My name is Fred Dorsey and I live at 10774 Judy Lane in Columbia. I am past president of Preservation Howard County and I support CR 127-2021 appointing Ellen Flynn Giles to the Historic Preservation Commission.

I have known Ellen Flynn Giles as an advocate for and her involvement in historic preservation work, and as a member of Howard County Historical Society. She has the historic preservation credentials required, has an understanding of the need for historic preservation and the stewardship required in protecting our historic homes and buildings.

Your approval of hert appointment will be an asset to the Historic Preservation Commission and its decisions..

I offer my best wishes to others tonight seeking such an appointment and appreciate their willingness to share their historic preservation credentials to be a member of the Historic Preservation Commission
