Hello

I am a resident of Long Reach voicing my support for the subject bill and resolution. Commercial vehicles parking for extended periods in residential areas is an ongoing issue in the village that I am happy to see the council taking action to address.

Thank you

Case Number: CS0070173

Case Opened: 06-16-2025

Constituent:

[VIEW CASE](#)

Summary:

Who would you like to contact?	District 3
Subject	CB52-2025 & CR116-2025
Message	<p>I would request a yes vote to increase fines for commercial vehicles parking on residential streets. For years, maybe 4-5 years, we have had 4-6 trucks park after 5pm until 8am the next day on Youngheart, where we need to turn to get into our cul-de-sac. In winter the trucks have snow pushers attached to the front, increasing their size. During the summer the trucks may have carts attached behind them for hauling debris, also extending their size. During the day, the workers' cars are left on Youngheart. Everyday traffic flow is affected, not to mention emergency vehicles. I have lived on this cul-de-sac for 47.5 years, so can see the difference in traffic flow. Thank you for your consideration.</p>

Dear Howard County Council,

Concerning Howard County Council- District Two: Council Bill 52 and Council Resolution 116:

In Loop.net, the real estate listing for our office building on Twin Knolls Road boasts
"Idyllic parklike setting close to Columbia town center. Very private with walk in entrances."

<https://www.loopnet.com/Listing/5405-Twin-Knolls-Rd-Columbia-MD/27487911/>

This used to be the feel of the drive into our office park, which is ideal for our medical office. However when multiple trucks are parked on the road leading to our office park, I find myself answering questions from multiple patients asking why the trucks are parked there. This is time that would be better spent addressing their medical concerns.

I also worry about my staff who ride their bikes to work. They have to ride around the trucks, sometimes in the dark. There are no sidewalks on Twin Knolls Road, and the road is not designed for bikes to have to ride around parked trucks.

Please find a new home for these trucks to stay. They are a nuisance and a hazard on Twin Knolls Road. They are negatively impacting my patients, my staff, and my business.

Thank You,

Kristin Huza

Subject: Legislation to Increase Commercial Parking Fines in Residential Areas

Flag Status: Flagged

Dear Howard County Council,

Howard County has been a hotbed for unwanted commercial motor vehicle parking in residential areas.

Currently, the County's commercial motor vehicle parking fine and penalty is \$33, the lowest statewide. The legislative proposals will introduce a tiered schedule in accordance with Section 21.232 of the County Code, which prohibits commercial motor vehicles from parking in residential areas for more than six continuous hours.

Supporting [Council Bill 52](#) and [Council Resolution 116](#) will alleviate our community's ongoing commercial motor vehicle parking challenges. Both proposals address longstanding residential challenges that obstruct visibility, limit access, and create potential safety hazards for our families and children.

Thank you, Vice Chair Jones for prioritizing public safety. These measures will improve the quality of life throughout our County.

Please support [Council Bill 52](#) and [Council Resolution 116](#) at the Legislative Session on July 7th to continue fostering a safe and harmonious environment for all.

Dear Council Members,

I am writing in support of Proposed Bill 52 and Council Resolution 116, which increase the citation schedule of fines and penalties for commercial vehicles parked in residential areas.

I live on the cul de sac Rising Moon in the Owen Brown Village of Columbia. This cul de sac intersects with the residential street Youngheart Lane. One of our neighbors on the cul de sac owns his own lawn care, snow removal, and contractor business.

Since we purchased our property in 2020, this neighbor's business has grown. Originally he had one heavy duty pickup truck and a small towed trailer. As of this year, he has four or five heavy duty pickup trucks, each with a large towed trailer, one light duty pickup truck with a signal light, one large dump truck, and two large detachable snow plows. He owns numerous riding lawn mowers, push mowers, other power equipment, and hand tools, which he stores on the trailers and in his yard.

At one time, he had a large, inoperable box trailer that he kept parked on the curb in front of his house, which he used as a storage shed for his equipment and tools. The inoperable trailer sat parked on the curb for approximately a year and a half. Emergency vehicles and other large vehicles could not drive through the cul de sac because the trailer blocked through-traffic. It took our HOA a year of contacting authorities before the owner finally had to remove the trailer.

His heavy duty trucks have the trailers hitched to them at all times during the warmer months, and he keeps them parked on our cul de sac and Youngheart Lane. When the trucks/trailers are parked on the cul de sac, large vehicles, such as emergency vehicles, cannot drive around the cul de sac.

When he and his workers park the trucks/trailers on Youngheart Lane, they block the line of sight for drivers pulling off the cul de sac onto Youngheart, and also block the visibility of these emerging cars from drivers traveling on Youngheart. Parking his trucks and trailers on Youngheart, which is where he primarily parks them when not in use, creates a very dangerous situation for anyone living on Rising Moon or who drives on Youngheart past Rising Moon. Cars could easily have a head-on collision due to the blocked line of sight, especially if motorists speed through the neighborhood, which often happens.

There are mostly families with children, including several small children, living on Rising Moon (including the neighbor who has the business). The children frequently play outside, and ride bikes and scooters in the neighborhood. My biggest concern is that a car will hit a child because the large trucks block drivers' visibility. Residents on Rising Moon are aware that children could be playing and slow down. People who do not live on the cul de sac would not be aware. Tragedies like a child being hit and/or killed by a vehicle destroy families, both for the victim and motorist. But they are entirely avoidable in this situation if the business owner would find a suitable commercial or mixed-use location to store and stage his trucks, trailers, and other equipment.

Besides the safety concerns inherent in this situation, the constant presence of commercial vehicles on and next to our cul de sac is a direct violation of our neighborhood's residential zoning. The commercial vehicles are a constant eye sore. With them comes periods of loud, persistent noise at all hours of day and night when the business owner and his employees let the vehicles and power equipment idle, wash them with large gas-powered power washers, and fix and maintain them using loud, professional-grade power tools. Other neighbors have complained that such noise wakes up their young children from naps or in the middle of the night. Besides the noise, when returning late at night, it is not uncommon for the trucks to sit idle for a long period of time with the headlights shining directly into our house. The presence of so many commercial vehicles for this one business has destroyed the residential nature of our neighborhood, making it an unpleasant place to live, and lowering property values.

Since we have been dealing with this situation, I have been studying our HOA's covenants and the County Code to understand what might be done to resolve this issue. The HOA has no legal power over parking, street signage, or motor vehicle enforcement. All they can do is ask the business owner to stop, which he refuses to do. I attempted to discuss one issue with him in person, hoping to resolve the matter amicably, but he became extremely angry and belligerent, so unfortunately his neighbors cannot reason with him. I believe that passing Bill 52 will give the County an enforcement tool with enough "bite" that it will force commercial vehicle owners to do the right thing for the safety of their neighborhood. Unfortunately, some people do not care about treating their neighbors with respect and common decency, and only the threat of large fines or impounding their vehicles will be enough of an incentive to do the right thing.

Thank you for taking the time to learn about our situation. Please feel free to contact me if you need any additional information.

Regards,
Amanda E. Eveler
