

PETITION TO AMEND THE **ZONING REGULATIONS OF HOWARD COUNTY**

DPZ Office Use Only:
Case No. ZRA-155
Date Filed:

I (we), the undersigned, hereby petition the County Council of Howard County to amend the Zoning
Regulations of Howard County as follows: To allow certain properties (2 acres or larger) located
in the R-20 District to be eligible to apply for a conditional use approval of a home-based contractor
business.
[You must provide a brief statement here. "See Attached Supplement" or similar statements are not acceptable. You may attac
a separate document to respond to Section 1 in greater detail. If so, this document shall be titled "Response to Section 1"]
Petitioner's Name_ Jonathan L. Miller and Sonya A. Miller
Address_10430 Shady Acres Lane, Laurel, Maryland 20723
Phone No. (W) 301-490-3404 (H) 301-637-4904
Email Address jon@millerci.com
Counsel for Petitioner William E. Erskine, Esq.
Counsel's Address 8171 Maple Lawn Boulevard, Suite 200, Fulton, Maryland 20759
Counsel's Phone No. Office: 301-575-0363; Mobile 443-864-8844
Email Address WErskine@offitkurman.com
Please provide a brief statement concerning the reason(s) the requested amendment(s) to the Zoning
Regulations is (are) being proposed <u>to permit resident owners of certain properties within the</u>
R-20 District to be eligible to apply for conditional use approval for a home-based contractor
business; currently this is only available in the RR and RC zoning districts of the county.

HOWARD COUNTY COUNCIL

5. Please provide a detailed justification statement demonstrating how the proposed amendment(s) will be in harmony with current General Plan for Howard County See attached narrative in response to Section 5.
[You may attach a separate document to respond to Section 5. If so, this document shall be titled "Response to Section 5"]
6. The Legislative Intent of the Zoning Regulations in Section 100.0.A. expresses that the Zoning Regulations have the purpose of "preserving and promoting the health, safety and welfare of the community
Please provide a detailed justification statement demonstrating how the proposed amendment(s) will be in
harmony with this purpose and the other issues in Section 100.0.A. See attached narrative in response to
Section 6.
[You may attach a separate document to respond to Section 6. If so, this document shall be titled "Response to Section 6."]
7. Unless your response to Section 6 above already addresses this issue, please provide an explanation of
the public benefits to be gained by the adoption of the proposed amendment(s) . See attached narrative in
response to Section 7.
· · · · · · · · · · · · · · · · · · ·
[You may attach a separate document to respond to Section 7. If so, this document shall be titled "Response to Section 7."]

8. Does the amendment, or do the amendments, have the potential of affecting the development of more

than one property, yes or no? Yes
If yes, and the number of properties is less than or equal to 12, explain the impact on all properties affected by
providing a detailed analysis of all the properties based upon the nature of the changes proposed in the
amendment(s). If the number of properties is greater than 12, explain the impact in general terms.
See attached narrative in response to Section 8.
[You may attach a separate document to respond to Section 8. If so, this document shall be titled "Response to Section 8."]
9. If there are any other factors you desire the Council to consider in its evaluation of this amendment
request, please provide them at this time. Please understand that the Council may request a new or updated
Technical Staff Report and/or a new Planning Board Recommendation if there is any new evidence submitted
at the time of the public hearing that is not provided with this original petition. None.
IYou may attach a separate document to respond to Section 9. If so, this document shall be titled "Response to Section 9."]

10. You must provide the full proposed text of the amendment(s) as a separate document entitled

"Petitioner's Proposed Text" that is to be attached to this form. This document must use this standard format for Zoning Regulation Amendment proposals; any new proposed text must be in CAPITAL LETTERS, and any existing text to be deleted must be in [[Double Bold Brackets]]. In addition, you must provide an example of how the text would appear normally if adopted as you propose.

After this petition is accepted for scheduling by the Department of Planning and Zoning, you must provide an electronic file of the "Petitioner's Proposed Text" to the Division of Public Service and Zoning Administration. This file must be in Microsoft Word or a Microsoft Word compatible file format, and may be submitted by email or some other media if prior arrangements are made with the Division of Public Service and Zoning Administration.

- 11. The Petitioner agrees to furnish additional information as may be required by the Department of Planning and Zoning prior to the petition being accepted for scheduling, by the Planning Board prior to its adoption of a Recommendation, and/or by the County Council prior to its ruling on the case.
- 12. The undersigned hereby affirms that all of the statements and information contained in, or filed with this petition, are true and correct. The undersigned has read the instructions on this form, filing herewith all of the required accompanying information. If the Petitioner is an entity that is not an individual, information must be provided explaining the relationship of the person(s) signing to the entity.

