Except as the context otherwise indicates, all references to “Exhibits,” “Articles” and “Sections” refer to Exhibits, Articles and Sections of this Agreement.

TERM AND TERMINATION.

2.1 Term. The term of the Agreement shall commence on the Effective Date and shall continue for twenty (20) years from the Commercial Operations Date (“Initial Term”), unless and until terminated earlier pursuant to the provisions of the Agreement. After the Initial Term, as long as the Purchaser is not in default under the Agreement, the Purchaser may renew the Agreement for two additional five (5) year terms (each a “Renewal Term”), by delivering a written notice of renewal to Provider at least one hundred and eighty (180) days prior to the expiration of the Initial Term or then applicable Renewal Term. The Initial Term and the subsequent Renewal Term or Renewal Terms, if any, are referred to collectively as the “Term.” During any Renewal Term, either Party may terminate this Agreement upon one hundred and eighty (180) days’ prior written notice to the other Party. The date on which this Agreement terminates by reason of expiration of the then applicable Term is hereafter referred to as the “Expiration Date.” Any other date on which this Agreement terminates in accordance with the terms hereof is hereafter referred to as the “Early Termination Date.”

2.2 Early Termination. Host may terminate the Agreement prior to any applicable Expiration Date for any reason upon sixty (60) days' prior written notice (the "Early Termination"). In such event of Early Termination, which shall not include a termination due to a default of Provider under the Agreement, a termination in a Renewal Term, or a termination in the event of an Emergency or Force Majeure Event as provided in Section 4.3(a), Host shall pay, as liquidated damages, the Early Termination Fee. To effect an Early Termination hereunder, Host shall fund an escrow account in the amount of the Early Termination Fee for the benefit of Provider. Following the funding of such escrow account, Provider shall cause the System to be disconnected and removed from the Premises. Upon such removal and the restoration of the Premises to the County's reasonable satisfaction, the Early Termination Fee shall be promptly released to Provider and the Agreement shall terminate automatically.

2.3 Purchase Option. On any Purchase Date or the Early Termination Date, Host has the option to purchase the System, which purchase shall include all Environmental Attributes (the "Purchase Option") for a purchase price (the "Option Price") equal to the greater of (a) the Fair Market Value of the System as of the Purchase Date, or (b) the Early Termination Fee as of the Purchase Date. To exercise its Purchase Option, Purchaser shall, not less than one hundred and eighty (180) days prior to the proposed Purchase Date, provide written notice to Provider of Purchaser's intent to exercise its option to purchase the System and the Environmental Attributes on such Purchase Date. To complete the purchase and the transfer of title to the System and the Environmental Attributes, within thirty (30) days of receipt of Purchaser's notice, Provider shall specify the Option Price, and Purchaser shall then have a period of thirty (30) days after notification to confirm or retract its decision to exercise the Purchase Option or, if the Option Price is equal to the Fair Market Value of the System and the Environmental Attributes, to dispute the determination of said Fair Market Value. In the event Purchaser confirms its exercise of the Purchase Option in writing to Provider (whether before or after any determination of the Fair Market Value determined pursuant to Section 2.4), (i) the Parties shall promptly execute all documents necessary to (A) cause title to the System and the Environmental Attributes to pass to Purchaser on the Purchase Date, free and clear of any Liens, and (B) assign all vendor warranties for the System to Purchaser, and (ii) Purchaser shall pay the Option Price to Provider on the Purchase Date, such payment to be made in accordance with any previous written instructions delivered to Purchaser by Provider or Provider's Financing Party, as applicable, for payments under the Agreement. Upon execution of the documents and payment of the Option Price, in each case as described in the preceding sentence, the Agreement shall terminate automatically and all claims to the System and the Environmental Attributes by, through or under the Provider are hereby waived and shall cease to exist. For the avoidance of doubt, payment of the Option Price shall be in lieu of and instead of any payments as described in Section 2.2 hereof. In the event Purchaser retracts its exercise of the Purchase Option, the provisions of the Agreement shall be applicable as if the Purchaser had not exercised any option to purchase the System and the Environmental Attributes and Purchaser may not exercise the continuing Purchase Option until the next Purchase Date or the Early Termination Date, if applicable.

2.4 Determination of Fair Market Value. If the Option Price indicated by Provider in accordance with Section 2.3 is equal to the Fair Market Value (as determined by Provider) and Host disputes such stated Fair Market Value within thirty (30) days of receipt of such notice from Provider, then the Parties shall mutually select an independent appraiser with experience and expertise in the solar photovoltaic industry. Such appraiser shall act reasonably and in good faith to determine the Fair Market Value and shall set forth such determination in a written opinion delivered to the Parties. The

valuation made by the appraiser shall be binding upon the Parties in the absence of fraud or manifest error. The costs of the appraisal shall be borne by Purchaser if such appraisal results in a value equal to or greater than the value provided by Provider pursuant to Section 2.3; otherwise, the Parties shall equally share such cost.

2.5 Removal of System at Expiration. Subject to Host's exercise of its Purchase Option under Section 2.3, upon the expiration or earlier termination of this Agreement according to its terms, Provider shall, at Provider's expense, remove all of its tangible property comprising the System from the Premises on a mutually convenient date but in no case later than sixty (60) days after the Expiration Date. The Premises shall be returned to its original condition and grading, except for ordinary wear and tear. For purposes of Provider's removal of the System, Host's covenants pursuant to Section 7.2 shall remain in effect until the date of actual removal of the System. In addition to the requirements above, Provider shall leave the Premises in neat and clean order. If Provider fails to remove or commence substantial efforts to remove the System by such agreed upon date, Host shall have the right, at its option, to remove the System to a public warehouse or other storage location and restore the Premises to its original condition (other than ordinary wear and tear) at Provider's reasonable cost.

In the event that, at any time, the Provider defaults under this Section 2.5 and fails to cure such default in accordance with Section 11.1 and/or abandons the Premises and fails to remove the System, then the Host shall provide written notice to the Provider's Financing Party within twenty (20) days from the date of the apparent abandonment, so that the Financing Party can notify Host within thirty (30) days from the receipt of such notice whether the Financing Party (i) will assume the License, and all obligations and liabilities thereunder, and continue performance under the Agreement, or (ii) reclaim the System and remove the System in accordance with the terms and conditions of the License and the Agreement. If the Financing Party fails to respond within said thirty (30) day period or responds then fails to timely act as set forth in its notice and in accordance with the License and the Agreement, then the System and all Environmental Attributes shall become the property of Host, with all claims of ownership waived by the Provider, its Financing Party and their respective successors and assigns, and Host shall have the right to use or dispose of the System as it determines.

