

County Council Of Howard County, Maryland

2007 Legislative Session

Legislative Day No. 12

Resolution No. 116 -2007

Introduced by: The Chairperson at the request of the County Executive

A RESOLUTION adopting green neighborhood standards that must be met in order to receive a Green Neighborhood Allocation; and providing a reporting process for the Green Neighborhood Checklist.

Introduced and read first time September 4, 2007.

By order

Sheila M. Tolliver
Sheila M. Tolliver, Administrator

Read for a second time at a public hearing on Sept. 17, 2007.

By order

Sheila M. Tolliver
Sheila M. Tolliver, Administrator

This Resolution was read the third time and was Adopted ☐, Adopted with amendments ☒, Failed ☐, Withdrawn ☐, by the County Council on October 1, 2007.

Certified By

Sheila M. Tolliver
Sheila M. Tolliver, Administrator

NOTE: [[text in brackets]] indicates deletions from existing law; TEXT IN ALL CAPITALS indicates additions to existing law; Strike-out indicates material deleted by amendment; Underlining indicates material added by amendment.

1 **WHEREAS**, in accordance with Section 16.1102 of the Howard County Code,
2 the Housing Unit Allocation Chart sets forth the projected number of housing unit
3 allocations available to be granted each year for a ten-year period; and
4

5 **WHEREAS**, on July 30, 2007, the County Council passed Council Bill No. 48-
6 2007 that creates a "Green Neighborhood Allocation" in Howard County; and
7

8 **WHEREAS**, the County Council also adopted Council Resolution No. 90-2007
9 that adopts the Housing Unit Allocation Chart for Fiscal Year 2008; and
10

11 **WHEREAS**, the Housing Unit Allocation Chart contains 100 Green
12 Neighborhood Allocations; and
13

14 **WHEREAS**, in order to be eligible to receive a Green Neighborhood Allocation,
15 a residential development project shall achieve a minimum of 90 points out of a total of
16 167 possible points from the Green Neighborhood Site portion of the Green
17 Neighborhood Checklist; and
18

19 **WHEREAS**, in order to be eligible for a Building Permit and subsequent Use and
20 Occupancy Permit, a residential development project that has received a Green
21 Neighborhood Allocation shall achieve a minimum of 46 points out of a total of 84
22 possible points from the Green Neighborhood Home portion of the Green Neighborhood
23 Checklist; and
24

25 **WHEREAS**, the County Council would like to periodically monitor and review
26 the effectiveness of the newly created Green Neighborhood Checklist, by having an
27 annual report submitted by the appropriate departments; and
28

29 **WHEREAS**, the County Executive has recommended and the County Council
30 wish to adopt the Green Neighborhood Checklist, attached as Exhibit A, as the standards
31 to receive a Green Neighborhood Allocation; and

1 **NOW, THEREFORE, BE IT RESOLVED** by the County Council of Howard
2 County, Maryland this 1st day of Oct., 2007 that the Green Neighborhood
3 Checklist, attached as Exhibit A, is adopted as the standard for a residential development
4 project to receive a Green Neighborhood Allocation; and
5

6 **BE IT FURTHER RESOLVED**, that a residential development project is
7 eligible to receive a Green Neighborhood Allocation if the project achieves a minimum
8 of 90 points out of a total of 167 possible points on the Green Neighborhood Site portion
9 of the Green Neighborhood Checklist; and
10

11 **AND BE IT FURTHER RESOLVED**, that the Directors of Department
12 Planning and Zoning and Department of Inspections, Licenses and Permits shall, by
13 January 1st of each year, submit to the County Executive and the County Council a report
14 including the number of residential development projects that received Green
15 Neighborhood Allocations, the number of points received on the checklist by each
16 project, and the number of residential development projects overall; summarizing
17 feedback from local engineers; and forwarding recommendations, if any, for improving
18 the checklist.

