Subject: Land Preservation Parks and Recreation Plan

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Dear Council Members,

The LPPRP (CR112-2022) is expansive and seems well done. There is however a gap. There is relative silence on Howard County CO2 emissions and how LPPRP measures and mitigates impact on CO2 emissions. Transit distances and carbon sequestration are mentioned.

Perhaps LPPRP could be cross referenced with the County's Climate Action Plan (RFP 06-2022) which appears to have overlaps.

Given global warming, County plans and documents need consistent references, monitoring and metrics.

Thank you.
Dale Schumacher