2.6 Conditions of Provider's Obligations Prior to Installation. In the event that any of the following events or circumstances occur or are discovered within the Due Diligence Period, as defined below, and Purchaser provides written notice that it cannot or elects not to cure such event or circumstance, Provider may (at its sole discretion) terminate the Agreement, in which case neither Party shall have any liability to the other except for any such liabilities that may have accrued prior to such termination:

- (a) The Provider determines that the Premises, **AS IS**, are insufficient to accommodate the System.
- (b) There exist site conditions (including environmental conditions) or construction requirements that were not known as of the Effective Date and that could reasonably be expected materially to increase the cost of Installation Work or would adversely affect the electricity production from the System as designed or

would create a hazardous situation if the Installation Work were commenced or completed.

- (c) Prior to the Commercial Operation Date, Purchaser has not received evidence reasonably satisfactory to it that interconnection services will be available with respect to energy generated by the System.
- (d) Provider or Purchaser has determined that there are recorded easements, CCRs or other similarly recorded documents that would materially impair or prevent the installation, operation, maintenance or removal of the System.
- (e) There has been a material adverse change in the regulatory environment, subsidy program or federal tax code that would adversely affect the economics of the installation for Provider and its investors.
- (f) There has been a material adverse change in the rights of Host to occupy the Premises OR Provider to construct the System on the Premises.

2.7 Conditions of Host's Obligations Prior to Installation. In the event that any of the following events or circumstances occurs, Host may terminate the Agreement, in which case neither Party shall have any liability to the other except for any such liabilities that may have accrued prior to such termination, and except as provided pursuant to Section 11.1(b):

- (a) Provider has not commenced Installation Work at the Premises by Mar 15, 2015.
- (b) Prior to the Commercial Operation Date, Purchaser's credit rating is downgraded to less than investment grade.
- (c) Prior to the Construction Start Date, it is determined that the System cannot be completed and commissioned for operation in accordance with the terms and conditions of the Grant Award or the related terms of said grant set forth in [Schedule H Exhibit D](#) of this Agreement.
- (d) There exist site conditions (including environmental conditions) or construction requirements that were not known as of the Effective Date and that could reasonably be expected materially to increase the cost of Installation Work or would adversely affect the electricity production from the System as designed or would create a hazardous situation if the Installation Work were commenced or completed.
- (e) Prior to the Commercial Operation Date, there has been a material adverse change in the rights of Host to occupy the Premises or Provider to construct the System on the Premises.
- (f) Provider or Purchaser has determined that there are recorded easements, CCRs or other similarly recorded documents that would materially impair or prevent the installation, operation, maintenance or removal of the System.

3. LICENSE, CONSTRUCTION, INSTALLATION AND TESTING OF SYSTEM.

3.1 License to Conduct Due Diligence; Use Premises.

Host hereby grants to Provider a commercial non-exclusive license coterminous with the Term of this Agreement containing all the rights necessary for Provider to enter upon, use and occupy portions of the Premises for the installation, operation and maintenance of the System pursuant to the terms of this Agreement. Provider shall use the Premises in accordance with Applicable Law and solely for the foregoing purpose.

Notwithstanding the generality of the foregoing, beginning on the Effective Date and continuing until the Construction Start Date (the “Due Diligence Period”), Provider is only permitted to enter the Premises for the limited purpose of making appropriate engineering and boundary surveys, inspections, and other reasonably necessary investigations and signal, topographical, geotechnical, structural and environmental tests (collectively the “Investigations and Tests”) that Provider may deem necessary or desirable to determine the physical condition, feasibility and suitability of the Premises for the intended use. Notwithstanding anything to the contrary contained herein, Provider shall not do any digging or soil borings on the Premises without the prior written consent of Host, which consent may be withheld in the sole and absolute subjective discretion of Host.

During the Due Diligence Period, Provider shall provide notice to Host at least forty-eight (48) hours prior to any planned entry and Host shall have the right to be present during all entries. Provider’s entry upon the Premises during the Due Diligence Period shall be limited to the hours between 8:00 a.m. – 5:00 p.m., Monday through Friday.

All entries and inspections shall be at Provider’s sole cost and risk. Provider shall indemnify, defend and hold harmless Host from and against all claims, actions, losses, damages, or expenses, of whatever kind or nature, including without limitation reasonable attorney’s fees, arising out of such entries and inspections. Provider shall restore the Premises to the existing condition prior to Provider’s first entry upon the Premises, subject to normal wear and tear. All obligations and liabilities arising under this Section shall survive any termination or breach of this Agreement. Provider shall use all reasonable efforts not to cause damage to the Premises.

3.2 Installation Work. At its sole cost and expense, Provider will cause the System to be designed, engineered, installed and constructed in accordance with the terms of this Agreement. Host shall inform Provider of any CCRs or other restrictions, limitations or guidelines affecting the Premises of which it is aware that may reasonably affect the installation, operation, and maintenance of the System but shall make no warranties regarding the suitability of the Premises for Provider’s purposes pursuant to this Agreement. Provider shall deliver the construction plans and designs (“Construction Plans”) to Host for its review and approval, such approval not to be unreasonably conditioned, delayed or withheld, including engineering evaluations of the impact of the System on (i) the Premises and (ii) the then current Local Electric Utility’s equipment and service. Host’s approval shall not be deemed as making Host responsible, and Host shall not be responsible, for the design or construction of the System. Provider shall perform the Installation Work at the Premises between the hours of 7:30 a.m. and 5:00 p.m. in a manner that minimizes inconvenience to and interference with the use of the Premises to the extent commercially practical. Provider, in coordination with and with the approval of Host, may work outside the stated hours on activities that are not unreasonably disruptive. Host may have a

representative on the Premises to observe the Installation Work and check the work against the Construction Plans.

3.3 Approvals; Permits. At Provider's sole cost and expense, Host shall reasonably assist Provider in obtaining all necessary approvals and permits including but not limited to those related to the Local Electric Utility, any Governmental Authority, and any waivers, approvals or releases required pursuant to any applicable CCR.