Exhibit A GREEN NEIGHBORHOOD CHECKLIST

Key	Category	Comment / Criteria / Metric	Max Points
GREEN NEIGHBORHOOD SITE			
A	Innovative / Integrated Design Process		4
A-1	Green Development Plan	Shows how plans meet criteria, includes checklist, natural resource inventory and energy analysis	REQ'D
A-2	Interdisciplinary Project Team	Includes U.S. Green Building Council Leadership in Energy and Environmental Design (LEED) Accredited professional, ecologist / environmental professional / landscape architect, and engineer	REQ'D
A-3	Third Party Certification	Certification of credits by independent LEED accredited professional	REQ'D
A-4	Innovative Design	Innovative design proposed by applicant, not included in checklist	4
B	Location, Linkages & Community Context		27
B-1a	Redevelopment Site	Reuse of previously developed site (minimum 25% existing impervious, with sliding scale for credits based on amount or % impervious)	4
B-1b	Redevelopment Site	Brownfield cleanup of redevelopment site	8
B-2	Historic Buildings	Preservation, renovation and / or adaptive reuse of structure that meets criteria for Howard County Historic Sites Inventory	4
B-3a	Transit Access & Amenities for Reduced Auto Dependence	Site is served by transit stop within 1/2 mile (1 point) or 1/4 mile (2 points) walk from property	2
B-3b	Transit Access & Amenities for Reduced Auto Dependence	Provide county-specified transit shelter with benches and lighting at transit stop within 1/2 mile of property and provided pedestrian link to stop if none currently exists	4
B-4	Proximity to Community Resources	Diverse community resources (school, park, library, post office, child care, senior care, community center, shopping, medical offices, service retail, places of worship, restaurants, or other) are within 1/2 mile walk of property (1 point for each type of resource); provide pedestrian link to facility if none currently exists (1 point)	5
C	Compact, Complete & Connected Development		27
C-1	Diversity of Uses	1 point for each land use type (retail, office, institutional, civic) in addition to residential; 1 point for each additional residential building type (SFD, SFA, APT, Age Restricted)	3
C-2	Planned Service Area	Project located in the planned service area	5
C-3a	Pedestrian System	Off-street paths / trail system provided in addition to required sidewalks	2
C-3b	Pedestrian System	Path connection(s) provided to abutting neighborhoods (connections to external sidewalks required)	2
C-3c	Pedestrian System	Pedestrian experience features (special paving, benches, etc.)	2
C-4	Connected On-site Street Network	Most streets connected to form grid or blocks	2
C-5	Parking does not exceed Required Minimum	Surface parking lots do not exceed required parking ratios (1 point); plan takes advantage of shared parking provisions in regulations (2 points); common parking structure provided (in deck or beneath building; does not include garages within individual units) (4 points)	4
C-6	Exceed Minimum Open Space Requirements	1 point for each 5% above minimum required open space for zoning district up to 5 points; 1 point for every 10% of nonbuildable HOA or county-owned preservation parcels above 50% of site, up to 3 points	5
C-7	Green Spaces and Amenity Areas	Open space or nonbuildable preservation parcel frontage along public roads or along private road that is available for public use (1 point for each parcel with min. 100' frontage); use of amenity areas for passive or active recreation (except for pools and enclosed building) is not restricted to residents and is available to the public, gated communities do not qualify	2

Exhibit A **GREEN NEIGHBORHOOD CHECKLIST**

Key	Category	Comment / Criteria / Metric	Max Points
D	Environmental Preservation		52
D-1	Stream Restoration or Wetland Creation or Restoration	Restoration of degraded on-site stream channel; on-site restoration of degraded wetland or creation of additional wetlands (sliding scale based on % or length of stream restored and % of acres of wetland created or restored)	16
D-2	Habitat Management Plan	Prepare and implement plan that identifies, conserves and enhances natural resources and ecological communities (may include clean up of debris, removal of invasives, etc.)	4
D-3	25% Steep Slope Preservation	Protect all existing steep slopes as defined by County regulations required; provide 25' minimum buffer at top of 25% slope (2 points)	2
D-4	15% Slope Preservation	Protect existing 15%+ slopes (protect minimum 1/2 acre, with sliding scale based on area or % protected)	4
D-5	Minimize Grading and Site Disturbance	Minimize limit of disturbance: leave at least 20% of site undisturbed (1 point), 30% (2 points), 40% (3 points); balance cut and fill on site (2 points); retaining walls 3-5.9' (deduct 1 point) retaining walls 6-8.9' (deduct 2 points), walls 9' and higher (deduct 3 points), no new created steep slopes over 25% (1 point); amend soil nutrients in turf and planting areas (1 point)	5
D-6	Exceed Minimum Forest Conservation Requirements	1 point for every 10% of existing forest retained above break even point; 1 point for every 10% of on-site forest planted in excess of afforestation obligation	5
D-7	Save Trees above 12" Minimum Caliper	1 point for protecting each 25% of all specimen trees (does not include specimen trees within forest conservation area or within forests that are being cleared)	4
D-8a	Exceed Minimum Stream Buffer Requirements	75' buffer required for perennial and intermittent streams inside PSA, 100' buffer required for perennial and intermittent streams outside PSA	REQ'D
D-8b	Exceed Minimum Stream Buffer Requirements	2 points for each additional 25' of buffer provided in excess of requirements in D-8a outside wetland buffer or floodplain	6
D-9	Exceed Minimum Wetland Buffer Requirements	2 points for each additional 25' of wetland buffer outside stream buffer or floodplain	4
D-10	Floodplain Buffer	1 point for each 25' of buffer to floodplain outside required or provided wetland or stream buffer	2
E	Site Landscape Improvements		10
E-1	Landscaping exceeds Minimum Requirements and Reduces Heat Island Effect	1 point for each 10% increase in number of plants (must be native plants) provided above total minimum required in Landscape Manual; retain or plant trees on south and west sides of buildings and increase trees within parking areas and along sidewalks and paths	5
E-2	Native Plants	1 point for 80%, 2 points for 90%, 3 points for 100% of all plants native to within 200 miles of site	3
E-3	No Invasive Plants	No plants that are on DNR, USDA or Cooperative Extension Service lists of invasive plants	REQ'D
E-4	Limit Turf	Turf does not exceed 30% of unpaved site (1 point); no turf on new created steep slopes 25%+ or in densely shaded areas (1 point); unpaved nonturf areas must be planted in native vegetation	2

