Attachment 1- Categorical Budget Transfer Details

#### **Review of FY 2022 Expenditures**

The budget office has completed a cost to complete analysis and has concluded there is only one state category in need of a categorical transfer. This request for a categorical transfer is to shift budget authority from both Operations of Plant (Category 10) and Maintenance of Plant (Category 11) out of a budget reserve account that was utilized at the time the Board of Education approved the bid for a boundary line consultant used in Capital Outlay (Category 15). The Board was advised when approving the boundary line consultant contract that funds would be placed in budget reserve in Categories 10 and 11 to cover this budgetary need. The categorical transfer moves the funds placed in reserve into state category 15.

The cost to complete analysis includes preliminary projections of FY 2022 revenues, expenditures, and fund balance. These projections are subject to change and year-end close analysis. Based on this preliminary analysis, the operating fund will use less than expected fund balance in FY 2022. Instead of using \$27 million, it is projected that \$17 million will be used, approximately \$10 million less, which will fall to unassigned fund balance available for future year's appropriation. Details on the cost to complete fund summary are provided at the end of this report.