3.4 System Acceptance Testing

- (a) Provider shall conduct testing of the System ("System Acceptance Testing") in accordance with such methods, acts, guidelines, standards and criteria reasonably accepted or followed by photovoltaic solar system integrators in the United States. Upon providing advance written notice to Provider, Purchaser also may, at its sole cost and expense, hire a qualified, fully insured third-party independent engineer approved in writing by Provider, to conduct its own performance testing of the System no later than twenty-four (24) hours following Provider's testing, and based on such testing either provide a punch list of items for Provider to correct or proceed to preparing for the acceptance of the Solar Services on the Commercial Operation Date.
- (b) If the results of such System Acceptance Testing indicate that the System has been installed in accordance with the Construction Plans and is capable of generating electric energy for eight (8) continuous hours (the "System Test Requirements"), using such instruments and meters as have been installed for such purposes, and the System has been approved for interconnected operation by the Local Electric Utility, and all Grant Completion Paperwork, as defined by the Grant Agreement, has been completed and submitted to MEA in accordance with Section III(d) of the Grant Agreement, then Provider shall send a written notice to that effect to Host (a "Completion Notice").
- (c) The "Commercial Operation Date" shall be the date on the Completion Notice and shall be no later than June 15, 2015, as such date may be extended pursuant to this Agreement.

4. SYSTEM OPERATIONS.

- 4.1 Provider as Owner and Operator. The System will be owned by Provider or Provider's Financing Party and will be operated and maintained and, as necessary, repaired and/or replaced by Provider at its sole cost and expense; provided, that any repair, replacement or maintenance costs incurred by Provider as a result of Host's negligence or breach of its obligations hereunder shall be reimbursed by Host, subject to appropriations. Any repair or maintenance of the System will be commenced and completed in a reasonably prompt manner by or for Provider, at its sole cost and expense.
- 4.2 Metering. Provider shall install and maintain, at the Premises, a utility grade kilowatt-hour (kWh) meter for the measurement of electrical energy provided by the System and may, at its election and upon the approval of the Host, install a utility grade kilowatt-hour

(kWh) meter for the measurement of electrical energy delivered by the Local Electric Utility and consumed by Host at the Premises.

4.3 System Disruptions.

- (a) Intentionally omitted.
- (b) System Disruptions. In the event that any act or omission of Purchaser or Purchaser's employees, Affiliates, agents or subcontractors, that is not an act taken in the event of (x) Force Majeure, (y) an Emergency not caused by or due to the Purchaser or any of its employees, designees, agents, or assigns, or (z) a Provider Default (defined below), (collectively a "Host Act") results in a disruption or outage in System production, then, in either case, Purchaser shall (i) pay Provider for all work reasonably required by Provider to disassemble or move the System, and (ii) continue to make all payments for the Solar Services and (iii) reimburse Provider for any actual lost revenue associated with reduced sales of Environmental Attributes and any actual reduction in Solar Incentives Provider suffers during such period of System disruption (the "Disruption Period"). For the purpose of calculating Solar Services Payments for such Disruption Period, Solar Services shall be deemed to have been produced at the average rate over the preceding twelve (12) months (or, if the disruption occurs within the first twelve (12) months of operation, the average over such period of operation).

5. DELIVERY OF SOLAR SERVICES.

5.1 Purchase Requirement. Purchaser agrees to purchase one hundred percent (100%) of the Solar Services generated by the System up to one hundred ten percent (110%) of the Estimated Annual Production over the associated 12-month period. In the event that Purchaser decides that additional Solar Services are required for the Premises above the Estimated Annual Production and the Solar Services can be provided by the System, then Purchaser may elect to purchase whatever additional Solar Services that are generated and may be required by Purchaser. The Parties shall cooperate in estimating the electricity needs of the Premises and the potential System generation for the remaining days in the 12-month period. While the Solar Services are calculated and billed on a per kWh basis as set forth in Schedule 3 of Exhibit AC, they represent a package of services and benefits, including reduction in the Host's peak demand from the Local Electric Utility.

5.2 Estimated Annual Production. The annual estimate of Solar Services with respect to the System for any given year as determined pursuant to this Section shall be the "Estimated Annual Production." The Estimated Annual Production for each year of the Initial Term is set as forth in Schedule 5 of Exhibit AC.

5.3 Environmental Attributes, Etc. Purchaser's purchase of Solar Services does not include Environmental Attributes or Solar Incentives or any other attributes of ownership of the System. Environmental Attributes shall be retained by Provider. Solely for purposes of this Section 5.3, Environmental Attributes shall not include renewable energy credits as defined by MD Code Pub. Util. Cos. § 7-701(i) ("RECs"), which such RECs belong to Purchaser pursuant to MD Code Pub. Util. § 7-306(h)(5); provided, however, that subject to Sections 2.3 and 7.1(f) of this Agreement, Purchaser

hereby transfers to Provider all right, title, and interest in one hundred percent (100%) of the RECs associated with the System's production for the System's operating life. Purchaser shall take all reasonable actions necessary to assist Provider in demonstrating Provider's rights to the RECs, provided that Provider shall promptly reimburse Purchaser for any out-of-pocket costs Purchaser incurs in taking such actions. To avoid any conflicts with fair trade rules regarding claims of solar or renewable energy use, Purchaser, if engaged in commerce and/or trade, shall submit to Provider for approval any press releases regarding Purchaser's use of solar or renewable energy and shall not submit for publication any such releases without the written approval of Provider. Approval shall not be unreasonably withheld, conditioned or delayed and Provider's review and approval shall be made in a timely manner to permit Purchaser's timely publication. Purchaser and Provider may by mutual written agreement set forth specific statements that may be used by Purchaser in any press releases that address Purchaser's use of solar or renewable energy.

5.4 Title to System. Throughout the duration of this Agreement, Provider or Provider's Financing Party shall be the legal and beneficial owner of the System at all times, and the System shall remain the personal property of Provider or Provider's Financing Party and shall not attach to or be deemed a part of, or fixture to, the Premises. The System shall at all times retain the legal status of personal property as defined under Article 9 of the Uniform Commercial Code. Host covenants that it will use reasonable commercial efforts to place all parties having an interest in or lien upon the real property comprising the Premises on notice of the ownership of the System and the legal status or classification of the System as personal property. If there is any mortgage or fixture filing against the Premises which could reasonably be construed as attaching to the System as a fixture of the Premises, Host shall provide, at Provider's request, a disclaimer or release from such lien holder. Host consents to the filing by Provider, on behalf of Purchaser, of a disclaimer of the System as a fixture of the Premises in the office where real estate records are customarily filed in the jurisdiction of the Premises.

