see the large number of vehicles dropping students off everyday. I see too, so many close "accidents" because parents doing curbside drop-off pull away without always being totally aware of their surroundings.

I'm retired, I walk and bike in my community. I would like a safer way to get to Clarksville than Route 108 - the same to Laurel and other parts of the county.

Thank you for your consideration.

Sincerely,  
Yvonne Howard  
9370 Mellenbrook Rd Columbia, MD 21045-1838 ychoward4@gmail.com

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

I was disappointed that funding for safer cycling in Howard County was not increased by this administration. After attending the open house, it seemed like business as usual for transportation in Howard County. This is not an acceptable level of spending and will leave our streets unsafe for many, many years.

Most of our streets are not safe for walkers, runners or cyclists. Last Tuesday, while cycling home from the open house, a minivan ran a red light and came very close to hitting me. He apologized, but that does not change the fact that the roads are not very safe. Without the quick efforts of drivers around me that honked and alerted the driver, I am sure I would have been hit.

Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

Please invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

I've lived in Columbia 29 years, I ride my bike quite often for exercises and to buy groceries etc. on the available bike path in Columbia. to wit, I ride from King's Contrivance along the Middle Patuxent river bikepath even beyond 175 to shop at bike stores, food stores, go see movies. hardware stores...

I am healthier, save gasoline, don't pollute the air, and don't add to the general anger that seems to be part of driving today.

Everyone should have this opportunity and why I support the Bikeway.

Thank you for your consideration.

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

Our world is changing in front of our eyes and that change is being driven by the young, career-minded people that Howard County wants to attract as residents and business owners. Our younger, technology-savvy population is drawn to walkable and bikeable communities that exist or are planned. In 2010, I was the Bicycle Coordinator for UMCP for just over a year. I saw, first-hand, the skyrocketing demand for bicycle parking in the tech education sectors of the campus. That desire is apparent in every growing housing sector. People want the ability to walk, bike, and run in their communities, without the need to start a car for every little errand. It's the future and Howard County needs to keep up. Right now, too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind at an alarming rate.

I know that many people are requesting that you invest \$3 million in the Bikeway and that you support a complete streets policy that will meet the needs of everyone on our roads, but even that isn't enough. It's certainly a start, but it leaves Howard County still falling far behind Montgomery County of Anne Arundel County. We need a larger investment of funds and concrete regulations that force developers and our own agencies to adopt Complete Streets policies and procedures. It's good for our community's health, economy, environment and equity. We need to take these steps to prevent our falling further behind our neighboring counties.

Thank you for your consideration.

Sincerely,  
John Brandt

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

Too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

Please invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

Thank you for your consideration.

Sincerely,  
Kelly Tokasz

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

Too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

I'm very interested in making 108 pedestrian friendly. Especially in the face of the new court house which will result in more traffic consisting of people who are not familiar with the area, resulting in less safety for pedestrians and bicycles. We need a way to access the great businesses along 108. The two existing crosswalks are not enough. We also need a way to safely cross 29 on our near 108 to connect the south side of 29 to centennial Park.

Another area of concern is Snowden River. There are so many residential areas and commercial businesses. However, Snowden River is not pedestrian or bike friendly, resulting in great rifts between neighborhoods and no access without a car to restaurants and stores that are less than a mile away. Snowden River is by the far the scariest place that I ride on my bike as the drivers there are aggressive (having usually just exited 95 or 32), lost (navigating new places), and across many lanes. There is no shoulder that doesn't quickly disappear into a turn lane and sidewalks are so patchy as to be useless.

Walkability and bike accessibility are the two leading factors the current generation searches for when looking for somewhere to set down their roots. Walkability and bike accessibility cut down on crime by making the area friendlier and more open. Walkability and bike accessibility dramatically improve physical and mental health.

Please consider requiring businesses to provide sidewalks and bike lanes for all changes and development.

Even more so, please invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

Thank you for your consideration.

Sincerely,  
Rebecca Bryant

Please invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

Specifically, I am concerned about my Thunderhill neighborhood. The proposed courthouse on Bendix Rd brings lots more parking and cars. It will make route 108 even more congested than it already is. Also, the only Rte 108 crosswalks are located at Mellenbrook and Phelps Luck. I frequently jaywalk across 108 between those 2 crosswalks, saving me 15 or 20 minutes of walking. There are many attractions between my neighborhood and on the north side of 108 including 2 Indian restaurants, Sapwood Cellars and a yoga center.

Thank you for your consideration.

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

I'm writing to encourage you to invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

I ride a bike on Ho Co roads for exercise 5 days a week weather permitting (about 8 months of the year). While many drivers in autos and trucks are respectful of bicyclists, there are many roads that are simply too narrow or inadequately marked for the safety of me and fellow cyclists. Furthermore, I regularly talk to friends who would like to bike, but are simply unwilling to on our local roads because of unsafe conditions.

I appreciate the efforts made up till now, but more is needed.

