1 **WHEREAS**, Title 16, Subtitle 11 of the Howard County Code sets forth the
2 Adequate Public Facilities Act of Howard County (the “Act”); and

3
4 **WHEREAS**, Section 16.1103(c) of the Act provides for a School Capacity Chart
5 that is consistent with the Housing Unit Allocation Chart and that indicates the elementary
6 school regions, and the elementary schools, middle schools, and high schools that are open
7 for new residential development and those that are constrained for new residential
8 development during each of the following ten years as based on the definition of program
9 capacity as defined by Howard County Public School System policy; and

10
11 **WHEREAS**, the Department of Planning and Zoning has received the School
12 Capacity Chart, the basis of which is the assumptions used by the Board of Education in
13 predicting capacity utilization, such as school capacity, current enrollment, demographic
14 and growth trends, and the Housing Unit Allocation Chart, from the Board of Education
15 and has submitted it to the Council for adoption.

16
17 **WHEREAS**, Section 16.1103(c) also provides that the School Capacity Chart shall
18 be accompanied by a report (the “Report”) that contains information related to capacities,
19 redistricting, any projected increases in enrollment and related reasons for the increase, and
20 information related to proposed redistricting or a capital improvement project’s impact on
21 a school’s “open” designation; and

22
23 **WHEREAS**, the Report has been provided by the Howard County Public School
24 System to the Department of Planning and Zoning in accordance with Section 16.1103(c);
25 and

26
27 **WHEREAS**, the Report also serves the purposes of providing the notice required
28 by 16.1103(d) that a school or school region has reached 95 percent capacity utilization
29 and is projected to exceed 110 percent capacity utilization within five years and, as required
30 by Section 16.1103(d), the County Council shall hold a joint special work meeting in

WHEREAS, Section 16.1103(c) further provides that the County Council shall adopt or amend the School Capacity Chart by Resolution whenever the Council adopts or amends the Housing Unit Allocation Chart; and

WHEREAS, immediately preceding adoption of this Resolution, the County Council has adopted the Housing Unit Allocation Chart.

NOW, THEREFORE, BE IT RESOLVED by the County Council of Howard County, Maryland this 31 day of July, 2023 that the County Council adopts the School Capacity Chart, attached as Exhibit A, and incorporated herein.

AND BE IT FURTHER RESOLVED, that notice has been provided in accordance with Section 16.1103(d) of the Howard County Code and a joint special work meeting shall be held.

BOARD OF EDUCATION OF HOWARD COUNTY
MEETING AGENDA ITEM

TITLE: Adequate Public Facilities Ordinance (APFO) Chart DATE: May 11, 2023
PRESENTER(S) Timothy Rogers, Manager, School Planning

Strategic Call To Action Alignment: This process supports the Strategic Call to Action (SCTA) by providing operations and practices that are responsive, transparent, fiscally responsible and accountable.

OVERVIEW:

The Adequate Public Facilities Ordinance (APFO) School Capacity charts are utilized as part of the growth management process of Howard County for new residential developments. The test year for the 2023 APFO School Capacity Charts is SY 2026-27. For SY 2026-27, there are 15 elementary, three middle, and no high schools listed as constrained. Additionally, there are two elementary school regions listed as constrained, which constrains six additional schools, bringing the total to 21 elementary schools. (see Attachment 2).

Attachments:

ATTACHMENT 1

The Adequate Public Facilities Ordinance (APFO) School Capacity charts are utilized as part of the growth management process of Howard County for new residential developments. County code requires that the school system provide an annual report identifying the capacity utilization for each elementary school (Grade K-5), elementary school region, middle school (Grade 6-8) and high school (Grade 9-12) school.

The attached School Capacity charts list schools and elementary regions as “C” (constrained) to new future residential development if the capacity utilization developed for the FY 2024 Capital Budget and Capital Improvement Program/Redistricting Process exceeds:

- 105 percent for elementary schools,
- 105 percent for elementary regions,
- 110 percent for middle schools, or
- 115 percent for high schools.

These calculations are based on the capacities listed in the most recent Board Requested Capital Improvement Program and the projections include the impact of the Board approved SY 2023-24 boundaries. Individual schools or elementary regions that show a capacity utilization less than the percentage noted above are considered “open” for new residential development. Constrained schools are indicated in the chart with the letter “C” and open schools are left blank. For SY 2026-27, there are 15 elementary, three middle and no high schools, and two elementary school regions (which impacts an additional six elementary schools), for a total of 21 elementary schools, listed as constrained.

Since 2019, CB-1-2018 specifically requires the following information to be provided to the County Council for each school:

- State and local capacities of the facility;
- The date of the last redistricting which impacted the attendance area of that school;
- For any projected increase in enrollment, an indication of what portions of the increase are attributed to sales or rental turnover of existing residential units, new development, and other factors; and
- For any school designated as open on the school capacity chart based on a capital improvement project or proposed redistricting associated with a capital improvement project:
 - a. Current and future funding assumptions for the capital improvement project(s);
 - b. Future redistricting assumptions associated with the capital improvement project; and
 - c. An explanation of any capacity utilization changes based on (a) or (b).