6. PRICE AND PAYMENT.

6.1 Consideration. Subject to the terms of Section 5.1 of this Agreement, Purchaser shall pay to Provider a monthly payment (the "Solar Services Payment") for the Solar Services generated by the System during each calendar month of the Term equal to the product of (x) Actual Monthly Production for the System for the relevant month multiplied by (y) the kWh Rate. The Purchaser and the Provider shall cooperate in estimating the needs of the Premises versus the estimated production of the System. If sufficient funds to provide for payment(s) owed by Purchaser under this Agreement are not appropriated, the Purchaser may terminate this Agreement upon notice in writing to Provider in accordance with the terms of Section 2.2, including, without limitation, the payment to Provider of the Early Termination Fee. Notwithstanding anything to the contrary contained herein, the total Solar Services Payment to be paid by Purchaser for a period of 12 -months shall not exceed the amount which equals one hundred ten percent 110% of the Estimated Annual Production multiplied by the kWh Rate, subject to the additional purchase right provided for in Section 5.1.

6.2 Invoice. Provider shall invoice Host, at the address set forth in Schedule 8 of Exhibit C on or about the first day of each month (each, an "Invoice Date"), commencing on the first Invoice Date to occur after the Commercial Operation Date, for the Solar Services Payment in respect of the immediately preceding month. The last invoice shall include production only through the Expiration Date of this Agreement.

6.3 Time of Payment. Host shall pay all undisputed amounts due hereunder within thirty (30) days after the date of the applicable Invoice Date.

6.4 Method of Payment. Host shall make all payments under this Agreement by electronic funds transfer in immediately available funds to the account designated by Provider from time to time. All payments that are not paid when due shall bear interest accruing from the date becoming past due until paid in full at a rate equal to the Stated Rate. All payments made hereunder shall be non-refundable, be made free and clear of any tax, levy, assessment, duties or other charges and not subject to reduction, withholding, set-off, or adjustment of any kind.

6.5 Disputed Payments. If a *bona fide* dispute arises with respect to any invoice, Purchaser shall not be deemed in default under the Agreement and the Parties shall not suspend the performance of their respective obligations hereunder, including payment of undisputed amounts owed hereunder. If an amount disputed by Purchaser is subsequently deemed to have been due pursuant to the applicable invoice, interest shall accrue at the Stated Rate on such amount from the date becoming past due under such invoice until the date paid.

6.6 kWh Rate “Buy Down”. Purchaser may, at any time during the Term, make a lump-sum payment to Provider for the purpose of reducing the kWh Rate for the remainder of the Term. If Purchaser exercises its right under this Section 6.6, the Parties shall determine the revised kWh Rate and amend the Agreement accordingly.

- (a) Notice of Damage or Emergency. Host shall (x) promptly notify Provider if it becomes aware of any damage to the Premises or any damage to or loss of the use of or malfunction in the operation of the System or that could reasonably be expected to adversely affect the System, or an interruption in the supply of Solar Services; and (y) immediately notify Provider it becomes aware of any event or circumstance that poses an imminent risk to human health, the environment, the System or the Premises.

8.2 **Representations Regarding Security Interest.** Host has been advised that part of the collateral securing the financial arrangements for the System may be the granting of a first priority perfected security interest (the “**Security Interest**”) in the System to a Financing Party. In connection therewith, Host represents and warrants as follows:

- (a) To Host’s knowledge, the granting of the Security Interest will not violate any term or condition of any covenant, restriction, lien, financing agreement, or security agreement affecting the Premises.
- (b) Host is aware of no existing lease, license, mortgage, security interest or other interest in or lien upon the Premises that could attach to the System as an interest adverse to Host’s Financing Party’s Security Interest therein.
- (c) To Host’s knowledge, there exists no event or condition which constitutes a default, or would, with the giving of notice or lapse of time, constitute a default under this Agreement.

Any Financing Party shall be an intended third-party beneficiary of this Section 8.2.

Provider shall be responsible for the payment of all taxes, fees or charges imposed or authorized by any Governmental Authority, including all income, gross receipts, ad valorem, personal property or real property or other similar taxes and any and all franchise fees or similar fees assessed against it due to its ownership of the System. If Host is assessed any taxes or fees related to the existence of the System on the Premises, Host shall immediately notify Provider. Host and Provider shall cooperate in contesting such assessment; provided, however, that Host shall pay such taxes to avoid any penalties on such assessments subject to reimbursement by Provider. If, after resolution of the matter, a tax is imposed upon Host related to the improvement of real property by the existence of the System on the Premises, Provider shall reimburse Host for such tax. Provider shall not be obligated for any taxes payable by or assessed against Host based on or related to Host's overall income or revenues. Nothing contained in this Agreement shall be deemed to constitute a waiver of any immunity to which Host may be entitled under Applicable Law.

10. FORCE MAJEURE.

10.1 Definition. “Force Majeure Event” means any act or event that prevents the affected Party from performing its obligations in accordance with this Agreement, if such act or event is beyond the reasonable control, and not the result of the fault or negligence, of the affected Party and such Party had been unable to overcome such act or event with the exercise of due diligence (including the expenditure of reasonable sums). Subject to the foregoing conditions, “Force Majeure Event” shall include without limitation the following acts or events: (i) natural phenomena, such as storms, hurricanes, floods, lightning, volcanic eruptions and earthquakes; (ii) a deleterious environmental or subsurface condition that precludes the safe occupation of the Premises or construction thereupon; (iii) explosions or fires arising from lightning or other causes unrelated to the acts or omissions of the Party seeking to be excused from performance; (iv) acts of war or public disorders, civil disturbances, riots, insurrection, sabotage, epidemic, terrorist acts, or rebellion; (v) strikes or labor disputes (except strikes or labor disputes caused solely by employees of the Provider or as a result of such party’s failure to comply with a collective bargaining agreement); (vi) action by a Governmental Authority, including a moratorium on any activities related to the Agreement; and (vii) the inability for one of the Parties, despite its reasonable efforts, to obtain, in a timely manner, any Governmental Approval necessary to enable the affected Party to fulfill its obligations in accordance with the Agreement, provided that the delay or non-obtaining of such Governmental Approval is not attributable to the Party in question and that such Party has exercised its reasonable efforts to obtain such Permit. A Force Majeure Event shall not be based on the economic hardship of either Party.

