@RepKweisiMfume

I continue to support a ceasefire in the Israel-Hamas war and I have continued to call for the opening of humanitarian corridors to facilitate hostage negotiations; along with allowing for food and medical supplies into Gaza to care for the children, the innocent, the wounded and the dying.

Like many, I am not a cosponsor of H.Res. 786 because it fails to call out by name the Hamas terrorist organization for the death and destruction they initiated on October 7.
