

Amendment 90 to Council Bill No. 28 -2023

BY: David Yungmann

Legislative Day 11

Date: 10/02/2023

Amendment No. 90

(This Amendment makes the following changes to HoCo by Design Chapter 2 to:

Chapter 2: Growth and Conservation Framework - Amends a statement to clarify that PSA expansions are intended for a public or institutional use such as a religious facility, philanthropic institution, academic school.)

1 In the *HoCo By Design* General Plan, attached to this Act as Exhibit A, amend the following
2 pages as indicated in this Amendment:

- 3 • Chapter 2: Growth and Conservation Framework, page 21.

4

5 Correct all page numbers, numbering, and formatting within this Act to accommodate this
6 amendment.

7

In the future, there may be situations where minor PSA adjustments may be appropriate. A PSA revision requires a General Plan Amendment. Any requests for a General Plan Amendment for expansion of the PSA should be denied unless:

- The proposed expansion of the PSA is intended to provide for a public or institutional use such as a religious facility, philanthropic institution, academic school, ~~or low- and moderate-income housing, such as missing-middle or older adult housing~~; or
- The proposed expansion of the PSA includes a zoning proposal that is consistent with the General Plan.

Public sewer and water infrastructure capacity and costs of the above must be analyzed to confirm the feasibility and availability of scheduled capacity.

Expansions of the PSA boundary are limited to the following:

1. Properties adjoining the existing PSA boundary without including an intervening privately owned parcel;
2. The minimum area necessary to serve the proposed use. Development of the parcel consistent with the PSA boundary amendment is required after approval of the General Plan Amendment and prior to the inclusion of the parcel into the Metropolitan District; and
3. The particular use proposed at the time of expansion with a deadline for the completion of the improvements for the proposed use and connection to the public water and/or sewerage system. If the proposed use is not actually constructed and connected to the public water and/or sewerage system by the deadline specified, the PSA expansion shall be null and void, and the PSA automatically shall revert to its pre-existing location.

GCF-1 Policy Statement

Provide limited and predictable Planned Service Area expansions.

Implementing Actions

1. Planned Service Area expansions should include a development proposal that is consistent with the General Plan.
2. Any Planned Service Area expansions shall establish a transition that is compatible with and enhances surrounding communities, and provides an environmental benefit.
3. Any Planned Service Area expansion shall meet the criteria above.

Ecological Health Elevated as a Priority

Throughout the planning process, HoCo By Design elevated equitable and sustainable growth and conservation alongside a desire to meet market demand. The General Plan's policies and implementing actions seek to sustain and improve the County's ecological health by emphasizing climate change mitigation and adaptation in addition to preservation and conservation of natural resources.

The FLUM's emphasis on redevelopment and the creation of focused activity centers will generate opportunities for significant environmental benefits, including natural resource conservation, enhanced stormwater management on redevelopment sites, an increase in open space around activity centers, more energy-efficient buildings, climate change mitigation measures such as increased tree canopy and solar energy, and the preservation of high-priority natural resources such as the Green Infrastructure Network.

More information on ecological health, climate change, water resources, and other natural resources can be found in the Ecological Health chapter.