10.2 Excused Performance. Except as otherwise specifically provided in this Agreement, neither Party shall be considered in breach of this Agreement or liable for any delay or failure to comply with the Agreement (other than the failure to pay amounts due hereunder), if and to the extent that such delay or failure is attributable to the occurrence of a Force Majeure Event; provided that the Party claiming relief under this Section 10 shall immediately (i) notify the other Party in writing of the existence of the Force Majeure Event, (ii) exercise all reasonable efforts necessary to minimize delay caused by such Force Majeure Event, (iii) notify the other Party in writing of the cessation or termination of said Force Majeure Event and (iv) resume performance of its obligations hereunder as soon as practicable thereafter. If Provider claims relief pursuant to a “Force Majeure Event,” the obligation of Host to make a Solar Services Payment to Provider on any payment date shall be suspended until Provider resumes performance of its obligations under this Agreement at which time such Solar Services Payment shall become immediately due and payable; provided, however, that Host shall not be excused from making any payments and paying any unpaid amounts due in respect of Solar Services delivered to Host prior to the Force Majeure Event performance interruption.

10.3 Termination in Consequence of Force Majeure Event. If a Force Majeure Event shall have occurred that has affected Provider’s performance of its obligations hereunder and that has continued or reasonably can be deemed to continue for a continuous period of one hundred twenty (120) consecutive days, then Host shall be entitled to terminate this Agreement upon ninety (90) days’ prior written notice to Provider. If before the end of such ninety (90) day notice period such Force Majeure Event has ceased, the System has recommenced operation and the Provider has resumed performance of its obligations under this Agreement, the notice shall be nullified and all terms and conditions of this Agreement will remain in effect, including the remaining Term of this Agreement. Upon such termination for a Force Majeure Event, neither Party shall have any liability to the other than any such liabilities that have accrued prior to such termination, subject to Section 18.6 (Survival), nor shall

Purchaser have any liability for Early Termination under Section 2.2 or any other section; provided, however, that Host shall have the right but not the obligation to exercise the Purchase Option pursuant to Section 2.4 (Purchase Option). By mutual agreement of the Parties, any System damaged or destroyed by a Force Majeure Event may be replaced by Provider at its sole cost and expense within the time frames set forth above and subsequent to replacement and upon commencement of operation of the replacement System all terms and conditions of this Agreement will remain in effect, including the remaining Term of this Agreement.

Without limiting the generality of the foregoing, if a Provider Default described in Section 11.1(a)(i) or (ii) has occurred, Host shall be entitled to the payment by Provider of a sum in the amount of seventy-five percent (75%) of the Grant Award as liquidated damages and not as a penalty

- (c) Actions to Prevent Injury. In addition to any other remedy hereunder, Provider may (i) cease the provision of all Solar Services, and (ii) remove the System from the Premises in compliance with the conditions of Section 2.5 herein, absent any purchase of the System by Host pursuant to Section 2.3 hereof.

12. LIMITATIONS OF LIABILITY.

12.1 Except as expressly provided herein, neither Party shall be liable to the other Party or its Indemnified Persons for any special, punitive, exemplary, indirect, or consequential damages, losses

or damages for lost revenue or lost profits, whether foreseeable or not, arising out of, or in connection with the Agreement.

PREMISES

The Maryland Energy Administration administers the Strategic Energy Investment Program set forth in Sections 9-20B-01 et seq. of the State Government Article as a component of its overall mission to reduce energy demand and increase energy efficiency and the use of renewable energy resources. MEA has established the "Parking Lot Solar Photovoltaic (PV) Canopy with Electric Vehicle (EV) Charger Program" (the "Program") pursuant to the authority provided in Section 9-20B-01, et seq. of the State Government Article and the Code of Maryland Regulations ("COMAR"), 14.26.04 et seq. The purpose of the Program is to provide funding to eligible businesses that are incorporated or registered to do business in the State and are in good standing with the Maryland State Department of Assessments and Taxation, non-profit organizations that are incorporated or registered to business in the State and are exempt from taxation under the applicable provisions of the Internal Revenue Code, State government, and local governments that are political subdivisions of the State, in order to support solar photovoltaic (PV) parking lot canopy projects that are at least 125 kW in size and installed with at least one electric vehicle (EV) charging station.

MEA issued a notice of grant availability for interested businesses, non-profit organizations, state government agencies, and local governments to apply for grant funds on a first come, first serve basis. In the event that multiple eligible applications are

-Grant # 2014-14-517S2

NOW, THEREFORE, for and in consideration of these premises and the mutual covenants herein contained, it is agreed by and between the parties hereto as follows:

I. Purpose of Grant

The purpose of this Parking Lot Solar Photovoltaic Canopy with Electric Vehicle Charger Program Grant (the "Grant") is to provide funding to offset the costs associated with constructing a 452 kW PV solar canopy with at least one EV charger project in Howard that has been proposed by Grantee ("Project"). The Grantee has been selected to receive an award for the Project as proposed in the Parking Lot Solar PV Canopy with EV Charger Program Application Form. If there are any changes to the size or other aspects of the proposed Project after execution of this Agreement, MEA will revisit the decision selecting Grantee for an award, and may either revoke or modify the Grant award.

II. Project Description

The Project is more specifically described in Attachment A, which is incorporated and made a part of this Agreement. Attachment A shall not contain any terms or conditions other than a Project Description. If Attachment A contains any terms and conditions other than a Project Description, such terms and conditions are not incorporated into this agreement, and are not agreed to by MEA.

III. Amount and Duration of the Grant

(a) The total amount of the Grant Award is up to \$800 per kW, up to a maximum cap of \$400,000 per Project. Under no circumstances shall the Grant Award be greater than **Three Hundred Sixty One Thousand, Six Hundred Dollars (\$361,600)**.

(b) This Agreement must be signed by the Grantee and received by MEA no later than June 15, 2014. If this properly signed Grant Agreement is not received by MEA on or before June 15, 2014, the grant award is automatically revoked, and this Agreement is void.

(c) The Effective Date of this Agreement is the date that the properly executed Agreement is received by MEA, as determined by the official MEA date stamp on the first page of the Agreement.

(d) All construction activities must be completed and the Project must be operational, with all Grant Completion Paperwork completed and submitted to MEA, by no later than June 15, 2015. Extensions may be requested in writing in advance of a deadline, but are not guaranteed. The Project is expected to be completed and operating,

-Grant # 2014-14-517S2

and all required paperwork is expected to be received by MEA, by June 15, 2015. Extensions shall only be permitted for good cause shown, such as circumstances outside of Grantee's control, as determined solely by MEA in writing.

