Ryan Frederic is the CEO/President and co-founder of Applied Defense Solutions (ADS), a highly-specialized Technical Services and Solutions company that applies operational experience and development knowledge, providing unique subject matter expertise and building highly effective mission critical systems for its' customers. Headquartered in Columbia Maryland, with offices in Virginia, Colorado and Pennsylvania, ADS addresses the space systems, national security space, geospatial information systems, and modeling & simulation markets for the Department of Defense, Intelligence Community, Civil Space, and the Commercial Space Industry. Before co-founding ADS in 2004, Mr. Frederic worked for Analytical Graphic, Inc. (AGI), contributing in various technical and business development roles servicing the Aerospace community.

Mr. Frederic was elected to the NDIA Washington Chapter Board of Directors in January 2011 and is on the Board of Directors for the Space Executive Council of the US Chamber of Commerce. He serves on the Howard County Cyber Commission and is an Associate Fellow with the American Institute of Aeronautics and Astronautics.
