[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Dear Councilwoman Jung and Fellow Council Members,

Please support this initiative to restore funding to the HCPSS budget to support teacher salaries and multi-year contracts. I previously shared that I have a sister-in-law (living in HoCo) who teaches special education for HCPSS and a son who attends Bryant Woods Elementary School. By fully funding the requested budget you're ensuring Howard County children continue to have access to a high quality education that we've become accustomed to, and restoring \$3.8 million will help ensure our educators who provide that education are paid a living wage.

In summary,

VOTE 'YES' on amendments 10, 11, and 12 to [CB27](#) and amendment 1 to [CR48](#).

Thank you for your consideration.

Sincerely,

Nicole McFarland
District 4 resident

Subject: Educator Salaries – Restoring Funding for HCPSS Budget
To: <nicole.l.mcfarland@gmail.com>

Good afternoon,

Thank you to all who have reached out to Councilwoman Liz Walsh's office about the HCPSS budget. Your advocacy is greatly appreciated and helps us understand what is most important to the Howard County community.

I am reaching out to share that District 1 has submitted amendments that would restore approximately \$3.8 million to the school budget and support multi-year contracts for educator salaries. Between now and the vote to approve the budget this Wednesday, May 22 at 12pm we will be working with Board members, Council colleagues and the Administration to get those funds back to teachers.

Councilwoman Walsh not only appreciates teachers but firmly believes they must be paid fairly and competitively. She shares your sentiment that schools need enough funding to keep class sizes small, maintain programming, keep our staff and teachers, ensure employees have the salaries they deserve, and more.

For this to pass, we need votes from two other Councilmembers, and you can help. Email or call the County Council urging members to:

“*VOTE ‘YES’* on amendments 10, 11, and 12 to [CB27](#) and amendment 1 to [CR48](#).”

Email: councilmail@howardcountymd.gov or call 410-313-2001. It's even better if you specifically mention your Councilmember and ask them to vote in support. [Follow this link to confirm your Council District](#). Thank you for making your voice heard to support the best interests of the community and our school system.

In solidarity,

District 1 Team, Howard County Council

CouncilDistrict1@howardcountymd.gov

Dear Councilmember Yungmann,

We had the pleasure of meeting at Bushy Park's SCH on May 13th. I am one of the fifth grade teachers at this school, and we sat next to each other as I timed the students in their presentations.

I implore you to please **VOTE 'YES'** on the following amendments to improve proposed educator pay:

Amendments 10, 11, and 12 to CB27
Amendment 1 to CR48

As you saw when you were at our school, us teachers work so incredibly hard to educate our students in meaningful and authentic ways. I spend hours beyond my contract time designing instruction, grading, and communicating with families to all to benefit my students.

I believe my work is very important for society but undervalued financially. I am a teacher, but I'm also a wife and mother, and I have plans for my family's future that are put on hold because of how expensive it is to live. We want to grow our family, but it feels next to impossible. Voting Yes on these proposals would ease the financial strain my family is under.

Can I count on your vote?

Thank you,
Amanda Bauer

Dear Council Members:

As stated in previous testimony on May 9, 2024, the PTA Council of Howard County supports increasing funds to the General Fund budget of the Board of Education by approximately \$3.8 million to bring the total amount up the amount requested by the Board of Education. Therefore, the Council supports passage of Amendment 1 to CR 48-2024 and the related Amendment 10 to CB 27-2024.

We thank Liz Walsh for bringing these amendments and others before the full Council and appreciate all of your support.

Dear Councilman Yungmann and members of the Howard County Council:

I know the County faces fiscal constraints, but I urge you to support Ms. Walsh's amendments 10, 11, and 12 to CB27 and amendment 1 to CR48.

For many years Howard County has enjoyed a favorable position in terms of teacher salaries, which enabled the county to hire high quality recruits to fill our ever expanding number of teacher positions. Those days are, to put it bluntly, over. The county will face fierce competition for new teacher hires going forward, especially in hard to fill specialties such as mathematics, science, and special education. Experienced teachers will leave for other opportunities or retirement. leaving vacancies to fill.

The Blueprint for Education mandates Statewide starting salaries of \$60,000 for new teachers in FY 26, which is a year from now. Other counties and Baltimore City will be required to bring their minimum salary up to that level, thus erasing Howard's traditional competitive position.

Currently, salaries in Baltimore and Anne Arundel Counties are competitive with those paid in Howard County, whereas salaries in Montgomery and Prince George's Counties exceed those paid in Howard County. We cannot afford to fall behind.

Furthermore, everyone knows what the inflation rate has been during the past two years. To offer the teachers a cost of living adjustment lower than that offered to other county employees is insulting. It's like the county is inviting teachers to work elsewhere.

The HCPSS and the Board of Education have problems, some of their own making, that impact school funding. Please don't compound these issues by depressing teacher pay. All county employees deserve the same cost of living increase.

Thank you,

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

To the Members of the Howard County Council...

I urge you to vote YES on the proposed budget amendments from Councilwoman Walsh. Please vote YES on amendments 10, 11, and 12 to CB27 and amendment 1 to CR48.

As the president the Howard County Education Association, I hear from members each day. Even before the pandemic, the strains on our members were getting worse. They've only proven more problematic ever since. Not only is there a nationwide educator shortage, but Maryland has also been a majority import state for educators for years. This have even hit home here in Howard County, where over 400 teachers this year were hired without certification. This is the largest number of provisional employees ever hired by HCPSS, and it will only increase in the new landscape of education.