Exhibit A **GREEN NEIGHBORHOOD CHECKLIST**

Key	Category	Comment / Criteria / Metric	Max Points
F	Water Conservation / Efficiency / Management		17
F-1	Rainwater Harvesting System	Collect and make use of water runoff from minimum 50% of roof area; provide storage system and monitoring device and maintenance / management program	5
F-2	Water-Permeable Walkways	Use water-permeable materials in 50% or more of pathways; provide maintenance program	4
F-3a	Low Impact Development (LID) Stormwater Treatment	Meets minimum Design Manual requirements; no dry ponds allowed	REQ'D
F-3b	Low Impact Development (LID) Stormwater Treatment	Exceeds Design Manual requirements; maximize use of bioretention (esp. for parking lots), rain gardens, rain barrels, stormwater wetlands, green roof, etc.	8
G	Energy Efficiency		13
G-1	Light Pollution Reduction	Shield all site lighting fixtures to reduce light and spillover below county code requirements; install sensors or timers on all exterior site lighting fixtures	4
G-2	Solar Orientation	Orient 50% (1 point) or 75% (2 points) or 100% (3 points) of buildings to make available for solar strategies (longer axis of SFD homes, TH blocks and apartment blocks is east / west)	3
G-3	Infrastructure Energy Efficiency	Select high efficiency fixtures for parking lot and other site light fixtures and design delivery systems to reduce energy demands; install photovoltaic (PV) panels to provide electricity for site energy needs (sliding scale points for % of energy provided); design, engineer and wire the development to accommodate future PV installation	6
H	Materials Beneficial to the Environment / Waste Management		17
H-1	Environmentally Preferable Site Products	Select products from a list including: recycled materials (concrete, asphalt, tires, plastic, etc.), materials with recycled content, salvaged or engineered materials; reuse of existing on-site materials; environmentally preferable pedestrian paving, play equipment, decks, boardwalks, patio flooring, etc.	8
H-2	Reduce Heat-Island Effect of Paving	Use light-colored or high albedo materials and/or porous paving with a minimum Solar Reflective Index of 0.6 or over for at least 30% of the site hardscape	2
H-3	Site Construction Waste Management	Develop and implement a construction waste management plan to divert, reuse, recycle or reduce the amount of site material sent to the landfill by 25% (2 points) or 50% (3 points) or 75% (4 points)	4
H-4	Regionally Provided Materials	20% of common and public infrastructure materials from within 200 miles	3
I	Operations and Maintenance Education		0
I-1	HOA Documents	Include information about green site features and maintenance requirements in HOA documents	REQ'D
I-2	Maintenance Manual for Owner / HOA / Manager	Provide a manual that includes information on how to maintain the green features of the site, including paving materials, landscaping and stormwater management LID and encourages additional green activities such as recycling, gardening, etc.	REQ'D
I-3	Public Awareness of Sustainable Community	Develop a program to advertise the environmental benefits of the community	REQ'D