(e) Grant Completion Paperwork includes the following:

- A Copy of the Parking Lot Solar PV Canopy with EV Charger Program Completion Certificate;
- Proof that the project is paid for in full with a copy of zero-balance, final invoices;
- Copies of all inspection documents, permits and licenses that are required to construct and operate the Project;
- A photograph of the installed and operational Project; and
- Historic preservation review documentation as outlined in Section VII: Historic Preservation Review.

IV. Reporting and Reimbursement Requirements

(a) The Grantee shall retain bills of sale or other satisfactory evidence of the acquisition of any real or personal property, as well as reports, activity logs, timelines, estimated and actual energy savings and/or generated, and any other information related to Grant activities for at least three years from the date that the Grantee receives final reimbursement from MEA. MEA, MEA's agents, the Department of Budget and Management, the State Comptroller, the Legislative Auditor, or any of them, may examine and audit this evidence on request, at any reasonable time within the retention period. In addition, the Grantee shall also make the worksite available to MEA, or its agents, upon request at any reasonable time for at least three years from the date that the Grantee receives final reimbursement from MEA.

(b) Reimbursement requests shall be mailed to MEA at the following address:

Maryland Energy Administration
Attn: Parking Lot Solar PV Canopy with EV Charger Program
60 West Street, Suite 300
Annapolis, MD 21401

After review of the Grant Completion Paperwork and any supporting documents or information requested by MEA, including potential site inspection, MEA shall make a final determination whether the Project, as constructed and operational, meets all Program requirements, terms and conditions, and process the grant award for payment as promptly as possible, if warranted. Grant funds shall not be provided for work that has yet to be performed, costs that have yet to be incurred or are not sufficiently documented, or are inconsistent with the purpose, terms and conditions of the Grant.

4

(c) For monitoring and evaluation purposes, the Grantee shall make available to MEA, or its agents, all reports, activities logs, work sites, timelines, estimated and actual energy savings and/or generated, or other information related to the Grant activities during regular business hours.

(d) No grant monies will be funded for costs or obligations incurred, or work performed, prior to the Effective Date of this Agreement.

(e) Prior to execution of this Agreement, Grant funds are subject to change in amount and existence based on funding availability.

(f) Multiple projects on contiguous parcels of property will be considered one Project.

(g) A Project may not receive more than one grant from MEA.

(h) Projects must be located within the borders of Maryland.

V. General Conditions

(a) Any expenditure of Grant funds that is not consistent with the purposes of the grant award, or that violates any requirement, term or condition of the Grant Program or this Agreement, may, in the sole judgment of MEA, be disallowed. Should any expenditure be disallowed, the State may require repayment to the State Treasury, an offset from any State grant to the Grantee in the current or succeeding fiscal year, or other appropriate action. The Grantee shall immediately repay to the State any part of the Grant that is not used for the purposes of the Program.

(b) Grantee may not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin, or any other characteristic forbidden as a basis for discrimination by applicable laws, and certifies that its Constitution or by-laws contains a non-discrimination clause consistent with the Governor's Code of Fair Practices.

(c) Grantee shall ensure that all work performed pursuant to the Grant and this Agreement is completed by contractors and/or staff holding all necessary certifications and licenses. Additionally, all work performed pursuant to the Grant shall comply with all applicable local, State, and federal building codes and other applicable laws and regulations.

(d) The person executing this Agreement on behalf of the Grantee certifies, to the best of that person's knowledge and belief, that:

(i) He or she is authorized to sign this Agreement on behalf of the Grantee and to commit the Grantee to the obligations set forth herein.

(ii) Neither the Grantee, nor any of its officers or directors, nor any employee of the Grantee involved in obtaining contracts with or grants from the State or any subdivision of the State, has engaged in collusion with respect to the Grantee's application for the Grant or this Agreement or has been convicted of bribery, attempted bribery, or conspiracy to bribe under the laws of any state or the United States;

(iii) Grantee has not employed or retained any person, partnership, corporation, or other entity, other than a bona fide employee or agent working for the Grantee, to solicit or secure the Grant or this Agreement, and the Grantee has not paid or agreed to pay any such entity any fee or other consideration contingent on the making of the Grant or this Agreement;

(iv) Grantee, if a business or non-profit organization, is incorporated or is registered to do business in the State, and is in good standing with the Maryland State Department of Assessments and Taxation.

(v) Grantee, if a health or social welfare organization as defined by Section 7-403 of the State Finance and Procurement Article of the Annotated Code of Maryland, shall keep financial records in accordance with uniform accounting standards, as more fully described in Section 7-403;

(vi) Neither the Grantee, nor any of its officers or directors, nor any person substantially involved in the contracting or fund-raising activities of the Grantee, is currently suspended or debarred from contracting with the State or any other public entity or subject to debarment under Regulation 21.08.04.04 of the Code of Maryland Regulations; and

(vii) The Grantee is not in default on any financial obligation to the State or MEA.

VI. False Statement or Report

A person may not knowingly make or cause to be made any false statement or report in any document required to be furnished by MEA in relation to the Grant Program. Any violation of this provision is a misdemeanor and on conviction is subject to a fine not exceeding \$50,000.00 or imprisonment not exceeding 1 year or both. Md. Code, Section 9-20B-11 of the State Government Article.

VII. Historic Preservation Review

For each project being funded in whole or in part through this Agreement, a historical preservation review must first be completed by the Maryland Historical Trust (MHT) or MEA's historical preservation expert. This review ensures that no historical property is "adversely affected" through this Program. Prior to starting construction, Grantee must have documentation from MHT or MEA's historical preservation expert indicating that the Project will have no adverse effect on a historical property. This documentation must be submitted to MEA as part of the Grant Completion Paperwork.

VIII. Maryland Saved Harmless

To the extent allowed by Maryland law, the Grantee agrees to defend, indemnify and hold MEA harmless from and against any and all damages, claims, lawsuits, actions, and reasonable out-of-pocket costs and expenses, in whatever form, arising from or related to the Grant. MEA expressly reserves the right of any immunity MEA or its employees may possess under State or federal law.

IX. Environmental Standards and Liability

The Grantee shall ascertain and abide by all applicable environmental standards set by federal, state or local laws, rules or regulations related to the performance of the obligations pursuant to the Agreement (hereinafter referred to as "Environmental Standards"). The Grantee shall monitor its compliance with Environmental Standards and immediately halt and correct any incident of non-compliance.

