Project: L0015-FY2008 ELKRIDGE BRANCH/SENIOR CENTER

LIBRARY PROJECTS

Number: L0015

Description

A project to provide additional required public library & senior center space in the RT1 Corridor of Elkridge. This project will satisfy the existing and projected 19,300 SF public library space deficit in the Elkridge area. The library space and other functional requirements of this project are fully defined in the Howard County Library Facilities Assessment & Master Plan of December 2004.

Justification

The current Howard County Library Facilities Assessment & Master Plan, as approved by the HCL Board of Trustees, calls for 35,000 SF of library space for the Elkridge service area. The existing HCL Elkridge Branch is 15,700 SF. Additional space is needed to accommodate current and projected growth. This project will consider constraints and opportunities presented by land use, parking, and engineering; meet the goals and objectives of the RT1 Corridor Study; and be consistent with anticipated BRAC growth.

Remarks

The nature and cost of this project has been outlined in the Howard County Library Facilities Assessment & Master Plan of December 2004. Additionally, a feasibility study was completed in FY2009 to determine whether the existing building could be expanded to meet the assessed deficiencies or whether a new library would be required. The result of the study was that the optimum alternative was to build a new 35,000 SF library on the existing site and then demolish the old building, a cost-effective plan, due to the current building structural limitations and obsolete systems. This project meets the expressed community desire to maintain the present site and contribute to the redevelopment of Route 1, while providing a seamless, cost effective process from the "old" to the "new."

OTHER represents funding from the liquidation of an HCLS liability to Howard County from a prior year.
