## Project: C0311-FY2007 PUBLIC SAFETY RADIO SYSTEM ENHANCEMENTS

# GENERAL COUNTY PROJECTS

Number: C0311

### Description

Enhancements to 800 MHz Motorola Astro trunking radio system for Public Safety. This first phase will replace all site radios including mobile radios on Fire and Police vehicles, along with FCC-mandated Narrowbanding for Howard County Fire Alert and Interoperability.

### Justification

Howard County's 800 MHz Radio system is aging out of serviceability and by mid 2018 will no longer be manufactured nor supported by the vendor, creating vulnerabilities for functionality and interoperability. We are taking a phased approach, first upgrading the Radio Core and 911 radio consoles to P25 standards, replacement of all portable radios due to end-of-life cycle, and the addition of radio frequencies system and replacement of site infrastructure. This will allow us to stay in communications with Federal, State and other local area governments and public safety officers.

### Remarks

1. Replace radio core equipment/software and 911 consoles.
2. Replace tower light systems and GPS timing systems at all sites
3. Replace all portable radios
4. Replace site controller, UPS, generators, antennas, and lines.
5. Building improvement at Howard High.
6. Prior Year OTHER revenue represents paygo generated from Fire Tax revenues.
7. Current FY17 request represents Master Lease.

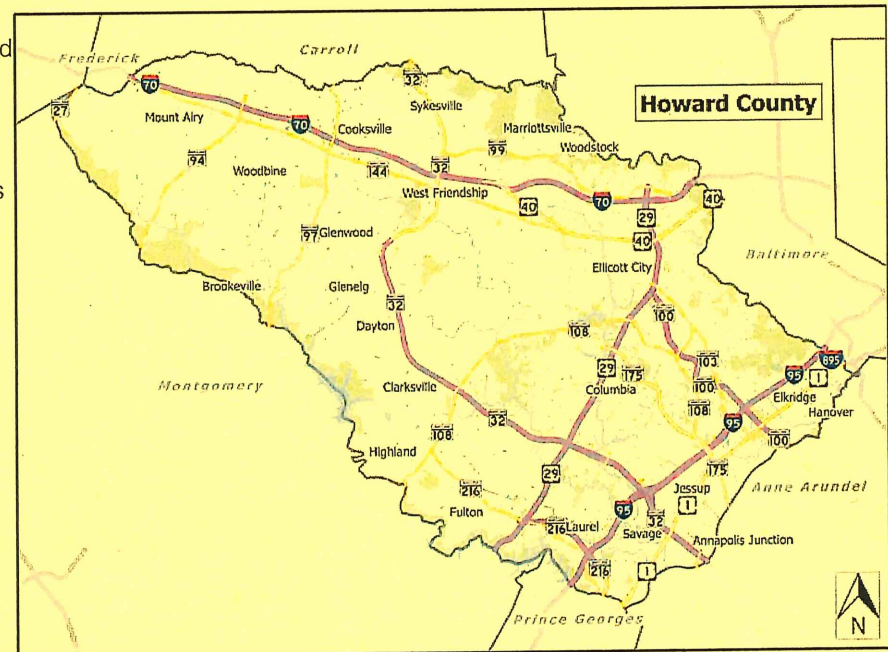

### Project Schedule

FY17 - Replace end-of-life radios which by mid 2018 will not be manufactured nor supported by the vendor with APX series radios to allow for interoperability . Replace all site infrastructure such as base station radios, antennas, lines, UPS and generators for reliability and interoperability with Federal, State and local governments. FY18 - Complete replacement and upgrade to portable radios.

### Operating Budget Impact

Annual Bond Redemption \$ \$364,500

**Description**

A project to plan, design and implement a set of improvements to publicly owned land currently designated as Lot D in Ellicott City. Funding will be utilized to improve and expand storm water management, to alter the traffic flow and movement and to more fully expose the Tiber-Hudson River as an amenity and natural resource.

**Justification**

The County's Watershed Implementation Plan requires a substantial reduction in the pollutants that enter the Patapsco River and the Chesapeake Bay. The extensive impervious surface in Ellicott City requires greater stormwater management in order to control pollution runoff from its parking lots. The Tiber-Hudson is currently channelized through the lot, but has the potential to be improved as a natural and visual amenity and public gathering place. The parking lot is not efficient and egress to Main Street has limited sight distance. Public funds will be used to address and better control stormwater runoff, to create a public amenity space for the community and to improve the parking on the County-owned lot.

**Remarks**

- 1. A portion of current request represents funding to be generated from legislation CB-8 & CR21 for stormwater utility funding, known as Watershed Protection and Restoration fund.
- 2. Additional funding may be available through the State.

## Project: N3953-FY2000 CENTENNIAL LAKE RESTORATION

# PARKS PROJECTS

Number: N3953

### Description

A project to design and construct improvements to Centennial Lake to include dredging, artificial aeration, and shoreline stabilization.

### Justification

In 1995 a study was conducted by Coastal Environmental Services Inc. recommending that the above measures be taken to restore the health of the lake. This project is endorsed by the Recreation and Parks Advisory Board and is included in the 2005 and 2012 Land Preservation and Recreation Plan.

### Remarks

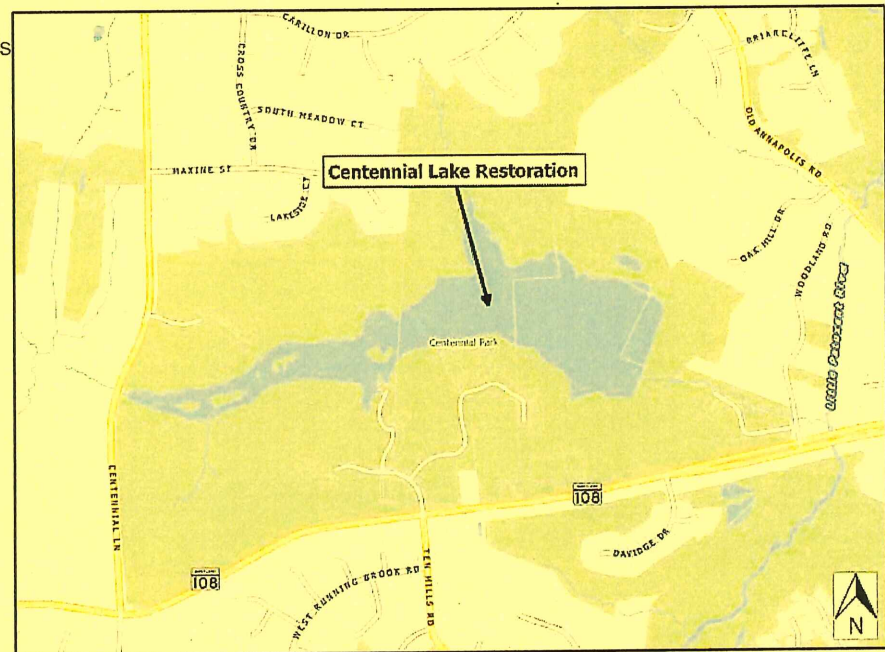

FY17-The Department will use the remaining portion of the existing funds to initiate an updated profile survey of the existing lake bottom to determine the scope of work for the dredging project. Upon the completion of the survey, will then have current information to allow for the County to better determine the future design needs/costs and construction costs for dredging the lake. Project partly defunded.

### Project Schedule

### Operating Budget Impact

Annual Bond Redemption \$ \$945

No additional operating costs will be associated with this project other than the electricity required to operate the potential aeration pumps which is estimated at less than \$1000 per year.