TOTAL MAXIMUM SITE POINTS 167
Number of points required to obtain Green Neighborhood Allocations 90

Exhibit A GREEN NEIGHBORHOOD CHECKLIST

Key	Category	Comment / Criteria / Metric	Max Points
GREEN NEIGHBORHOOD HOME			
A	Innovative / Integrated Design Process		4
A-1	Green Development Plan	Shows how plans meet criteria, includes checklist, natural resource inventory and energy analysis	REQ'D
A-2	Interdisciplinary Project Team	Includes U.S. Green Building Council Leadership in Energy and Environmental Design (LEED) Accredited professional and architect	REQ'D
A-3	Third Party Certification	Certification of credits by independent LEED accredited professional	REQ'D
A-4	Innovative Design	Innovative design proposed by applicant, not included in checklist	4
B	Materials Beneficial to the Environment / Waste Management		18
B-1	Environmentally Preferable Building Products	Select products from a list including: recycled materials, materials with recycled content, salvaged or engineered materials; ecofriendly flooring (carpets, wood, linoleum, tile); reuse of existing on-site materials; environmentally preferable framing, roofing, siding, etc.	8
B-2a	Wood Use	All tropical woods Forest Stewardship Council (FSC) certified	REQ'D
B-2b	Wood Use	All non-tropical wood, 50% FSC certified	2
B-3	Regionally Provided Materials	20% of common materials from within 500 miles	3
B-4	Materials in Wet Areas: Tub & Shower Enclosure	All tubs and showers one-piece fiberglass or similar enclosure	1
B-5	Building Construction Waste Management	Develop and implement a construction waste management plan to reuse, recycle or reduce amount of building material sent to the landfill by 25% (2 points), 50% (3 points) or 75% (4 points)	4
C	Energy & Water Efficiency		53
C-1a	Photovoltaic (PV) Panels or PV Ready Buildings	Install PV panels to provide electricity for 10% (5 points), 20% (10 points) or 30% (15 points) of energy needs; site, design, engineer and wire the development to accommodate future PV installation (2 points)	15
C-1b	On-Site Power Generation, Renewable Energy Sources	To be identified by applicant (geothermal, wind, passive solar, etc.)	6
C-1c	Added Reductions in Energy Use	To be defined by applicant (additional insulation, etc.)	2
C-2a	Energy Star Appliances	Exclusive use of Energy Star labeled appliances	REQ'D
C-2b	Energy Star Home	All buildings meet Energy Star for Homes with third-party testing	15
C-3a	Water Heating	Improve energy efficiency of hot water distribution system & pipe insulation	3
C-3b	Water Heating	Installed solar hot water heater	4
C-4	Low Flow Water Devices	Showerheads, toilets or sinks flow lower than required by Building Code	2
C-5	Gray Water Reuse System	Collect water from certain indoor uses; include storage system; use for irrigation or indoor use; provide monitoring device and maintenance / management program	4
C-6	Light Pollution Reduction	Install sensors or timers on all exterior building fixtures	2

Exhibit A GREEN NEIGHBORHOOD CHECKLIST

Key	Category	Comment / Criteria / Metric	Max Points
D	Indoor Environmental Quality		6
D-1	Energy Star with IAP	Meets Energy Star with indoor air package	3
D-2	Combustion Venting	High performance fire place	1
D-3a	Supply Air Filtering	≥ 8 minimum efficiency rating value (MERV) filters w/ adequate system air flow	REQ'D
D-3b	Supply Air Filtering	≥ 10 MERV (1 point) or ≥ 13 MERV (2 points)	2
D-4	Contaminant Control	Seal-off ducts during construction	REQ'D
E	Healthy Living Environment		3
E-1	Low/No VOC Paint & Primer	All interior paints	REQ'D
E-2	Low/No VOC Adhesive & Sealant	All interior adhesives and sealants	REQ'D
E-3	Formaldehyde-free Composite Wood	No composite wood with exposed particleboard	REQ'D
E-4	Ventilation	Install a ventilation system that that provides 15 cubic feet per minute of fresh air / per bedroom	3
F	Operations and Maintenance Education		0
F-1	HOA Documents	Include information about green building features and maintenance requirements in HOA documents	REQ'D
F-2	Maintenance Manual for Owner / HOA / Manager	Provide a manual that includes information on how to maintain the green building features, including building materials, and water, energy and air quality systems, and encourages additional green activities such as recycling, gardening, etc.	REQ'D
F-3	Public Awareness of Sustainable Community	Develop a program to advertise the environmental benefits of the community	REQ'D

Number of points required to obtain Building Permits for homes in Green Neighborhoods **TOTAL MAXIMUM BUILDING POINTS** **84**

Amendment 1 to Council Resolution 116-2007

BY: Courtney Watson
Calvin Ball
Greg Fox

Legislative Day No: 13
Date: October 1, 2007

Amendment No.