The Ordinance also stipulates that the County Council and Board of Education hold a joint special work meeting regarding schools or school regions that have reached 95 percent capacity utilization and are projected to exceed 110 percent capacity utilization within five years.

I. State and Local Capacities of the Facilities

Note: The State Rated Capacities (SRC) are current as of the writing of this report. Review and update of SRCs occur individually on an as needed basis (ex. after additions, new schools). Additionally, the Interagency Commission on School Construction has a committee reviewing SRCs statewide. As of March 2020, updated SRCs for the elementary level were released and are reflected below. The methodology to calculate SRCs and/or the SRCs for middle and high schools may also be updated in the future.

III. For any projected increase in enrollment, an indication of what portions of the increase are attributed to sales or rental turnover of existing residential units, new development, and other factors

These charts are based on the projection developed in the spring of 2022 using the 2022-23 boundaries and are displayed here. New projections are developed each year in the spring with new birth, housing, and student yield data and all approved boundaries. The projections in the May 2023 APFO Schools Charts include the anticipated impact of boundary adjustments for several middle and high schools.

Additional factors contributing to a school's enrollment projection: size of cohort rising to next level, cohort survival rates, births (5 years ago) in attendance area, birth to kindergarten survival rate, out of district students (can be +/-), students who moved into an attendance area between birth and 5 years old, and adjustments based on prior year's projection accuracy. New construction is based on the first year of occupancy only; after the first year housing units are integrated into the existing housing resale, pre-K move-in, and apartment turnover calculations.

V. Upon receiving written notification from the Howard County Public School System that a school or school region has reached 95 percent capacity utilization and is projected to exceed 110 percent capacity utilization within five years as well as the Board of Education's proposed solution to address the projected overcrowding, the County Council shall hold a joint special work meeting.

Schools that have reached 95 percent capacity utilization and are projected to exceed 110 percent capacity utilization within five years are listed below. Staff’s assessment of these enrollment projections was presented in the 2022 Feasibility Study, which influenced the FY2023 Capital Budget. Both the Feasibility Study and all versions of the Superintendent’s and Board’s capital budgets were provided to the County Council. Schools are only included on this list if the 2028 utilization criteria is met based on the Board approved 2023-24 boundaries.

The actual 2022 or projected 2028 capacity utilization does not include the temporary capacity gained by the use of relocatable classrooms. The relocatable counts do not include the Board approved placement of additional relocatable classrooms during the summer of 2023. The potential solutions listed are from the 2022 Feasibility Study and capital planning process, reflected in the Board Requested Long-Range Master Plan (LRMP) shown on the previous page.

Howard County

Internal Memorandum

Subject: Testimony for Council Resolutions CRXX-2023 (APF Housing Unit Allocations Chart) and CRXX-2023 (School Capacity Chart)

To: Brandee Ganz, Chief Administrative Officer

From: Mary Kendall, Acting Director, Department of Planning and Zoning 

Date: June 22, 2023

Council Resolution No. XX-2023 – Housing Unit Allocation Chart for FY 2024

The Housing Unit Allocation chart sets the pace for new residential development by geographic region, identified as Designated Place Types in PlanHoward 2030. According to Section 16.1102 of the Howard County Code, the chart must be adopted by resolution annually. The new Housing Unit Allocation Chart implements the PlanHoward 2030 housing allocation categories and covers the PlanHoward 2030 housing unit projections beginning in Adequate Public Facilities (APF) test year 2026, as specified in Section 16.1110 of the APF regulations.

Council Resolution No. XX-2023 – School Capacity Chart for FY 2024

The School Capacity Charts for elementary school districts and regions, for middle school districts, and for high school districts must be adopted with the new Housing Unit Allocation Chart. These charts have been updated to reflect changes in enrollment projections, redistricting, and programmed capacity increases since the last chart was adopted and have been approved by the Howard County Board of Education. These charts cover a ten-year period beginning in the APF test year 2026. The charts were provided to the Department from the Howard County Public School System and were accompanied by a report containing the information required by Section 16.1103(c) of the Code, as amended by Council Bill No. 9-2022

Specifically, the charts approved by the Board of Education projects fifteen elementary school districts, two elementary school regions (which impacts an additional six elementary schools, for a total of 21 elementary school districts), three middle school districts, and zero high school districts to be closed (or constrained) for APF test year 2026. However, DPZ observed that two of the constrained elementary school districts, Rockbun Elementary and Triadelphia Ridge Elementary, technically have a projected enrollment that is below the 105 percent school capacity utilization. Both Rockburn and Triadelphia Ridge are shown in the Chart at a capacity of 584 students and projected enrollment of 613 students. When these raw numbers are calculated, the projected enrollment for each school is 104.966%, which is below the 105% threshold by which County Code defines as “constrained” to new future residential development.

Fiscal Impact

There are no fiscal impacts resulting from the adoption of these resolutions.
