

Amendment 53 to Council Bill No. 28 -2023

**BY: The Chairperson at the Request
of the County Executive**

**Legislative Day 11
Date: October 2, 2023**

Amendment No. 53

(This Amendment adds a sentence to indicate that the Plans listed are not an exhaustive list of all functional plans that may be used to implement HoCo By Design.)

- 1 In the *HoCo By Design* General Plan, attached to this Act as Exhibit A, amend the following
- 2 pages as indicated in this Amendment:
- 3 • Chapter 11, Implementation – page 7
- 4
- 5 Correct all page numbers, numbering, and formatting within this Act to accommodate this
- 6 amendment.

COUNTY'S LIBRARY OF PLANS

The General Plan is part of a library of documents prepared by the County to guide future growth, development, and conservation efforts. The General Plan offers the broadest policy guidance, while other plans, programs, and regulations delve into specifics. HoCo By Design policies and actions include guidelines for the functional implementation plans, which should be incorporated as each plan is updated. [Please note this list of plans is not exhaustive of all functional plans which may implement HoCo By Design.](#)

Capital Improvement Program

The County's Capital Improvement Program (CIP) establishes a guide for future financial decision-making, annual budgeting, and the coordination of major public investments in the County's infrastructure. The CIP is intended to reflect the requirements of the General Plan and supporting master plans for Howard County's schools, public facilities, water and sewer needs, solid waste removal, human services, education, libraries, police and fire services, and parks and recreation.

Adequate Public Facilities Ordinance

Howard County's Adequate Public Facilities Ordinance (APFO) provides a growth management process to enable the County to provide adequate public roads, schools, and other facilities in a timely manner and achieve General Plan growth objectives. The process is designed to direct growth to areas where adequate infrastructure exists and/or pace growth to allow for requisite infrastructure.

Zoning Regulations

The County's Zoning Regulations implement recommendations in the General Plan using detailed definitions, rules, and standards. The regulations divide the County into various zoning districts, each of which has certain requirements that govern the development and use of land within the district.

Subdivision and Land Development Regulations

The County's Subdivision and Land Development Regulations establish rules and requirements for the subdivision and development of land. They include standards for the design and layout of streets, blocks, lots, open space, utilities, and easements. Final subdivision plans and site development plans prepared under the subdivision regulations establish the exact location and boundaries for streets, lots, and open space in a new development. The subdivision regulations also include design guidelines and requirements for the protection of environmental features and forest resources.

Historic District Guidelines

The County's historic district guidelines establish standards for construction, alteration, reconstruction, moving, and demolition of structures within the County's designated historic districts. The guidelines aim to preserve the heritage of the County by safeguarding structures and districts that contain important cultural, economic, environmental, archaeological, social, political, or architectural significance to increase property values in these areas and promote the use of historic resources by County residents.

Master Plan for Water and Sewerage

The County's Master Plan for Water and Sewerage provides standards and regulations to assist in the planning, design, and construction of the facilities needed to meet water and sewer demand and capacity for a 25-year timeframe. The document's goal is to further the health and welfare of those living in Howard County through the supply of water and sewer facilities to accommodate future growth. A framework for scheduling and prioritizing projects is provided in the master plan.

Green Infrastructure Network Plan

The County's Green Infrastructure Network Plan defines a network of the most ecologically significant natural areas in Howard County. The plan sets implementation priorities to protect and enhance the network by integrating consideration of the network in County planning processes and providing incentives for private stewardship.

Land Preservation, Parks, and Recreation Plan

The County's Land Preservation, Parks, and Recreation Plan provides a comprehensive framework for the creation of a parks and recreation system: amenities, programs, health and wellness events, resiliency measures for both natural and human systems, environmental and ecological health initiatives, and cultural and historic heritage actions. The plan recommends open space requirements for private property, prioritizes acquisition of lands targeted for parks and trails, improves bike and trail connections, and creates stronger connections to open shared spaces and schools in Howard County.

Transit Development Plan

The Howard County Transit Development Plan (TDP) is a five-year plan to guide the management of existing transit service, organizational improvements, customer service, and service expansion. The 2018 TDP focused on service and frequency expansions, supported by a transit budget of \$16 million in FY 2022, of which Howard County funds 75%.