EXHIBIT A

Response to Section 5

The proposed zoning regulation amendment (ZRA) will permit certain properties (two (2) acres or larger) within the R-20 district to be eligible to make application for approval of a Home Based Contractor conditional use. The proposed ZRA does <u>not</u> alter the permitted or accessory uses within the R-20 district; therefore, eligible R-20 zoned properties must first satisfy the criteria under Howard County Zoning Regulation (HCZR) Section 131.0 and also receive approval from the Howard County Hearing Authority before receiving approval for a Home Based Contractor conditional use.

Approval of this proposed ZRA will be in harmony with the current General Plan for Howard County (PlanHoward 2030). Specifically, the proposed ZRA will promote the general plan policy of creating sustainable communities by permitting Home Based Contractor businesses to be located on appropriate properties within the Planned Service Area (PSA); whereas under current law such Home Based Contractor conditional uses are only permitted in the RR and RC districts - which are generally located outside of the PSA. The current regulatory scheme unnecessarily creates significant *location inefficiencies* because without justification it mandates a significant geographical separation between Home Based Contractor Businesses and the vast majority of the residences and businesses that they serve which are by design located within the PSA.

The geographic separation mandated by the current regulatory scheme is in fact contrary to the general plan goal of reducing automobile dependence and traffic congestion on our highways.

General Plan Policy 3.9 calls for the reduction of employee travel miles; yet the current

regulatory scheme mandates that Home Based Contractors drive significant distances on crowded and congested highways as they travel from the rural west areas of our county to work sites within the PSA. (Think southbound Route 32 in the morning!)

Adoption of the proposed ZRA will also encourage diverse economic development within Howard County. According to General Plan Figure 5-2, construction jobs within Howard County actually decreased by 1,465 jobs (an 11% decrease) between 2001 and 2009. At the same time, the total number of jobs in Howard County actually increased by 22,112 positions (a 13% increase). These statistics provide stark testimony to the fact that Howard County economic development policies, while very effective at creating high skilled positions often requiring an advanced degree, have not been very effective in creating job opportunities for nondegree holding workers in the essential trade industries including but not limited to general contracting; home improvement; plumbing; electrical contracting; masonry; HVAC and the like. The absence of skilled essential tradesmen in Howard County undermines the quality of life in Howard County because our citizens and businesses find it increasingly difficult to obtain the essential services they need at reasonably affordable prices. Illustrative of this point is the extreme difficulty that many Howard County citizens and businesses experienced in obtaining plumbing services during the month of February, 2015 – a month characterized by extremely cold temperatures that resulted in an unprecedented number of frozen and burst pipes. Equally, frustrating is the difficulty of obtaining HVAC mechanical services during the now all too common summer heatwaves experienced by Howard County residents and businesses.

Finally, adoption of the requested ZRA will promote the General Plan goal of maintaining an adequate supply of affordable housing opportunities. The requested ZRA will take advantage of "location efficiencies" having the effect of reducing the total cost of housing (see, PlanHoward

2030 page 125). Presently, a Home Based Contractor residing on R-20 zoned property within the PSA must lease or purchase separate industrial or commercially zoned property to operate his or her contracting business. While this is certainly appropriate for larger contracting businesses; it is both unnecessary and overly burdensome for smaller lower intensity contracting businesses. Requiring these smaller lower intensity contractors to lease or purchase separate industrial or commercial property dramatically increases their overall cost of living in Howard County, contrary to the stated goals of the General Plan.

Response to Section 6

The proposed ZRA will further the purpose of the Zoning Regulations and zoning maps by preserving and promoting the health, safety and welfare of the community. As discussed in Section 5 above, the proposed ZRA does <u>not</u> alter the permitted or accessory uses within the R-20 district; therefore, eligible R-20 zoned properties must first satisfy the criteria under Howard County Zoning Regulation (HCZR) Section 131.0 and also receive approval from the Howard County Hearing Authority before receiving approval for a Home Based Contractor conditional use. Because the Hearing Authority may only approve a Home Based Contractor conditional use if it is satisfied that a specific conditional use plan satisfies both the general criteria for approval under HCZR Sec. 131.0.B as well as the specific criteria for approval as provided in HCZR Sec. 131.0.N.28, the health, safety and welfare of the community will be preserved and promoted by virtue of the oversight of the Hearing Authority.