I also have the good fortune of working with student interns from Towson University. As you should already know, less students enter education majors each year. And even those who do, end up leaving the profession within the first five years. Soon, you will see data that was presented to MSDE, breaking down each county in these areas. Matters are bleaker than they were before.

Once a beacon, HCPSS has fallen compared to other counties. Howard used to be third in starting salary, and currently sits at seventh. Districts around us have completed negotiations, ratified contracts, and those contracts have been funded by their local authorities. The Blueprint legislation aims to do a lot for education overall, the most paramount being the update of per pupil funding across the state compared to 20 years ago. Another tenet of the legislation is increasing educator pay to the level of similarly trained and prepared professionals. Inasmuch the starting salary should be at \$60k by FY26, all of the aforementioned surrounding districts will outrace us by a year. The legislation was meant to uplift the profession, knowing that each district would have to detail ways to attract educators. Instead of following that lead, HCPSS leadership and the BOE continue to falsely believe that we can just pluck veterans from other counties. This is shortsighted and ill-informed, and will increase the number of provisional educators, while not having a robust mentorship system in place to help.

Please be the leaders your constituents voted you to be. Show HCPSS and the BOE what they are supposed to do. Show our educators they are worth the same as other county employees that are already seeing larger gains and better contracts. Vote YES on the proposed budget amendments from Councilwoman Walsh. Please vote YES on amendments 10, 11, and 12 to CB27 and amendment 1 to CR48.

Please reach out to me with any questions or concerns you may have at any time. I can be reached via email or cell at 410-440-9821. Thank you so much for your time.

Sincerely...

Benjamin Schmitt

Subject: HCPSS Salary - Amendments

[Note: This email originated from outside of the organization. Please only click on links or attachments if you know the sender.]

Good morning,

I'm writing this on behalf of HCPSS teachers and paraeducators, as a special educator of 10 years within HCPSS. I urge you to vote for the amendments allocating additional fund to HCPSS, along with the amendment for multiyear contracts for teachers/ESP staff.

Teachers and paraprofessionals (especially in special education) bear the brunt of the workload within the HCPSS, and have the most direct impact on student wellbeing, growth, and achievement. We are the most valuable resource with the system, and yet are treated with the most disrespect and are an afterthought each year in budget considerations - after all of the other decisions are made. I have lost confidence in our board, and am hoping our council can rectify the situation we're all in.

I love my job, I love my students, and I love the paraeducators I work with each day. I do not love the lack of support we feel from central office, DSE, administration, or the Board of Education. Unfortunately it is getting more and more challenging for me to love my job - especially as district and state mandates continue to increase in special ed, with no additional resources, support, or money to match the increased workload.

School-based staff are always the ones who are told to "do it for the kids!", "the juice is worth the squeeze!", "we're not in it for the money!", etc. that contribute to a toxic culture, burnout, and decreased staff morale. No one at the admin level or central office/DSE is fed the same rhetoric and asked to make sacrifices in their salary to "make it work". No one at those levels is asked to fund school supplies, paper, and classroom materials out of their own pockets. Paraeducator pay is abysmal and is not even a livable wage, although even veteran teachers are finding it hard to make ends meet with massive student loans for multiple degrees that don't amount to significant wage increases. Teachers cannot afford to live in this county on a single income. We have multiple degrees and certifications, just as qualified if not more so than many in central office/DSE, but there is nothing incentivizing us to stay in the classroom or in the profession.

I love my job, but I have to have a hard look at whether it's worth it for me to continue. With a 3.4% inflation rate and only a 1% cost of living increase (other county employees getting 4-5% is a slap in the face to school staff), we are essentially taking a pay cut to remain in the same jobs. We are no longer competitive with other comparatively sized counties (especially for teachers in the system for longer), and that may be an option for some to look elsewhere.

Next year I will no longer be able to work outside my contract hours as I'll have to increase hours at my second job to make ends meet. All extra tasks will have to stop as I'll only have time to complete MSDE compliance tasks within my contract hours. If I have to cut instructional engagement and rigor from lessons, that is what I'll have to unfortunately do. I will not be able to provide any extras for my students out of pocket - all of the things that make learning magical and motivating and fun! There will be items that are supportive to or required for instruction and behavior on students' IEPs that I will no longer be able to provide on my own. Combined with a lack of paper and supplies, we might have an actual inability to do our jobs - but it will not be able to come out of my pocket with my salary next year. If needs in IEPs aren't able to be met, that will be a school system problem - not mine. More students will then need non-public placements.

Funds spent on non-public tuition ballooned this year to an unprecedented amount, and no one is asking why. Cost savings could be achieved by investing in special education supports, asking schools what they need, and directly supporting those in the classroom - starting with teacher and paraprofessional pay. There are systemic issues in special education and a large number of vacancies that are desperately needed, yet unable to be filled due to system constraints (lack of training, support, and enough pay for paraeducators/teachers). Instead, these positions were eliminated and the BOE boasted about new positions - even though there's going to be a net loss of special education staff. Again, more workload for the rest of us, with less pay.

The disparity between administration/central office/DSE pay and that of teachers/ESPs continues to grow. Somehow every year there are funds to increase HCASA pay, add longevity pay, and add new positions - yet school-based staff get marginal increases and have to fight for every dollar. Yes hard fiscal decisions need to be made, but not on the backs of teachers/paraeducators who keep this entire system afloat.

Please vote for the amendments to add funding to the budget & encourage a multiyear contract with better pay for those who deserve it - the teachers and paraeducators.