Thank you for your consideration.

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

Too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

Please invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

Thank you for your consideration.

Sincerely,  
Paul Perdue

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

Too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

Not only other counties in Maryland, but other cities and states across the country are way ahead of what we have here. For example, in Minnesota, where I grew up and spend some of the summer months each year, I ride my recumbent on many miles of dedicated bike lanes. It is worry-free and fun to have trails to bike, and it is great exercise!

Please, let's start doing the same here and catch up to Minnesota. Invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

Thank you for your consideration.

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

Too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

Please invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

I want to ride my bike all around Columbia and Howard County for recreation, shopping, and getting to places in the county, but fear for my safety when riding on the roads. It only makes sense to support construction of safe bike lanes and routes that would ensure that I and many others like me that we can safely use our bikes as an alternative form of transportation.

The bikeway is an essential investment in the health and safety of the residents of Howard County, as well as a means for county residents and the county as a whole to reduce our carbon footprint.

Thank you for your consideration.

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

Too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

I am a regular bike commuter and a very fit experienced bicyclist. I also have lead group rides in Howard County for many years. I've worked in a bike store for the last 9 years. Many novice and recreational cyclists are very scared to ride their bicycles because bike lanes are a rarity. Almost all that we have are dysfunctional because they appear and disappear at random leaving riders and drivers in a quandary - an unsafe situation.

Please invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

Before you vote NO or offer some watered down alternate plan, contact me and I'll take you for a ride to show you first hand the problems that need to be addressed.

Thank you for your consideration.

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

I enjoy biking in Maryland, but am endlessly frustrated that I need to pack my bike in a car and drive to another country to enjoy county-wide bike trails.

I live in MD, off Route 1 and watch as bike trails are expanded in Columbia and in other locations, but for my area, which is undergoing a dramatic increase in residential housing, no efforts are being made to link existing trails. Cycling on 175 and Route 1 is impossible and dangerous! Our area of the county needs support for biking for quality of life and for safety. Please consider investing in this portion of HoCo!

Thank you for your consideration.

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

Dr. Ball,

Please fund this project. As a disabled person (Spinocerebellar ataxia) I am now confined to riding a tricycle. As I've mentioned to you before, it is incredibly dangerous to ride the roads from my house to the Columbia trails (my wife will NOT do it with me because of the danger to life). This is a matter of life for me!

Thank you for your consideration.

I support \$3 million for the Bikeway in the FY20 budget.

Too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

Please invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

Thank you for your consideration.

Sincerely,  
Diane Roca

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

Too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

Please invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

Last year my elderly neighbor was hit by a car in a cross walk on Little Patuxent Parkway at Vantage Point Road as she had to cross Little Patuxent to board the bus. She was hospitalized for 2 weeks at Shock Trauma. She was always independent walking the neighborhood and taking transit. Now is limited by her fear to cross 6 lanes of traffic to ride public transportation.

This why I support better paths, bridges across busy streets and more convenient bus routes.

Thank you for your consideration.

Sincerely,

Kim Michelle Sterrett

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

The County's Office on Aging and Independence sponsors the Cycle2Health program for seniors. While the program has been very successful - many riders have participated for five years - it is nearly certain that the health-enhancing benefits of biking would be available to many more of our seniors if the streets and roads of the County were more supportive of safe, "stress-free" riding. I believe a \$3 million investment in bikeways and safer streets could provide significant quality of life enhancements to the County's senior population.

Very respectfully,  
Mike O'Rourke.

Thank you for your consideration.

Sincerely,  
Michael O'Rourke

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

Dear Calvin - I am an avid Bike rider, as are the 4 Members of my Family - and we need the Bike Path to be completed from Savage to Downtown Columbia along the Little Patuxent River!!!

The LPT is the most heavily used trail in HoCo, and yet it still has the missing link to downtown (between Shaker Drive - Little Patuxent River, in the woods along BrokenLand, to Lake Kitti) and all of the great things happening around Lake Kittimiquindi and all.

Please get it funded and done now!

Too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

As a leader in PATH and bicyclist, I have walked, explored and ridden too many unsafe streets. We cannot allow the neglect to cause any additional heartache from the injuries and fatalities for which our infrastructure is responsible.

Thank you for your consideration.

Sincerely,  
Guy Moody

Dear Howard County Council,

I support \$3 million for the Bikeway in the FY20 budget.

I am a full-time bike commuter between Ellicott City and Sykesville, where I am work as Engineering Manager. I have been bike commuting in Howard County for over 10 years, and excited to see more and safer provisions for bicycle commuting.

Too many of our streets are not accessible or safe for walkers, runners, bicyclists or transit riders. Other counties are investing ambitiously in bike and walk facilities - we are falling behind.

Please invest \$3 million in the Bikeway and support a complete streets policy that will meet the needs of everyone on our roads. It's good for our community's health, economy, environment and equity.

Thank you for your consideration.