The purpose of the Zoning Regulations will be further preserved and promoted by adoption of the proposed ZRA. Significantly, the proposed ZRA will

- 1. Prevent and help to alleviate the over-crowding of the land and the undue congestion of population on the highways;
- 2. Promote the most beneficial relationship between the uses of land and structures, and the road system which serves these uses, while having particular regard for the potential amount and intensity of such land and structure uses in relationship to the traffic capacity of the road system, so as to avoid congestion in the streets and roadways;
- 3. Create substantial location efficiencies and will help to provide for adequate housing choices in a suitable living environment within the economic reach of <u>all</u> citizens including citizens employed in the essential trade industries.

Response to Section 7

In addition to the public benefits described in Section 5 and Section 6 above, the proposed ZRA will benefit the general public by helping to ensure that essential trade services will be available to the citizens and businesses of Howard County located within the PSA. Adoption of the proposed ZRA will also help to mitigate the cost of these essential trade services by reducing or eliminating the significant location inefficiencies mandated under the current regulatory scheme.

Response to Section 8

The proposed ZRA would potentially impact any property two (2) acres or larger located within the R-20 zoning district. The number of properties impacted by this proposed ZRA is in excess of 12. Notwithstanding, and as previously stated above, the proposed ZRA does <u>not</u> alter the permitted or accessory uses within the R-20 district; therefore, eligible R-20 zoned properties must first satisfy the criteria under Howard County Zoning Regulation (HCZR) Section 131.0 and also receive approval from the Howard County Hearing Authority before receiving approval

for a Home Based Contractor conditional use. Because the Hearing Authority may only approve a Home Based Contractor conditional use if it is satisfied that a specific conditional use plan satisfies both the general criteria for approval under HCZR Sec. 131.0.B as well as the specific criteria for approval as provided in HCZR Sec. 131.0.N.28 the health, safety and welfare of the community will be preserved and promoted by virtue of the oversight of the Hearing Authority. In the event that other properties within the R-20 zoning district should apply and qualify for a Home Based Contractor conditional use, the public benefits resulting from such applications and approvals would be of the same general character as described in Sections 5 – 7 above.

The Hearing Authority may grant Conditional Uses in the specified districts in accordance with the following minimum criteria.

28. Home-Based Contractors

A Conditional Use may be granted in the RC [[and]], RR AND R-20 Districts for home-based contractors, subject to the following requirements, except that landscape contractors have separate requirements elsewhere in Section 131.0.N., and home-based contractors meeting the requirements of Section 128.0.C.2 are permitted accessory uses:

- The minimum lot size is three acres IN THE RC AND RR DISTRICTS; AND TWO ACRES IN THE R-20 DISTRICT.
- b. The number of commercial vehicles parked on the site shall be limited to three commercial vehicles for lots up to six acres, and five commercial vehicles for lots larger than six acres and not more than 20 acres.
 - On lots larger than 20 acres, the Hearing Authority may approve additional commercial vehicles, as is determined to be appropriate based upon the character of the property and its relation to the surrounding area.
- c. On lots six acres or fewer, the area used for parking and storage of commercial vehicles, equipment and supplies, whether exterior or interior, shall be limited to no more than 50% of the area of the lot or 10,000 square feet, whichever is less. On lots larger than six acres, the area used for these purposes shall be limited to no more than 5% of the lot or one acre, whichever is less.
- d. IN THE RR AND RC DISTRICTS, [[S]]Structures used for the Conditional Use shall be at least 50 feet from lot lines and all outdoor parking or storage areas shall be at least 100 feet from lot lines. IN THE R-20 DISTRICT, STRUCTURES USED FOR THE CONDITIONAL USE SHALL BE AT LEAST 30 FEET FROM LOT LINES AND ALL OUTDOOR PARKING OR STORAGE AREAS SHALL BE AT LEAST 50 FEET FROM LOT LINES.
- e. The location and design of the operation shall be such that the use will not be a nuisance to residents of neighboring properties due to noise, dust or fumes. Particular consideration shall be given to the location of loading areas, parking and circulation areas, and driveways in relation to neighboring properties.
- f. If the driveway providing access to the proposed site is shared with other properties, the petitioner shall demonstrate that the use will not result in damage to or deterioration of the shared driveway or in increased hazards to other users of the driveway.
- g. Parking and storage areas shall be restricted as follows:
 - (1) Supplies shall be stored within a building, except that mulch, compost, soil, sand, stone and other natural materials may be stored outdoors. Supplies stored outdoors must be fully screened from surrounding properties and roads by vegetation, fencing or other appropriate means in accordance with the County Landscape Manual.
 - (2) Equipment shall be either stored within a building or screened from surrounding properties and roads by vegetation, fencing or other appropriate means in accordance with the Howard County Landscape Manual.
- h. The Hearing Authority shall establish the maximum number of employees permitted on the lot and the maximum allowable number of employee trips per day.
- i. The Hearing Authority shall establish the days and hours of operation.
- j. New structures or additions to existing structures shall be designed to be compatible in appearance and scale with other residential or agricultural structures in the vicinity, as demonstrated by architectural elevations or renderings that shall be submitted with the petition.

