Project: F5976-FY2018 NORTH COLUMBIA FIRE STATION

Description

A project to construct a new Columbia fire station. Goal is to establish emergency services in a strategic position in the North Columbia area that will serve to relieve the demands associated with increased population density and call demands there.

Justification

This fire station will provide Columbia and surrounding areas with a new fire station that is strategically located so as to provide improved services. Growth pattern changes coupled with increased projected demands on the sole downtown fire station has dictated the need for a new fire station. Recent analysis substantiates the need for equipment to be maintained at this location

Remarks

The Cedar Lane Park East site has currently been selected for the approximately 14,000 sf North Columbia Fire Station. This location for the new facility will provide direct access to Rt. 108 for efficient response times.

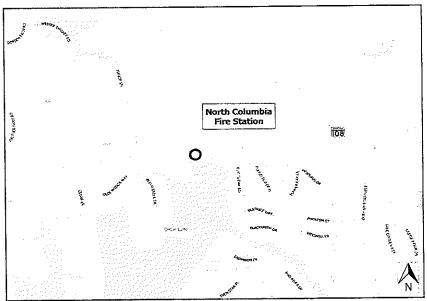

OTHER represents Pay as you Go generated from Fire Tax.

Project: T7108-FY2016 CLARKSVILLE-RIVER HILL STREETSCAPE IMPROVEMENTS

Description

A project to plan, design and construct road and related improvements -- including streetscape, storm water management, pedestrian, bicycle, and public space enhancements in the Route 108 corridor.

Justification

PlanHoward 2030 calls for the enhancement of established communities through strategic public infrastructure investments (Policy 10.1). Project: T7108-FY2016 CLARKSVILLE-RIVER HILL STREETSCAPE IMPROVEMENTS

Description

A project to plan, design and construct road and related improvements -- including streetscape, storm water management, pedestrian, bicycle, and public space enhancements in the Route 108 corridor.

Justification

PlanHoward 2030 calls for the enhancement of established communities through strategic public infrastructure investments (Policy 10.1). Projects will improve the transportation system, increase safety, accessibility and mobility, improve treatment of storm water runoff and will implement the community-based vision for street, pedestrian and bike circulation and public open space design.

Remarks

- 1. The County is working with the community to implement road related improvements and design guidelines that address the public right-of-way along Route 108, <u>Ten Oaks Road</u> and adjacent private property.
- 2. Design will reflect adopted design guidelines in the 2016 Clarksville Pike Streetscape and Design Guidelines and elements of MD 32 Alternate Bike Route.
- 3. Public easements on private property will be needed to advance certain improvements.
- 4. Project will need to be coordinated with pending private sector road and pathway improvements and MDOT SHA MD 32 related mitigation project.
- 5. <u>Project may also accept MDOT grant funding to help implement the MD 32 Alternate</u> Bike Route along MD 108 and Ten Oaks Road from MD 108 to Brighton Dam Road.

Project Schedule

FY17 - Community design guidelines and permit approval.

FY19-FY20 - 30% Design.

FY21-FY22 - Initiate 65% Design.