In the event of any incident of non-compliance with Environmental Standards, the Grantee shall:

1. Give MEA immediate notice of the incident to the Agreement Representative, or designee, providing as much detail as possible;
2. If requested by MEA, submit a written report to MEA, identifying the source or cause of the non-compliance and the method or action required to correct the problem; and
3. Cooperate with MEA or its designated agents or contractors with respect to the investigation of such problem.

To the limits allowed by Maryland law, the Grantee shall be liable for (a) all environmental losses, including but not limited to, costs, expenses, losses, damages, actions, claims, penalties, fines and remedial or cleanup obligations arising from its failure to comply with Environmental Standards; and (b) any hazardous material located or placed in the Project and any requirements imposed by any governmental authority with respect to hazardous materials, arising in connection with the Grant or the Project.

X. Liability Insurance

(a) For all work performed by the Grantee that is to be funded in whole or in part with grant funds provided by MEA, Grantee shall purchase and maintain comprehensive third-party legal liability insurance and other such insurance as is appropriate for the work to be performed. All insurance must name MEA as an additional insured. The insurance provided shall include, but not be limited to, insurance protecting MEA from bodily injury and property damage, including, but not limited to all workers' compensation insurance, and errors and omissions. Grantee will maintain insurance documentation in a Grantee-owned facility and shall provide to MEA, upon demand, a certificate or other documentation deemed appropriate by MEA, evidencing MEA's status as an additional insured. Insurance requirements may be waived or modified by MEA in writing, for good cause shown. Any such written waiver or modification shall be signed by the parties, and attached hereto and incorporated herein as part of this Agreement.

(b) Grantee shall include in all of its contracts for work that is to be funded in whole or in part with grant funds provided by MEA a provision or provisions requiring all contractors to purchase and maintain comprehensive third-party legal liability insurance and other such insurance as is appropriate for the work to be performed. All insurance provided by the contractor must name MEA as an additional insured. Any such written waiver or modification shall be signed by the parties, and attached hereto and incorporated herein as part of this Agreement.

XI. MEA Access to Project Site and Ability to Use Project Information

(a) Grantee shall allow MEA employees or representatives access to the relevant building and structures so that MEA may perform monitoring visits to provide technical assistance and to ensure that project requirements are fully satisfied.

(b) The Grantee understands and agrees that MEA may use information about the project for reporting and marketing purposes, including but not limited to the project description, building type, energy conservation measures, project costs, leveraged funds, energy and financial savings, and pictures and videos of the premises. MEA shall provide the Grantee an opportunity to review and consult with MEA to assure that a written case study, photo or video taken of its facility will not disclose confidential personal and/or business information.

L. Tax Status of Clean Energy Grants

The Maryland Office of the Comptroller has determined that, based on IRS rules, ***a state grant is considered taxable income on the Federal level***. Therefore, a Form 1099-G will be issued for grants received through the Clean Energy Grant Program and grants should be reported as income on federal tax returns.

To determine the taxability of your grant, please consult a tax professional.

M. Site Visit:

By accepting a Solar PV Canopy/EV Grant, Grantee agrees to grant MEA or its representatives the opportunity to visit the project installation and take photos and/or videos for marketing, publicity, or educational purposes.

N. Other Incentives

Electricity suppliers must purchase and retire Renewable Energy Credits (RECs equal to 1 MWh) in order to meet their Renewable Portfolio Standard (RPS) compliance obligations under the law, or pay an Alternative Compliance Payment (ACP) for shortfalls in REC purchases. To learn more about RECs and other incentives, please see the websites below:

- The [Database of State Incentives for Renewable & Efficiency \(DSIRE\)](#) offers a comprehensive list of Federal, State, and Local incentives for renewable energy and energy efficiency measures.
- DSIRE has also compiled an informative [summary of Maryland Incentives](#) and policies for renewable energy.

Permit Requirements by County
Current as of February 2014

The following table shows what permits are generally required from each county for qualified clean energy systems. If you have documentation from a permitting authority that shows that the following does not apply to your installation, please include it in your Completion Package. If no documentation noting an exception is received, then the following table will be used when reviewing Completion Packages for compliance.

For Electrical permits, a Diamond symbol (◆) Indicates permits are only needed if new wiring is required.
Talbot County (●) does not require a Plumbing permit for Solar Water Heating, but does require a Zoning Certificate
Baltimore County (■) requires a Building Permit for PV projects over 10 kW

Certain Agreements for the Benefit of the Financing Parties

Purchaser acknowledges that Provider will be financing the installation of the System either through a lessor, lender or with financing accommodations from one or more financial institutions and that the Provider may sell or assign the System and/or may secure the Provider's obligations by, among other collateral, a pledge or collateral assignment of this Agreement and a first security interest in the System. In order to facilitate such necessary sale, conveyance, or financing, and with respect to any such financial institutions of which Provider has notified Purchaser in writing Purchaser agrees as follows:

- (a) Consent to Collateral Assignment. Purchaser consents to either the sale or conveyance to a lessor or the collateral assignment by Provider to a lender that has provided financing of the System, of the Provider's right, title and interest in and to this Agreement.
- (b) Notices of Default. Purchaser will deliver to the Financing Party, concurrently with delivery thereof to Provider, a copy of each notice of default given by Purchaser under the Agreement, inclusive of a reasonable description of Provider default. No such notice will be effective absent delivery to the Financing Party.
- (c) Rights Upon Event of Default. Notwithstanding any contrary term of this Agreement:
 - i. The Financing Party, as collateral assignee, shall be entitled to exercise, in the place and stead of Provider, any and all rights and remedies of Provider under this Agreement in accordance with the terms of this Agreement and only in the event of Provider's or Host's default. The Financing Party shall also be entitled to exercise all rights and remedies of secured parties generally with respect to this Agreement and the System.
 - ii. The Financing Party shall have the right, but not the obligation, to pay all sums due under this Agreement and to perform any other act, duty or obligation required of Provider thereunder or cause to be cured any default of Provider thereunder in the time and manner provided by the terms of this Agreement. Nothing herein requires the Financing Party to cure any default of Provider under this Agreement or (unless the Financing Party has succeeded to Provider's interests under this Agreement) to perform any act, duty or obligation of Provider under this Agreement, but Purchaser hereby gives it the option to do so.
 - iii. Upon the exercise of remedies under its security interest in the System, including any sale thereof by the Financing Party, whether by judicial proceeding or under any power of sale contained therein, or any conveyance from Provider to the Financing Party (or any Qualified

Assignee of the Financing Party) in lieu thereof, the Financing Party shall give notice to Host of the transferee or assignee of this Agreement. Such transferee or assignee shall assume in writing, in form and content reasonably satisfactory to Host, the due performance of all Provider's obligations under this Agreement and including the provision of all representations and warranties under this Agreement (other than Sections 8.2 and 8.3), including, but not limited to the representations and warranties contained in Section 8.4 and 8.5. Any such exercise of remedies shall not constitute a default under this Agreement. Provider shall provide written notice to Host in the event that Provider receives written notice from the Financing Party that Provider is in default under its financing agreements with respect to the System or that the Financing Party intends to exercise the remedies under its security interest in the System.

