

Good Evening Howard County Council,

My name is Cherise Seals of Woodstock, MD and I live in District 5. I'd first like to thank the council for your time and consideration. I'd also like to thank Tim Lattimer, Administrator of the Office of Community Sustainability for his recommendation for the Environmental Sustainability Board and certainly County Executive Ball for his selection. Over the more than 25 years I've been a county resident, I've been thoughtful to lend my expertise and passion to serve where possible. My husband and I have raised two sons who have matriculated through the Howard County Public School System, and we've been faithful members of our local church for over 30 years. I've served on several state boards and councils. My experience in both energy and engineering exceeds the 25 years I've lived in Howard County, and I look forward to being a resource. I hope sufficient information has been shared for you to confirm my appointment. Thanks again for the time to testify and I look forward to serving.