- k. Minor repairs to vehicles or equipment shall be permitted, provided such activities take place inside a building. Body work, engine rebuilding, engine reconditioning, painting and similar activities shall not be permitted.
- I. Where two or more adjacent lots are under common ownership and used as a single homesite, home-based contracting uses may be located on a different lot than the principal dwelling, if the Hearing Authority determines that this will provide a more compatible location in relation to vicinal properties that effective screening will be provided by using existing site features, or that it will result in decreased impacts on neighboring lots.
- m. On an ALPP purchased or dedicated easement property, the following additional criteria are required:
 - (1) The use shall not interfere with the farming operations or limit future farming production.
 - (2) Any new building or building addition associated with the use, including any outdoor storage and parking area shall count towards the cumulative use cap of 2% of the easement.

The Hearing Authority may grant Conditional Uses in the specified districts in accordance with the following minimum criteria.

28. Home-Based Contractors

A Conditional Use may be granted in the RC, RR and R-20 Districts for home-based contractors, subject to the following requirements, except that landscape contractors have

separate requirements elsewhere in Section 131.0.N., and home-based contractors meeting the requirements of Section 128.0.C.2 are permitted accessory uses:

- a. The minimum lot size is three acres in the RC and RR districts; and two acres in the R-20 district.
- b. The number of commercial vehicles parked on the site shall be limited to three commercial vehicles for lots up to six acres, and five commercial vehicles for lots larger than six acres and not more than 20 acres.
 - On lots larger than 20 acres, the Hearing Authority may approve additional commercial vehicles, as is determined to be appropriate based upon the character of the property and its relation to the surrounding area.
- c. On lots six acres or fewer, the area used for parking and storage of commercial vehicles, equipment and supplies, whether exterior or interior, shall be limited to no more than 50% of the area of the lot or 10,000 square feet, whichever is less. On lots larger than six acres, the area used for these purposes shall be limited to no more than 5% of the lot or one acre, whichever is less.
- d. In the RR and RC districts, structures used for the Conditional Use shall be at least 50 feet from lot lines and all outdoor parking or storage areas shall be at least 100 feet from lot lines. In the R-20 district, structures used for the Conditional Use shall be at least 30 feet from lot lines and all outdoor parking or storage areas shall be at least 50 feet from lot lines.
- e. The location and design of the operation shall be such that the use will not be a nuisance to residents of neighboring properties due to noise, dust or fumes. Particular consideration shall be given to the location of loading areas, parking and circulation areas, and driveways in relation to neighboring properties.
- f. If the driveway providing access to the proposed site is shared with other properties, the petitioner shall demonstrate that the use will not result in damage to or deterioration of the shared driveway or in increased hazards to other users of the driveway.
- g. Parking and storage areas shall be restricted as follows:
 - (1) Supplies shall be stored within a building, except that mulch, compost, soil, sand, stone and other natural materials may be stored outdoors. Supplies stored outdoors must be fully screened from surrounding properties and roads by vegetation, fencing or other appropriate means in accordance with the County Landscape Manual.
 - (2) Equipment shall be either stored within a building or screened from surrounding properties and roads by vegetation, fencing or other appropriate means in accordance with the Howard County Landscape Manual.
- h. The Hearing Authority shall establish the maximum number of employees permitted on the lot and the maximum allowable number of employee trips per day.
- i. The Hearing Authority shall establish the days and hours of operation.
- j. New structures or additions to existing structures shall be designed to be compatible in appearance and scale with other residential or agricultural structures in the vicinity, as demonstrated by architectural elevations or renderings that shall be submitted with the petition.
- k. Minor repairs to vehicles or equipment shall be permitted, provided such activities take place inside a building. Body work, engine rebuilding, engine reconditioning, painting and similar activities shall not be permitted.

- I. Where two or more adjacent lots are under common ownership and used as a single homesite, home-based contracting uses may be located on a different lot than the principal dwelling, if the Hearing Authority determines that this will provide a more compatible location in relation to vicinal properties that effective screening will be provided by using existing site features, or that it will result in decreased impacts on neighboring lots.
- m. On an ALPP purchased or dedicated easement property, the following additional criteria are required:
 - (1) The use shall not interfere with the farming operations or limit future farming production.
 - (2) Any new building or building addition associated with the use, including any outdoor storage and parking area shall count towards the cumulative use cap of 2% of the easement.