(This amendment would require that an annual report is prepared and submitted to the County Executive and County Council).

On the title page, in line 2 of the title, after "Allocation", insert "and providing a reporting process for the Green Neighborhood Checklist".

On page 1, immediately after line 24, insert the following:

" WHEREAS, the County Council would like to periodically monitor and review the effectiveness of the newly created Green Neighborhood Checklist, by having an annual report submitted by the appropriate departments; and".

On page 2, in line 7, strike the period and substitute "and".

On page 2, after line 7, insert the following

" AND BE IT FURTHER RESOLVED, that the Directors of Department Planning and Zoning and Department of Inspections, Licenses and Permits shall, by January 1st of each year, submit to the County Executive and the County Council a report including the number of residential development projects that received Green Neighborhood Allocations, the number of points received on the checklist by each project, and the number of residential development projects overall; summarizing feedback from local engineers; and forwarding recommendations, if any, for improving the checklist.".

County Council Of Howard County, Maryland

2007 Legislative Session

Legislative Day No. 12

Resolution No. 116 -2007

Introduced by: The Chairperson at the request of the County Executive

A RESOLUTION adopting green neighborhood standards that must be met in order to receive a Green Neighborhood Allocation.

Introduced and read first time _____, 2007.

By order _____
Sheila M. Tolliver, Administrator

Read for a second time at a public hearing on _____, 2007.

By order _____
Sheila M. Tolliver, Administrator

This Resolution was read the third time and was Adopted____, Adopted with amendments____, Failed____, Withdrawn____, by the County Council
on _____, 2007.

Certified By _____
Sheila M. Tolliver, Administrator

NOTE: [[text in brackets]] indicates deletions from existing law; TEXT IN ALL CAPITALS indicates additions to existing law; Strike-out indicates material deleted by amendment; Underlining indicates material added by amendment.

1 **WHEREAS**, in accordance with Section 16.1102 of the Howard County Code,
2 the Housing Unit Allocation Chart sets forth the projected number of housing unit
3 allocations available to be granted each year for a ten-year period; and
4

5 **WHEREAS**, on July 30, 2007, the County Council passed Council Bill No. 48-
6 2007 that creates a "Green Neighborhood Allocation" in Howard County; and
7

8 **WHEREAS**, the County Council also adopted Council Resolution No. 90-2007
9 that adopts the Housing Unit Allocation Chart for Fiscal Year 2008; and
10

11 **WHEREAS**, the Housing Unit Allocation Chart contains 100 Green
12 Neighborhood Allocations; and
13

14 **WHEREAS**, in order to be eligible to receive a Green Neighborhood Allocation,
15 a residential development project shall achieve a minimum of 90 points out of a total of
16 167 possible points from the Green Neighborhood Site portion of the Green
17 Neighborhood Checklist; and
18

19 **WHEREAS**, in order to be eligible for a Building Permit and subsequent Use and
20 Occupancy Permit, a residential development project that has received a Green
21 Neighborhood Allocation shall achieve a minimum of 46 points out of a total of 84
22 possible points from the Green Neighborhood Home portion of the Green Neighborhood
23 Checklist; and
24

25 **WHEREAS**, the County Executive has recommended and the County Council
26 wish to adopt the Green Neighborhood Checklist, attached as Exhibit A, as the standards
27 to receive a Green Neighborhood Allocation; and
28

29 **NOW, THEREFORE, BE IT RESOLVED** by the County Council of Howard
30 County, Maryland this ____ day of _____, 2007 that the Green Neighborhood

1 Checklist, attached as Exhibit A, is adopted as the standard for a residential development
2 project to receive a Green Neighborhood Allocation; and
3

4 **BE IT FURTHER RESOLVED**, that a residential development project is
5 eligible to receive a Green Neighborhood Allocation if the project achieves a minimum
6 of 90 points out of a total of 167 possible points on the Green Neighborhood Site portion
7 of the Green Neighborhood Checklist.
