Dear County Council,

I am writing to show support for CB1-2023, a bill to allow for the automatic renewal of the property tax credit for properties held within the Agricultural Land Preservation Program. This bill will eliminate excessive paperwork and make the process more efficient for both the County and for farm owners. It reduces the time required by County staff to implement the agricultural tax credit, as they will no longer need to facilitate an annual application process. It also creates less burden for the farm owner who will no longer need to remember to file for this credit annually, helping to minimize paperwork so the farm owner can spend more time focusing on the business of farming.

Thank you for your consideration

Sincerely,

Nelson and Andrea Machado
5024 Green Bridge Road
Dayton, MD 21036

Property Tax Acct. 1405451566

Sayers, Margery