- iv. Upon any rejection or other termination of this Agreement pursuant to any process undertaken with respect to Provider under the United States Bankruptcy Code, at the request of the Financing Party made within ninety (90) days of such termination or rejection, Host shall enter into a new agreement with the Financing Party or its Qualified Assignee having substantially the same terms and conditions as this Agreement and including the provision of all representations and warranties under this Agreement, including, but not limited to, the representations and warranties contained in Section 8.4 and 8.5.
- v. For purposes of this section, a "Qualified Assignee" must be a business organization with experience comparable with Provider's in the operation and management of commercial solar generating systems and with the financial capability to maintain the System and provide the Solar Services in the manner required by this Agreement.
 - (c) Acknowledgement and Confirmation. Host shall provide an Acknowledgement and Confirmation in the form of Exhibit C, attached hereto, and executed by Host.
 - (d) Right to Cure.
 - i. Host will not exercise any right to terminate or suspend this Agreement unless it shall have given the Financing Party prior written notice by sending notice to the Financing Party (at the address provided by Provider) of its intent to terminate or suspend this Agreement, specifying the condition giving rise to such right, and the Financing Party shall not have caused to be cured the condition giving rise to the right of termination or suspension within thirty (30) days after such notice or (if longer) the periods provided for in this Agreement; provided that if such Provider default reasonably cannot be cured by the Financing Party within such period and the Financing Party commences and continuously pursues cure of such default within such period, such period for cure will be extended for a reasonable period of time under the circumstances, such period not to exceed additional ninety (90) days. The Parties' respective obligations will otherwise remain in effect during any cure period.
 - ii. If the Financing Party or its Qualified Assignee (including any purchaser or

transferee), pursuant to an exercise of remedies by the Financing Party, shall acquire title to or control of Provider's assets and shall, within the time periods described in paragraph (d)i. above, cure all defaults under this Agreement existing as of the date of such change in title or control in the manner required by this Agreement and which are capable of cure by a third person or entity, then such person or entity shall no longer be in default under this Agreement, and this Agreement shall continue in full force and effect.

(e) Right to Change Financing Party. Host acknowledges and agrees that Provider may change the Financing Party at any time, in Provider's sole discretion, and Host shall abide by such new contact information and payment directions as instructed by Provider.

2. If any of the insurance policies required to fulfill the requirements of the Installation Work are written on a claims-made basis, Provider shall continue to maintain such insurance, covering incidents occurring or claims made, for a period of three years after substantial completion of the Installation Work.

3. All policies of insurance shall be underwritten by companies licensed to do business in the State of Maryland.

4. The Provider shall assure that all Contractors performing services in accordance with the SPSA carry identical insurance coverage required of the Provider, either individually or as an additional insured on the policies of the Provider or coverage limits in accordance with local industry practice at the discretion of the design builder. Subject to a limitation of \$~~15~~5,000,000 per occurrence per Contractor, Provider shall indemnify the Purchaser for any underinsured or uninsured losses relating to the contractual services involving Contractors, except for workers’ compensation claims for which Purchaser shall be indemnified up to the statutory limits.

companies and policies and coverage and shall provide the list to Purchaser.

5. The Provider shall not commence Installation Work under the SPSA until evidence of all required coverage is received by the Purchaser. Further, the Provider shall continue to provide the Purchaser with evidence of policy renewals until the Expiration Date or Early Termination Date and shall not reduce or cancel or change any of the required coverage without 60 days' notice of such change to the Purchaser.

6. The Provider will indemnify, defend and hold harmless the Purchaser from liability for any injuries to the employees, servants, agents, Contractors or assignees of the Provider arising out of or during the course of services relating to the SPSA. Provider shall indemnify the Purchaser for any underinsured or uninsured losses arising from Provider's breach of its insurance obligations contained in this Agreement.

7. The providing of any insurance required herein does not relieve the Provider of any of the responsibilities or obligations assumed by the Provider in the SPSA for which the Provider may be liable by law or otherwise.

8. Failure to provide and continue in force such insurance as required above shall be deemed as a material breach of the SPSA and at the Purchaser's election shall operate as an immediate termination of the SPSA, without penalty or payment of the Early Termination Fee. The Purchaser may, but is not obligated to, obtain any insurance not being maintained by Provider and required under this SPSA. In the event the Purchaser does obtain such insurance, then Provider shall immediately pay the full premium to Purchaser, plus an administrative fee of ten percent (10%) of the insurance premium. In the event Provider fails to pay the premium, the amount of the premium will be deducted from payments due to Provider. If Purchaser purchases any insurance as provided for herein, such purchase shall be deemed to be a waiver by Purchaser of the right to declare a breach based on Provider's said default, as long as Purchaser does not incur any unpaid expense related thereto.

9. Provider shall provide Purchaser with copies of the policies, certificates of insurance or other evidence, reasonably satisfactory to Purchaser, of the above-required insurance, and all new and renewal certificates replacing any such policies that expire shall be delivered to Purchaser on or before the date of expiration. Such evidence of insurance shall name Purchaser as an additional insured as required above. Provider will ensure that Purchaser shall receive thirty (30) days prior written notice of non-renewal, cancellation of or significant modification to any of the above policies and indicate that the Commercial General Liability Insurance and Builder's Risk"/All-Risk" Property Insurance have been endorsed as described above. All insurance shall be placed and maintained with insurers authorized to do business in the State of Maryland and who have an A.M. Best rating of A/XI or better unless otherwise approved by Purchaser in writing. Notwithstanding the forgoing or anything to the contrary in the Agreement, a downgrade in Provider's insurer's A.M. Best rating shall not constitute a default under the Agreement and shall not give rise to any right by Purchaser to terminate the Agreement, provided that Provider uses commercially reasonable efforts to obtain replacement coverage from an insurer meeting the rating requirements herein as soon as reasonably possible.
